**List of Completed Project Capital Schemes of three DISCOMs
TPDDL, BRPL and BYPL during FY 2006-07 to FY 2010-11 in
NCT of Delhi**

For the information of all concerned, the Delhi Electricity Regulatory Commission (DERC) is in the process of finalizing the prudence check for the capital works completed during the fiscal years 2006-07 to 2010-11 of the three private DISCOMs i.e. TPDDL, BYPL and BRPL. The Commission's Consultant, M/s Feedback Infra Pvt. Ltd. is undertaking full documentation check of all project schemes claimed to be capitalized as well as a physical on the spot check of a random sample of 25% of EHV schemes, 10% of high tension schemes and 10% of low tension schemes. Sampling is necessary because there are over 3000 project schemes and a full physical check is not economically prudent or practically possible.

In the interest of transparency, the Commission has decided to post a year-wise and Division-wise list of all project capitalized schemes on its website for the information of all consumers/members of the public including RWAs and Mohalla Sabhas. The list of schemes identified for physical check have been clearly highlighted in the overall list. In the case of BRPL, the list of schemes being checked on a sample basis has been withheld because physical check is still in progress and advance intimation is not in public interest.

This list is being published in the larger public interest so that consumers/associations can satisfy themselves of the actual availability of various schemes in their areas.

Any feedback in this regard may be given to Shri U.K. Tyagi, Executive Director(Engg.), DERC (Phone No.011-41601675) either telephonically or in writing.

**Secretary
Delhi Electricity Regulatory Commission**
