PUBLIC NOTICE
REQUEST FOR PUBLIC RESPONSE
Petition for approval of Aggregate Revenue Requirement for
Distribution (Wheeling and Retail Supply)
Business for FY 2011-12, Review of FY 2010-11 and True up of FY 2009-10

1. Under the provisions of the Electricity Act, 2003, Delhi Electricity Reform Act, 2000 to the extent applicable and the DERC Terms & Conditions for determination of Wheeling Tariff & Retail supply Tariff Regulations issued by the Commission dated May 30, 2007 and read with DERC Advertisement dated 18.03.2011 for extension of MYT regulations, North Delhi Power Limited (hereinafter referred to as "NDPL") had filed a Petition on March 21, 2011 before the Delhi Electricity Regulatory Commission (hereinafter referred to as "Commission") for Review of FY 2010-11 and Aggregate Revenue Requirement (ARR) and corresponding Tariff adjustment for FY 2011-12.

NDPL had also filed a Petition on June 29, 2010 before the Commission for True up of FY 2009-10 under the provisions of the Electricity Act, 2003, Delhi Electricity Reform Act, 2000 to the extent applicable and the Distribution Tariff Regulations issued by the Commission dated May 30, 2007.

2. The salient features of the Petitions are provided below:

U	Total Revenue Gap (including Carrying Cost)	Rs. Cr	1356.04	2617.62	4544.52

Note:

* For FY 2009-10, the actual AT&C loss level, For FY 2010-11 provisional and for FY 2011-12 the provisional AT&C loss target as per DERC letter no F3(130-A)/Tariff/DERC/2006-07/GF No 2787/PL File/5089 dated 08.03.2011.

* Provisional - Pending finalisation of accounts

@ Current Average Billing Rate being charged to consumers was worked out by Hon'ble Commission assuming Average Power Purchase cost at Rs. 2.63 per unit whereas actual has been Rs. 3.68 per unit and Rs. 4.19 per unit in FY 09-10 and FY 10-11 respectively. Rs 4.19/unit for FY 10-11 was provisionally worked on the basis of actuals for Apr 10 - Jan 11.

3. To immediately stop further accumulation of Revenue Gap, a tariff correction is required primarily to cover the difference between Average Power Purchase cost of Rs. 2.63 per unit assumed and factored in the current Tariffs as against projected Average Power Purchase Rate Rs. 4.50 per unit for FY 2011-12

4. Regarding the recovery of accumulated Revenue Gap of Rs. 2617.62 Crore up to 31.03.2011, suitable amortization plan may have to be worked out.

5. Comparison of Actual Power Purchase Cost incurred by NDPL vis-a-vis assumed in Current tariffs by the Commission

Particular	UoM	2009-10	2010-11	2011-12
Current Tariffs charged by NDPL is based on assumed Average Power purchase cost	Rs/unit	2.63	2.63	2.63
Actual Power Purchase cost incurred by NDPL	Rs/unit	3.68	4.19	4.50
Under-recovery per unit of input	Rs/unit	1.05	1.56	1.87
Value of Shortfall	Rs Cr	725	1162	1491

6. Proposal for Implementation of periodic Power Purchase Price Adjustment mechanism: At present, due to the methodology of true-up of power purchase costs on the basis of actual audit accounts, it takes almost two years before the recovery of legitimate power purchase costs while discom has to make payments to power suppliers on a monthly basis. The Commission is requested to institute a mechanism for pass-through of variations in power purchase cost to consumers on a regular basis (at monthly / quarterly intervals).

7. Performance of NDPL during FY 2009-10 and 2010-11

The AT&C loss level has been brought down to below 14% (approx) at the end of FY 10-11 as against 14.47% in FY 09-10. The MYT target for AT&C loss level at the end of FY 09-10 was 18.88% and for FY 10-11 target was 17% thereby resulting in an overachievement of loss reduction by 4.21% and 3% for FY 09-10 and FY 10-11 respectively leading to additional revenue of Rs. 92.11 Cr to the benefit of Consumers in two years.

• AT&C Loss Reduction

नोट-

वित्त वर्ष 2009-10 के लिए वार्षिक, वित्त वर्ष 2010-11 के अस्थावी तथा वित्त वर्ष 2011-12 के लिए अस्थावी एपी एवं सी हाजिरी डीएमआरटी की प्र सं. F3(130-A)/आरओसीडी/2006-07/CF No 2787/PL F No 5089 दिनांक 08.03.2011 के अनुसार दिखायी गयी है।

* औसत बिजली खरीद दर (औसत बिजली खरीद दर का निर्धारण माननीय आयोग द्वारा किया गया कि 2.63 रु प्रति युनिट की औसत बिजली खरीद दर तथा वित्त वर्ष 09-10 तथा 10-11 में वास्तविक कीमत क्रमशः 3.68 रु प्रति युनिट और 4.19 रु प्रति युनिट के संदर्भ में तय की गई। वित्त वर्ष 10-11 के लिए 4.19 रु/युनिट का अस्थावी रूप से निर्धारण अग्रे 10-जूनवरी 11 में वास्तविक स्थिति के आधार पर किया गया।

3. राजस्व अंतर की सफाई पट्टा के लिए, टैरिफ संशोधन की आवश्यकता है ताकि वर्तमान टैरिफ प्रावधानों में 2.63 रु प्रति युनिट की औसत बिजली खरीद दर और वित्त वर्ष 2011-12 के लिए 4.50 रु प्रति युनिट अनुमानित औसत बिजली खरीद दर के बीच का अंतर घटाया जा सके।

4. 31.03.2011 तक 2617.62 करोड़ रु के एकत्रित राजस्व अंतर की रिकवरी के लिए समुचित योजना बनायी जानी चाहिए।

5. एनडीपीएल द्वारा सहन की जा रही वार्षिक बिजली खरीद दर और आयोग द्वारा नोजुल टैरिफ में किए गए प्रावधान की नीचे तुलना

विवरण	युनिट	2009-10	2010-11	2011-12
एनडीपीएल द्वारा नोजुल टैरिफ अनुमानित औसत बिजली खरीद कीमत पर आधारित	रु/युनिट	2.63	2.63	2.63
एनडीपीएल द्वारा सहन की जा रही वार्षिक बिजली खरीद दर	रु/युनिट	3.68	4.19	4.50
प्रति इनपुट युनिट अंतर-रिकवरी	रु/युनिट	1.05	1.56	1.87
अंतर का घुलन	करोड़ रु	725	1152	1491

6. ऑडोमेट्रिक बिजली खरीदारी मुख्य सहायक व्यवसाय: सभी एक बिजली खरीदारी की कीमत वसूलने के लिए वार्षिक ऑडोमेट्रिक एकराज के आधार बनाया जाता है और बिजली खरीद की वार्षिक कीमत को जमावी में दो साल का समय लग जाता है जबकि डिजिटल की बिजली सफाई की धुतान हुई करना होता है। आयोग से ऐसी व्यवस्था स्थापन करने का अनुरोध किया जा रहा है कि कीमतों के अंतर को निश्चित आधार पर उपभोक्ता से लिया जा सके (मासिक/तिमाही आधार पर)

7. वित्त वर्ष 2009-10 तथा 2010-11 के दौरान एनडीपीएल का प्रदर्शन

- एपी एवं सी हाजिरी कम करना
- वित्त वर्ष 2010-11 में एपी एवं सी हाजिरी का स्तर लगभग 14 प्रतिशत तक नीचे लाया गया जो वित्त वर्ष 2009-10 में 14.47 प्रतिशत था। एकराज की 2009-10 के लिए एपी एवं सी हाजिरी की 18.68 प्रतिशत तथा वित्त वर्ष 10-11 में 17 प्रतिशत के स्तर तक लाने का लक्ष्य रखा था। इस तरह हाजिरी को वित्त वर्ष 09-10 तथा 10-11 में लक्ष्य से क्रमशः 4.21% तथा 3% कम किया गया और उपभोक्ताओं के लाभ के लिए 92.11 करोड़ रुपये का राजस्व बचाया गया।
- अन्य सुधार:

 - 4 मई 2010-11 में चलाई गई।
 - 60 में से सभी 60 ग्रिड पूरी तरह एकराज (स्काटा) अनुमति में आ गई और पूरी तरह रिग्रेड कंट्रोल से संचालित हैं।
 - सभी खर्चों पर (स्ट्रीट लाइटों के खर्चों समेत) संख्या दर्ज की गई है जिससे उपभोक्ताओं को बेहतर सेवाएं दी जा सकेंगी।
 - बेहतर सुरक्षा और व्यवस्था के लिए सेक्टर ड्राटा सेंटर स्थापित किए गए।
 - रिडर में गैस आधारित बिजली उत्पादन संबंध स्थापित और कोलाबपुर में छतों पर बिजली उत्पादन के लिए 1000 किलोवाट क्षमता का बिजली उत्पादन संबंध ताकि कंपनी के परिचालन क्षेत्र में उपभोक्ताओं की बेरोकटोक बिजली आपूर्ति की जा सके।
 - जोबल कार्यालयों और उपभोक्ता सेवा केंद्रों पर प्रादुर्भाव की सुविधा के लिए हाउसिंग की व्यवस्था।
 - सभी उपभोक्ता सेवा केंद्रों पर ड्राई बॉक्स के माध्यम से सारा दिन नौवीं बंदी सेवा उपलब्ध।
 - रीप सीआरएम शुरू तथा वेबसाइट, उपभोक्ता सेवा केंद्र, कल सेंटर के माध्यम से रिपल टाइन अपडेशन की सुविधा।

PUBLIC NOTICE REQUEST FOR PUBLIC RESPONSE

Petition for True up for FY 2009-10 and Approval of Aggregate Revenue Requirement (ARR) and Tariff for FY 2011-12

filed by BSES Rajdhani Power Ltd. (BRPL), BSES Yamuna Power Ltd. (BYPL),
North Delhi Power Ltd. (NDPL) and New Delhi Municipal Council (NDMC)

1. The Distribution Licensees of Delhi viz. BSES Rajdhani Power Ltd. (BRPL), BSES Yamuna Power Ltd. (BYPL), North Delhi Power Ltd. (NDPL) and New Delhi Municipal Council (NDMC) have filed their petitions for true up of expenses for FY 2009-10 and approval of ARR and tariff for FY 2011-12 before the Delhi Electricity Regulatory Commission (hereinafter referred to as "the Commission"). The Licensees have filed their respective petitions under the provisions of the Electricity Act, 2003, the Delhi Electricity Reforms Act, 2000 and the Distribution Tariff Regulations dated May 30, 2007 which have been endorsed by the Commission for one more year vide Commission Order dated 10.5.2011.

The Commission has since admitted the Petitions for ARR for the FY 2011-12 and true up for the FY 2009-10 for examination and hearing the parties on their proposals.

2. The four Distribution Licensees i.e. BRPL, BYPL, NDPL and NDMC have, subsequent to the admission of their petitions by the Commission, issued a Public Notice in the following newspapers of Delhi.

NDPL	Hindustan Times (English)	07.05.2011
	Hindustan (Hindi)	
BYPL	Hindustan Times (English)	07.05.2011
	Hindustan (Hindi)	
BRPL	Hindustan Times (English)	07.05.2011
	Hindustan (Hindi)	
NDMC	Times of India (English)	08.05.2011
	Navbharat Times (Hindi), Pratap (Urdu)	

The Public Notices have also been posted on the website of the Distribution Licensees as well as that of the Commission.

3. The four Distribution Licensees viz. BRPL, BYPL, NDPL and NDMC have sought revision of tariff for FY 2011-12 for all the consumer categories to meet the revenue gap in their respective Aggregate Revenue Requirement (ARR) submissions.

4. In accordance with the provisions of the Delhi Electricity Regulatory Commission Comprehensive (Conduct of Business) Regulations, 2001 notified by the Commission, the Commission invites comments from consumers and other stakeholders on the above petitions. Comments may be sent to the Secretary of the Commission at the above office address by 28.05.2011, either personally or by post, or by email at secy@derc.gov.in.

5. In addition to comments on the petitions filed by the Distribution Licensees, all consumers and other stakeholders are also requested to offer their views on the following issues raised by the Distribution Licensees in their ARR petition for the FY 2011-12. The Commission shall deliberate on the issues while deciding on the tariff for various classes of consumers for the year 2011-12.

- Enhancement of limit for cash payment of energy bills by consumers: The restriction of acceptance of cash payments up to the existing limit of Rs. 4,000 should be reviewed and enhanced to a limit of Rs. 20,000 for a better revenue recovery.
- Applicability of tariff with load above 100kW for residential use: There should be a different treatment tariff for individuals with load above 100kW for residential use; like it is for other categories e.g. Non-Domestic, Industrial etc. with load above 100kW.
- Uniform fixed charges till the load of 5 kW: The majority of Domestic consumers have a connected load greater than 2 kW although their sanctioned load less than 2 kW. This gives undue advantage to consumers who have not increased their declared load to the actual connected load, while consumers of other billed load are paying the fixed charges. To avoid this, the slab-based fixed charges be rationalized.
- kVAh billing for industrial and non-domestic consumers with MDI greater than 10 kW: For industrial and non-domestic consumers with MDI greater than 10 kW, it should be entitled to charging kVAh tariff since it encourages consumers to improve their power factor which eventually helps the system by less loading and reduction in losses.
- Introduction of time differential tariffs for Consumers with Load > 10 kW for demand side management: Time Differential Tariffs would result in smoothening of demand curve which ultimately results in savings for the consumers by way of lower power purchase cost.
- Proposal for implementation of Automatic Power Purchase Price Adjustment mechanism: At present, due to the methodology of true-up of power purchase costs on the basis of actual audit accounts, it takes two years before the recovery of legitimate power purchase costs for which distribution licensees have to make payments to power suppliers on an immediate basis. Therefore, a mechanism for pass-through of variations in power purchase cost to consumers on a regular basis (at quarterly intervals) is required.
- Reduction in slabs for Domestic category: To simplify the tariff structure and to reflect the true cost-of-service to the Domestic consumer category, only two slabs be retained for energy charges. This would reduce the amount of cross-subsidy that is currently being provided to the Domestic category by the Industrial category

(since the Domestic category tariff is lower than the actual cost of supply to this category). The two slabs proposed are:

- 0-200 units per month; and
 - Above 200 units per month (with the rate of energy charges being higher for this slab)
- (b) Merger of MLHT and MDLT (Non-Domestic) consumer categories, and merger of SLP and LIP (Industrial) consumer categories: To simplify the tariff structure, the merger of MLHT and MDLT consumer categories is proposed since they both use power for the same "commercial activity" purpose. Similarly, since both SLP and LIP use power for the same "Industrial activity" purpose, it is proposed that these two categories be merged as well.
- (i) HT Metering: HT metering be made mandatory for all 11 kV and above consumers (with load more than 100 kW), and for allowing HT metering for consumers with load less than 100 kW who insist on a connection under HVDS scheme with a dedicated transformer of required rating. HT metering helps in reducing AT&C losses to a great extent.
- (ii) Prepaid metering: Prepaid metering has various benefits such as elimination of provisional billing and reduction in costs associated with metering/billing. In addition, it makes consumers more conscious about energy consumed. NDPL has requested that to propagate prepaid metering, consumers applying for temporary connections or caught in theft should be mandatorily required to take connections through prepaid meters only so that it may help regulate their electricity consumption.
- (a) Fixed charges and surcharge thereof, to be levied based on MDI reading for Domestic category consumers: The provision of charging fixed charges based on MDI reading and levying a 30% surcharge for the Domestic category should be reintroduced in the tariff, since increase in demand by any consumer category more than the sanctioned amount leads to overloading in the system and increases losses in the network.

6. As done in the past, the Commission would also hold public hearings with the responding stakeholders and the date of hearing shall be notified separately.

7. The Commission shall scrutinize the petitions and may seek further clarifications from the Licensees, if required. The Commission shall, by way of an Order, approve the ARR and Revenue Gap/Surplus with respect to each of the Licensees and explore the ways and means for bridging this gap including support/subsidy, if any, from the Government of NCT of Delhi, tariff increase and/or other regulatory measures. The Orders on the petitions shall be issued after considering the suggestions received from various stakeholders.

8. In the past, there have been requests that the Commission may extend help to consumers in understanding tariff petitions to facilitate them in filing their comments. The Commission has accordingly prepared a Staff Paper on true up petition for FY 2009-10 & ARR for the FY 2011-12 filed by Distribution Licensees, which is available on the website of the Commission (www.derc.gov.in). The Commission has also nominated officers to extend necessary help to all such consumers, who may so desire. Discussions may be held with the following officers after seeking prior appointment.

- Smt. Nisnu Gautam, Joint Director (26680433)
- Shri Shishir Anshu, Joint Director (26680734)

9. The complete petitions filed by the Licensees can be downloaded from the website of the Commission (www.derc.gov.in) and the web-sites of the Licensees. Copies of the petitions are also available for inspection at the Commission's Office.

10. A copy of the petition of each Licensee may be purchased from the respective Distribution licensee's head offices on any working day from 09.05.2011 to 24.05.2011 between 11 AM and 4 PM on payment of Rs. 100/- either by cash or by Demand Draft/Pay Order payable at New Delhi as per the details provided herewith.

The Public Notices have also been posted on the website of the Distribution Licensees as well as that of the Commission.

3. The four Distribution Licensees viz. BRPL, BYPL, NDPL and NDMC have sought revision of tariff for FY 2011-12 for all the consumer categories to meet the revenue gap in their respective Aggregate Revenue Requirement (ARR) submissions.

4. In accordance with the provisions of the Delhi Electricity Regulatory Commission Comprehensive (Conduct of Business) Regulations, 2001 notified by the Commission, the Commission invites comments from consumers and other stakeholders on the above petitions. Comments may be sent to the Secretary of the Commission at the above office address by 28.05.2011, either personally or by post, or by email at secy@derc.nic.in

5. In addition to comments on the petitions filed by the Distribution Licensees, all consumers and other stakeholders are also requested to offer their views on the following issues raised by the Distribution Licensees in their ARR petition for the FY 2011-12. The Commission shall deliberate on the issues while deciding on the tariff for various classes of consumers for the year 2011-12.

- Enhancement of limit for cash payment of energy bills by consumers: The restriction of acceptance of cash payments up to the existing limit of Rs. 4,000 should be reviewed and enhanced to a limit of Rs. 20,000 for a better revenue recovery.
- Applicability of tariff with load above 100kW for residential use: There should be a different treatment tariff for individuals with load above 100kW for residential use; like it is for other categories e.g. Non-Domestic, Industrial etc. with load above 100kW.
- Uniform fixed charges till the load of 5 kW: The majority of Domestic consumers have a connected load greater than 2 kW although their sanctioned load less than 2 kW. This gives undue advantage to consumers who have not increased their declared load to the actual connected load, while consumers of other billed load are paying the fixed charges. To avoid this, the slab-based fixed charges be rationalized.
- kVAh billing for industrial and non-domestic consumers with MDI greater than 10 kW: For industrial and non-domestic consumers with MDI greater than 10 kW, it should be entitled to charging kVAh tariff since it encourages consumers to improve their power factor which eventually helps the system by less loading and reduction in losses.
- Introduction of time differential tariffs for Consumers with Load > 10 kW for demand side management: Time Differential Tariffs would result in smoothing of demand curve which ultimately results in savings for the consumers by way of lower power purchase cost.
- Proposal for Implementation of Automatic Power Purchase Price Adjustment mechanism: At present, due to the methodology of true-up of power purchase costs on the basis of actual audit accounts, it takes two years before the recovery of legitimate power purchase costs for which distribution licensees have to make payments to power supplier on an immediate basis. Therefore, a mechanism for pass-through of variations in power purchase cost to consumers on a regular basis (at quarterly intervals) is required.
- Reduction in slabs for Domestic category: To simplify the tariff structure and to reflect the true cost-of-service to the Domestic consumer category, only two slabs be retained for energy charges. This would reduce the amount of cross-subsidy that is currently being provided to the Domestic category by the Industrial category

(since the Domestic category tariff is lower than the actual cost of supply to this category). The two slabs proposed are:

- 0-200 units per month; and
- Above 200 units per month (with the rate of energy charges being higher for this slab)
- Merger of MLHT and NDCT (Non-Domestic) consumer categories, and merger of SIP and LIP (Industrial) consumer categories: To simplify the tariff structure, the merger of MLHT and NDCT consumer categories is proposed since they both use power for the same "commercial activity" purpose. Similarly, since both SIP and LIP use power for the same "industrial activity" purpose, it is proposed that these two categories be merged as well.
- HT Metering: HT metering be made mandatory for all 11 KV and above consumers (with load more than 100 kW), and for allowing HT metering for consumers with load less than 100 kW who install on a connection under HVDS scheme with a dedicated transformer of required rating. HT metering helps in reducing AT&C losses to a great extent.
- Prepaid metering: Prepaid metering has various benefits such as elimination of provisional billing and reduction in costs, associated with metering/billing. In addition, it makes consumers more conscious about energy consumed. NDPL has requested that to propagate prepaid metering, consumers applying for temporary connections or caught in theft should be mandatorily required to take connections through prepaid meters only so that it may help regulate their electricity consumption.
- Fixed charges and surcharge thereof, to be levied based on MDI reading for Domestic category consumers: The provision of charging fixed charges based on MDI reading and levying a 30% surcharge for the Domestic category should be reintroduced in the tariff, since increase in demand by any consumer category more than the sanctioned amount leads to overloading in the system and increases losses in the network.

6. As done in the past, the Commission would also hold public hearings with the responding stakeholders and the date of hearing shall be notified separately.

7. The Commission shall scrutinize the petitions and may seek further clarifications from the Licensees, if required. The Commission shall, by way of an Order, approve the ARR and Revenue Gap/Surplus with respect to each of the Licensees and explore the ways and means for bridging this gap including support/subsidy, if any, from the Government of NCT of Delhi, tariff increase and/or other regulatory measures. The Orders on the petitions shall be issued after considering the suggestions received from various stakeholders.

8. In the past, there have been requests that the Commission may extend help to consumers in understanding tariff petitions to facilitate them in filing their comments. The Commission has accordingly prepared a Staff Paper on true up petition for FY 2009-10 & ARR for the FY 2011-12 filed by Distribution Licensees, which is available on the website of the Commission (www.derc.gov.in). The Commission has also nominated officers to extend necessary help to all such consumers, who may so desire. Discussions may be held with the following officers after seeking prior appointment.

- Smt. Ninku Gautam, Joint Director (26680433)
- Shri Shrikish Asthana, Joint Director (26680734)

9. The complete petitions filed by the Licensees can be downloaded from the website of the Commission (www.derc.gov.in) and the web-sites of the Licensees. Copies of the petitions are also available for inspection at the Commission's Office.

10. A copy of the petition of each Licensee may be purchased from the respective Distribution Licensees' head offices on any working day from 09.05.2011 to 24.05.2011 between 11 AM and 4 PM on payment of Rs. 100/- either by cash or by Demand Draft/Pay Order payable at New Delhi as per the details provided herewith.

**Analyses of purported surplus of Rs.3577 Crore during FY 2010-11
(as per draft tariff order 2010-11)**

The basis on which the so called 'surplus of Rs.3577 Cr.' was arrived at in the last year draft tariff order has been analysed and the findings are as under:

Assumptions regarding Assessment of Surplus

- i) For the year 2010-11, a large quantum of additional capacity with benefits for the National Capital Territory of Delhi was expected to be commissioned during the financial year, primarily from projects which were targeted to be commissioned prior to the Commonwealth Games.
- ii) The projection had considered a total power availability of 4526 MW during the FY 2010-11. Out of this 1935 MW alone was on account of new power stations which were expected to be commissioned during FY 2010-11, thereby leading to an estimated additional energy of about 20811 MUs. This additional power was estimated considering the dates of commissioning of new power plants as per information available from the website of the Central Electricity Authority (CEA) and other sources, although delays in commissioning appeared inevitable even at that time. A substantial part of this additional energy was expected to be surplus after meeting the requirements of Delhi utilities.
- iii) It was assumed that the surplus power will be sold at an average rate of Rs.5.75 per KWh against the average rate of about Rs. 3.25/KWh at which power was expected to be purchased by the distribution utilities.

Assumptions in the Draft Tariff Order for FY 2010-11

Discom	Surplus power in units/Total power available (MU)	Sale Rate/ Purchase Rate (Rs./kWh)	Difference in sale and purchase price (Rs. Crore)
BRPL	8967/19758	5.75/3.23	2260
BYPL	5800/12109	5.75/3.23	1462
NDPL	6436/13518	5.75/3.15	1673
Total	21203/45385 MUs		5395

- iv) The sale of surplus power at a profit was expected to result in a net surplus of Rs. 3,577 Cr. with the three private distribution utilities.

**Net Surplus of Distribution Utilities after all adjustments for FY 2010-11
(Rs. in Cr.)**

DISCOM	Estimated Surplus *
BRPL	1572
BYPL	1027
NDPL	978
Total	3577

NOTE: * Above surplus considers surplus/gaps and other adjustments in various year of the MYT period.

Factual points of Actual Availability of Power

In this context, it is appropriate to clarify the factual position based on information available in the Commission at the present time.

- i) As expected, there have been delays in commissioning of the new power plants as detailed below:
 - a. In case of DVC power plants, the Consultant considered the PPAs signed between DVC and Delhi utilities for supply of power, going upto 2500 MW in April, 2011 for future projects, namely, Chandrapur U# 7,8, Mejia TPS Ph-II, Maithon TPS, Koderma TPS and Durgapur TPS.

DVC Plants	COD considered in draft Tariff Order	Present Status
Chandrapur 2x250 MW	Unit-7, Feb 2010 Unit-8, Mar 2010	CoD not declared
Mejia TPS Ph-II 2x500 MW	Unit-1, May 2010 Unit-2, August 2010	Commissioned, but very little power is coming due to coal problem
Maithon TPS 2x250 MW	Unit-1, Nov 2010	U#1: Expected in August/September, 2011
Koderma TPS 2x500 MW	Unit-1, Jan 2011 Unit-2, (not considered)	Unit 1: Expected in September/October, 2011 Unit 2: Expected in June/July, 2012
Durgapur TPS 2x500 MW	Unit-1 Nov 2010 Unit-2 March 2011	Unit 1: Expected in September/October, 2011 Unit 2: Expected in March 2012

- b. Power availability from Aravalli Power Project of NTPC at Jhajjar was considered by the Consultant w.e.f. November, 2010. Commercial operation of the same has not been achieved till date.

New Projects	COD considered in draft tariff order	Present Status
NTPC Jhajjar (Aravalli Power Corp. Ltd.)	500MW, Nov 2010	Unit 1: CoD in March, 2011 Unit 2: Expected in December, 2011/January, 2012 Unit 3: Expected in June,

	2012/July, 2012
--	-----------------

- c. For Pragati-III, power availability of 750 MW was considered in the draft tariff order w.e.f. August, 2010 and another 750 MW w.e.f. December 2010. However, the plant is expected to be commissioned only in September, 2011/ February, 2012.

New Projects	COD considered in draft tariff order	Present Status
Pragati-III	750MW, August 2010 750MW, Dec 2010	750 MW – Expected in September, 2011 750 MW – Expected in February, 2012

- d. Commercial operation of 90 MW NDPL Rithala Plant was considered w.e.f. May 2010. While the plant has been commissioned in open cycle (60 MW) in Feb 2011, combined cycle commissioning has not taken place even upto end of July, 2011.

- ii) Power availability from the new power stations, against the earlier estimates is as under:

Station	FY 10-11	(MU)
		FY Actual 10-11
Dadri Extn. Units 5 & 6	5658	4203
Kahalgaon Stage-II (500 MW)	378	493
Sewa-II	44	49
NPCIL RAPS – 5 & 6	305	544
Pragati-III	3015	0
NTPC Jhajhar (Aravali Power Corporation Ltd.)	726	0
DVC Plants		
Chandrapura U-7&8	2033	535
Mejia TPS Ph-II	3218	
Maithon TPS	872	0
Durgapur Steel TPS Unit-I	1376	0
Koderma TPS	826	0
Durgapur Steel TPS Unit-II	148	0
NDPL Rithala	715	0
Total	19315	5826

Hence as against the initial estimate of over 21,000 units being surplus, actual surplus units were only about 5800. Even these surplus units could not generate any monetary surplus for the reasons given below:

Reasons for reduction in Sale Rate of Surplus Power

- iii) The Central Electricity Regulatory Commission had in January, 2010 proposed change in the scheme of Unscheduled Interchange (UI). The revised Indian Electricity Grid Code, proposed to be implemented from the April 1, 2010 (draft of which was available months earlier) also stipulated that the operating frequency benchmark would be raised to 49.5 Hz from the then existing level of 49.2 Hz. Thus, the penal rate of Rs.12.22 / Kwh would be applicable for overdrawals below 49.5 Hz. and it was expected that the utilities in the country would refrain from overdrawing at a frequency below 49.5 Hz.
- iv) As expected, there was a significant reduction in the overdrawals by the distribution utilities on account of the penal rates applicable for overdrawals below 49.5 Hz. following the introduction of the new regime of Unscheduled Interchange (UI) vide CERC Order dated 28th April, 2010 (effective 3rd May, 2010). This resulted in drastic reduction in the average UI rates as well as the rates for power sold on the power exchanges. The month-wise average rates for UI and the rates on the power exchanges during the period preceding the new Order of CERC and in the months following this Order is given in Table 3 below:-

(Rs / Kwh)

- v) It would be seen from the above that the assumption regarding the premium at which the surplus power would be sold did not remain valid and the entire projected surplus did not materialise. Neither was the surplus power assumed in the calculation of the surplus available nor there was a premium on the sale of surplus power.
- vi) The future implication of the new regime would be that even after the commissioning of the new generating capacity from 2011-12 onwards, it may not be possible to generate a surplus from a sale of surplus power because there is now hardly any differential between the rates of power purchase and the rates at which the surplus power can be sold. In fact, there are times when the rates for sale of surplus power are lower than the incremental rates for power purchase.

It would thus be seen that the assumptions on which the surplus of Rs. 3,577 Cr. was based no longer hold good.

Enhanced Cost of Power Purchase

Another factor which has a bearing on the tariff determination is the cost of power purchase incurred by the distribution utilities. When compared with the assumptions made while fixing the tariff for FY 2009-10, there has been a significant increase in the cost of power purchase which is partly attributable to the directions issued by this Commission vide letter No. F. 17(47)/Engg./DERC/2009-10/C.F. No. 2147/2956, dated 21.10.2009, wherein the Commission had directed the distribution utilities to limit the load shedding in their respective areas of supply to less than 1% of the total demand, failing which they would be penalised @Rs.2.50/Kwh for every unit of load shed.

Based on the audited accounts of the DISCOMs, the Commission, in its advice dated 15.12.2010 to the GNCTD under Section 86(2)(iv) of the Electricity Act, 2003, had observed that there has been a very considerable increase in power purchase costs incurred by the distribution licensees during FY 2009-10 and FY 2010-11. The power purchase cost which normally does not exceed 80% of the revenue from retail sale of electricity has increased much beyond this level. Table-4 of the advice which summarizes the percentage of power purchase cost vs. total revenue billed is reproduced below:-

Name of Licensee	2008-09	2009-10	2010-11
NDPL	76%	98%	104.02%
BRPL	83%	94%	131.83%
BYPL	73%	77%	154.65%

NDMC	65.55%	76.25%	114.05% (For April-Sep. 10-11)
------	--------	--------	-----------------------------------

Percentage of Power Purchase Cost Vs Total Revenue Billed

The utilities are, therefore, not generating revenue even to make payments for the purchase of power, leave alone other expenses. Thus, the purported surplus of Rs. 3577 crore never materialized and the net result of operation during 10-11 was a net shortfall in revenue vs. operating cost.

It may also be noted that Government of NCT of Delhi had requisitioned the services of SBI Capital Markets Ltd. to examine the audited accounts of the distribution utilities for FY 2007-08, 2008-09 and 2009-10 and provide a financial analysis of the same in the light of claims made by the distribution utilities regarding their poor financial health.

The Report concludes that the financial analysis contained in the Report amply proves that the distribution utilities had not been able to pass on the increase/decrease in operating expenses (primarily power purchase costs) to the consumers in the same year. The liquidity position was precarious which is evident from the low current ratio and acid test ratio. Despite making book profits during 2009-10, the NOPAT (net operating profit after taxes) and EVA (economic value addition) were negative due to adjustments relating to review gaps to bring the EVA closer to cash flows.
