ORDER

(Date of Order: 31.08.2017)

M/s. BSES Rajdhani Power Limited filed aforesaid Petition No. 20 of 2017 for Truing up of expenses up to FY 2014-15, Review of FY 2015-16 and Multi Year ARR from FY 2016-17 to FY 2020-21 and Tariff for FY 2016-17; and Petition No. 22 of 2017 for Truing up of expenses for FY 2015-16. These Petitions were admitted by the Commission vide Order dated 26.05.2017. The Petitions along with Executive summary were uploaded on the website of the Commission seeking response of the stakeholders. This was also widely publicised through advertisement in newspapers. In response to the advertisement the Commission received comments from the Stakeholders, which have been replied to by the Petitioner. The comments and suggestions of the stakeholders, the submissions made during the public hearing held on 19.07.2017 and the arguments advanced by the Petitioner have been taken into consideration.

After having considered the above, the Commission in exercise of the power vested in it by the Electricity Act, 2003 and Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017, hereby pass this Tariff Order signed, dated and issued on 31.08.2017.

The Petitioner shall take immediate steps to implement the said Order, so as to make the revised tariffs applicable from 01.09.2017.

This Tariff Order shall remain in force till replaced by a subsequent Tariff Order and/or is amended, reviewed or modified, in accordance with the provisions of the Electricity Act, 2003 and the Regulations made there under.

A1: INTRODUCTION

- 1.1 This Order relates to the petition filed by BSES Rajdhani Power Limited (BRPL) (hereinafter referred to as 'BRPL' or the 'Petitioner') for True-up of expenses for FY 2014-15 & FY 2015-16 in terms of Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Wheeling Tariff and Retail Supply Tariff) Regulations, 2011 (hereinafter referred to as the '2nd MYT Regulations') and approval of Aggregate Revenue Requirement & Tariff for FY 2017-18 in terms of Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017 (hereinafter referred to as the Tariff Regulations').

BSES RAJDHANI POWER LIMITED (BRPL)

- 1.2 BSES Rajdhani Power Limited (BRPL) is a company incorporated under the Companies Act, 1956 and is engaged in the business of distribution and retail supply of electricity within its area of supply (as defined in the license) in the National Capital Territory (NCT) of Delhi.

DELHI ELECTRICITY REGULATORY COMMISSION

- 1.3 Delhi Electricity Regulatory Commission (hereinafter referred to as 'DERC' or the Commission') was constituted by the GoNCTD on 3.03.1999 and it became operational from 10.12.1999.
- 1.4 The Commission's approach to regulation is driven by the Electricity Act, 2003, the National Electricity Plan, the National Tariff Policy and the Delhi Electricity Reform Act 2000 (hereinafter referred to as 'DERA'). The Electricity Act, 2003 mandates the Commission to take measures conducive to the development and management of the electricity industry in an efficient, economic and competitive manner, which inter alia includes Tariff determination.

THE STATE ADVISORY COMMITTEE MEETING

- 1.5 The Commission has, since constitution of the State Advisory Committee on 27.03.2003, held

16th meetings so far. In the 16th State Advisory Committee Meeting held on 29.03.2017, the Commission discussed the following:

Table 1: Issues discussed in State Advisory Committee Meeting

Sr. No.	Issues Discussed
i.	Billing and Metering Audit of Distribution Licensees.
ii.	Implementation of UJALA scheme by Distribution Licensees in collaboration with EESL for distribution of LED bulbs, LED tubes and BEE5 star rated fans under Demand side Management(DSM)
iii.	Energy Audit of DISCOMs.
iv.	Draft DERC (Supply Code and Performance Standards) Regulations, 2017.
v.	Funding of Pension Trust.

MULTI YEAR TARIFF REGULATIONS

- 1.6 The Commission issued Tariff Regulations vide its gazette notification dated 31.01.2017 specifying Terms and Conditions for Determination of Tariff for Distribution of electricity under the Multi Year Tariff (MYT) framework. Further the operational norms for Distribution utilities has also been approved by the Commission in Delhi Electricity Regulatory Commission Business Plan Regulations, 2017 under Tariff Regulations for the period FY 2017-18 to FY 2019-20.
- 1.7 The Commission issued '2nd MYT Regulations' vide Order dated 02.12.2011 specifying Terms and Conditions for Determination of Tariff for Distribution of electricity under the Multi Year Tariff (MYT) framework for the period FY 2012-13 to FY 2014-15.
- 1.8 The Commission vide order dated October 22, 2014 has extended the MYT period of FY 2012-13 to FY 2014-15 for a further period of one year till FY 2015-16.

FILING OF PETITION FOR TRUE-UP OF EXPENSE FOR FY 2014-15 & FY 2015-16 AND APPROVAL OF AGGREGATE REVENUE REQUIREMENT & TARIFF FOR FY 2017-18.

FILING AND ACCEPTANCE OF PETITION

- 1.9 BRPL has filed its petition before the Commission on 19.04.2016 for "Annual Revenue Requirement (ARR) for the FY 2016-17, Revised ARR for FY 2015-16, True up expenses for FY 2014-15 and final True Up for Control Period up to FY 2013-14"
- 1.10 Further, BRPL has filed its petition before the Commission on 24.01.2017 for "Annual

Revenue Requirements (ARR) for FY 2017-18, revised ARR for FY 2016-17, True up of expenses for FY 2015-16 and Final True up for control period up to FY 2014-15”.

- 1.11 The Commission admitted both the petitions vide its Order dated 26.05.2017 subject to clarifications / additional information, if any, which would be sought from the Petitioner from time to time. A copy of the Admission Order dated 26.05.2017 is enclosed as **Annexure I** to this Order.

INTERACTION WITH THE PETITIONER

- 1.12 The Order has referred at numerous places to various actions taken by the “Commission”. It may be mentioned for the sake of clarity, that the term “Commission” in most of the cases refers to the Officers of the Commission and the Staff Consultants appointed by the Commission for carrying out the due diligence on the petition filed by the Petitioner, obtaining and analyzing information/clarifications received from the Petitioner and submitting all issues for consideration by the Commission.
- 1.13 For this purpose, the Commission Officers and Staff Consultants held discussions with the Petitioner, obtained information/clarifications wherever required and carried out technical validation with regard to the information provided.
- 1.14 The Commission held public hearing on 19.07.2017 to take a final view with respect to various issues concerning the principles and guidelines for tariff determination. The Commission has considered due diligence conducted by the Officers of the Commission and the Staff Consultants in arriving at its final decision. The use of the term “Commission” may, therefore, be read in the context of the above clarification.
- 1.15 A preliminary scrutiny/analysis of the petition submitted by the Petitioner was conducted and certain deficiencies were observed. Accordingly, deficiency notes were issued to the Petitioner. Further, additional information/clarifications were solicited from the Petitioner as and when required. The Commission and the Petitioner also discussed key issues raised in the petition, which included details of capital expenditure and capitalisation plan, allocation of expenses into Wheeling and Retail Supply Business, AT&C loss reduction trajectory, liability towards SVRS expenditure, etc.

- 1.16 The Commission also conducted multiple validation sessions with the Petitioner during which discrepancies in the petition and additional information required by the Commission were sought. Subsequently, the Petitioner submitted replies to the issues raised in these sessions and provided documentary evidence to substantiate its claims regarding various submissions.
- 1.17 The replies of the Petitioner, as mentioned in the **Table-1.2** as follows have been considered for approval of the ARR of the Petitioner:

Table 2: List of Correspondence with the Petitioner

Sr. No.	Letter No.	Letter Dated	Subject

PUBLIC NOTICE

1.18 The Commission published a Public Notice in the following newspapers on 07.06.2017 inviting comments from stakeholders on the Tariff petitions filed by the Petitioners latest by 27.06.2017:

(a)	Indian Express (English)	:	07.06.2017
(b)	The Pioneer (English)	:	07.06.2017
(c)	Times of India (English)	:	07.06.2017
(d)	Hindustan (Hindi)	:	07.06.2017
(e)	Dainik Jagaran (Hindi)	:	07.06.2017

(f) Educator (Punjabi) : 07.06.2017

1.19 Copies of the above Public Notices are available on Commissions website (www.derc.gov.in).

1.20 The Petitioner also published a Public Notice indicating salient features of its petition for inviting comments from the stakeholders and requesting to submit response on the petition on or before 27.06.2017 in the following newspapers on the respective dates mentioned alongside:

(a) The Hindu (English) : 17.06.2017

(b) Times of India (English) : 17.06.2017

(c) Navbhart Times (Hindi) : 20.06.2017

(d) Punjabi Tribune (Punjabi) : 20.06.2017

(e) Inquilab (Urdu) : 20.06.2017

1.21 Copies of the above Public Notices are available on Commissions website (www.derc.gov.in). A copy of the petition was also made available for purchase from the head-office of the Petitioner on any working day between 11 A.M. and 4 P.M. on payment of Rs.100/- for hard copy of each petition either by cash or demand draft/pay order. A copy of the complete petition was also uploaded on the website of the Commission, as well as that of the Petitioner, requesting for comments of the stakeholders thereon.

1.22 At the request of the stakeholders, the Commission extended the last date for filing objections and suggestions up to 18.07.2017 for which the public notice was issued in the following newspapers on the respective dates mentioned along side:

(a) Pioneer (English) : 25.06.2017

(b) Hindustan Times (English) : 25.06.2017

(c) Mail Today (English) : 25.06.2017

(d) Hindustan (Hindi) : 25.06.2017

(e) Punjab Kesari (Hindi) : 25.06.2017

(f) Rashtriya Sahara (Hindi) : 25.06.2017

(g) The Educator (Punjabi) : 25.06.2017

1.23 Copies of the above Public Notices are available on Commissions website (www.derc.gov.in).

1.24 In order to extend help to the stakeholders in understanding the ARR Petition and filing their comments, the Commission prepared a Executive Summary highlighting salient features of the Tariff Petition filed by the Petitioner, which was uploaded on the Commission's website. In this regard, three officers of the Commission viz. Joint Director (Tariff-Finance), Joint Director (Engineering) and Joint Director (PS&E) were nominated for discussion on the ARR Petitions. This was duly highlighted in the Public Notices published by the Commission.

1.25 Further, the Commission published a Public Notice indicating the venue, date and time of public hearing on 4th and 5th July, 2017 in the following newspapers on the respective dates mentioned alongside:

(a)	Pioneer (English)	:	25.06.2017
(b)	Hindustan Times (English)	:	25.06.2017
(c)	Mail Today (English)	:	25.06.2017
(d)	Hindustan (Hindi)	:	25.06.2017
(e)	Punjab Kesari (Hindi)	:	25.06.2017
(f)	Rashtriya Sahara (Hindi)	:	25.06.2017
(g)	The Educator (Punjabi)	:	25.06.2017

1.26 Copies of the above Public Notices are available on Commissions website.(www.derc.gov.in).

1.27 At the request of the stakeholders, the Commission extended the date of Public hearing from 04th and 05th of July 2017 to 19th of July 2017 .The public notice was issued in the following newspapers on the respective dates mentioned along side:

(a)	Pioneer (English)	:	02.07.2017
(b)	Hindustan Times (English)	:	02.07.2017
(c)	Mail Today (English)	:	02.07.2017
(d)	Indian Express (English)	:	02.07.2017
(e)	Hindustan (Hindi)	:	02.07.2017
(f)	Punjab Kesari (Hindi)	:	02.07.2017

- (g) Dainik Jagran (Hindi) : 02.07.2017
 (h) Jadid in dinon (Urdu) : 02.07.2017
 (i) The Jan Ekta (Punjabi) : 02.07.2017

1.28 Copies of the above Public Notices are available on Commissions website (www.derc.gov.in).

1.29 The Commission received written comments from stakeholders. The comments of the stakeholders were also forwarded to the Petitioner who, responded to the comments of the stakeholders with a copy of its replies to the Commission. The Commission invited all stakeholders, including those who had filed their objections and suggestions, to attend the Public Hearing.

1.30 The public hearings was held at the Auditorium of Scope Convention Centre, Scope Complex, New Delhi for all stakeholders on 19.07.2017 to discuss the issues related to the petition filed by the Petitioner. The issues and concerns voiced by various stakeholders have been examined by the Commission. The major issues discussed during the public hearing and/or written comments made by the stakeholders, the responses of the Petitioner thereon and the views of the Commission, have been summarized in Chapter A2.

LAYOUT OF THE ORDER

1.31 This Order is organised into six Chapters:

- a) **Chapter A1** provides details of the tariff setting process and the approach of the Order.
- b) **Chapter A2** provides a brief of the comments of various stakeholders including the comments during the Public Hearing, the Petitioner's response and views of the Commission thereon.
- c) **Chapter A3** provides details/analysis of the True up for FY 2014-15 & FY 2015-16.
- d) **Chapter A4** provides analysis of the petition for determination of the Aggregate Revenue Requirement for FY 2017-18.
- e) **Chapter A5** provides details of the possible options for determination of Wheeling and Retail Supply Tariff for all consumer categories for FY 2017-18, and the approach adopted by the Commission in its determination.

f) **Chapter A6** provides details of the Directives of the Commission.

1.32 The Order contains following Annexures, which are an integral part of the Tariff Order:

- a) **Annexure I** - Admission Order.
- b) **Annexure II** - List of the stakeholders who submitted their comments on True-up of expense for FY 2014-15 & FY 2015-16 and approval of Aggregate Revenue Requirement & Tariff for FY 2017-18.
- c) **Annexure III** – List of Stakeholders/consumers who attended the public hearing.

PERFORMANCE REVIEW

1.33 Regulation 10.2 of the DERC (Terms & Conditions for determination of Wheeling and Retail Supply Tariff) Regulation, 2011 stipulates as under:

“The Distribution Licensee shall submit information as part of annual review on actual performance to assess the performance vis-à-vis the targets approved by the Commission at the beginning of the Control Period. This shall include annual statements of its performance and accounts including latest available audited accounts as well as the regulatory accounts in the prescribed formats and the tariff worked out in accordance with these Regulations.”

1.34 The Commission sought inputs on overall Standards of Performance prescribed in Schedule-II of the Delhi Electricity Supply Code and Performance Standards Regulations, 2007. The details submitted by BRPL for FY 2014-15 and FY 2015-16 are given in Table 1.3 as follows:

Table 3: Standards of Performance during FY 2014-15 and FY 2015-16

Parameter	Prescribed Time Limit / Measure	Overall Standard of Performance	Number of complaints received		No. of complaints attended within specified timelines		% Complied during	
			2014-15	2015-16	2014-15	2015-16	2014-15	2015-16

APPROACH OF THE ORDER

APPROACH FOR FY 2014-15 AND FY 2015-16

1.35 Under the MYT Framework, the Commission had projected the ARR of the Petitioner for FY 2014-15 and FY 2015-16 in the MYT Order issued on 13.07.2012 and Tariff Order issued on 29.09.2015. Under '2nd MYT Regulation', the components of ARR have been segregated into controllable and un-controllable parameters. As per the regulation 4.21 of the '2nd MYT Regulation', various controllable and un-controllable parameters shall be trued-up as per the principle stated as follows:

- a) Variation in revenue/expenditure on account of uncontrollable sales / power purchase respectively shall be trued-up every year;
- b) For controllable parameters,
 - i. Any surplus or deficit on account of Operation and Maintenance (O&M) expenses shall be to the account of the Licensee and shall not be trued-up in ARR; and
 - ii. Depreciation and Return on Capital Employed shall be trued-up every year based on the actual capital expenditure and actual capitalization vis-à-vis capital investment plan (capital expenditure and capitalisation) approved by the Commission.

Provided that any surplus or deficit in Working Capital shall be to the account of the

Licensee and shall not be trued-up in ARR.

Provided further that the Commission shall not true-up interest rate, if variation in State Bank of India Base Rate as on 01.04.2012, is within + / - 1% during the Control Period. Any increase / decrease in State Bank of India Base Rate beyond +/- 1% only shall be trued-up.

1.36 The Commission has accordingly, trued up the uncontrollable parameters viz. power purchase cost, energy sales and revenue based on the audited accounts and other information submitted by the Petitioner for FY 2014-15 and FY 2015-16 after exercising prudence check. The true up of controllable parameters is governed by Regulation 4.21 of the '2nd MYT Regulations' as mentioned above. The detailed treatment of each component of uncontrollable and controllable parameters is provided in Chapter A3 of this Order.

1.37 The Commission has implemented various directions of Hon'ble APTEL subject to the decision on the issues which have been covered under Clarificatory application filed before Hon'ble APTEL due to variance in judgment on similar issues. Following issues have been covered under Clarificatory application:

- a) Change in methodology for computation of AT&C losses
- b) True up of rate of interest on loans
- c) AT&C loss true up of FY 2009-10 due to disallowance of KWH figures
- d) AT&C loss target revision for FY 2011-12
- e) Efficiency factor applied on O&M expenses during 2nd MYT Control Period
- f) SVRS terminal benefit payment
- g) Food and Children Education Allowance
- h) Comparable pay for Non FRSR employees
- i) Arbitrary computation of efficiency factor for FY 2011-12

APPROACH FOR FY 2016-17

1.38 The Petitioner has requested for a review of ARR for FY 2016-17. The mechanism for True up as specified in the MYT Regulations envisages that variations on account of uncontrollable items like energy sales and power purchase cost shall be trued up. Truing up shall be carried

out for each year based on actual/audited accounts and prudence checks undertaken by the Commission. Accordingly, the Commission is of the opinion that in accordance with the '2nd MYT Regulations' the True up of FY 2016-17 can only be considered based on the audited financial statement once the Petitioner makes a regular tariff Petition for True up of FY 2016-17.

APPROACH FOR FY 2017-18

- 1.39 The Commission vide its notification dated January 31, 2017 issued the Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017.
- 1.40 Further, the Commission has issued the Delhi Electricity Regulatory Commission Business Plan Regulations, 2017.
- 1.41 The ARR for the FY 2017-18 shall be determined inter alia based on the provisions of the Tariff Regulations 2017 read with Delhi Electricity Regulatory Commission Business Plan Regulations relevant to the Distribution business.
- 1.42 The allocation from the unallocated quota of Power at the disposal of GoNCTD may change from time to time and needs to be considered based on the latest available data or the Commission may have to make reasonable assumptions with respect to allocation of power from the unallocated quota.
- 1.43 Availability of power from the new sources of generation has been considered based on their actual / revised Commissioning schedule.
- 1.44 The Commission has evaluated the ARR submitted by the Petitioner on the basis of the provisions in Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017 read with Delhi Electricity Regulatory Commission Business Plan Regulations, 2017 and other factors considered appropriate by the Commission.

A2: RESPONSE FROM STAKEHOLDERS

- 2.1 Summary of objections/suggestions from stakeholders, response of DISCOMs (Tata Power Delhi Distribution Limited (TPDDL), BSES Rajdhani Power Limited (BRPL), BSES Yamuna Power Limited (BYPL), New Delhi Municipal Council (NDMC) and Commission's Analysis.

INTRODUCTION

- 2.2 Section 64(3) of the Electricity Act, 2003, stipulates that the Commission shall determine tariff under Section 62 of the Electricity Act, 2003 for the distribution licensees, after consideration of all suggestions received from the public and the response of the DISCOMs to the objections/suggestions of stakeholders, issue a tariff order accepting the applications with such modifications or such conditions as may be specified in the order. Public hearing, being a platform to understand the problems and concerns of various stakeholders, the Commission has encouraged transparent and participative approach in hearings to obtain necessary inputs required for tariff determination. Accordingly public hearing was held on 19.07.2017 in Auditorium of SCOPE Convention Centre, SCOPE Complex, New Delhi with consumers to discuss the issues related to the petitions filed by the DISCOMs viz., Tata Power Delhi Distribution Limited, BSES Rajdhani Power Limited, BSES Yamuna Power Limited & New Delhi Municipal Council for true up of expenses for FY 2014-15 & FY 2015-16 and Annual Revenue Requirement (ARR) for FY 2017-18.
- 2.3 In the public hearing, the stakeholders offered their comments and suggestions before the Commission in the presence of the Petitioners.
- 2.4 The Commission has examined the issues taking into consideration the comments/suggestions offered by the various stakeholders in their written statements and during the public hearing and also the response of the Petitioners thereon.
- 2.5 The comments/suggestions of various stakeholders, the replies/response from the Petitioners and the views of the Commission thereon are summarized below under various subheads.

ISSUE 1: PUBLIC HEARING AND OBJECTION PROCESS**STAKEHOLDER'S VIEW**

- 2.6 Commission must try to make public hearing and objection process more transparent and fruitful by creating awareness among consumers for participation in the process.
- 2.7 Date and Venue for public hearing should be widely publicised.
- 2.8 Complete petition is not available on DISCOMs' and Commission's websites.

PETITIONER'S SUBMISSION**TPDDL**

- 2.9 Salient Features of our Petition have been published by TPDDL through Public Notice in various newspapers.
- 2.10 Process of inviting comments is governed by the Rules, Regulations of the Hon'ble Commission. Suggestions, if any, are made to Hon'ble Commission accordingly.

BYPL

- 2.11 We appreciate the concern of the stakeholders regarding transparency and participation of consumers in the Tariff determination process. In this regard we humbly clarify that a notice regarding submission of comments and Public hearing on the Tariff Petitions filed by Licensees was published by the Hon'ble Commission in various newspapers. In order to extend help to the consumers in understanding the ARR Petition and filing their comments, Hon'ble Commission has also uploaded on its website executive summary of the Petitions filed by the Petitioners. Further, in compliance with the directions of the Hon'ble Commission, the Petitioner has published Public Notices on their respective Petitions in leading newspapers for ensuring wide circulation.
- 2.12 As regards the stakeholder's comment regarding uploading of ARR on the website by BYPL, we would like to respectfully submit that BYPL has duly uploaded its True up & ARR Petitions on its website for the convenience of all stakeholders.

BRPL

- 2.13 The observations and suggestions made by the esteemed stakeholder pertain to Hon'ble Commission's notice inviting public comments and seem to be directed towards the Hon'ble Commission. We sincerely trust that the same would be duly considered by the Hon'ble

Commission.

- 2.14 The stakeholder may also note that the complete Petition is available on the Petitioner's website for free download. Alternately, any consumer may procure a hard copy of the Petition from the Petitioner's head office by making requisite payment. Further, the stakeholder may contact the Hon'ble Commission personally in case any explanation is required concerning the ARR / True-up Petition.
- 2.15 It is submitted that the ARR Petitions are available on the BRPL's website at the URL www.bsesdelhi.com/HTML/Regulatory.html.
- 2.16 The stakeholder may also procure a hard copy of the Petition from the petitioner's head office by making requisite payment.

COMMISSION'S VIEW

- 2.17 The process of public hearing is conducted in a transparent manner and wide publicity has been given at various stages.
- 2.18 The Commission published a Public Notice in leading newspapers on 07.06.2017, as detailed on DERC website, inviting comments from stakeholders on the Tariff petitions filed by the Petitioners by 27.06.2017.
- 2.19 The Petitioners also published a Public Notice indicating salient features of its petition for inviting comments from the stakeholders and requesting to submit response on the petition on or before 27.06.2017 in leading newspapers as detailed on DERC website,.
- 2.20 At the request of the stakeholders, the Commission extended the last date for filing objections and suggestions up to 18.07.2017, for which the public notice was issued on 25.06.2017 in leading newspapers as detailed on DERC website.
- 2.21 The Commission also published a Public Notice indicating the venue, date and time of public hearing on 4th and 5th July, 2017 in leading newspapers on 25.06.2017, as detailed on DERC website.
- 2.22 At the request of the stakeholders, the Commission extended the date of Public hearing from 04th and 05th of July 2017 to 19th of July 2017. The public notice was issued in leading newspapers on 02.07.2017, as detailed on DERC website.

ISSUE 2: MYT REGULATION & BUSINESS PLAN**STAKEHOLDER'S VIEW**

- 2.23 Hard copy of MYT Regulation was not circulated among stakeholder. Many issues like RoE, Loss reduction program, depreciation etc are missing from MYT Regulation. Business Plan Regulation has not yet been finalized yet, it is improper to issue Tariff Order for FY 2017-21 without the finalization of Business Plan Regulation.
- 2.24 Collective wisdom of full Commission are not available as there are vacant seats of Chairman and Member.
- 2.25 DERC should come out with tariff order by 31st March of every year, so that the consumers do not bear the carrying cost.
- 2.26 How consumers are benefited by reduction in years of MYT Regulation which is 3 years for current as compared to 5 years in last MYT Regulation order.
- 2.27 It is difficult for stakeholders to comment on Tariff & Business plan at the same time; it is requested to postpone the date to file comments by 6 weeks i.e. August 9, 2017.
- 2.28 Tariff Petition should be rejected as FY 2016-17 audit report is not signed by Majority of Directors.

PETITIONER'S SUBMISSION**TPDDL**

- 2.29 The Tariff Regulations have been notified and are available on the Hon'ble Commission's website.
- 2.30 Hon'ble Commission has already extended the last date for submission of comments by stakeholders for Draft Business Plan Regulations till 18th July 2017. Thus, the request by stakeholders for providing adequate opportunity for giving suggestions/comments has already been considered by the Hon'ble Commission.
- 2.31 Hon'ble Commission is obligated to perform and discharge certain functions mandated under the Electricity Act 2003, including tariff determination in a time bound manner. The ARR finalization cannot be left as an open ended exercise, which is in violation of the aforesaid functions of Hon'ble Commission. TPDDL strongly objects to the said

request/comment.

- 2.32 Any delay in issuance of tariff order would adversely impact the overall growth of power sector. Therefore, Tariff Order should be released within given time frame as prescribed in the Regulations.
- 2.33 MYT control period of 3 years is more appropriate as the components of ARR undergo through various changes. The various factors impacting ARR like statutory increases, inflation, variation in power purchase cost, sale of power etc. can be conveniently mapped and factored after the 3 year control period. If the said period is considered to be longer to include more years, the same may lead to unrealistic projections and deviations. The 3 year period is in line with provisions of NTP etc. and thus, may be retained.

BYPL

- 2.34 As regards the circulation of hard copy of final Tariff Regulations notified by the Hon'ble Commission, we would like to submit that the Regulations were duly uploaded on the website of the Hon'ble Commission as circulation of hard copy to every stakeholder would not be possible. Moreover, it supports digital India initiative.
- 2.35 In terms of 4 of DERC (Terms and Conditions for Determination of Tariff Regulation, 2017), the following parameters shall be contained in the Business Plan Regulation:
- (1) Rate of Return on Equity,
 - (2) Margin for rate of interest on Loan,
 - (3) Operation and Maintenance Expenses,
 - (4) Capital Investment Plan,
 - (5) Mechanism for sharing of incentive-disincentive mechanism,
 - (6) Allocation of overhead expenses incurred on account of Administrative Expenditure for Operation and Maintenance Expenses and for creation of Capital Asset,
 - (7) Generating Norms:
 - (8) Transmission Norms:
 - (9) Distribution norms:
 - (a) Distribution Loss Target;

- (b) Collection Efficiency Target;
- (c) Targets for Solar and Non Solar RPO;
- (d) Contingency limit for Sale through Deviation Settlement Mechanism (Unscheduled Interchange) transactions
- (e) The ratio of various ARR components for segregation of ARR into Retail supply and wheeling business.

- 2.36 Accordingly, the Hon'ble Commission has issued the Draft Business Plan Regulations and invited comments from all stakeholders before finalisation.
- 2.37 Stakeholder has view that Commission is in depleted state with 67% vacancy of chairman and Members. With respect to the same we would like to contend that some of the Electricity Commission has single Member Commission. However fulfilment of vacancies is the sole prerogative of the Commission.
- 2.38 An explanatory Memorandum is also issued by the Hon'ble Commission which contains reasoning and justification of each and every issue of Draft Business Plan on which comments can be given. Hence, there is neither misuse of any power by Hon'ble Commission nor the exercise of circulating the Draft Business Plan Regulation is eye wash.
- 2.39 Hon'ble Commission in the Draft Business Plan regulations has defined the control period of 3 years. The Petitioner in its comments to the draft Regulations has also requested for revising the Control period to 5 years in view of the fact that the Hon'ble Commission's own Tariff Regulations 2017 contemplate that the utility shall have a "business plan" for the next five years. We hope that the Hon'ble Commission will consider the stakeholder's comment while finalizing Business Plan Regulations.

BRPL

- 2.40 As regards the issue of MYT Regulation, we would like to say that the same pertains to the Hon'ble Commission and the licensee would not be in a position to comment on the same.
- 2.41 As regards the 67% vacancy in the Hon'ble Commission is concerned, it is submitted that Section 82 of the Electricity Act, 2003 provides that the Chairperson and the Members of the Hon'ble Commission shall be appointed by the State Government on the recommendation of a Selection Committee. The licensee has no role to play in the appointment and therefore

would not be in a position to comment on the issue.

- 2.42 As regards the comments on the Business Plan Regulations are concerned, we expect that the Hon'ble Commission will give due consideration to the comments.

COMMISSION'S VIEW

- 2.43 The Tariff Regulations notified by the Hon'ble Commission were duly uploaded on the website of the Commission. Circulation of hard copy to every stakeholder may not be desirable in view of digital India initiative.
- 2.44 The principles for determination of tariff have been finalized in Tariff Regulations. The draft Business Plan Regulations have been circulated inviting the stakeholder's comments. Comments received from the stakeholders on the operational norms indicated in draft Business Plan Regulations are considered in the final Business Plan Regulations approved by the Commission before issuance of the Tariff Order.
- 2.45 As per the judgement of Hon'ble APTEL dated 02.12.2013 in the matter of OP 1 of 2011, it is a settled law that a Commission may function even with a single member. The observations of Hon'ble APTEL are:

"9. In view of the above decision, we are to direct all the Commissions to conduct the proceedings irrespective of the quorum since the proceedings before the Commission could be conducted even by a single Member."

"12. Therefore, we direct that all the Commissions concerned irrespective of the Regulations with regard to the quorum for a meeting, that Commission, even with a single Member despite that there are vacancies of other Members or Chairperson, can continue to hold the proceedings and pass the orders in accordance with the law."

- 2.46 The last MYT Regulations, 2011 were also valid for three years (FY 2012-13 to FY 2014-15), and its applicability was only extended subsequently.
- 2.47 The Commission has already extended the last date for submission of comments by stakeholders for Draft Business Plan Regulations and the Tariff Petitions till 18th July 2017 in consideration for providing adequate opportunity for giving suggestions/ comments.

ISSUE 3: RENEWABLE PURCHASE OBLIGATION**STAKEHOLDERS' VIEW:**

- 2.48 DISCOMs may provide the status of current RPO.
- 2.49 DISCOMs must submit the half yearly report on the RPO target and achievement to Commission.
- 2.50 Either the inefficient and costly power plants must be closed or RPO obligation must be removed so that power purchase cost does not go up as DISCOMs have sufficient long term PPA's. DISCOMs should promote net metering over REC purchase as it will reduce financial burden of DISCOMs.
- 2.51 It is requested to Commission to reconsider RPO targets with respect to cost to DISCOMs, in consumer interest.
- 2.52 Rooftop Solar should be promoted which will reduce power purchase cost. Commission should consider rooftop solar as a part of DISCOMs RPO.
- 2.53 Solar power should be made compulsory for Govt. offices and E-rickshaw. Banks should provide loan at low rates for solar project.

PETITIONER'S SUBMISSION**TPDDL**

- 2.54 TPDDL has tied up 20MW of solar power from SECI, 60 MW of Small Hydro Power and 13 MW of Waste to Energy from Timarpur Okhla & Bawana Plant. In addition, TPDDL plans to harness 400 MW of solar rooftop under net metering through consumer rooftop in future years.
- 2.55 Targets are fixed by the Hon'ble Commission on yearly basis. The same precedent has been followed since notification of the RPO targets through separate Regulations in Oct 2012.
- 2.56 TPDDL is in agreement that its expensive power plants need to be reallocated and is pursuing the same at various forums i.e. both State and Central level. In addition, TPDDL has also requested Hon'ble DERC to reconsider the steep RPO trajectory considering the power surplus situation of Delhi and the availability of renewable resources.
- 2.57 TPDDL is in agreement of the same and has requested Hon'ble DERC to defer the steep RPO trajectory to future years allowing consumers of Delhi sufficient time to become Consumers

of green power by installation of Solar Rooftops.

- 2.58 TPDDL has proactively engaged with RWAs and IWAs to create awareness on solar energy and implementation of solar rooftops. TPDDL is consistently pursuing the same with consumers to harness solar power through rooftop generation.

BYPL

- 2.59 We would like to respectfully submit that in terms of DERC (Terms and Conditions for Determination of Tariff) Regulation, 2017 the RPO targets for Solar and Non Solar RPO has been defined in the Draft Business Plan Regulations for the Control Period.
- 2.60 Further the targets are given on the percentage of total sales to retail consumers in its area of supply excluding procurement of hydro power for the financial year.
- 2.61 BYPL is encouraging its customers for installing roof-top solar under the Net metering Regulations of the Hon'ble Commission. In FY 14-15 BYPL had only Net Metering consumers of 20 KW under net metering Regulations which has now increased to 63 numbers contributing approx. 3.2 MW. BYPL has also long term contract in place for purchase of Solar and Non-solar energy.
- 2.62 We appreciate the concern of the stakeholder regarding implementation of roof top solar, we would like to submit that BYPL is encouraging its customers for installing roof-top solar under the Net metering Regulations of the Hon'ble commission. BYPL also has long term contract in place for purchase of Solar and Non-solar energy.
- 2.63 As regard of stakeholder's comment of 17% RPO target we would like to submit that Hon'ble commission has approved the RPO targets in Draft Business Plan Regulation, 2017 which are as under:

"The targets for Renewable Purchase Obligation (RPO) in terms of the Regulation 124 of the DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017 for the distribution Licensee from FY 2017-18 to FY 2019-20 of the Distribution Licensees shall be computed as a percentage of total sales to retail consumers in its area of supply excluding procurement of hydro power" as follows:

Table 4: RPO Target as submitted by DISCOM

Sr. No.	Distribution Licensee	2017-18	2018-19	2019-20
1	Solar Target (Minimum)	2.75%	4.75%	6.75%

Sr. No.	Distribution Licensee	2017-18	2018-19	2019-20
2	Total	11.50%	14.25%	17.00%

- 2.64 However in view of the fact that there are very few Renewable sources available in Delhi for fulfilling the RPO and purchase of REC would be unnecessary burden on the part of Consumers of the Petitioner, BYPL has filed a petition before DERC for waiver/deferment of RPO targets for FY 12-13 to FY 16-17 and a separate petition filed for waiver/deferment of RPO targets of FY 16-17.
- 2.65 We appreciate concern on Renewable Purchase Obligations for Delhi DISCOMs. The Renewable resources are limited in Delhi so the DISCOM is bound to buy REC (Renewable Energy Certificates) to fulfil RPO obligations.
- 2.66 We would like to mention that BYPL was first among the DISCOMs in Delhi to have successfully installed solar net metering. Further, way before the net metering Regulations were in place and Delhi Government notification of Solar Policy, BYPL have installed roof top solar in many of its Grids.

BRPL

- 2.67 As regards submission of half yearly reports to the Commission is concerned, the licensee is already in compliance of the same.
- 2.68 As regards purchase of renewable energy it is pertinent to highlight that the Hon'ble Commission has already specified obligations to purchase renewable energy on a year-to-year basis. Accordingly, BRPL has been procuring renewable power to the extent possible. However, it may also be noted that availability of renewable power in Delhi has not been sufficient to meet the complete demand, a fact that has been highlighted before the Hon'ble Commission. Notwithstanding, BRPL continues to procure renewable power to the extent possible. During FY 2016-17, BRPL managed to procure 118 MU from renewable sources at an average tariff of Rs.3.76/unit. In addition, BRPL has also procured REC of 333 MU at a cost of Rs.1.5/unit to fulfil part of its RPO obligations
- 2.69 The stakeholder's concern for renewable power obligation on DISCOMs vis-à-vis surplus power is appreciated. It would only be relevant to mention here that the licensee has time and again sought for relaxation from the Hon'ble DERC in the RPO targets. The licensee has

also given several representations before the DERC regarding RPO targets from time to time. The licensee's Petition 30 and 31 of 2015 is also pending adjudication before the Hon'ble DERC

COMMISSION'S VIEW

2.70 Electricity Act, 2003 entrusts on the appropriate Commission the responsibility for promotion of co-generation and generation based on renewable energy sources. The policy framework of the Government of India also stresses on the encouragement of renewable energy sources keeping in view the need for energy security and reducing carbon footprint.

2.71 Section 86 (1) (e) of the Electricity Act 2003 states:

"The State Commission shall discharge the following functions:

Promote co-generation and generation of electricity from renewable sources of energy by providing suitable measures for connectivity with the grid and sale of electricity to any person, and also specify, for purchase of electricity from such sources, a percentage of the total consumption of electricity in the area of a distribution licensee"

2.72 The Commission in pursuance of the same has mandated the renewable purchase obligation to be met through purchase of energy from renewable energy sources/renewable energy certificate to ensure that RPOs are met in the most optimum manner.

2.73 The Commission has issued DERC (Renewable Purchase Obligation and Renewable Energy Certificate Framework Implementation) Regulation, 2012 and Business Plan Regulations, 2017. As per these Regulations, every obligated entity is required to fulfil a defined minimum percentage of the total quantum/consumption from eligible renewable energy sources at the percentages as per the following schedule:-

Table 5: RPO approved by the Commission

Year	Solar	Total
2012-13	0.15%	3.40%
2013-14	0.20%	4.80%
2014-15	0.25%	6.20%
2015-16	0.30%	7.60%
2016-17	0.35%	9.00%
2017-18	4.75%	14.25%

Year	Solar	Total
2018-19	6.75%	17.00%
2019-20	8.75%	19.75%

- 2.74 The Commission has already notified the Delhi Electricity Regulatory Commission (Net Metering for Renewable Energy) Regulations, 2014 and the provision has been specified that the quantum of electricity generated under these Regulations shall qualify towards compliance of Renewable Purchase Obligation (RPO) for the distribution licensee if Renewable Energy Generator is not an obligated entity.
- 2.75 The Commission is of the view that generation of electricity from renewable sources of energy should be promoted and hence non-compliance shall attract penal action as per provisions of the Regulations. Further, the penalty imposed by the Commission on the obligated entity has to be used for serving the best interest of the consumers, and cannot be allowed as a pass through in the Aggregate Revenue Requirement (ARR), in case the obligated entity is a Distribution Licensee.

ISSUE 4: POWER PURCHASE COST

STAKEHOLDERS' VIEW

- 2.76 DISCOMs must suggest some ways in Petition to reduce the power purchase cost and also think to re-develop the BTPS plant in UMPP to reduce power purchase cost. Kindly mention the status of agreement with low cost solar power from Rewa and Rajasthan project.
- 2.77 Power Purchase Cost is the major component of tariff, and DISCOMs are purchasing costly power from inefficient plants which add financial burden. DISCOMs must stop buying power from inefficient Plants and plants having FSA issue. Ways to reduce the power purchase cost like re-develop the BTPS plant to UMPP to reduce power purchase cost or procurement of low cost solar power from Rewa or Rajasthan project may be adopted.
- 2.78 Reason for 11% increase in power purchase cost over previous period and Sale of Power by 4% may be provided by the DISCOMs. Proper planning should be done by DISCOMs for prudent power purchase.
- 2.79 Proper planning should be done by DISCOMs for prudent power purchase.

- 2.80 North & South Delhi must receive power from new power station having higher tariffs whereas Old Delhi must receive power from old cheaper plants because North and South Delhi electricity is used in large scale for commercial purpose.
- 2.81 Surplus Sale of power by DISCOMs is at very low rates, why not this surplus power is sold to poor people under CSR initiative or the Industry of Delhi.
- 2.82 Is there any micro analysis for surplus power purchase? If yes, then provide the output.
- 2.83 The Commission had estimated rebate in power purchase and transmission charges at Rs. 128 Crore in comparison to actual amount of Rs. 26 crore. Please explain.

PETITIONER'S SUBMISSION**TPDDL**

- 2.84 Power Purchase is a component of the ARR in addition to other cost of distribution utilities. All these costs together are taken for deciding the future tariffs.
- 2.85 TPDDL currently has no agreement with Rewa solar power or any plant in Rajasthan for sourcing power at tariff of Rs. 3/- per unit or less.
- 2.86 TPDDL has been proactively taking steps to reduce the burden of expensive power on the consumers. TPDDL has got its share from new stations such as Koldam and Tanda II reallocated through MoP. TPDDL has also submitted various proposals both to the Hon'ble DERC and MoP for reallocation of expensive power from plants like Aravali, Dadri 1 & 2 along with a suggested mechanism for realigning the existing allocation from these plants amongst Delhi DISCOMs in such a way that better scheduling can be done and power purchase costs can be optimized. The above proposal is currently in consideration by Hon'ble DERC.
- 2.87 As per the current Regulations in vogue, generators are eligible to recover full fixed costs if they are able to demonstrate availability of 85% even on the basis of expensive fuel.
- 2.88 TPDDL schedules these plants on the basis of Merit Order to avoid any additional burden on consumers.
- 2.89 TPDDL has also been pursuing the same for quite some time as BTPS has long outlived its useful. 3X95 MW units of the plants are under shutdown. However, remaining 2X210 MW units are still running on account of transmission constraints at DTL end. It is expected that

the same will be closed by 1st June 2018 after Commissioning of 400/220 KV Tughlaqabad Grid by DTL.

- 2.90 Power allocations entered into by DVB/DTL have been entered for Delhi as a whole. The power re-allocation has been done by Hon'ble DERC based on load profile, consumer profile of the respective geographical licensed areas. The suggestion is impractical as tie ups for power purchase cannot be split to differentiate between old power procured versus new power procured for certain areas, while the grid is integrated and uniform tariff prevailing in Delhi. Further the Hon'ble Commission is bound under the Electricity Act 2003 not to show any undue preference to any specific consumers of an area.
- 2.91 The Hon'ble DERC cannot decrease power purchase cost for plants regulated by the Hon'ble CERC. Further DISCOMs are allowed schemes based on their criticality and necessity after due prudence by Hon'ble Commission. Power Purchase Costs do not govern the decision for investment in such schemes. Thus if a particular area requires new scheme, up-gradation the same must be pointed out to Hon'ble DERC with data of breakdowns, poor supply, load shedding etc.

BYPL

- 2.92 We appreciate the concern of the Stakeholder regarding closing down of Badarpur Thermal Power Station and reducing Power Purchase cost from other costlier plants. It is submitted that the Petitioner is making all efforts for power purchase cost optimization and has approached various forums such as CERC, DERC for reduction in Power Purchase Cost and closing down of costly stations such as BTPS.
- 2.93 Petitioner is also contesting the fuel availability of Pragati Bawana and is also filing its responses against the Tariff petition filed by Central Generating stations including Pragati Bawana, Aravali and other costly NTPC stations such as BTPS, Dadri Stations in CERC.
- 2.94 We appreciate the concern of the stakeholder and would like to apprise that BYPL is sincerely inclined towards power purchase optimization. Time and again BYPL has pursued DERC for exploring different possibilities to reduce loss on sale of surplus power. BYPL precisely forecasts its demand and corresponding energy requirement. Services of consultants and experts will further strengthen our endeavour towards power purchase

optimization.

- 2.95 The petitioner has taken various steps for closing down higher cost power stations such as BTPS, Rajghat etc. It is further submitted that the Petitioner has also approached various forums such as CERC, DERC for reduction in Power Purchase Cost. Petitioner is also filing its responses against the petition filed by Central Generating stations in CERC.

As regard to difference in power purchase cost between new stations and old station, the petitioner would like to clarify that the power cost from old Hydro stations of NHPC etc. and Thermal stations such as Singrauli, Rihand etc. are cheaper however the power from new Hydro Stations and thermal/ Gas Stations such as Aravali, Pragati Bawana are costlier the same is on account of fact that pithead stations are cheaper in nature due to lower fuel cost as against the non pithead stations which have higher fuel cost and there is a higher recovery of Fixed cost for older hydro/ thermal stations as against the newer stations.

- 2.96 In this regard the petitioner submits that the power is sold in the short term market through following various means such as 1) Banking 2) Bilateral 3) Exchange 4) intra state sale & UI. The petitioner always endeavours to dispose power through banking along with the other available means. Although we always endeavour to sale surplus power through banking but due to various constraints it is not always possible to dispose the full quantum of surplus power only through banking. Hence, petitioner always endeavours to purchase and sale the power in the most economical manner as per the principles outlined by Hon'ble Commission.
- 2.97 Since the Hon'ble Commission allows PPC after deducting the maximum normative rebate from Gross Power Purchase cost, any actual rebate ought not to be deducted as it would lead to double accounting.

BRPL

- 2.98 We would like to submit that power plants are allocated to the licensee by the Hon'ble Commission and the Ministry of Power, Government of India. Further the tariff from these plants is determined by the Hon'ble CERC.
- 2.99 The stakeholder's observation regarding the need to surrender / reallocate costly power is well appreciated. In this regard it is noteworthy that the petitioner has written to the Hon'ble Commission on several occasions relating to surrendering of costlier power plants.

We trust, the Hon'ble Commission would give due cognizance to this aspect while determining tariff.

COMMISSION'S VIEW

- 2.100 The long term Power Purchase Agreements are entered into by the Petitioner considering the overall average projected demand of the consumers and likely growth in the demand vis-à-vis the likely availability of Power from various sources. The surplus/shortfall in power availability arising due to difference in demand during peak hours and non-peak hours including seasonal variations is required to be sold/purchased by the Petitioner on need basis. The Commission has directed the Petitioner to optimize such short term transactions and maintain transparency in its short-term power purchases and sales.
- 2.101 The Commission has specified in Tariff Regulations 2017, as well as in earlier Tariff Orders, that the Merit Order Dispatch principle should be adhered strictly by the Distribution Licensees in power procurement, and there is also incentive and disincentive mechanism for sale of surplus power to minimize the revenue from sale of surplus power. Further, as per the provision of Delhi Electricity Regulatory Commission Business Plan Regulations, 2017, the contingencies limit for sale of power under UI mechanism shall be limited to 5% of the gross power purchased by the Distribution Licensee to bring efficiency in their scheduling of power.
- 2.102 The Commission has already approved various PPAs entered into by the utilities for procurement of power from long term sources. The Commission has also directed the DISCOMs vide its letter dated 21.10.2009 that they should endeavour to provide uninterrupted power supply to the consumers in their respective areas. The licensees shall ensure that electricity which could not be served due to any reason what-so-ever (including maintenance schedule, break-downs, load shedding etc.) shall not exceed 1% of the total energy supplied by them in any particular month except in cases of force-majeure events which are beyond the control of the Licensees.
- 2.103 The Commission has also noted that the load curve in Delhi is peculiar in nature with high morning and evening peaks and very low load demand during night hours. It is due to the

fact that a majority of the load in Delhi is of commercial establishments, office buildings, which have requirement of power primarily during day time. The round-the clock industries, which are a common feature in most of the States and which contribute towards flattening of the load curve, are very few in Delhi.

- 2.104 To cater to the peak demand during day time, DISCOMs have been buying Round the Clock (RTC) Power. The surplus power during night hours/off peak hours gets sold at the prevailing short-term market rate/Power Exchange Rate/UI Rates which is much lower than the average power cost. In order to optimize the cost of power purchase, the Commission has advised the distribution utilities to explore the possibility of higher banking transactions to avoid purchase of peaking power for a short duration, so as not to burden the consumers with avoidable purchases of RTC power which entail the sale of off-peak surplus at very low rates under the mechanism of Unscheduled Interchange.
- 2.105 The Commission has already issued guidelines for short term power procurement which inter-alia includes provisions related to power purchase and sales from sister concerns. Most of the power for Delhi is purchased from Central Generating stations and State Generating Stations based on long term Power Purchase Agreements. The price of power supplied by Central/State Generating stations is determined by CERC/DERC. A small quantum of power is purchased in the short term to meet the peak demand. The Commission tries to ensure that the entire process for power purchase for Delhi is transparent. The Commission approves the cost of power procurement after prudence check.
- 2.106 The Commission had projected power purchase cost net of rebate as per the provisions of MYT Regulations, 2011 in which the power purchase cost should be allowed to the distribution licensee after considering maximum normative rebate available for each generating stations.

ISSUE 5: AT&C LOSSES

STAKEHOLDER'S VIEW

- 2.107 How can the collection efficiency be greater than 100% for DISCOMs?
- 2.108 Why has TPDDL proposed higher AT&C losses for FY 2017-18 as comparison to FY 2014-15

(actual)? External support may be taken from experts like IIT Delhi for reduction of interstate transmission losses.

- 2.109 The whole country T&D losses in China and US are in the range of 6-8%, while in Delhi only T&D loss is around 17%. Kindly clarify the reasons for such high losses.
- 2.110 Honest consumers should not be penalized by high tariff because of high power theft in some particular areas like Janta Majdur Colony, Jafrabad, and Seelampur etc. DISCOMs must deploy CRPF, CISF and Police forces to reduce the power theft.
- 2.111 In some areas of Delhi, DISCOMs itself indulge in power theft and supplying power to industrial consumer against guidelines.
- 2.112 E-rickshaws are indulging in rampant theft of electricity. Separate Charging points for E-rickshaws should be provided by DISCOMs and apply rates under commercial tariff category.
- 2.113 DISCOMs should do more load shedding, impose additional penalty and disallow subsidy benefits for areas which indulge in power theft.
- 2.114 Recovery from power theft and other benefit by reduction in losses should be passed to consumers instead of DISCOMs.
- 2.115 Target for AT&C losses set by DERC was soft to allow high incentive out of proposition with reality and effort made by License.
- 2.116 DISCOMs shows wide gap between energy input and energy billed, DISCOMs must clarify for the discrepancy.
- 2.117 Also TPDDL shows a considerable increase in energy input as comparison on other distribution companies, TPDDL must clarify the reason for such increase.
- 2.118 DISCOMs sold more energy but collected less amount against Commission approved sales and income.

PETITIONER'S SUBMISSION

TPDDL

- 2.119 As per the Regulation incentive upon overachievement of AT&C loss reduction targets is earned by the DISCOMs. With the overachievement of AT&C loss target and continuously improvement/growth in its network, TPDDL is able to generate profit on accrual basis.

Further it is clarified that fixation of tariff is done as per applicable Regulations/Rules/Judgments etc. and any accounting loss/ profit based on books of account of the DISCOMS has no impact on fixation of Tariff.

2.120 TPDDL in its Business Plan has given detailed reasons along with explanation why the Distribution Loss Level would increase in ensuing years. However, for easy reference the gist of main reason as given in Business Plan are as follows:

1. Impact of Open Access
2. Impact of Net Metering/ Solar Roof Tops
3. Change in Consumption Mix
4. Declining Enforcement collections
5. More Migration of Lower Income Class Families to Delhi
6. Issue of non-confirming Industrial clusters
7. Installation of Rooftop Solar

2.121 TPDDL is making all out efforts to curb theft and reduce AT&C losses and to come up to the expectations of the Consumers. Our Zonal and Enforcement Teams are on continuous vigil and whenever any such incidents are observed / reported, the defaulters are booked for Electricity Theft, as per the applicable law/s. Had such steps including curbing of theft not been undertaken, the AT&C losses would not have reduced to that extent and further, the tariff requirement would have been many fold higher than the existing tariff.

2.122 Police Support including CISF helps in curbing theft and hence, reduction in AT&C losses further. Any benefit accrued due to such AT&C loss reduction is passed on to the consumer and accordingly, cost of such Police Support/CISF should also be allowed in the ARR.

2.123 We have suggested a separate Tariff Category for E-Rickshaws in Tariff Rationalization Measures in our petition. Creation of Separate Tariff Category will help in ensuring charging of E- Rickshaw through Legalized Connections. We request Hon'ble Commission to consider it during Tariff Finalization.

2.124 It would be pertinent to mention that TPDDL has worked whole-heartedly and not only achieved these stiff AT&C loss targets but also over-achieved the target. It is also clarified that any loss on account of higher AT&C loss levels vis-à-vis the stipulated target is not

passed on to the consumers.

2.125 Also, now that AT&C losses in TPDDL distribution area are approaching acceptable minimum technical loss levels, as also brought out by the Hon'ble Commission vide its public awareness bulletin-2 published in Times of India on 24.4.2011, where-in it has been mentioned that technical losses are normally in the range of 8-12%, further decrease would be increasingly arduous and will involve high order of Capex investments due to application of law of diminishing returns.

2.126 Therefore, every incremental percentage decrease in loss will be extremely difficult in the case of technical losses and commercially unviable to secure in terms of human effort as well as capital investment. It may be appreciated that even to sustain AT&C losses at the present level is in itself a challenging proposition.

However, to sustain AT&C losses at the present level, Police Support including CISF helps in curbing theft and hence, reduction in AT&C losses further. Any benefit accrued due to such AT&C loss reduction is passed on to the consumer and accordingly, cost of such Police Support/CISF should also be allowed in the ARR.

2.127 TPDDL has already reached a very low AT&C loss level and sustaining such low AT&C loss levels is a big challenge in itself. There have been reported cases of other DISCOMs who after reaching such levels have bounced back by 2%-3%. Rather, the loss levels are expected to go up on account of other factors like Open access, Net metering/Solar roof top etc.

2.128 CEA is actively involved in interstate transmission planning. Power Grid in consultation with CEA, MoP and NLDC has already planned and executed transmission lines to achieve reliability with minimum losses. NLDC is already an expert body in this regard.

BYPL

2.129 The Petitioner's endeavour is always to minimize the loss on account of theft as it not only impact its revenue but also hamper its performance in terms of AT&C loss. We are pleased to inform that BYPL has brought down its AT&C losses by more than 50% since FY 2002. This has been achieved through various efforts put in by the Petitioner including theft control. In order to further reduce the losses and curb theft, the Petitioner has strengthened and streamlined its enforcement machinery along with the augmentation of requisite

infrastructure. Teams of enforcement officers are dedicated for the purpose of detection of theft and bringing to book the offending consumers. We have intensified our drive against those stealing power. A large number of power theft accused in BYPL has also been sent to jail for varying jail terms. However, contribution of our esteemed and honest consumers is always vital in further improvement of the system.

2.130 With regard to Stakeholder comment regarding the losses borne by the genuine consumers due to the theft in BYPL area, we would like to appreciate the concern of the stakeholder and would like to submit that Petitioner has already approached and appraised Hon'ble DERC in this regard on various occasions. The Petitioner has also approached task forces like Delhi Arm Police for curbing the losses.

2.131 It is also submitted that theft cases are billed at penal rates (two times the applicable tariff) in line with the provisions of the Electricity Act 2003. This not only serves as a strong deterrent for dis-honest consumers but also the additional revenue collected from all enforcement cases is taken in to account while determining the ARR of the petitioner.

We are pleased to inform that BYPL has brought down the AT & C losses in its distribution area by more than 50 % since FY 2002 and endeavour to further reduce the losses in future. However as regards the comment of the stakeholder to bring down the losses to 6 %, we humbly submit that it is in an ideal scenario and isolated from ground realities in the context of BYPL licensed area being densely populated old Delhi.

2.132 As regards the AT&C loss target of 18% for FY 2011-12, we submit that the issue was challenged by the Petitioner before ATE in Appeal no. 62 of 2012 which the Hon'ble ATE vide its judgment dated 28.11.2014 has disposed off directing the Hon'ble Commission to refix the AT&C loss levels for the FY 2011-12 as per its letter dated 8.3.2011 i.e. to the level of 21%.

2.133 Regarding subsidized tariff, Clause 9.1 of the MYT Regulations states that *any consumer desirous of getting subsidized tariff shall approach the State Government and if the request for subsidy is found justified, the State Government may give subsidy to that class of consumers so that these consumers get electricity at concessional tariff.*

2.134 Further, control of power theft needs active participation and support from all stake holders

including the Govt., the public representatives, Citizens, RWAs and NGOs reinforced with effective legal and enforcement framework.

- 2.135 We appreciate the concern of the esteemed stakeholder and believe that the Hon'ble Commission will appropriately consider the stakeholders concern.

BRPL

- 2.136 We appreciate concern on electricity theft by E rickshaw as most of them are charged through direct theft. Not only theft is severely impacting AT&C Losses of the Licensee but at the same time open conductors being used for such theft is exposing danger to human life and animals. We have communicated to the Hon'ble Commission regarding charging stations for E rickshaws. We trust, the Hon'ble Commission would give due cognizance to this aspect.
- 2.137 We appreciate comments relating to deployment of Police officials along with BSES Enforcement team. Given this background control of power theft needs active participation and support from all stakeholders including Electricity theft has been one of the most aggressively pursued agendas of the Company & internal objectives are being set and management performance will be measured and rewarded based on loss reduction. Given this background control of power theft needs active participation and Police support from the Govt. /Hon'ble Commission reinforced with effective legal and enforcement framework.

COMMISSION'S VIEW

- 2.138 There can be over-lapping in the revenue billed and revenue collected. The Distribution Licensees may not be collecting 100% amount of the revenue billed in respective year. In one particular year, there may be a case that the collection efficiency is 98%, and in another year the collection efficiency can be 101% due to under achievement of collection efficiency in the previous year. Therefore the under achievement of 2% in a particular year may get reflected into additional collection in subsequent year(s). However, the Commission has fixed the target of collection efficiency in Tariff Regulations, 2017 at 99.5%, and any under achievement below 99.5% is to the account of Distribution Licensee in the respective year.
- 2.139 The DISCOMs are given an incentive if the distribution losses are reduced below the target fixed. If the losses are more than the target fixed, the loss above the target fixed is fully to

the account of the DISCOMs. The targets every year are progressively decreasing and it is expected that DISCOMs will achieve them by putting in the extra efforts required. If the DISCOMs do not achieve the target, the financial impact will be to the account of the DISCOMs alone, and will get reflected in the true-up of ARR of the respective DISCOMs.

- 2.140 A detailed methodology for computing the target for distribution losses has been explained in explanatory memorandum issued by the Commission for the draft Business Plan Regulations 2017.
- 2.141 The Commission is of the view that Distribution loss is an inherent loss in the System which can be minimized up to the technical permissible limit, whereas the losses also include the theft which can be controlled by DISCOMs.
- 2.142 The details of actual incentive/disincentive given to the DISCOMs for over and under achievement of AT&C loss target are available in Chapter A3 (True up of ARR) of the respective tariff orders which are available at Commission website (www.derc.gov.in).
- 2.143 The Commission has been repeatedly emphasizing on the DISCOMs to step up their enforcement activities to reduce theft and control AT&C losses. The Commission is of the view that carrying out more load shedding in high loss/theft area is not an appropriate measure, as the honest consumers in these areas will also suffer without being on fault. The Petitioner should make all efforts to prevent theft of electricity by strengthening their enforcement activities without harassing the paying consumers.
- 2.144 The Commission is of the view that at present the E-rickshaws/Electric vehicles can be charged from any of the metered connections and the tariff shall be charged for that relevant category. Further, in case the E-rickshaws/Electric vehicles are charged at a charging station, then the Commission has specified separate tariff category in its schedule for FY 2017-18.

ISSUE 6: CONNECTED LOAD

STAKEHOLDERS' VIEW

- 2.145 What does Connected Load mean and how is it measured by the Distribution Company?
- 2.146 As DISCOMs consider maximum demand to increase the consumer's sanctioned load,

DISCOMs must also consider lowest demand during the year to reduce the consumers' sanctioned load and DISCOMs must refund the security deposit accordingly.

PETITIONER'S SUBMISSION

TPDDL

- 2.147 Delhi Electricity Supply Code and Performance Standards Regulations issued by Hon'ble Commission stipulates that "Connected load" means aggregate of the manufacture's rating of all energy consuming devices in the consumer's premises, which can be simultaneously used. This shall not include the load of spare plug, sockets, load exclusively installed for fire fighting purposes. Only heating or cooling apparatus shall be taken into account as per prevailing season (1st April to 30th September for cooling use and 1st October to 31st March for heating use).
- 2.148 Overhead expenses are allowed by the State Commission on normative basis and amount incurred over & above the normative limit, is to be borne by the DISCOMs only. Any disallowance over and above the normative level, shall not form part of regulatory assets.

BYPL

- 2.149 As per DERC Supply code & Performance Standards Regulations 2007, the definition of connected load is; "Connected load" means aggregate of the manufacture's rating of all energy consuming devices in the consumer's premises, which can be simultaneously used. This shall not include the load of spare plug, sockets, load exclusively installed for fire fighting purposes. Only heating or cooling apparatus shall be taken into account as per prevailing season (1st April to 30th September for cooling use and 1st October to 31st March for heating use)."
- 2.150 The Fixed charges collected on the basis of sanctioned load/ contract demand is part of the total revenue available towards meeting the ARR of the DISCOMS and hence is suitably considered while determining the Tariff.

BRPL

- 2.151 It is respectfully submitted that connected Load is the aggregate of the manufacture's rating of all energy consuming devices in the consumer's premises, which can be simultaneously used. This does not include the load of spare plug, sockets, load exclusively installed for fire

fighting purposes. Only heating or cooling apparatus are taken into account as per prevailing season (1st April to 30th September for cooling use and 1st October to 31st March for heating use). Sanctioned Load on the other hand is the contracted load opted by the consumer during time of activation.

- 2.152 Revision of Sanctioned Load: As regards revision of sanctioned load based on MDI readings, it is respectfully submitted that BRPL has been conducting this exercise both for upward as well as downward revision. However, it may be noted that as per the revision formula prescribed by the Hon'ble Commission, it is not mandatory that all consumer's load would be eligible for revision every year. Revision is only done in case a consumer's load is seen to be less or more than the highest average of 3 MDIs as noted in the previous financial year.
- 2.153 It is also noteworthy that that Hon'ble Commission has revised the norms of the MDI revision exercise vide the Third Amendment to the DERC Supply Code and Performance Standards Regulation 2007. The said amendment has been challenged under a writ petition before the Hon'ble High Court of Delhi and is presently sub-judice.
- 2.154 As regards the amount collected from Fixed Charges, the same goes towards meeting the total ARR / revenue gap. Any rationalization of fixed charges would need to be met through proportionate increase in energy charges meaning that the overall tariff for the consumer remains the same.

COMMISSION'S VIEW

- 2.155 As per the Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulations,

"Connected load" means aggregate of the manufacturers rating of all energy consuming devices in the consumers premises, which can be simultaneously used. This shall not include the load of spare plug, sockets, load exclusively installed for fire fighting purposes. Only heating or cooling apparatus shall be taken into account as per prevailing season (1st April to 30th September for cooling use and 1st October to 31st March for heating use).

- 2.156 As per the Delhi Electricity Regulatory Commission (Supply Code and Performance

Standards) 3rd Amendment Regulations 2016, the sanctioned load of the consumer is reviewed by the Distribution Licensee based on the highest average of any four consecutive months maximum demand readings rounded off to the lower integer. The Commission has also made the provisions in the Regulations for sending a notice to the domestic consumers by the Distribution Licensee, if reviewed load based on maximum demand readings is lower than the sanctioned load. The load is reduced after getting the consent from the consumer. If no consent is received from the domestic consumers having load upto 5 KW in the last billing cycle of the Financial Year, the load is reduced automatically by the Distribution Licensee. In case of load reduction the excess security deposit is refunded to the consumer in subsequent bills.

ISSUE 7: DISTRIBUTION INFRASTRUCTURE

STAKEHOLDERS' VIEW

- 2.157 As submitted in the petitions DISCOMs have a connected load of 22,958 MW which may be substantiated with respect to the infrastructure equivalent to connected load to deliver quality power to consumers. If the connected load is as such, why do DISCOMs fail to meet peak demand even after collecting connection charges, load charges and other charges applicable to connected load?
- 2.158 The EHV transformer capacity is 5,288 MVA and distribution transformer capacity is 4,400 MVA which appears high as comparison to estimated maximum demand of BRPL during the year is 2,500 MW or 2,777 MVA. DISCOMs should clarify on this.
- 2.159 The no. Of DTs are 7,385 which lead to 22,048 LT feeders i.e. 3 feeders per transformer. DISCOMs must provide reason behind such low ratio.
- 2.160 As per Govt. order, why do DISCOMs need to buy 2.5 lacs smart meters which form part of ARR expenditure without any upliftment of the transmission and generation system?
- 2.161 DSIIDC collects development charges from the consumers and also demanding TPDDL to provide all facilities in the area for the same work, such TPDDL work considered as expenditure under ARR. Please stop misuse of consumer's fund.
- 2.162 DISCOMs must do proper equipment and material procurement planning so that it will not

burden end consumers.

- 2.163 East Delhi DISCOM should be allowed more capex in comparison to other areas as East Delhi is densely populated which leads to difficulty in upgradation of distribution system.
- 2.164 Commission should allow interest cost on funds raised by DISCOMs for system augmentation and strengthening so that consumers will get uninterrupted power supply in future. DISCOMs should be allowed to incur higher OPEX/CAPEX to ensure good services to Consumers and the allowed CAPEX are bases on the DISCOMs consumer base & service area.
- 2.165 Commission should not allow North DMC demand of Rs. 75,162/sqm of land for underground cabling.
- 2.166 Disallowed higher cost of equipment purchased from REL should not be reviewed.
- 2.167 DTL sought money for upliftment of transmission system but still the consumers face load shedding, Commission must do prudence check of audit report submitted by DTL for their expenditure.
- 2.168 DISCOMs are not resolving issues of broken electricity pole even after complaining multiple times.
- 2.169 Commission should do physical verification of DISCOMs assets on yearly basis instead of lapse of multiple years so that the benefits should be passed to consumers as early as possible.
- 2.170 How Commission has calculated the operational expenses of DISCOMs on the basis of installed capacities in absence of physical verification?

PETITIONER'S SUBMISSION

TPDDL

- 2.171 We would like to clarify that TPDDL system did not fail at peak load seen by our network. Rather we have successfully met the peak demand of 1852 MW even in May 2017. Direct correlation between peak load & installed capacity may not accurately depict the true picture as different categories of consumer's face peak loads at different timings. Also, the capacities are planned keeping in mind the requirement of N-1 for providing redundancy in the network.

2.172 The Hon'ble Commission through Supply Code and Performance Standard issued from time to time has mandated that in area's sponsored by a developer, the electrification shall be carried out by the Licensee on payment of the applicable cost up to the point of supply by the developer towards EHT system, HT system, LT system, civil work, service line, street lights, road restoration charges, and supervision charges, as specified in the Commissions Orders. The Electrification of DSIIDC areas is being carried out as per of Hon'ble Commission. Currently due to Load Growth in DSIIDC Area, few projects are planned by TPDDL to cater to new load in line with overall infrastructure requirement. Demand for same has been raised to DSIIDC for payment. Continuous follow up is being done with DSIIDC management for payment.

However due to above non-payment by DSIIDC, several connections in Bawana and J& F Block Narela are on hold due to non-availability of margin in existing grids and 11 kV N/w.

2.173 TPDDL welcomes the observation of consumer and requests to the Hon'ble Commission to approve the higher OPEX in view of the stringent norms of operational / performance standards in Supply Code Regulation.

BYPL

2.174 Infrastructure at consumer level i.e. capacity of service cable and meter is suitable for sanctioned load of consumer. Infrastructure of upstream network is designed by taking "Diversity Factor" of load into account. Diversity factor is the ratio of peak load to sanctioned load i.e. "Peak load of System/Sum of Individual Peak (Sanctioned) Loads". This is done due to the fact that all the consumers could not be able to use its full capacity of connected load at the same time for example a Domestic consumer may be able to use its full connected load during the night time when other non domestic consumers (including DMRC, Shops, Shopping Mall, offices etc) is not able to utilize even its 1% of the total connected load.

2.175 It is denied that the system of DISCOMs failed to meet the Peak load. DISCOMs were successfully able to meet the peak load of 6261 MW in FY 2016-17. BYPL always strived to meet the demand of all of its consumers but due to the constraints on account of Transco/PGCIL/ Northern Grid/ or the season constraints or the cable broke while digging land by other utilities like MCD, DJB, PWD etc the supply to the consumer forced to stop. In terms of

the Tariff Regulation DISCOMs are allowed to recover O&M expenses as determined by the Hon'ble Commission on normative basis. Any controllable expenses over and above the normative expenses are borne by the DISCOMs. Hence, there is no direct correlation of increase in expenses based on connected load.

2.176 We submit that for schemes which require augmentation of network by employing additional assets, BYPL submit scheme wise details to Hon'ble Commission before capitalization of the scheme. Hon'ble Commission after due prudence check approves the scheme and thereafter DISCOMs put any asset to use for the respective schemes. Therefore assets are added only when there is approval from the Hon'ble Commission based on future requirements.

2.177 BYPL would like to submit that capital expenditure done by company is subjected to the scrutiny and approval process of the Hon'ble Commission.

2.178 At the very outset we appreciate the concern of our esteemed stakeholder regarding services provided by the DISCOMs. The concern raised by you is rational and would decide the standard of performance and quality of services being served by the DISCOMs. Your concern that in East Delhi there is no much scope for Capital investment is very genuine. Further, we would like to apprise you that as per Draft DERC Business Plan Regulations, 2017 Operation and Maintenance expenses are linked to capital assets. As factually mentioned by stakeholder East Delhi has limited scope for capex due to space congestion and relatively high consumer density, the quality of services will depend upon O&M expenses being incurred for technological up-gradation, Customer service improvement, training of O&M staff, repair and maintenance work, etc.

2.179 The Petitioner submits that the Hon'ble Commission has already initiated the process for physical verification of assets upto FY 2015-16. Further, the Hon'ble Commission in the Draft Business Plan Regulations '2017 has proposed physical verification on quarterly basis.

BRPL

2.180 The load of 10319 MW is actually the petitioner's total sanctioned load and not the connected load although conventionally, these two terms have been used interchangeably in the ARR Petition.

Also, it needs to be appreciated that actual load drawn from the grid is never even close to the combined sanctioned load and is significantly lower. Therefore, if we lay an infrastructure capable of meeting 10319 MW, the same would be a severe waste as most of the capacity will lie idle most of the time. Moreover, infusion of so much Capex will result in significantly higher tariffs for consumers and increase their burden.

This is the reason, why Hon'ble DERC allows Capex on simultaneous maximum demand instead of Connected Load or Sanctioned load. In the event, a transformer is continually loading more than 80% of its capacity (which represents Simultaneous maximum demand), we send a proposal to the Hon'ble Commission for up gradation of the same. Hon'ble Commission, after technical validation may approve the same only after which the scheme is executed to meet the increased demand.

- 2.181 As regards the report of ASCII on physical verification of assets, the Petitioner is unable to comment as the report has not been shared by the Hon'ble Commission with DISCOMs. Further the Hon'ble Commission appointed M/s Feedback Ventures Limited as consultant for physical verification of assets. The Petitioner has already provided all information to the consultant and has extended its cooperation in completing the physical verification of assets.

COMMISSION'S VIEW

- 2.182 The Capital Expenditure is allowed to the Utilities on the basis of peak load and not Connected Load or Sanctioned load. System augmentation by way of replacement, repairs and maintenance is a continuous exercise. The Commission has also issued the Capital Investment Guidelines to be followed by the utilities. Capital expenditures are approved after adequate technical validation based on which the Utilities are required to meet the increased demand for load.
- 2.183 The Distribution Licensees have to plan their network based on the peak load and to maintain the N-1 criteria for maintaining the reliable power supply. The Commission has directed Petitioner for restricting the outages so that they do not exceed 1% in its area. Direct correlation between peak load & installed capacity may not accurately depict the true picture as different categories of consumer's face peak loads at different timings and there is

always a diversity factor.

- 2.184 The Commission in first phase has approved installation of Smart Meters for connections having monthly consumption of 500 units and more in line with the revised National Tariff Policy issued by Ministry of Power dated 28.01.2016, which specifies that the appropriate Commission shall mandate smart meters for:
- i Consumers with monthly consumption of 500 units and more at the earliest but not later than 31.12.2017;
 - ii Consumers with monthly consumption above 200 units by 31.12.2019.
- 2.185 The electrification of an area sponsored by the developer such as DSIIDC is carried out by the Licensee on payment of the charges as notified in the applicable Supply Code Regulations.
- 2.186 The Commission has taken up the matter with GoNCTD to review the charges claimed by North DMC. The North DMC has reduced the way leave charges from Rs. 75162 to Rs. 684 per running meter.
- 2.187 Finalization of Capital Expenditure and Capitalisation of the DISCOMs is under process. Pending completion of True up exercise for capitalisation, the Commission has approved the capitalisation on provisional basis so that the future consumers are not burdened with past costs.
- 2.188 The normative unit rates of O&M expenses for distribution lines have been worked out on per circuit KM length of distribution lines and on per MVA transformation capacity basis for the sub-stations. These rates have been derived from data furnished by DISCOMs in respect of the audited O&M expenses for FY 2011-12 to FY 2015-16 and total length of distribution lines in circuit KM length & total MVA transformation capacities installed in the respective financial years. The variation in the network capacity if any found based on the physical verification shall be dealt appropriately.

ISSUE 8: O&M EXPENSES

STAKEHOLDERS' VIEW

- 2.189 TPDDL Petition shows increase in employee expense and R&M expense for FY 2014-15 & FY 2015-16, DISCOMs must clarify the reason for the same.

- 2.190 Employees appointed post privatisation cannot be treated at par with the DVB employees, salary and allowance should not be allowed as per 6th & 7th pay Commission for such employees.
- 2.191 Reason for TPDDL showing increase in employee expense and R&M expense for FY 2014-15 & FY 2015-16 in its petition may be provided.
- 2.192 Explanation for “Other adjustment” component given in True-Up Petition for FY 2015-16 may be provided.
- 2.193 DISCOMs should keep more efficient staff and provide regular training to their contractual staff.
- 2.194 Commission should allow sufficient O&M expenses to the DISCOMs so that they can spend properly on technology upgradation, customer service improvement, training of staff, carrying R&M work etc.
- 2.195 Please provide the reason to allow legal expenses to TPDDL for fighting the cases against DERC Orders.

PETITIONER’S SUBMISSION**TPDDL**

- 2.196 O&M expenses are allowed on normative basis by the Regulator for the day to day operations, preventive as well as corrective maintenance of the network, direct consumer related expenses of billing and collection expense, for meeting the stringent performance guidelines etc. Any O&M expense over and above to the normative level is to the account of DISCOMs.
- 2.197 Detailed rationale along-with the computation of revised employee expenses has been given in the True up Petition. Also, detailed rationale i.e. non-truing up of capitalization in previous years and revised computation of k-factor along-with computation of R&M expenses has been given in the True up Petition.
- 2.198 Adequate and suitable operational training including safety training is given to all employees (including contractual employees).

It may please be noted that overhead expenses in TPDDL are incurred prudently after duly

considering the overall interest/benefit of the Consumers, to meet the operational target (AT&C Loss Level), Stringent target level of performance standards and overall growth of power sector in Delhi. Overhead expenses are generally in operating nature for day to day running of operations.

- 2.199 Legal expense is part of normative O&M expense; hence any amount incurred over and above normative levels is to the account of utility and not adversely affecting to the consumers.

BYPL

- 2.200 We would like to apprise the stakeholder that BYPL often schedules training program for skill improvement of its O&M staff as it would help consumers get better services from the Licensee. We always strive best of the services to our consumers.

BRPL

- 2.201 No Response

COMMISSION'S VIEW

- 2.202 The Commission exercises prudence check on the expenses that are incurred or allowed to be incurred by the Utilities for approval of O&M expenses during a control period. O&M expenses are a controllable parameter in terms of DERC (Terms & conditions for Determination of Tariff) Regulations, 2017, and any surplus or deficit on account of O&M expenses shall be to the account of the Licensee and shall not be trued up in the ARR.
- 2.203 The Commission while determining the norms for O&M expenses in its Business Plan Regulations, 2017 have disallowed the legal expenses.

ISSUE 9: POWER FOR SELF CONSUMPTION

STAKEHOLDER'S VIEW

- 2.204 Power consumed by DISCOMs are credited at zero price for the period 2002-2012, does this expense is a part of ARR or free power under any provision of EA 2003 or Distribution agreement between DISCOMs and Govt. Does DISCOMs pay 5% ED on self consumption power bill and is this a part of ARR or not.
- 2.205 DISCOMs in petition mentioned that units for self consumption are wrong due to human

error, how consumers can trust DISCOMs on consumers billing accuracy. DISCOMs must clarify the matter.

2.206 DISCOMs must be restricted to 0.25% of the sale as self consumption.

2.207 There should not be any provision to provide free electricity to DVB Employees, also provide us with the break-up of how much percentage of electricity bills is accountable to such employees.

PETITIONER'S SUBMISSION

TPDDL

2.208 Based on the directive given by the Hon'ble Commission in its Tariff Order, DISCOMs avail credit at zero tariff up to normative limit of own consumption. Over and above the normative own consumption limit, DISCOMs has to pay at non-domestic tariff.

2.209 DISCOMs collect Electricity Tax of 5% on behalf of Municipal Corporation and then, reimburse the same to Municipal Corporation, after collecting the same. It is worth to mention that any applicability of electricity tax on own consumption of DISCOMs would ultimately increase the ARR.

BYPL

2.210 No Response

BRPL

2.211 As regards self-consumption it is submitted that own consumption in the electricity distribution business is of the following nature

1. Auxiliary consumption in the 66/33 KV/ 11 KV Substations. Such consumption is similar to the auxiliary consumption of Generating Stations.
2. Auxiliary consumption in offices which are responsible for operational maintenance of the distribution network. This type of consumption is similar to the office consumption in any Generating Station or transmission Utility.

2.212 All such consumption is allowed as essential integrated activity for any Generation, Transmission or Distribution Utility. Presently, the energy meters installed for accounting of energy consumption at the premises of the petitioner are read and billed on monthly basis. The own consumption is billed at zero rates only up to a predetermined limit specified by the

Hon'ble Commission and accounted for accordingly in the books of the company.

- 2.213 We also understand that the practice of allowing own consumption at zero tariff was prevalent even prior to the privatization of the Delhi DISCOMs and has also been approved by the Hon'ble Commission. BRPL being one of the successor entities has been continuing the practice after privatization. Nevertheless, Hon'ble Commission has now imposed a cap on the quantum of own consumption which can be availed at zero tariff

COMMISSION'S VIEW

- 2.214 The Commission has already given directive to the DISCOMs to provide appropriate meters to record electricity consumption every month in the substations, offices, collection centres etc related to own consumption of the DISCOMs. Furthermore, in order to promote conservation of energy under Own Consumption, the Commission has fixed norms for Own Consumption based on total sales during the year. Any excess consumption beyond norms are charged as per applicable tariff categories, which shall not be allowed to be passed on in ARR of the Petitioner.
- 2.215 DISCOMs levy applicable electricity duty on the consumption which is over and above the normative consumption. O&M expenses are controllable expenses and are allowed on a normative basis. The electricity consumed forms part of the normative O&M expenses and thus there should not be any additional impact on the ARR of the DISCOMs.
- 2.216 At the time of unbundling, service conditions of the DVB employees had been protected through a Tripartite Agreement between GoNCTD, employees association, and resultant entities, wherein it was decided that DVB employees shall be entitled for subsidized rate of electricity as per their entitlement before unbundling.

ISSUE 10: DEPRECIATION

STAKEHOLDERS' VIEW:

- 2.217 Commission is requested to disallow 16% depreciation requested by DISCOMs and must do prudence check before allowing depreciation. DISCOMs must share the details of the assets guarantee period.

PETITIONER'S SUBMISSION**TPDDL**

2.218 No Response.

BYPL

2.219 No Response.

BRPL

2.220 No Response.

COMMISSION'S VIEW

2.221 The Depreciation rates have been determined asset wise and there is no flat 16% Depreciation rate. Depreciation rates are specified in the MYT Regulations and Appendix-1 of the Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017 and are accordingly allowed in the ARR of the Utilities.

ISSUE 11: OTHER INCOME**STAKEHOLDER'S VIEW**

2.222 Revenue from street lighting maintenance, consulting and LPSC must be considered as DISCOMs' income.

2.223 Income from consultancy is not included as income in total income but the expenses is included in the total expenses so my point is either includes both or exclude both.

2.224 Please explain short term gains.

PETITIONER'S SUBMISSION**TPDDL**

2.225 No Response.

BYPL

2.226 The Petitioner charged LPSC proportionate to the number of days of delay and not on flat basis. The methodology of charging LPSC proportionate to the number of days of delay leads to recovery of only financing cost of LPSC for the delay in payment and not on flat basis. However the Hon'ble Commission without referring to its direction for change in charging of LPSC continued with the earlier methodology which was utilised for computation of

financing of LPSC till FY 2012-13. Such treatment has actually resulted in allowance of financing cost of LPSC at much lower rate.

As per DERC Tariff Regulations, 2011, the methodology of computation of revenue realisation for the purpose of computation of AT&C Loss has been changed and LPSC is no longer being included as a part of revenue realisation for computation of AT&C Loss from FY 2012-13 onwards. Since the methodology for computation of AT&C Loss has been changed, the Petitioner ought to be allowed entire LPSC instead of financing cost of LPSC.

It is further submitted that concept of financing cost of LPSC is based on the principle that the Petitioner will fund the amount delayed through loans whereas, it is practically not possible to arrange for the funding of such delayed payment as the Petitioner does not know in advance as to which consumer will pay the bill on deadline and which consumers will not pay the bill on deadline. The process of raising loans for funding any expenditure is time taking process and therefore, in case of any default on part of consumers to pay electricity bills in time, the Petitioner has to face the following penalties as per the MYT Regulations 2011:

- a) Penalty on account of under-achievement of AT&C Loss: As per DERC MYT Regulations, 2011, the AT&C Loss Target has been categorized as controllable parameter. In case of any under-achievement of AT&C Loss, the Hon'ble Commission levies penalty on the Petitioner irrespective of the fact that the default in collection efficiency is on account of consumers.
- b) Penalty in repayment of Loans: In present scenario, the Petitioner is not operating in business as usual situation. Apart from normal capex loan and working capital loan, the Petitioner is required to fund huge amount of regulatory assets and the revenue gap during the year on account of variation between the estimated ARR and actual ARR. In such a situation any default in payment of billed amount put financial constraints on the ability of the Petitioner to efficiently discharge its debt obligations. As a result the Petitioner has to face penalty on account of delay in repayment of loans which is not being passed in the ARR.
- c) Penalty by Generators: Generators levy penalty of 1.5% per month in case of non-payment of dues within time.

The Commission neither allows the amount nor financing cost on account of these penalties. These penalties are entirely borne by the Petitioner.

However the penalty paid by the consumers on account of the delayed payment is not being allowed to the Petitioner and only financing cost on such delayed payment is being allowed.

- 2.227 The Petitioner would like to submit that Short term gain is on account of interest received on fixed deposits maintained by the Petitioner as margins for loans raised. These fixed deposits have been created for the purpose of debt service reserve account (DSRA) required meeting debt service obligation.

BRPL

- 2.228 No Response.

COMMISSION'S VIEW

- 2.229 In the event a Licensee engages in any other business for optimization of the assets, any income arising out of such engagement is liable to be treated as other business income of the Licensee as per Delhi Electricity Regulatory Commission (Treatment of Income from Other Business of Transmission Licensee and Distribution Licensee) Regulation, 2005. As per the applicable Regulation, the Licensee shall retain 20% of the revenues arising on account of Other Business and pass on the remaining 80% of the revenues to the regulated business owing to use of the assets used for power distribution which is the main function of the Licensee. Further, as per the provisions of DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017, 80% of the net revenue accrued from other business shall be adjusted in the ARR of the relevant year.

ISSUE 12: APTEL DIRECTIVES**STAKEHOLDER'S VIEW**

- 2.230 Commission must follow the APTEL orders and implement the same to prevent the carrying cost.

PETITIONER'S SUBMISSION**TPDDL**

- 2.231 Timely Implementation of APTEL orders by the Commission is in overall consumer interest

and it will prevent carrying cost burden on consumers. Hon'ble APTEL has observed in its judgments that its judgment, orders are to be implemented promptly, in cases, where its judgments have been passed and no stay order has been granted by Hon'ble Supreme Court. Even the mere pendency of an appeal against APTEL judgment is not an excuse for its delay in implementation or non-implementation.

BYPL

2.232 No Response

BRPL

2.233 As regards the judgments and directions of the Appellate Tribunal, it is submitted that the Commission is a quasi-judicial body under the Electricity Act, which is bound to follow the orders and directions of the Appellate Tribunal. The principle of judicial discipline and propriety calls for implementation of the Appellate Tribunal's orders by the Commission in true letter and spirit.

COMMISSION'S VIEW

2.234 The Commission considers all the judgement / Orders passed by the Hon'ble APTEL / High Court / Supreme Court while exercising the prudence check for finalisation of ARR of the Petitioner. Further, the issues decided by the Hon'ble APTEL, in which there is no stay by the Hon'ble Supreme Court or review / clarification application pending before Hon'ble APTEL, are implemented by the Commission.

ISSUE 13: REGULATORY ASSET & PAST PERIOD CLAIMS**STAKEHOLDER'S VIEW**

2.235 DISCOMs must give details about their regulatory asset, till date.

2.236 Commission may request Govt. for funding of regulatory asset under UDAY scheme, as it is financial burden on general consumers.

2.237 Regulatory assets should be liquidated in the time bound manner to remove the burden on consumers.

2.238 8% surcharge was allowed to DISCOMs to recover regulatory assets still after lower fuel cost, lower power purchase cost and bailouts, DISCOMs have huge regulatory assets.

- 2.239 8% surcharge should be removed.
- 2.240 Regulatory Assets projected by DISCOMs are incorrect. Petitioner has failed to furnish true / correct statement of accounts, revenue gap, etc.
- 2.241 Commission should bring some mechanism on recovery of regulatory asset and to check whether DISCOMs have borrowed fund.
- 2.242 Rate of carrying cost should be in line of SBI PLR.
- 2.243 Is there any proposal in Commission to provide financial aid to DISCOMs so that they will not face any power regulation notice in future?
- 2.244 Penalty charges against the regulated power should not be part of ARR and DISCOMs must bear the cost of this.
- 2.245 Commission should allow appropriate tariff and past recoveries so that DISCOMs can lend loans from Financial Institutions at lower interest rate. DISCOMs are unable to strengthen their system as Commission disallows lending money at higher interest rate.
- 2.246 Please explain Syndication Fees and borrowing costs.

PETITIONER'S SUBMISSION**TPDDL**

- 2.247 Regulatory Assets of Rs. 7,665.92 Cr. at the end of FY 2015-16, being the year for which truing up is required to be done in current tariff petition, as estimated by TPDDL subject to prudence check of the Commission.
- 2.248 The Commission has brought into effect a mechanism for dealing with regulatory assets. However any such funding as suggested in this stakeholder comment may be extended to Delhi DISCOMs, which would be welcome and in overall consumer interest.
- 2.249 We agree with the comment of stakeholder and even National Tariff Policy mandates the same. The Commission has brought into effect a mechanism for dealing with regulatory assets. Even in past, DISCOMs have been advocating at various Forums for time bound recovery of Regulatory Assets.
- 2.250 Any such funding as suggested may be extended to Delhi DISCOMs, would be welcome and in overall consumer interest.

BYPL

2.251 In this regard it is submitted that the Petitioner is in severe financial conditions due to time lag in recovery of Regulatory Asset, non-implementation of ATE judgments which are in favour of the Petitioner and non-cost reflective tariff. We would like to submit that BYPL from time to time has been drawing the kind attention of the Commission regarding precarious financial crisis faced by it in the absence of cost reflective tariff and time bound recovery of accumulated Regulatory Asset.

In the past there has been a wide gap between DERC projections in the Tariff Order and the actual expenses of DISCOMs resulting in creation of Regulatory Assets. The Appellate Tribunal for Electricity has also raised serious concern on the rising Regulatory Assets and deferment of legitimate expenses of DISCOMs by DERC through improper projections.

This huge un-recovered Regulatory asset is severely impacting the financials of the Company leading to the precarious financial position. DISCOMs have so far sustained operations by funding the Regulatory Assets through heavy Bank Borrowings. However, this trend is detrimental to the Power Sector Reforms in the state of Delhi. The Commercial Banks have already stopped extending additional loans to the DISCOMs which has further limited the financial capability to procure power to meet the Demand.

The Revenue Gaps will be further compounded with similar gap in the future years making it impossible for the Petitioner to sustain its power supply obligations. Further, it is also hampering the ability of the Petitioner to implement the capital expenditure plan and is limiting its capacity to borrow funds because of precarious financial position.

It would be pertinent to mention that the accumulation of huge regulatory assets is not only against the provisions of the Electricity Act, 2003, National Tariff Policy, MYT Regulation and various directions of the Appellate Tribunal for Electricity, but also against the public interest as it further impacts the tariff by adding the carrying cost. Hence, Commission should evolve some remedy for amortization of the Regulatory Assets in a time bound manner such that it neither cripples the DISCOMs nor the consumers.

2.252 We agree with the stakeholder's suggestion that the benefits of Government schemes like

UDAY should also be extended to Delhi DISCOMs and the consumers of Delhi should not be deprived of such benefits just because they are being served by private DISCOMs. Commission may issue suitable advice to the Delhi government for taking up the matter with Central Government in the interest of both the DISCOMs and consumers.

- 2.253 We appreciate the concern raised by the esteemed stakeholder regarding financial viability of the Petitioner. In this regard it is submitted that the Petitioner is in severe financial conditions due to time lag in recovery of Regulatory Asset, non-implementation of ATE judgments which are in favour of the Petitioner and non-cost reflective tariff. The Petitioner is making every effort to pay outstanding dues of Genco's but due the reasons mentioned above which are not in control of the Petitioner, results in shortfall of dues for some of the Genco's. The same leads to notice by the Genco's. The root cause for notice has been mentioned above which are beyond the control of the Petitioner.
- 2.254 We appreciate the concern of Stakeholder regarding reduction in higher interest cost. Due to the high regulatory asset and various factors such as credit rating, bench marking and other relevant matters such as risk free return, risk premium, prime lending rate etc., It is difficult to get the required interest rate from banks. However petitioner has approached Commission and taken various steps for curbing the higher rate of interest.
- 2.255 It is submitted that Petitioner has had to take huge loans to finance its Regulatory Assets. For the purpose of availing such loans, the banks in the ordinary course of its business have charged various bank charges. These charges are called syndication fees. Additionally, the lead bank in a consortium of lenders charged syndication fee which is ad valorem to the quantum of the syndication.
- 2.256 We appreciate the concern of stakeholder regarding the UDAY and RPDRP Scheme and we would like to submit that benefits of Government schemes like UDAY and RPDRP should also be extended to Delhi DISCOMs and the consumers of Delhi should not be deprived of such benefits just because they are being served by private DISCOMs. Commission may issue suitable advice to the Delhi government for taking up the matter with Central Government in the interest of both the DISCOMs and consumers.
- 2.257 Carrying Cost - The Petitioner submits that the Commission in previous tariff orders has over

and over fallen short of providing a cost reflective tariff to DISCOMs. The deferment of recovery of expenses incurred in the previous years has forced Delhi DISCOMs to resort to heavy borrowings, which has reached unsustainable levels. As regards the rate of carrying cost, the petitioner has claimed the rate of funding of Regulatory Asset based on its actual cost of funding of RA.

- 2.258 The Commission in the Tariff Regulations'17 has provided rate of interest as bank rate as on 1st April of the year plus the margin as approved by the Commission. Bank rate is defined as Base rate or MCLR or any other Benchmark rate as notified by SBI. The Commission has linked interest rate on long term borrowings to MCLR or any other benchmark. If the MCLR falls, interest rate allowed by DERC will also decrease.

BRPL

- 2.259 The total accumulated regulatory asset is Rs.16335 crore till FY 2016-17 for BRPL.
- 2.260 It is submitted that the comments pertain to the Commission and therefore the licensee would not be in a position to respond to the same. However, it is noteworthy to mention that the creation of regulatory assets is not beneficial to either to the licensee or to the consumers. The creation of regulatory assets is detrimental to the interest of the sector also. It further defies object and intent behind the Electricity Act and also against the Tariff Policy.
- 2.261 It is also relevant to say that uninterrupted power supply, upgraded power system infrastructure and the quality and reliability of power supply hugely depends upon the financial health of the DISCOMs, which can only be ensured with the determination of tariff which is cost-reflective tariff and covers all the legitimate claims of the DISCOMs.
- 2.262 As far as bail-out package is concerned, it is up to the Commission to issue Statutory Advice to the Government in this regard under the provisions of the Electricity Act. It is further submitted that the grant of subsidy to any consumer is the prerogative of the State Government under Section 65 of the Electricity Act, 2003.
- 2.263 As regards levying of surcharge @ 8% of tariff, the Petitioner would like to submit that the Aggregate Revenue Requirement (ARR) is calculated on a consolidated basis for all consumers and not for a particular consumer. The Commission in its Tariff Order dated July 31, 2013 has stated the following:

“2.24 The Commission is of the view that DMRC has already been considered under a special tariff category in view of the essential services being provided to common consumers of Delhi. The Commission has levied a surcharge for the recovery of revenue gap so that the burden of carrying cost may be mitigated. Further efforts are being made to analyze tariffs and bring them to cost to serve basis.”

2.264 It is a matter of fact that in absence of cost reflective Tariff, huge Regulatory Assets has been created. The Commission itself has recognised Regulatory Assets of Rs. 5206 Crore upto FY 2011-12 in Tariff Order dated July 31, 2013. The Commission has acknowledged the fact in past Tariff Orders and press releases that in absence of cost reflective Tariff; huge Regulatory Assets has been created.

2.265 Further in order to recover the Regulatory Assets, the Commission has determined surcharge of 8% along with the reasons for the levy of the same which is reproduced below:

“2.191 For meeting the carrying cost of the revenue gap till FY 2010-11 and liquidation of revenue gap, the Commission had decided to introduce a surcharge of 8% over the revised tariff in tariff order dated July 13, 2012 and appropriate surcharges shall be considered by the Commission in FY 2013-14 also to reduce the burden of carrying cost on the consumers of Delhi.

5.28 For meeting carrying cost of the revenue gap till FY 2013-14, the Commission has decided to continue the existing surcharge at 8% over the revised tariff. The Commission in consultation with GoNCTD shall evolve a reasonable schedule for liquidation of revenue gap which will be fair to all stakeholders.”

2.266 It is noteworthy to mention here that the surcharge of 8% is not even enough to recovery the carrying cost borne by the Petitioner for funding the Regulatory Asset. The Commission has also recognized this fact in its statutory advice dated Feb 1, 2013 that not only have tariffs increased significantly in the last 2 years, but the residual revenue gap has also built up to alarming levels. A fuel surcharge was levied in addition to the said tariff increase. Further, in a time span of less than a year, w.e.f. 1st July 2012, a tariff hike of 23% was announced with an additional surcharge of 8% in order to start recovery of accumulated

shortfall. However, this surcharge has not made any significant dent in reduction of accumulated shortfall as it has mainly contributed towards meeting the carrying cost of the accumulated shortfall.

2.267 Hence the Petitioner has prayed before the Commission for a cost-reflective tariff with appropriate recovery of principal amount of Regulatory Asset along with the carrying cost which will ensure uninterrupted and quality supply of power and financial viability of the Utilities.

2.268 The Petitioner limits its comments to the issue of accumulation of huge regulatory assets (arrears). It may kindly be noted that creation of Regulatory Assets is against the provisions of the Electricity Act, 2003, National Tariff Policy, MYT Regulations and various directions of the Appellate Tribunal for Electricity all of which envisage cost-reflective tariff be allowed to distribution licensees so that the licensees have sufficient working capital to pay off their power purchase bills and fulfil other statutory obligations.

2.269 The National Tariff Policy dated January 28, 2016 however, specifies that regulatory assets may be created under exceptional circumstances. The relevant provisions read as under:

“8.2.2 The facility of a regulatory asset has been adopted by some Regulatory Commissions in the past to limit tariff impact in a particular year. This should be one only as a very rare exception in case of natural calamity or force majeure conditions and subject to the following:

- a. Under business as usual conditions, no creation of Regulatory Assets shall be allowed;*
- b. Recovery of outstanding Regulatory Assets along with carrying cost of Regulatory Assets should be time-bound and within a period not exceeding seven years. The State Commission may specify the trajectory for the same.”*

2.270 However, now that huge accumulated RA has been created for the Petitioner, it is imperative that the same is liquidated as early as possible as envisaged in the National Tariff Policy. Such time bound liquidation of regulatory assets is not only in the interest of the Petitioner DISCOMs, but also in the interest of consumers who are presently bearing huge interest burden as carrying cost.

It may also be noteworthy to mention that DERC in its Statutory Advice to GoNCTD dated 01.02.2013 had held as under:

“9. ... Further, in a time span of less than a year, w.e.f 1 July, 2012, a tariff hike of 23% was announced with an additional surcharge of 8% in order to start recovery of accumulated shortfall. However, this surcharge has not made any significant dent in reduction of accumulated shortfall as it has mainly contributed towards meeting the carrying cost of the accumulated shortfall.”

- 2.271 Furthermore, the Petitioner would like to submit that the matter of Regulatory Assets is sub-judice before the Hon’ble Supreme Court of India in W.P. No. 104 & 105 of 2014.
- 2.272 As regards the issue of tariff and financial help, we would like to state that the determination of electricity tariff to be charged from a category of consumer is the prerogative of the Commission, under Section 45 of the Electricity Act, 2003.
- 2.273 As regards the issue of tariff and past recoveries are concerned, we would like to state that the determination of electricity tariff to be charged from a category of consumer is the prerogative of the Commission, under Section 45 of the Electricity Act, 2003.
- 2.274 We appreciate comments relating to good work and performance by the DISCOM. We further appreciate concern pertaining to Uday Schemes, etc.; however it is upto the Commission to issue Statutory Advice to the Government under the provisions of the Electricity Act.

COMMISSION’S VIEW

- 2.275 Recovery of accumulated revenue gap, Regulatory Asset as envisaged in clause 8.2.2 of Tariff policy is as under:
- a) Carrying cost of Regulatory Assets should be allowed to the utilities.
 - b) Recovery of Regulatory Assets to be time bound and within a period not exceeding three years at the most, preferably within the control period.
 - c) The use of the facility of Regulatory Assets should not be retrospective.
 - d) In case when Regulatory Asset is proposed to be adopted, it should be ensured that the ROE should not become unreasonably low in any year so that the capability of licensee to

borrow is not adversely affected.

- 2.276 The Hon'ble Appellate Tribunal for Electricity (APTEL) has also reiterated the above policy in its judgment dated 11.11.2011 (OP 1 of 2011).
- 2.277 The Commission is guided by the National Tariff Policy and in accordance with the Hon'ble APTEL judgment and has allowed carrying cost to DISCOMs. For liquidation of the past accumulated revenue gap, the Commission introduced a surcharge of 8% over the revised Tariff, in tariff order dated July 13, 2012, and has been revising tariff every year to a reasonable level to provide additional revenue to DISCOMs and also to reduce the burden of carrying cost on the consumers of Delhi.
- 2.278 The build-up of the revenue gap commenced in 2009-10 when power purchase costs went up substantially and the rate of sale of surplus power steeply declined due to stringent frequency controls imposed by CERC.
- 2.279 The Tariff Order for FY 2010-11 was not issued due to court proceedings. Therefore, while the tariff increase from FY 2011-12 onwards has to some extent offset the incremental increase in revenue gap, however cumulative revenue gap along with applicable carrying costs still remained uncovered. Thus, the formula evolved by the Commission i.e., including carrying costs in the ARR every year, for tariff determination and using 8% surcharge for liquidating the principal over a time is expected to liquidate the Regulatory Assets in a reasonable period of 6 to 8 years.
- 2.280 The Commission has submitted before the Hon'ble Supreme Court of India in Civil Appeal No. 884 of 2010 that additional surcharge of 8% shall liquidate the principal amount of the accumulated revenue gap within 6 to 8 years.
- 2.281 UDAY scheme is not applicable to private distribution licensees.
- 2.282 The cost of financing has been set by the Commission as per the performance of the Utilities from time to time. Regulations being performance based, the Utilities are expected to achieve the targets that have been set seeing their past performance and the industry standards.
- 2.283 The Commission determines the ARR for the DISCOMs as per the provisions of the Regulation. The Commission in its Tariff Order has provided the break-up of the major

components considered for projecting costs of supply during FY 2017-18, like power purchase cost, O&M costs, CAPEX, financing cost, gap in true up of FY 2014-15 & FY 2015-16 and carrying cost for the regulatory assets etc. This forms the basis for projection of the gap between present requirement in terms of ARR and revenue available at existing tariff. It is in the consumer's overall interest, that the gap between these two figures is filled by adjusting the tariffs so as to reduce the accumulated Revenue Gap/Regulatory Assets and the Carrying Cost thereof, which otherwise would impose an additional burden on the average consumer. The Tariff Order is issued after prudence check of the Petitions submitted by the DISCOMs and after considering each element of cost projected in the petitions with due analysis and ensuring proper justification.

ISSUE 14: PENSION TRUST

STAKEHOLDERS' VIEW

- 2.284 Burden of DVB employee's pensions should not be a part of ARR, as it increases the tariff.
- 2.285 Commission should approve the amount of Rs. 1,195 crore to the pension trust in FY 2017-18 Tariff Order.

PETITIONER'S SUBMISSION

TPDDL

- 2.286 Pension liability of FRSR employees is of pension Trust only. No such liability can be cast upon TPDDL in ARR.

BYPL

- 2.287 The Petitioner appreciates the concern of the esteemed stakeholder regarding considering Pension payments in the ARR of the DISCOMs. In this regard we would like to submit that it is a legacy issue linked to the underfunding of pension trust by GoNCTD and the matter is subjudice before the Hon'ble High Court.

The Commission in past Tariff Orders has made a provision of Rs. 150 crores for FY 2011-12, Rs. 160 crores for FY 2012-13, Rs. 400 crores for FY 2013-14, Rs. 470 crores for FY 2014-15 and Rs. 573.23 crores for FY 2015-16 as a part of transmission charges for pension payment. The Commission in its past Tariff Orders has noted that the arrangement is an ad-hoc

arrangement and the same cannot be permitted to be institutionalized. However, the Commission has over and over again allowed pension payment in the ARR of the DISCOMs.

The Petitioner in its tariff petition has proposed that such amount should be recovered through a separate surcharge from all consumers including open access consumers.

2.288 It is to be noted that the Hon'ble ATE has in its Order dated May 15, 2015 in RP No.7 of 2015 in Appeal No.61 of 2012, RP No.13 of 2015 in Appeal No.62 of 2012 directed the Commission to consider the expenses of the non-FRSR employees as per the judgment of the Hon'ble ATE in 2009 ELR (APTEL) 880.

2.289 The Hon'ble ATE in Judgment dated May 15, 2015 (RP No. 13) has ruled as under:

"The Review Petitioner/Appellant had also furnished the comparison between average salary of FRSR employees and non-FRSR employees showing that the average salary of non-FRSR employees is lower than FRSR employees. It is also stated that the average cost to company (CTC) of non-FRSR employees even after accounting for additional emoluments given in view of implementation of Pay Commission Report for FRSR employees, the average CTC of non-FRSR employees is less than average CTC of FRSR employees.

In view of above we allow the Review Petition. Delhi Commission will consider the issue as per the judgment of this Tribunal in 2009 ELR (APTEL) 880."

BRPL

2.290 No Response

COMMISSION'S VIEW

2.291 The Pension Trust was established as a part of Transfer Scheme Rules, 2001 framed under Delhi Electricity Reform Act, 2000 (DERA) and the Tripartite Agreements executed by the GoNCTD with unions of employees and Associations of officers of the erstwhile DVB. In terms of the aforesaid Rules and Tripartite Agreements, the Pension Trust was funded at the time of unbundling of the DVB by way of one lump sum payment by the GoNCTD. The issue of under funding of corpus fund of the pension trust is sub-judice in W.P. (C) 1698/2010 in the Hon'ble High Court of Delhi. Subsequent contributions from the date of unbundling have

to be made to the Pension Trust by the successor entities of DVB. The Commission has been releasing ad-hoc payments in the DTL Tariff orders from FY 2011-12 onwards up to FY 2014-15.

- 2.292 Section 86 of the Electricity Act, 2003, which defines functions of State Commission, does not provide for issuing Regulations of Pension Trust. The fact has also been appreciated by the Hon'ble APTEL in Appeal No. 238 of 2013 (Mahendra Gupta & Others Vs DERC), wherein it has held that "the learned state Commission has no jurisdiction to go into disputes between the Appellants and the Pension Trust with regard to release of terminal benefits in their favour. The grievances of individual employees/appellants relating to service matters relating to the terminal benefits including pension are not under the jurisdiction of the State Commission". The Commission reiterates its view that it is beyond its jurisdiction to regulate the Pension Trust or to frame Regulations in this regard.
- 2.293 The Commission vide letter no. F.17(44)/Engg./DERC/201213/C.F. No.3481/3320 dated 11.09.2012 has issued Statutory Advice under Section 86(2) of the Electricity Act, 2003 to Govt. of NCT of Delhi to constitute an Oversight Committee to look into the issues related to pensioners of erstwhile DVB. The subject matter is presently sub-judice before Hon'ble High Court of Delhi and the parties to the dispute should expedite the proceedings before the court and explore other avenues for settlement of dispute.
- 2.294 The Commission has already made provision on ad-hoc basis of Rs.150 Crore, Rs.160 Crore and Rs.400 Crore and Rs. 470 Crore and Rs. 573 Crore in the Tariff order of FY 2011-12, FY 2012-13, FY 2013-14, FY 2014-15 and FY 2015-16 respectively for passing on to the Pension Trust to avoid undue hardship to the pensioners till all issues concerned with Pension Trust are settled by the Courts/Delhi Govt.
- 2.295 A correspondence was made by DTL seeking clarification from GoNCTD in regard to the competent authority (new entity) to deal with vigilance/disciplinary/court cases in respect of employees of the erstwhile DVB, who could not become part of any company on 01.07.2002 in terms of Delhi Reform (Transfer Scheme) Rules, 2001 due to pending cases of retirement/dismissal/remove compulsory retirement while in the DVB. The GoNCTD clarified in its letter dated 21.01.2004 that the DVB employees who could not become part of any

company i.e. DPCL, DTL, IPGCL, BYPL, BRPL and NDPL (now TPDDL) on the date of restructuring due to cases of retirement/dismissal/removal /compulsory retirement etc being pending as on 01.07.2002 shall be processed and decided by such company who could have been the controlling authority of the employee. And retirement/removal/dismissal/compulsory retirement etc will be dealt as per schedule 'B', 'C', 'D', 'E' and 'F' of the Delhi Electricity Reform (Transfer Scheme) Rules, 2001.

- 2.296 In LPA No 98/2005, the Hon'ble High Court of Delhi in its judgment dated 30.03.2006 has held that: "There is no escape from concluding that even in all these suits which are pending are filed by the retired employees in the Court claiming for their service benefits, thereby creating liability of DVB on the respective transfer company. The transferor company shall be substituted instead of DVB." In civil Appeal No 4269 of 2006 read with civil appeal No 4270 of 2006, the Hon'ble Supreme Court of India has observed that the GoNCTD has taken a clearest decision possible by its letter dated 21.01.2004, which is binding on all parties. The Hon'ble Supreme Court has further observed that the view taken by the High Court of Delhi is correct.
- 2.297 In view of the clarification given by the GoNCTD in its letter dated 21.01.2004 and the above mentioned judgments of the Hon'ble High Court of Delhi and the Hon'ble Supreme Court, it is the responsibility of the respective DISCOMs to look after the interests of the DVB retirees as well as those who retired/retire in the DISCOMs after unbundling of the DVB. It would therefore be appropriate that the DISCOMs provide for funding for the liabilities of the retired/ to be retired employees under their control in their respective ARR.
- 2.298 The Commission vide letter dated 08.12.2016 has requested GoNCTD for conducting a forensic audit of Pension Trust for authentication of the data of pension disbursement from FY 2002-03 to till date to ascertain the actual liability of Pension Trust. The Commission has considered the amount of Rs. 693 Crore sought for FY 2017-18 by the Pension Trust on an ad-hoc basis recommended by GoNCTD vide it's letter dated 26.07.2017.

**ISSUE 15: OPEN ACCESS
STAKEHOLDERS' VIEW:**

- 2.299 End monopoly and bring competition in Power Sector in favour of consumer's benefit.
- 2.300 Power Guzzlers should buy from open market and should not be allowed to burden domestic consumers.
- 2.301 Commission should discontinue the concept of Open Access, as revenue loss due to migration of industrial consumers from DISCOMs will put extra burden on domestic consumers.
- 2.302 DIAL is buying cheap energy from open access and selling it to the hotels at higher rates. So, request is to kindly review the agreement of DISCOMs.
- 2.303 Commission should prepare a road map to reduce cross subsidy and make all tariffs cost effective in terms of voltage wise cost of supply, and all tariffs should be within the limit of +/- 20% of average cost of supply.

PETITIONER'S SUBMISSION**TPDDL**

- 2.304 Competition has already been introduced in the sector, with all consumers above 1MW free to choose their supplier.
- 2.305 Electricity Act mandates promoting of Open Access. However, to address the issue of surplus power and burden on consumers thereof, Commission may take up with Ministry of Power, Govt. of India for surrender of expensive power of Delhi and re-allocation of the same to needy states.

BYPL

- 2.306 As mandated in Section 42 (2) of the Electricity Act, 2003 and as provided in the DERC (Terms and Conditions for Open Access) Regulation 2005, the Open Access, for the present, is applicable to consumers with a load of 1 MW and above. However, the Commission may allow open access to consumers with capacity requirement less than one MW subject to review of the Operational Constraints and other factors and the experience of open access for loads above 1MW. The Commission in its tariff orders has stated that it will consider the license application, if any, for the second Licensee in the same area in accordance with the applicable provisions of the law to create competition.
- 2.307 We appreciate the concern of the esteemed stakeholder regarding high level of cross

subsidies in the tariff structure for Delhi. In this regard the Petitioner submits that determination of Tariff for different category of consumers is the sole prerogative of the Commission.

Further, we would also like to apprise the esteemed stakeholder that the Commission vide its order dated 01.06.2017 in the matter of Determination of Open Access Charges and related matters has determined Transmission and Wheeling charges, Cross subsidy surcharge, Regulatory Surcharge, Additional surcharge and other applicable surcharge applicable to consumers availing open access, hence it is submitted that petitioner follows Commission directions with respect to above mentioned matter.

BRPL

- 2.308 We request the consumer to provide his CA number and further details so that we can look into the issue. It has to be noted that the licensee is committed towards its standards of performances and providing excellent services to its consumers. However, many a times, the performance of the licensee is dependent upon the other civic bodies, i.e. MCD, PWD etc. which is uncontrollable at the end of the licensee.
- 2.309 We would like to inform the stakeholder that as mandated in Section 42 (2) of the Electricity Act, 2003 and as provided in the DERC (Terms and Conditions for Open Access) Regulations issued on 03.01.2006, the Open Access, for the present, is applicable to consumers with a load of 1 MW and above. However, the Commission may allow open access to consumers with capacity requirement less than one MW subject to review of the Operational Constraints and other factors and the experience of open access for loads above 1MW. The Commission in its tariff orders has stated that it will consider the license application, if any, for the second Licensee in the same area in accordance with the applicable provisions of the law to create competition.
- 2.310 As regards the comments on the Open Access are concerned, we restrict our comments to ARR petition only. Matters' relating to Open Access has been dealt separately by The Commission.
- 2.311 Tariffs are not cost reflective which make big consumer susceptible to Open Access, adversely impacting remaining consumers:

We agree with the statement that in spite of several provisions in Electricity Act and Tariff Policy to reduce cross subsidies, the issue still persists. However we understand that this issue of cross subsidy stems from the historical tariff trends and with its prerogative to determine tariffs, the Commission has been working towards removing this shortcoming. Electricity being a basic resource for social development, the governments in the pre-2003 reforms era kept tariffs high for certain consumers in accordance with their ability to pay and the benefit was passed on to other consumers. With the introduction of independent regulators and transparent tariff determination process, efforts have been made to gradually reduce this method of providing subsidy and move on to more efficient ways of direct subsidy and reducing overall cost of supply. The regulators are however bound by the pressures to avoid tariff shocks for domestic and agricultural consumers and therefore the work of eliminating cross subsidies is still work in progress.

2.312 It is also true that cross subsidy in tariff has detrimental impact on economy in the long run and it makes large consumers susceptible to open access. Railways have already explored this route and other big consumers like DIAL and DMRC are soon to shift on open access. With long term tied up costs for power purchase, limits on cross subsidy surcharge and pending recovery of regulatory assets this puts us in a peculiar situation of having to recover these costs from remaining consumers in the system, effectively negating the intended effect of cross subsidy. Therefore it is in the best interest of all stakeholders to eliminate cross subsidy in tariffs as soon as possible and make tariffs cost reflective.

2.313 We would further like to add to the point here by highlighting the fact that high losses of upto 70% in sub-urban areas and villages on outskirts of Delhi are affecting the overall loss figures of utility. This loss is generalized over all consumers and therefore keeps tariff on higher side for even industrial areas where losses have been reduced to even 8%. While the utility is constantly engaging in special drives to reduce theft and improve metering in such high loss making areas, stiff resistance is being faced by political and social groups.

It is our view that if tariffs were to be made cost reflective and areas wise losses were to be allowed, we as utility can offer competitive tariffs to large industrial and commercial consumers without them having to explore open access route. We therefore request

commission to take cognizance of this issue and work constructively towards making tariffs cost reflective with respect to voltage wise cost of supply.

COMMISSION'S VIEW

2.314 Section 42 of the Electricity Act, 2003 provides for non-discriminatory open access to consumers as per the provisions specified by the Commission. Accordingly, the Commission has already notified Regulations for allowing open access to consumers whose contract demand is 1 MW and above. The Commission has decided to allow Transmission and Wheeling Charges, Cross Subsidy Surcharge, Additional Surcharge and other applicable charges under Open Access keeping in view the provisions of the Electricity Act, 2003, National Electricity Policy, National Tariff Policy and the Open Access Regulations of the Commission.

2.315 The Commission is of the view that it will consider the license application, if any, for additional Licensees in the same area in accordance with the applicable provisions of the Rules & Regulations to create competition.

ISSUE 16: ELECTRICITY BILL & BILLING CYCLE PERIOD**STAKEHOLDERS' VIEW:**

2.316 The date of billing must be fixed instead of random billing date which results in financial loss to consumer. DISCOMs must provide detailed information of expense recovery in bills to aware consumers.

2.317 Limit of cash payment should be increased Rs. 4,000 to Rs. 20,000 as many consumers are not aware about digital payment. Electricity bills should be collected at PSU Banks to bring more transparency and accountability of DISCOMs.

2.318 DISCOMs should promote digital payment and maximum limit through cash payment must be reduced to Rs. 1000.

2.319 Electronic meter should be audited by Independent Party; consumer should be refunded in case of any faulty meter/reading.

2.320 Allotment of new connections should be linked to customer Aadhar card.

2.321 Details for additional charges (hidden Charges) in the bill should be provided.

- 2.322 If we pay our electricity bills in advance, do we get any benefit/subsidy from DERC or any distribution licensees?
- 2.323 Accuracy of meter should be 0% instead of $\pm 3\%$.

PETITIONER'S SUBMISSION**TPDDL**

- 2.324 Collection of bills is obligation of the Distribution licensee and major steps for convenience of consumers have already been taken in this area to improve collection. The data of collection efficiency is at all-time high which is evident from the figures shared with Commission. It would be inconvenient for consumers to search and visit PSU banks branches which would be available only during banking hours and not available on banking holidays etc. resulting in inconvenience for consumers.
- 2.325 Also, TPDDL Collections including Bank reconciliations etc. are verified by Commission during Prudence Check exercise of Tariff petitions. In addition, statutory auditors (CAG empanelled) also audit the collection on quarterly basis and check all bank reconciliations as well as takes balance confirmation from all the banks.
- 2.326 TPDDL is already promoting Digital Payment through Various Pay & Win Scheme and various cash back schemes with various wallets like Phone Pe, Paytm etc.
- 2.327 The credit / debit card processing fee for bill amount up to Rs. 5000 is already borne by DISCOMs and only processing fee for Bill Amount with greater than Rs. 5000 is to be paid by Consumers.
- Commission may like to take up with Banks for waiving off processing fees from Consumers or allow additional expenditure in ARR.
- 2.328 We fully agree that Aadhar should be captured from Consumers as it will help in linking with Digital Initiatives being taken by Govt. of India and request Commission to consider it appropriately.
- 2.329 We agree with the observation that some mechanism may be introduced for incentivizing consumers paying before due date.
- 2.330 It is technically / commercially not feasible / viable to make a meter which has 0% error. The

margin of error is allowed at +/- 2.5% in accordance with statutory provisions under IS 15707:2006 for Testing, Evaluation, Installation and Maintenance of AC Electricity Meters – Code of Practice, issued by Bureau of Indian Standards.

BYPL

- 2.331 The Electricity bill is charged on monthly basis as per the billing cycle of the consumer.
- 2.332 The Commission has, in its tariff orders repeatedly held that it had taken the conscious decision to maintain the limit of payment of Rs. 4,000 through cash “in order to ensure transparency in payment collection and to ensure proper accounting of collection”.
- 2.333 The Petitioner in compliance to above direction of the Commission accepts cash payment of electricity bills only up to Rs. 4000. However, the Petitioner on various occasions had apprised the Commission of the difficulties in enforcing the abovementioned direction as this causes inconvenience to the consumers besides adversely affecting our recovery.
- 2.334 The Commission was also apprised that the background in which the Rs. 4000/- limit was introduced by the Commission was in the context of one of the criteria for filing a income tax return included in the Finance Bill, 2005 of the Govt. of India. It is noteworthy that this particular criterion was subsequently withdrawn and was applicable only up to 1st April 2005. Also as per the Section 40 A of the Income Tax Act, 1961 and provisions under Income Tax Rules, the maximum limit for payments/receipt in cash is Rs. 20000.
- 2.335 We would also like to mention that, we have again requested the Commission for the relaxation of limit for accepting cash payments on account of several representations made by our consumers.
- 2.336 There are various modes of payment both online as well offline available for the convenience of the consumers. A consumer can make offline payment on any day of the week at our cash collection offices located at various locations.
- 2.337 We appreciate the concern of the Stakeholder and agree that the Electricity bill of the utility should reflect the clear picture of the ARR being allowed to be recovered from the consumers. BYPL in its ARR Petition has also requested the Commission to allow any recovery on account of Pension Trust payments as a separate surcharge.
- 2.338 In connection to comments relating to the genuineness of the new electronic meters are

concerned, we have to say that in compliance with the Electricity Act 2003, the Central Electricity Authority (CEA) Regulations and Delhi Electricity Supply Code and Performance Standards Regulation 2007 thereof, we have replaced almost all consumer meters with static meters (Electronic Meter). The Electronic Meters are ISI marked and are tested for quality and accuracy as per IS 13779:99. Meter test drives conducted by the Commission, GoNCTD, and the Public Grievance Cell of GoNCTD and by us through independent reputed third party test laboratories have established the accuracy of the meters as per applicable standards. Action for advising the consumer's about electronic meters, internal wiring, earth leakage indications, etc. before installation of meters are also complied with in terms of the applicable Regulation. To bring transparency in the system and instil faith in the consumers, the consumers have also got an option to purchase their own meter. The meter has to be consistent with the CEA Regulations in terms of the Electricity Act (Section 55) and should have all additional features approved by the Commission. All meters shall conform to requirements as laid down in the Regulations issued by the CEA under Section 55 of the Act. The Delhi Electricity Supply Code and Performance Standards Regulation 2007 ("Supply Code"), in Section 38, lays down the detailed procedure to be adopted for testing of Meters. Further, the Commission has laid down the procedure for testing of meters by Independent third party.

BRPL

- 2.339 Number of days on a bill: It is respectfully submitted that BRPL follows a monthly billing system. However, readings of meters require physical visit of meter readers even though the reading process itself is automated. At the same time BRPL has around 23 lakh consumers. In order to minimize the human resources needed to read such a large number of meters, meter reading are done in phases throughout the month which is the reason it is not practically possible to ensure that all meters are read exactly on the last date of every calendar month.
- 2.340 Even though the number of bill days in a month may vary slightly, it is ensured that all charges, especially fixed charges are pro-rated based on the actual number of days in the month and number of units consumed under each slab is also pro-rated on the actual days of

the month to ensure that the consumer is charged exactly what he has consumed for the exact number of bill days. We further invite the esteemed stakeholder to any of our offices so that we can personally explain the bill calculation methodology by using a simple financial model.

- 2.341 As regards, the enhancement of cash limits of Rs. 4000/- is concerned, it is the prerogative of the Commission to decide and fix the same. We expect that the comments of the stakeholder will be duly considered by DERC. It is also noteworthy that the licensee has raised this issue before Hon'ble Tribunal for Electricity in Appeal No. 265 of 2013 and 235 of 2014, and the matters are presently sub-judice.
- 2.342 In connection to your comments relating to the genuineness of the new electronic meters is concerned, we have to respectfully say that in compliance with the Electricity Act 2003, the Central Electricity Authority (CEA) Regulations and Delhi Electricity Supply Code and Performance Standards Regulation 2007 thereof, we are replacing all consumer meters with static meters (Electronic Meter). The Electronic Meters are ISI marked and are tested for quality and accuracy as per IS 13779:99. Meter test drives conducted by the Commission, GoNCTD, and the Public Grievance Cell of GoNCTD and by us through independent reputed third party test laboratories have established the accuracy of the meters as per applicable standards. Action for advising the consumer's about electronic meters, internal wiring, earth leakage indications, etc. before installation of meters are also complied with in terms of the applicable regulations. To bring transparency in the system and instil faith in the consumers, the consumers have also got an option to purchase their own meter.
- 2.343 As far as the design of meter is concerned, a meter to be installed at consumer's premises has to be consistent with the CEA Regulations in terms of the Electricity Act 2003 (Section 55) and should have all additional features approved by the Commission. All meters shall conform to requirements as laid down in the Regulations issued by the CEA under Section 55 of the Act. Furthermore, the Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation 2017 ("Supply Code"), in Section 32, lays down the detailed procedure to be adopted for testing of Meters.
- 2.344 With regard to the quality of meters, we would like to submit that the GoNCTD has time and

again conducted Independent third party testing of meters through its Public Grievance Cell (PGC) but there were hardly any consumer turnouts that they are unhappy with the quality of meters. We would also like to state that the term “Fast running meters” is a subjective term. As the consumption of electricity at the consumer’s end increases, the electronic meter captures and records the higher units consumed

- 2.345 It is submitted that the Petitioner has arrangements with Bank of Baroda and IDBI for bill payment at any branches of these banks in Delhi. Any branch of these two banks can accept payment through either cash (up to Rs. 4000/-) or cheque/ DD. It may be noted that Bank of Baroda also accepts payment through transfer by its account holders. The Petitioner has collection account with these two banks.
- 2.346 It is submitted that the comments pertain to the Commission and therefore the licensee trusts that same will be duly considered by DERC.
- 2.347 We appreciate notion of Linking Aadhar Card to electricity connection. As Govt. of India has been linking Aadhar to most services such as PAN Number, Mobile Number, and Bank Accounts etc. in order to ease the tracking and check any fraudulent activities. BRPL has been taking Aadhar number as an ID proof for new connection but it is not compulsory. We trust, the Commission would give due cognizance to this aspect as it will avoid consumers to take connections on false documents and arrears pending towards such consumers would be recovered resulting in reduction of AT&C Loss Levels.
- 2.348 We appreciate concern on digital payments. BRPL has made provisions for digital payments through E wallets, Banks, Net Banking, Debit Card, Credit Card etc. We trust, the Commission would give due cognizance to this aspect while promoting digital payments.

COMMISSION’S VIEW

- 2.349 As per the Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation 2017, the billing cycle is defined in clause 2(15) as “Billing cycle” or “Billing period” means the period as approved by the Commission for which regular electricity bills are to be prepared by the Licensee for different categories of consumers. The Commission in these Regulations have also specified that the billing cycle shall be for a

consecutive period of 30-35 days. Further the Licensee shall also upload the billing cycle dates on its website.

- 2.350 The Commission has taken a conscious decision that in case the bill for consumption of electricity is more than Rs. 4000/-, payment of the bill be accepted by the Petitioner by means of Account Payee Cheque/DD. However, payment of any amount can be made through net banking payment. The Commission has also directed the petitioner to accept the cash payment of more than Rs. 4000/- for payment of electricity bill in the case of visually impaired consumers only. The Commission vide letter dated 22.01.2016 has directed that in cases of settlement done on the order of a Court, the licensee can accept the settlement amount in cash from the litigant along with order of the Court. Further, based on the stakeholder's request the Commission has decided to allow cash deposit upto Rs.50000/- against electricity bills in scheduled commercial bank account of the Petitioner.
- 2.351 The Commission in its Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation, 2017 has specified that the meter shall be tested in an accredited laboratory notified by the Commission. Further, in the absence of notification of accredited laboratory by the Commission, the meter shall be tested in any NABL accredited laboratory other than that belonging to DISCOMs.
- 2.352 The Commission has allowed the distribution companies to accept Adhaar Card as one of the documents for proof of identity.
- 2.353 The Commission in its draft order under Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation, 2017, has made the provisions for issue of electricity bills in the format prescribed in the regulations, giving details of parameters to be captured in the bills.
- 2.354 The matter regarding rebate/interest on advance payment shall be dealt appropriately in the order to be issued under Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation, 2017.

ISSUE 17: TARIFF HIKE STAKEHOLDERS' VIEW

- 2.355 Consumers requested to disallow any tariff hike and DISCOMs accounts should be audited by any independent authority.
- 2.356 Due to higher AT&C losses and DISCOMs incapability, honest consumers may not be penalized by tariff hike.
- 2.357 There is no need of tariff hike if Commission disallow rent to Delhi govt. against the land given to DISCOMs which is 20% of circle rate.
- 2.358 The main reason of tariff hike is purchasing of costly power from new power plants, it is requested not to burden domestic consumer with tariff hike and requested to hike tariff of commercial driven areas like North and South Delhi.
- 2.359 After privatization the condition of Power Sector in Delhi have improved a lot in terms of reliability and quality of power, customer satisfaction, loss reduction etc., DISCOMs are also regularly engaging with RWAs and other stakeholders for the betterment of society. Commission is requested to allow hike in tariff in such a manner that DISCOMs will provide quality and reliable power to consumers. It is also requested to Commission do not work under any Political influence.
- 2.360 Instead of rational tariff structure among all three DISCOMs, Commission should follow the differential tariff across DISCOMs depends on their financial health & revenue realization.
- 2.361 The slabs of electricity tariff need to be redesigned for better management of cross subsidies and Commission should ensure that only poor people get the benefit of lower tariff/subsidy.
- 2.362 Tariff of Bawana Industrial area should be compatible with other states as GST makes whole country as one market and difference in tariff will hamper MSME of Delhi.
- 2.363 Prudence check for expenses and revenue by DISCOMs should be given importance.
- 2.364 LPSC charges must not be increased beyond 18%.
- 2.365 Charges of Rs. 14000/kW is very high. Energy charge of Rs.2.75/unit upto 2014 is now increased to Rs.6/unit. It's very high for farmers. Tariff for energy charges for agriculture should be reduced.

PETITIONER'S SUBMISSION**TPDDL**

- 2.366 Tariff for a year is determined based on the principle that there should be 100% recovery of ARR requirement for that respective year. If ARR requirement is going to be increased/decreased, correspondingly tariff has to be changed for the financial viability of the sector. Thus, if there is no increase in tariff, there would be a situation of revenue deficit, which ultimately has to be recovered from consumers in ensuing years along with the carrying cost. Therefore in the interest of consumer and financial viability of the power sector, Tariff hike is proposed to recover the entire ARR for next year along with the recovery of past accumulated Revenue Gap and carrying cost, which may be considered by the Commission after prudence check.
- 2.367 The Financial Statements have been prepared in accordance with the AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended). Further such financial statements are subject to audit by statutory auditors (empanelled with CAG) and on which the statutory auditors gives their opinion about the true and fair view on state of affairs of the company.
- 2.368 The tariff in any year is determined by the Regulator in line with the applicable Rules/s and on the basis of the True up /ARR which is different from the financial books of accounts. Therefore, the tariff order is released by the Regulator only upon completion of the prudence check of the ARR submitted to the State Commission. Therefore, the decision of tariff hike is linked to the approved ARR only after prudence check.
- 2.369 We welcome this comment in overall consumer interest that such lease rent in turn is getting loaded in ARR and consumer tariff thereof and may be re-looked into as per past practice of charging notional Re. 1/- for the same. It will hence help in lowering the tariff burden on Consumers of Delhi.
- 2.370 Section 61 (g) of Electricity Act 2003 mandates that Appropriate Commission while determining tariff shall be guided by the principle that the tariff progressively reflects the cost of supply of electricity and also, reduces and eliminates cross-subsidies within a time period as decided by Commission.
- 2.371 Even National Tariff Policy states that tariff design shall be linked to cost of service and tariff thereof, progressively reflects the efficient and prudent cost of supply of electricity.

- 2.372 Accordingly, in line with the objectives of the Electricity Act and National Tariff Policy, a road map for reduction in cross subsidy has to be made in the interest of consumers so that electricity tariff reflects voltage wise cost of supply.
- 2.373 Tariff determination and tariff design for all consumer categories is the sole prerogative of the Commission.
- 2.374 Prudence check of data is carried out very strictly by Commission which cannot be doubted.

BYPL

- 2.375 We would like to apprise that BYPL is a company established under the Companies Act, 1956. Accordingly the accounts of the DISCOMs are audited both internally and externally by statutory auditors as per the requirements of the Companies Act, 2013. The Commission also undertakes detailed scrutiny of the accounting statements before admitting the expenses in the ARR proceedings.
- 2.376 As regards the issue of increase in power Tariff, we would like to state that the determination of electricity Tariff to be charged from a category of consumer is the prerogative of the Commission, in terms of the provisions of the Electricity Act, 2003.
- 2.377 The Commission determines the Tariff after considering the operational and capital expenditure required by the licensee for supplying power and maintaining its distribution network/ infrastructure to meet the load requirements of the consumer. The Commission will take into account all relevant facts and figures for approving the expenses while determining the ARR of the licensees.
- 2.378 Further we would like to mention that Company's Balance sheet and accounts is duly audited by the Statutory Auditors. Also DERC conducts a comprehensive prudence check before allowing any costs in ARR.
- 2.379 Tariff revision process is governed by Regulations provided by the Commission. According to these Regulations, DISCOMs submit the ARR covering past expenses along with projections. After due prudence check of the data submitted by DISCOMs and considering all Stakeholders' views, Commission decides the Tariff. However for FY 2017-18, BYPL has not sought Tariff hike of 30% as mentioned by the Consumer.

2.380 First of all, petitioner likes to humbly submit that the figures for BYPL as shown in the table are incorrect. The Domestic consumption in MU for BYPL in FY 2015-16 is 3180 MU out of the total consumption billing of 5676 MU which comes to 56% instead of 54% as shown by the stakeholder in its letter.

Apart from this, there is cross subsidy present in the billing system, being the uniform tariff among the Delhi Discoms. As per the tariff approved by Commission, in case of domestic consumers, slab wise billing is applicable i.e. higher the consumption slab higher the recovery from consumer. The consumption by Domestic consumer falling in the slab of more than 400 units per month subsidizes the consumption of domestic consumers falling in the slab lower than 400 Units, which are at a rate of Rs 4 per unit. Further, other categories like Non Domestic, Industrial, DJB, DIAL, DMRC etc are billed at higher tariff and hence subsidize the consumption of all the consumers being billed at lower tariff.

2.381 BYPL does not have special category consumers like DIAL which are billed at higher tariff and infuse lowest loss in the distribution system of other DISCOM. BYPL does not have higher billing share of disciplined consumers like industrial, 30% industrial billing in case of Other DISCOM.

2.382 As per the table above, BYPL has the Lowest consumption in the cross subsidized category being billed at lower tariff i.e. 32% vis a vis 28% and 24% in case of other DISCOMs.

2.383 Besides above, per consumer consumption per annum in case of BYPL is lowest among all Discoms. Hence, the other Discoms are able to gain more margins as compared to BYPL. This is shown with the help of table below:-

Table 6: Sales and Consumer Mix submitted by BYPL

Particulars (FY 2015-16)	BRPL	BYPL	TPDDL
No. of consumers (No)	2228127	1519673	1515626
Total sales(MU)	10,505	5,676	7,854
Per consumer consumption per annum (Units/Consumer/Annum)	4,715	3,735	5,182
Higher per capita Consumption (MU)	980	-	1447
Percentage margin (%)	26%	-	38%

2.384 It can be seen from the above table that BYPL is deprived of the margin by almost 38% vis a vis other Discoms in view of the uniform tariff regime in Delhi.

- 2.385 We appreciate the concern raised by the esteemed stakeholder for providing the cheaper power to the DISCOMs that have domestic consumer on the one hand but on other hand this logic lacks the holistic view of the consumer profile of the DISCOMs. But instead of domestic consumer, the cross subsidization across all categories and the margin earned by the DISCOMs due to higher consumption in its area shall also be kept in the mind while reallocating the cheaper power. BYPL has the lowest strata of consumer base across all DISCOMs being billed at lower tariff and also have the comparatively lowest consumption which is cross subsidizing these low end consumers.
- 2.386 We appreciate the concern of the esteemed stakeholder and we would like to submit that BYPL from time to time has been drawing the kind attention of the Commission regarding precarious financial crisis faced by it in the absence of cost reflective tariff and time bound recovery of accumulated Regulatory Asset.
- 2.387 In this regard we would like to inform that the Commission determines the tariff only after considering the prudence of operational and capital expenditure required by the licensee for supplying power and maintaining its distribution network / infrastructure to meet the load requirements of the consumer. The Commission takes into account all relevant facts and figures for approving the expenses while determining the ARR of the licensees. The Commission determines the tariff to be charged from a category of consumers based on the approved ARR of the licensee.

BRPL

- 2.388 As regards the issue of increase in power tariff, we would like to state that the determination of electricity tariff to be charged from a category of consumer is the prerogative of the Commission, under Section 45 of the Electricity Act, 2003.
- 2.389 The stakeholder has also raised the issue of audit. In this regard it is respectfully submitted the Petitioner Company's accounts are audited both internally and also externally by statutory auditors as per the requirements of the Companies Act, 1956 and the Commission also undertakes detailed scrutiny of the accounting statements before admitting the expenses in the ARR proceedings. Further, it is also pertinent to note that the Commission determines the tariff only after considering the prudence of operational and capital

expenditure required by the licensee for supplying power and maintaining its distribution network/ infrastructure to meet the load requirements of the consumer. The Commission takes into account all relevant facts and figures for approving the expenses while determining the ARR of the licensees. The Commission determines the tariff to be charged from a category of consumers based on the approved ARR of the licensee.

- 2.390 It is noteworthy that over 80% of DISCOMs expenses are towards power purchase, an uncontrollable expense. Of the remaining 20%-10% are Financial and other costs and 10% O&M costs. Delhi DISCOMs buy power mainly from Central/State Government Generating Stations/Transcos, which are subjected to CAG audits. Hence 80% of a Delhi DISCOMs expenses are indirectly subjected to CAG audits. Tariffs for generating stations are determined by CERC and the bills are vetted by the SLDC, an independent systems operator. Moreover, the invoices raised by these stations on the DISCOMs are further subjected to detail scrutiny by DERC. The remaining 20% expenditure incurred pertains to controllable costs controllable costs which are already capped by the Commission. Expenditure incurred towards these controllable costs is subjected to audit by BRPL's statutory auditors and are further scrutinized by the Commission during prudence check.
- 2.391 As regards the issue of differential tariff/ penalty in high loss areas is well appreciated, we would like to state that the determination of electricity tariff to be charged from a consumer is the prerogative of the Commission, under Section 45 of the Electricity Act, 2003.
- 2.392 We agree with the view point that the size of slabs needs to be in line with the average electricity consumption of various sections of society. For instance if the average consumption of marginalized consumers in the society is say 50 units in a month (enough for a small family of 4 people with limited use for CFL bulbs, fan, TV and small kitchen appliances), the first slab could be restricted to say 100 units per month. Since tariff setting, consumer category/slab design are regulator's prerogative, we request the Commission to study this issue in detail and carry out a detailed study to determine the appropriate slab sizes in line with consumer's ability to pay.
- 2.393 Further to add to the point of cross subsidy between tariff slabs, we believe that in a cost reflective scenario, the benefit of lower tariffs should be restricted to only marginalized

consumers of bottom slab of tariff. In line with provisions of Electricity Act 2003, the Delhi Government should provide direct subsidy in advance for the difference in tariff and cost of supply for remainder of consumers. We request the Commission to allow for cost reflective tariffs and direct Delhi Government to fund direct subsidies, if any.

2.394 The calculation provided by comparing jump between slabs in terms of ABR and tariff, provides a compelling case for non-telescopic tariffs. While we agree with the view point that due to telescopic tariff slabs the consumers with higher consumption also get the benefit of lower tariffs for bottom slabs, non-telescopic tariffs also have their fair bit of disadvantages. The advantage and disadvantage of telescopic vs. non telescopic slabs are as follows:

Table 7: Comparison of Telescopic and Non-telescopic Slabs by BRPL

Sr. No.	Particulars	Advantage	Disadvantage
1	Non Telescopic Slabs	Benefit of subsidised tariff given to consumers with lower consumption is not passed onto other consumers.	Borderline consumers falling with consumption like 201 units or 401 units would suddenly be charged higher tariffs for entire amount, increasing variation in consumer bills from month to month due to marginal consumption
		Effectively allows the Commission to bring down the tariff rates of domestic consumers to their respective slab's ABR and still allow same revenue recovery for utility.	Could further encourage consumers to split their consumption over several connections to remain within the limit of lower slabs
2	Telescopic Slabs	Protects borderline consumers against sudden jumps in consumers bills due to change in slab	Un-targeted subsidies, enjoyed by all consumers irrespective of their ability to pay

2.395 We believe that in an ideal case of cost reflective tariffs and along with direct subsidies to consumers from Delhi Government, the need for tariff slabs would cease to exist and therefore ending this debate on telescopic vs. non telescopic slabs. Further with the Government working on the concept of Direct Benefit Transfer in electricity subsidies (similar to LPG subsidy project), the need for creating tariff slabs wouldn't be there in the future. However these reforms would be implemented in phases and till that time, the Commission

could conduct a detailed impact analysis study on telescopic vs. non telescopic tariffs.

- 2.396 We agree with the economic argument given that better services should warrant better tariffs, however this is not possible in the regulated market scenario of cost plus tariff determination. This could entail in future as and when competition is introduced in retail sale of electricity. This argument however rightly forces us to think towards analyzing other parameters for subsidy design instead of just cost coverage ratio. The parameter of measuring ability to pay has been rightly identified as one of such parameter. With such vast differences in per capita income of consumers from state to state, the common approach of +/- 20% cross subsidy cannot be adopted everywhere.
- 2.397 We therefore request the Commission to conduct a detailed Tariff Affordability Study for analyzing the % spend on electricity of different sections of society and analyze subsidies in tariff in detail.
- 2.398 It is noteworthy to mention that the quality and reliability of the power supply largely depends upon the cost reflective tariff. As regards the issue of determination of tariff, we would like to state that the determination of electricity tariff to be charged from a category of consumer is the prerogative of the Commission, under Section 45 of the Electricity Act, 2003.
- 2.399 It is submitted that the Petitioner is mandated by Regulations to file the ARR Petition/True-Up Petition with the Commission within a specific timeline. Once the ARR is submitted, the Commission conducts comprehensive checks for correctness and adequacy of the data provided w.r.t energy sales, billing, power purchase costs, distribution costs etc. in the Petition. Accordingly, in case some deficiencies are identified, additional inputs are sought from the Petitioner for curing the identified defects. It is only after curing all such defects to the satisfaction of the Commission, that the ARR Petition/True-Up Petition is admitted and taken on record.
- 2.400 In the instant case, the True-Up Petitions for FY 2014-15 & FY 2015-16 were submitted with the Commission on 18.04.2016 & 24.01.2017 respectively. Subsequent to the submissions, Commission after due scrutiny and receipt of data gaps and additional submissions as sought by the Commission to its satisfaction finally admitted the Petitions vide its Order dated

26.05.2017.

- 2.401 The Petitioner also adheres to periodic compliance reports regarding billing, power purchase, CAPEX etc. which is subject to exhaustive prudence checks by DERC. The Petitioner also submits the above compliances in “Compliance to Directives” chapter in its ARR/ True-Up Petitions.

COMMISSION’S VIEW

- 2.402 The Commission determines the ARR for the DISCOMs as per the provisions of the Regulations. The Commission in its Tariff Order has provided the break-up of the major components considered for projecting costs of supply during FY 2017-18, like power purchase cost, O&M costs, CAPEX, financing cost, gap in true up to FY 2015-16 and carrying cost for the regulatory assets etc. This forms the basis for projection of the gap between present requirement in terms of ARR and revenue available at existing tariff. It is in the consumer’s overall interest, that the gap between these two figures is filled by adjusting the tariffs so as to reduce the accumulated Revenue Gap/Regulatory Assets and the Carrying Cost thereof, which otherwise would impose an additional burden on the average consumer. The Tariff Order is issued after prudence check of the Petitions submitted by the DISCOMs and after considering each element of cost projected in the petitions with due analysis and ensuring proper justification.
- 2.403 The issue related to LPSC & levy of Rs. 14000/KW for release of connection for unelectrified areas is related to the Order issued under Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation 2017 and shall be dealt accordingly.

ISSUE 18: CAG AUDIT

STAKEHOLDERS’ VIEW

- 2.404 Commission is requested to intervene in the matter of CAG Audit in Supreme Court to save consumer money.

PETITIONER’S SUBMISSION

TPDDL

2.405 There is no provision in the scheme of Electricity Act 2003, CAG Act 1971 or the constitution of India for conducting any CAG audit of Private Distribution Companies. The DERC is a statutory body performing its functions, discharging its duties as enumerated under the Electricity Act, 2003. No fruitful purpose will be achieved by intervention of the DERC in the matter.

BYPL

2.406 CAG Audit was commenced pursuant to the GoNCTD's letter dated 07.01.2014 to which the Petitioner has provided its full co-operation. However, the Hon'ble High Court of Delhi vide judgment dated 30.10.2015 set aside the direction of GoNCTD for audit of the Delhi DISCOMs by CAG and all actions undertaken in pursuance to above directive are also rendered inoperative and to no effect. United RWAs Joint Action, GoNCTD and CAG have filed appeals before Supreme Court and the matter is sub-judice.

BRPL

2.407 As regards CAG Audit of the DISCOMs is concerned, it is submitted that the issue is sub-judice before the Hon'ble Supreme Court of India. It is noteworthy to mention that the issue was decided in favour of the DISCOMs by the Hon'ble High Court of Delhi vide Judgment dated 30.10.2015 in United RWAs Joint Action V/s. Union of India & Ors. The Hon'ble High Court of Delhi while quashing the direction for CAG audit of DISCOMs u/s 20(1) of the CAG Act observed that the determination of tariff is the sole domain of DERC, which is well empowered to itself conduct the same or have the same conducted and the report of CAG audit of DISCOMs has no place in the Regulatory regime brought about by the Electricity Act 2003 and the Reforms Act.

COMMISSION'S VIEW

2.408 The matter of CAG Audit is sub-judice before the Hon'ble Supreme Court of India.

ISSUE 19: TIME OF DAY TARIFF**STAKEHOLDERS' VIEW**

2.409 Do all electronic meters consumers have "time of the day" metering facility? Cost of up-

gradation of TOD Meters should be borne by DISCOMs. Rebate of Off-Peak Hours should be increased to 35%.

- 2.410 Off-peak hours should be from 9PM to 9AM and rebate should be increased to 35% for industrial consumers.
- 2.411 DERC had decided earlier that anything below 25 KW should not be subject to ToD but now the scenario is that even the meters for less than 25 KW have ToD compliance, because it requires bigger investment which means bigger returns to the DISCOMs.

PETITIONER'S SUBMISSION

TPDDL

- 2.412 TOD tariff is mandatory applicable for consumers (other than Domestic) where sanctioned load/MDI (whichever is higher) is 25KW/27kVA and above as per Tariff Order Issued by Commission. The upgradation cost of such customer is borne by DISCOMs. However, Option of TOD tariff is also available for consumers (other than Domestic) where sanctioned load/MDI (whichever is higher) is 11KW/12kVA to 25KW/27kVA and upgradation cost is only charged, if ToD is opted by such consumers.
- 2.413 Tariff determination and tariff design for all consumer categories is the sole prerogative of the Commission.

BYPL

- 2.414 By opting ToD metering the consumers will be directly benefited through reduced monthly bills. The concept of ToD tariff is aimed at optimizing the cost of power purchase, which constitutes over 80% of the tariff charged from the consumers. Implementation of ToD tariff directly as well as indirectly benefits the consumers.
- 2.415 Imposition of ToD charges to any particular category is the sole prerogative of Commission. Currently ToD is applicable to all consumers except domestic category i.e. on the loads 25KW/27KVA and above (mandatory applicable) and 11KW/12KVA to 25KW/27KVA optional. As the DISCOMs has no other option but to shut down the plants below technical minimum therefore long term arrangement of power is on Round the Clock basis. DMRC operates in the peak and normal hour and shut down in off peak hours due to the RTC arrangement to

meet the peak demand for all the consumers BYPL. BYPL incur losses in terms of surplus power sale in other time slot and hence ToD is being charged from the consumers as per the Commission's tariff Order.

BRPL

- 2.416 All the meters where the TOD billing is approved by Commission in Tariff Order dated 29.09.2015 are TOD Complied.
- 2.417 As regards the suggestion of DMRC regarding TOD metering, we would like to mention that the cost of producing electricity varies from hour to hour. The marginal cost of producing electricity varies widely, depending upon the total load and the particular generating units used to serve this load. The theory behind time-of-day rates is simply to vary the price of electricity in accordance with fluctuations in production costs. When the cost of production is high, the price would also be high. Conversely, when the cost of production is low, the price would be low. The equity advantages of time-of-day pricing are also apparent.
- 2.418 Under a time-of-day pricing system, this inequity can be corrected because the off-peak user is charged less than the peak-hour consumer. The concept of time-differentiated tariff aims at shifting time of peak demand, thereby flattening the load curve for which the Utility provides incentives to shift consumption to off-peak hours and offers disincentives for consumption during peak hours. The concern is as to how to encourage shifting of energy consumption from peak hour to non-peak hours to reduce the marginal cost of power required for meeting the peak demand. ToD Tariff as a concept is quite beneficial for the stakeholders.
- 2.419 The Commission in its Tariff Order dated July 13, 2012 had for the first time has introduced Time-of-Day Tariff for large industrial and commercial category with sanctioned load/ MDI (whichever is higher) of more than 300KVA which is applicable till date.
- 2.420 Further the Commission in the Public Notice on the ARR Petition has mentioned that as a progressive step in this direction and to further encourage demand shift from peak hours to off-peak hours had decided to lower the applicability limit for ToD Tariff with a view to reduce peak hour consumption and increase consumption during off-peak hours.

COMMISSION'S VIEW

- 2.421 The Commission is of the view that ToD tariff is an important Demand Side Management (DSM) measure to flatten the load curve of the DISCOMs. The Commission in its tariff order dated 13.07.2012 had for the first time introduced ToD Tariff on a pilot basis for large industrial and commercial categories with a sanctioned load/MDI (whichever is higher) of more than 300 kVA. Surcharge had been introduced under ToD tariff during the peak hour consumption to offset the costly power purchase during the peak hours and rebate given to consumers for shifting the demand from peak to off peak hours.
- 2.422 The Commission has retained existing ToD Tariff for FY 2017-18.

ISSUE 20: TARIFF CATEGORY**Stakeholders' View**

- 2.423 Consider Gardens under agriculture land category instead of commercial category and apply tariff accordingly.
- 2.424 Consider private owned Dharamshalas under residential category tariff instead of commercial category.
- 2.425 Consider small shopkeepers up to 2kW load under residential category.
- 2.426 Factories running in industrial areas approved by Govt. of NCT under master plan should be categorized under small industrial power tariff category III irrespective of their type of factory licence.
- 2.427 TPDDL started raising the bills on non-domestic tariff from the chambers of the advocate at Tis Hazari courts, Delhi, without issuing any show cause notice or any reason to the Bar Association or advocate, please clarify.
- 2.428 Single point (11 kV) CGHS are paying higher tariff and maintenance cost of electrical sub station as compared to individual multipoint connection of CGHS users. So Commission should provide rebate on energy charges for CGHS with single point connections.

PETITIONER'S SUBMISSION**TPDDL**

- 2.429 Tariff determination and tariff design for all consumer categories is the sole prerogative of

the Commission.

- 2.430 Industrial / Factory Licence has been mandated by Commission under Supply Code and Performance Standard Regulations issued from time to time.

BYPL

- 2.431 No Response.

BRPL

- 2.432 No Response.

COMMISSION'S VIEW

- 2.433 Regarding Tariff for lawyers chambers, the Commission has relied upon the judgment of the Hon'ble Supreme Court in Civil Appeal no. 1065/2000 for retaining the existing Tariff Category of Non-Domestic which has held that:

"....Thus the question whether an Advocate can be said to be carrying on a commercial activity does not arise for consideration. As the user is admittedly not "domestic" it would fall in the category of "commercial and non-domestic". In such cases even for "non-domestic" use the commercial rates are to be charged. Exclusively running an office is clearly a "non-domestic" use."

- 2.434 In view of the above judgement, the Commission is of the view that even private owned Dharamshalas and Gardens has to be classified under Non-Domestic based on type of use (Non-Domestic) and the Commercial rates are to be charged.
- 2.435 Tariff for GHS has been fixed based on the average rate of individual domestic consumer's tariff based on the average consumption of residential consumers and by considering appropriate discounting for the maintenance cost.
- 2.436 The Commission has extended Domestic Category to the consumers running small commercial establishments from their households having sanctioned load upto 5kW shall be charged domestic tariff.

ISSUE 21: RETURN ON EQUITY

STAKEHOLDERS' VIEW

- 2.437 DISCOMs are getting 16% as RoE, which is raised from public institutions at lower rate of

interest. No business provides such returns. Commission is requested to reduce RoE.

2.438 At per present economic scenario, ROE to DISCOMs should be limited to 8% only.

PETITIONER'S SUBMISSION**TPDDL**

2.439 ROE is allowed as per Terms and condition for determination of Distribution Tariff Regulation 2011 for 2nd MYT Regulation control period.

2.440 It is worth to mention that even CERC has allowed return on equity @ 15.5% to generating companies which are operating in lower risk in comparison to risk involved in distribution segment. The said factor has also been recognized by Forum of Regulators. Therefore, generally a margin of 2% is considered for the distribution segment which is over and above the ROE of generating companies.

BYPL

2.441 The Petitioner would like to quote Clause 5.3(a) of the National Tariff Policy issued by Ministry of Power dated 6th Jan, 2006 which mentions that the rate of return notified by CERC for Generation & Transmission may be adopted by the State Electricity Regulatory Commissions (SERCs) for Distribution with appropriate modification taking into view the higher risks involved. The Ministry of Power has thus recognized the very fact that Distribution business is a riskier business relative to Generation & transmission and thus has suggested of providing higher RoE to Distribution projects.

2.442 The CERC has in its tariff regulation for FY 2014-19 provided RoE at the base rate 16.50% for hydro stations (storage type and RoR). The RoE for the distribution business as a whole ought to be at least 2% more than the generation business keeping in view the fact that the overall risk and cost of capital for the distribution business is higher than the generation business. In view of the above facts, Petitioner would like to inform that the 16% RoE as assumed by the Petitioner from the Wheeling and Retail business is infact on a lower side. Thus, it would be highly unjustified to expect the Petitioner to sustain distribution business without a reasonable return or profit.

BRPL

2.443 No Response.

COMMISSION'S VIEW

2.444 Distribution business involves higher risk as compared to Generation & transmission. This aspect has been duly recognised by the sector, and even CERC in its Tariff Regulations 2014 has also approved the different base rates of return on equity at 15.5% & 16.5% for the Generation and Transmission system respectively. 16% RoE approved for the Distribution Business includes 14% for wheeling and 2% for Retail Supply. The rationale for rate of return on equity has also been detailed in the explanatory memorandum issued by the Commission on draft Business Plan Regulations, 2017.

ISSUE 22: ELECTRICITY FIXED CHARGES**STAKEHOLDER'S VIEW**

- 2.445 Fixed charges for consumers should be reduced as DISCOMs are unable to provide reliable power supply.
- 2.446 Fixed charges should be merged with Consumption charges for Industrial consumers.

PETITIONER'S SUBMISSION**TPDDL**

- 2.447 Fixed charges as part of tariff is levied so as to be able to cover the fixed expenses / costs of DISCOMs. DISCOMs need to establish and maintain infrastructure and network corresponding to the Sanctioned / connected load of the Consumers to ensure uninterrupted power supply irrespective of the fact whether such load demand is actually used or not but the DISCOMs is required to have such infrastructure in place.
- 2.448 Fixed Charges are charged on the Basis of Sanctioned Load for Domestic Customers and higher of Sanctioned Load or Maximum Demand for Other Category of Customers. No Meter Charges are levied on the consumers. Fixed charges are part of total tariff which is actually charged to create and maintain distribution network according to load demand in the area irrespective of the fact whether such load demand is actually used or not but the DISCOMs is required to have such infrastructure in place. Such infrastructure is required to be maintained to give services to the consumers prescribed under performance standards

framed by the Commission.

- 2.449 It is also pertinent to mention that if fixed charges are reduced, the energy charge would increase correspondingly as these forms a part of total revenue of the utility. Therefore, whether only energy charge is levied or energy charge as well as fixed charge is levied, the same ARR would have to be recovered from the consumers.
- 2.450 In any case, Tariff determination and tariff design for all consumer categories is the sole prerogative of the Commission.

BYPL

- 2.451 In accordance with the provisions of the Electricity Act 2003, determination of tariff is the sole prerogative of the Commission. We sincerely trust that the stakeholder's observations would be appropriately considered by the Commission while finalizing tariff for FY 2017-18.
- 2.452 As regard to fixed charges, we would like to submit that Section 45 (3) of Electricity Act, 2003 provides for the levy of fixed charges. This Section states that: "The charges for electricity supplied by a distribution licensee may include - (a) a fixed charge in addition to the charge for actual electricity supplied;"
- 2.453 The rationale for levying fixed charges is to recover a part of the fixed cost of the utility so that at least a part of the fixed cost is recovered even if there is no consumption by the consumer. The generating station also recovers Power Purchase Cost as two part tariff consisting of capacity charge and energy charges. Capacity charges is to recover fixed charges such as O&M, Return on Equity, interest, Depreciation cost which is payable by the petitioner even when generation has been suspended for reasons like maintenance, evacuation constraints etc. When a consumer is connected to the system, the utility has to provide/allocate certain capacity of its system to serve the consumer and also capacity charges payable to generating stations. When a consumer is connected to the system, the rationale for levying fixed charges is to recover a part of the fixed cost of the utility so that at least a part of the fixed cost is recovered even if there is no consumption by the consumer. The capital related costs are the costs incurred by the petitioner on building up the infrastructure and maintaining the same in proper working condition in order to service the consumers.

- 2.454 Section 45(3) of the Electricity Act 2003 provides for the levy of fixed charges. This section states that: “The charges for electricity supplied by a distribution licensee may include – (a) a fixed charge in addition to the charge for actual electricity supplied;” In this regard we would like to submit that when a consumer is connected to the system, the distribution utility has to provide/allocate certain capacity of the distribution system to serve the consumer. In addition to this, some expenses such as meter reading, billing, bill delivery, maintenance etc. are fixed in nature and independent of energy consumption. The Petitioner also pays fixed charges in addition to the variable charges to the generating companies for sourcing power. Ideally, the fixed charges levied on the consumer should defray the cost of such capacity requirements of the consumer after considering the fixed cost of such system and diversity of load in the system. Section 45 (3) of Electricity Act, 2003 also provides for the levy of fixed charges.
- 2.455 However, determination of Fixed Charges to be charged from a particular category and a particular slab of consumers is a sole prerogative of the Commission.

BRPL

- 2.456 No Response.

COMMISSION’S VIEW

- 2.457 Fixed charges are levied to cover the fixed expenses of the Utilities. The infrastructure and network involves continuous running and maintenance to ensure uninterrupted power supply irrespective of the fact whether such load demand is actually used or not. The energy charges indicate the variable charges which are directly linked to the consumption of electricity. Both fixed and energy charges form part of the electricity billing; decrease in one shall lead to increase in the other.

ISSUE 23: TARIFF FOR DMRC**STAKEHOLDER’S VIEW:**

- 2.458 NDMC proposed to increase the tariff for DMRC i.e. fixed charges from Rs. 125/KVA to Rs. 154/KVA (23.2% increase) and energy charges from Rs. 6.10/KVAh to Rs. 7.53/KVAh (23.4% increase).

- 2.459 There is an effective increase of almost 189% in last 5 years (i.e., from Rs. 2.50 to Rs.7.23 per unit). This has resulted in increase in working expenses of DMRC by 1095% (i.e. from Rs. 44 Crore in 2007-08 to Rs. 526 Crore in 2015-16), whereas increase in energy consumption is only 268% (20 Crore units in 2007-08 to 73.5 Crore units in 2015-16). DMRC will not be in a position to sustain any additional increase in tariff without passing it on to the consumer.
- 2.460 Distribution losses as provided in DISCOMs ARR Petitions for FY 2017-18 at 66 kV level are in range from 0-1% only. The purchase cost at 66 KV without considering distribution losses of lower voltage will be much lower than Rs. 5.31/unit for BRPL, Rs. 4.76/unit for BYPL, Rs. 4.49/unit for NDMC & Rs. 6.47/unit for TPDDL. Since DMRC takes power at 220kV/66KV and does not contribute to distribution losses, separate power purchase costs may be given by DISCOMs at various voltage levels (i.e. 220KV 66KV and L.T. level) after taking into consideration losses at corresponding voltage levels along with power purchase cost at each of the above voltage levels, clearly accounting for the losses for respective voltage levels.
- 2.461 As per agreed principle in November 2002, there is no provision of fixed charges. Hence, fixed charges are not applicable to DMRC and withdrawal of the same may be considered by DERC.
- 2.462 DMRC may be exempted from payment of Revenue Deficit surcharge (8% Surcharge).
- 2.463 DMRC has deposited security deposit of Rs 7,31,25,000 to BRPL, Rs 3,18,75,000 to BYPL, Rs 4,46,25,000 to TDPPL & Rs 1,20,00,000 to NDMC. Commission vide Tariff order for FY 2015-16 has allowed security deposit in the form of Bank Guarantee. But the DISCOMs have not agreed for refund of existing security deposit as they state that the order of the Commission w.r.t to the Bank Guarantee does not apply to the earlier existing contracts, clarification in this regard needs to be issued.
- 2.464 No Cross-subsidy surcharges are levied on DMRC for energy supplied by DISCOMs as well as for renewable energy procured through Open Access
- 2.465 DMRC requested to get exempted from ToD metering and should incentivize DMRC by way of reduce tariff in peak load conditions.
- 2.466 While availing power through open access, during feed extension, which is a force majeure condition, the scheduled demand of the failed sources should be added to the scheduled

demand of the alternate sources so that the energy drawn upto sum of the scheduled demand from DISCOMs through open access is charged at the open access rate. No fixed charges should be levied.

PETITIONER'S SUBMISSION**TPDDL**

2.467 No Response.

BYPL

2.468 In this regard, we would like to bring to your kind notice the Regulation 16 Para vi of the "Delhi Electricity Supply Code and Performance Standards Regulations, 2007" which states as under:

"16 vi) The amount of security deposit shall be as per the Regulation 29 or as approved by the Commission from time to time. The Licensee shall pay interest to the consumer at the rate of 6% per annum, or any other rate prescribed by the Commission payable annually on such deposit w.e.f. date of such deposit in cases of new connection energized after the date of this notification or in other cases, from the date of notification of these regulations. The interest accrued during the year shall be adjusted in the bill for the first billing cycle of the ensuing financial year."

Therefore it is to mention that Security Deposit amount is being levied as per the Regulations prescribed by the Commission

BRPL

2.469 No Response.

COMMISSION'S VIEW

2.470 The DMRC has already been considered as a special tariff category in the tariff orders issued by the Commission year on year. The issue of drawing power at higher voltage and rebate thereon has been inbuilt in the Tariff design and addressed appropriately in the Tariff Order.

2.471 The Commission is of the view that any increase in tariff for DMRC is on account of increase in power purchase cost and other components forming part of the ARR of the distribution licensees.

- 2.472 The Commission has already directed to the petitioner for energy audit to determine the voltage wise loss in the network of the petitioner. Further, the Commission is in the process of conducting independent assessment of Energy Audit of the Distribution Licensees and has already invited bids for the same.
- 2.473 The Tariff determined by the Commission in respective tariff order was also fixed by considering all the factors discussed above.
- 2.474 The Commission in its Delhi Electricity Regulatory Commission (Supply Code and Performance Standards) Regulation 2017 has made the provisions for providing bank guarantee in lieu of security deposit already deposited for the existing connections. The existing security deposit shall be refunded in twelve instalments in the bills.

ISSUE 24: ENERGY AUDIT**STAKEHOLDER'S VIEW**

- 2.475 There should be proper Energy Audit to get the accurate details of power consumption of each consumer category.

PETITIONER'S SUBMISSION**TPDDL**

- 2.476 No Response

BYPL

- 2.477 In this regard we would like to inform that in BYPL area consumer indexing related to distribution transformer has been done. Besides the above, area wise losses in the high loss areas in each division are uploaded bimonthly on the website (www.bsesdelhi.com) of the Petitioner which can be perused. Further, Commission has recently initiated process for "Appointment of Consultant For Energy Audit of the Networks of Discoms in NCT of Delhi".

BRPL

- 2.478 For the purpose of energy audit the first step is to install meter on all EHV/ HV feeders and distribution transformers. Another activity is Geographic Information System (GIS) mapping of all network assets. EHV level data for all the circles in its area of operations are uploaded

on the GIS server network and integration with SAP is completed, also updated Single Line Diagram for all grids stations attached and accessed through GIS. On HT side, data for all 33 divisions uploaded on GIS server and its integration with SAP is also completed. First stage of consumer indexing related to critical transformer is already over. As a next step Consumer indexing with distribution transformer has also been taken up and is in progress. Besides the above, area wise losses in the high loss areas in each division are uploaded bimonthly on the website (www.bsesdelhi.com) of the Petitioner which can be perused.

- 2.479 It is trusted that your valued suggestions for extending energy audit to other agencies/ establishments consuming bulk power will be suitably considered by the Commission.

COMMISSION'S VIEW

- 2.480 The Commission has directed the DISCOMs to conduct the energy audit regularly and display the losses on its website. The DISCOMs of Delhi have reported that they have adopted the latest technology like GIS, SCADA, and Distribution Automation etc.
- 2.481 The Commission is also of the view that wastage of electricity should be avoided. The Commission has been issuing the public awareness bulletins from time to time for use of energy efficient equipment/lighting.
- 2.482 The Commission is also in the process of appointment of consultant for energy audit of the networks of DISCOMs, for third party assessment of the actual technical & distribution losses of the Distribution licensee.

A3: TRUE UP FOR PAST PERIOD UPTO FY 2013-14**BACKGROUND**

3.1 The claims pertaining to true-up pending with respect to earlier periods have been divided into two parts as under:

- Directions of Hon'ble ATE given in various Judgments.
- Previous claims where either additional data was sought or there are certain arithmetical errors.

3.2 The Petitioner's claims have been discussed in detail in subsequent paragraphs and the impact of such claims have been considered along with carrying cost upto FY 2014-15.

DIRECTIONS OF HON'BLE APTEL IN VARIOUS JUDGMENTS**PETITIONER'S SUBMISSION**

3.3 The Petitioner in its Petition has claimed the impact of the directions of Hon'ble APTEL in various judgments as below:

Table 8: Directions given by Hon'ble Tribunal in various Judgments

Sr. No.	Issue	Date of Judgment	Direction to the Hon'ble Commission
1	Deferment of Capitalisation based on EI Certificate	October 6, 2009	To allow the capitalisation based on EI Application plus 15 days
		March 2, 2015	To conduct physical verification of assets and complete exercise within 6 months
2	Disallowance of REL Purchases	October 6, 2009	To allow the impact based on comparison with NDPL prices
		March 2, 2015	To provide all the data for comparison within a month of receipt of requirement by the Petitioner
3	Cost of Debt	October 6, 2009	True-up rate of interest of loans based on variation in SBI PLR
		November 28, 2014	To true-up the rate of interest as SBI PLR has varied by more than +/-1%
		February 10, 2015	To true-up the rate of interest pertaining to working capital loans from FY 13 to FY 15 based on actuals.
		March 2, 2015	To true-up the rate of interest as SBI PLR has varied by more than +/-1%
4	Repayment of loans	November 28, 2014	To consider repayment of loans while computing WACC

Sr. No.	Issue	Date of Judgment	Direction to the Hon'ble Commission
		March 2, 2015	To consider repayment of loans while computing WACC
5	Working Capital	May 31, 2011	To consider the working capital in debt-equity ratio of 70:30
		November 28, 2014	Implement the directions in letter and spirit
		March 2, 2015	Implement the directions in letter and spirit
6	Truing-up of FY 2007-08-First 11 months	July 12, 2011	To allow the impact on truing-up of FY 08 (11 months) as per Reg. 12.1
		November 28, 2014	To allow the impact on truing-up of FY 08 (11 months) as per Reg. 12.1
		March 2, 2015	To allow the impact on truing-up of FY 08 (11 months) as per Reg. 12.1
7	Revision in distribution loss from FY 08 to FY 11	October 6, 2009	To amend the distribution loss based on the representation made by DISCOMs
		November 28, 2014	To reconsider the matter within 3 months of the Judgment based on submission of the DISCOM
		March 2, 2015	To reconsider the matter within 3 months of the Judgment based on submission of the DISCOM
8	Truing-up of AT&C Loss for FY 2008-09	November 28, 2014	To reconsider the matter taking into account the information submitted by the DISCOM
9	Effect of 6 th pay commission for Non-DVB Employees	October 6, 2009	To allow the impact of 6th pay commission for non-DVB Employees if incurred by DISCOM
		May 15, 2015	To allow the impact of 6th pay commission for non-DVB Employees as average salary of Non-DVB Employees still less than DVB Employees
10	AT&C Loss for FY 2011-12	November 28, 2014	To consider the AT&C Loss for FY 2011-12 as per letter dated March 8, 2011
11	Non-Revision of AT&C Loss for FY 2012-13 and FY 2013-14	March 2, 2015	To set a reasonable loss trajectory and revise the AT&C Loss trajectory from FY 2012-13 to FY 2014-15 by a percentage of 1.05%, 1.2% and 1.25%. To revise the collection efficiency
12	Increase in employee expenses corresponding to increase in consumer base	October 6, 2009	To allow the increase in employee expenses corresponding to increase in consumer base
13	Payments to VRS optees	October 6, 2009	To allow the payment to VRS optees pending decision of Actuarial Tribunal
		November 28, 2014	To allow the payments made by the DISCOM on ad-hoc basis and adjust the same after decision of Actuarial Tribunal
		March 2, 2015	To allow the payments made by the DISCOM on ad-hoc basis and adjust the same after decision

Sr. No.	Issue	Date of Judgment	Direction to the Hon'ble Commission
			of Acturial Tribunal
14	R&M and A&G Expenses from FY 05 to FY 07	October 6, 2009	To allow the R&M and A&G Expenses from FY 05 to FY 07 on actual basis subject to prudence check
		November 28, 2014	To allow the R&M and A&G Expenses from FY 05 to FY 07 on actual basis subject to prudence check and not to circumvent the decisions given in Judgment dated October 6, 2009
		March 2, 2015	To allow the R&M and A&G Expenses from FY 05 to FY 07 on actual basis subject to prudence check and not to circumvent the decisions given in Judgment dated October 6, 2009
15	Lower rates of carrying cost	July 30, 2010	To allow the carrying cost in debt-equity ratio of 70:30 by considering prime lending rates
		November 28, 2014	To allow the carrying cost in debt-equity ratio of 70:30 by considering prime lending rates
		March 2, 2015	To allow the carrying cost in debt-equity ratio of 70:30 by considering market lending rates
16	AT&C Loss for FY 2010-11	March 2, 2015	To provide consequential relief to DISCOM in case schemes were not approved by the Commission for FY 2010-11
17	Efficiency factor for FY 12	November 28, 2014	To allow the impact on account of arbitrary determination of efficiency factor during FY 2011-12
18	Efficiency factor from FY 13 to FY 15	March 2, 2015	To re-determine the efficiency factor from FY 13 to FY 15 based on the comparison with utilities with similar loss level or utilities operating in Metropolitan cities for at least last three years
19	Efficiency factor from FY 08 to FY 11	March 2, 2015	To allow the impact on account of arbitrary determination of efficiency factor for FY 2010-11
20	Computation of AT&C Loss for FY 2009-10	November 28, 2014	To recompute the AT&C losses for FY 2009-10 using actual kWh figures as recorded in Para-4.8 of the Impugned order
21	Own Consumption-reversals	March 2, 2015	To consider the sales for self-consumption based on metered consumption only.
22	Financing cost of LPSC based on SBI PLR	March 2, 2015	To allow LPSC at prevalent market lending rates
23	Reversal of short term gain	July 12, 2011	To allow the interest on short term gain as the working capital is allowed on normative basis as per Regulations. Further only interest earned on LPSC and interest on Consumer Security Deposit above rates specified by the Commission to be considered as NTI

Sr. No.	Issue	Date of Judgment	Direction to the Hon'ble Commission
24	Disallowance of rebate arising out of payment made to DTL	October 6, 2009	To decide the matter on dispute between DTL and the Petitioner and make suitable adjustments in the entitlement of the Petitioner as soon as decision is taken in this regard
25	DVB Arrears while computing AT&C loss for FY 09	November 28, 2014	To determine the AT&C Loss with same ingredients in numerator and denominator
		March 2, 2015	To determine the AT&C Loss with same ingredients in numerator and denominator
26	Incorrect revision of R&M Expenses by revising "K" factor	March 2, 2015	To include R&M Expenses incurred during FY 08 while determination of K factor for second control period
27	Interest de-capitalised	July 12, 2011	To correct the error of capitalisation of interest during true-up of FY 2007-08
28	Additional UI Charges above 49.5 Hz	March 2, 2015	To allow UI charges incurred above 49.5 Hz in FY 2010-11
29	Disallowance of reactive energy charges	October 6, 2009	To allow the carrying cost on reactive energy charges during FY 2007-08

3.4 The issues submitted by the Petitioner are discussed as follows:

CAPITALISATION BASED ON ELECTRICAL INSPECTOR APPLICATION PETITIONER'S SUBMISSION

3.5 The Petitioner has submitted that the Commission in the Tariff Order dated February 23, 2008 had disallowed capitalisation of Rs. 855 Crore, pending clearance for the capital schemes by the Electrical Inspector for the FY 2004-05 to FY 2006-07. The capital schemes have been put to use by the Company, and are servicing 18.49 lakh consumers. However, since FY 2004-05 the Company has been deprived of the costs of such expenditure.

3.6 The Petitioner has submitted that the Hon'ble ATE in its order dated October 6, 2009 (Appeal 36 of 2008) has rendered the following decision:

"118) ...For capitalisation of fresh assets the DISCOM shall make appropriate applications to the Electrical Inspector and the capitalisation of such assets will be allowed w.e.f. 16th day of filing of the application and payment of necessary fee.."

3.7 The Petitioner has submitted that the Commission is required to give effect to the directions given by Hon'ble ATE with respect to the capitalization of assets within 16 days of EI

application date which is yet to be implemented. The Commission vide its letter dated January 6, 2015 specified a format in which the details related to Electrical Inspector Certificate was sought. The Petitioner vide letter dated March 13, 2015 has submitted all the details along with the documentary proofs before the Commission.

- 3.8 Meanwhile the Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) directed the Hon'ble Commission as under:

"10.4... We, therefore direct the State Commission to carry out the physical verification of the assets capitalised during FY 2004-05 and 2005-06 through its appointed agency and expedite implementation of the decision of this Tribunal in Appeal no. 36 of 2008 decided on 06.01.2009. The whole issue shall be decided within 6 months of the date of this Judgment."

- 3.9 The Petitioner has already filed a review petition (RP No. 16 of 2015) against the aforesaid issue as the physical verification of assets pertaining to FY 2004-05 and FY 2005-06 has already been carried on a sample basis by the Commission. Without pre-judice to the contentions of the Petitioner in RP No. 16 of 2015, the Petitioner requests the Commission to allow the impact on account of aforesaid direction.

- 3.10 The Petitioner has discussed the total impact on account of EI disallowances along with directions of Hon'ble ATE on other capex related claims in the Para-3.13 to Para-3.20 of the Petition. However, the total impact on account of truing-up of capitalisation from FY 2007-08 to FY 2014-15 (including EI disallowance and other capex related claims) is tabulated below:

Table 9: Impact on account of capex related claims

Sr. No.	Particulars	FY 03	FY 04	FY 05	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14

3.11 Accordingly, the Petitioner has requested the Commission to allow the aforesaid impact.

COMMISSION'S ANALYSIS

3.12 The Commission has already submitted before Hon'ble APTEL in Appeal No. 297 of 2015 that once the physical verification report is submitted by the consultant then the Commission will finalize the true up of Capitalisation as per the direction of the Hon'ble APTEL subject to the outcome of Civil Appeal No. 884 of 2010 filed by the Commission before Hon'ble Supreme Court on this issue.

3.13 Further, the Petitioner has submitted segregation of disallowed schemes on account of non-availability of Electrical Inspector certificates and related party transactions as well as reconciliation of any scheme capitalized in the subsequent years. As the data is voluminous and its segregation will take some time, therefore, the impact due if any, on non-related party transactions, will be considered in the subsequent Tariff Orders whose Electrical Inspector certificates have been obtained.

CAPITALISATION PERTAINING TO REL PURCHASES PETITIONER'S SUBMISSION

3.14 The Petitioner has submitted that the Commission in its Tariff Order dated February 23, 2008 had disallowed capital expenditure of Rs. 364.16 crores, since the goods were purchased by the Petitioner from REL for Rs. 868.70 crore during FY 2004-05 & FY 2005-06. The goods purchased have been put to use by the Petitioner, and are servicing 18.49 lakh consumers. However, since FY 2004-05 the Petitioner has been deprived of the costs of such expenditure.

The year-wise bifurcation of the disallowance is tabulated below:

Table 10: Impact on account of disallowance of REL Purchase (Rs. Cr.)

Sr. No.	Particulars	FY 05	FY 06	FY 07	FY 08	FY 09
1	REL Disallowances	3	61	69	122	109

- 3.15 The Hon'ble ATE in its Judgment dated October 6, 2009 (Appeal 36 of 2008) has viewed the following:

"57) ...In case the price paid to REL is same as or lower than the price allowed to NDPL for a comparable commodity, the Commission shall allow the price paid to REL. The Commission shall, however, allow a lesser price if the NDPL's price is lower than the price of REL's purchase plus 5% profit margin."

- 3.16 The Petitioner vide its letter dated July 31, 2013 and March 13, 2015 has already furnished the information as desired by Commission, whereby, the Petitioner has suitably submitted a comparison of rates of the capital expenditure incurred for equipment's purchased from REL, with rates as that of TPDDL which could be obtained on best effort basis. Earlier, the Petitioner vide its letter dated December 1, 2009 requested the Commission to provide the necessary information pertaining to TPDDL required for comparison as per the directions of Hon'ble ATE. However the same was not provided by the Commission and therefore the Petitioner has submitted the information to the extent it could be obtained.

- 3.17 Based on the information has obtained from the market sources, the Petitioner has furnished documents which demonstrate that out of Rs. 868.70 cr., being the value of total goods purchased from REL, the price paid for goods worth Rs. 550.91 cr. i.e. ~ 63% were 23% lower than the price paid by TPDDL.

- 3.18 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) directed the Hon'ble Commission as under:

*"9.6 Without going into the controversy, we direct the Appellants to submit the details of the items for which data is required by an application to the State Commission. **The State Commission will make available the data to the Appellants within a month of the application. The Appellant after analysis will file its claim before the State Commission and the Commission will consider the same as per the directions of the Tribunal in Appeal no. 36 of 2008 decided on 06.01.2009 and decide the matter within 60 days of submissions made by the Appellants. Accordingly directed."***

COMMISSION'S ANALYSIS

- 3.19 The Commission has not considered this issue in this Tariff Order because the Petitioner has failed to comply with the directions of the Hon'ble APTEL in Appeal No. 177 of 2012. This aspect has also been submitted before the Hon'ble APTEL in Appeal No. 297 of 2015.

TRUE-UP ACTUAL RATE OF INTEREST PETITIONER'S SUBMISSION

- 3.20 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

*"37. On perusal of the data submitted by the Appellant related to SBI PLR, it is clear that SBI PLR has deviated by more than 1% during the control period and accordingly the Commission was required to revise the rate of interest on loan and carry out the required true up. Further, despite admitting that true of Return on Capital Employed (RoCE) would done at the end of control period, the Delhi Commission has failed on both the counts. **The Delhi Commission is directed to revise the rate of interest on loan as well true up of the RoCE in its next tariff exercise. The issue is accordingly decided in favor of the Appellants.**"(Emphasis added)*

- 3.21 Further the Hon'ble ATE in Judgment dated February 10, 2015 (Appeal 171 of 2012) has ruled as under:

"13.4 We find that the State Commission has considered interest rate for working capital as 11.62% and interest rate for capital at 11.25% for the control period 2012-13 to 2014-15. The Appellant has produced a letter from SBI dated 02.01.2012 showing working capital facilities sanctioned at an interest rate of 3.25% above base rate which works out to 13.25% p.a. with monthly interests. This letter was furnished to the State Commission by letter dated 21.05.2012. This has not been considered by the State Commission while deciding the rate of interest on working capital. In the submissions of the State Commission before us they have not denied receipt of this letter but have not given any explanation why the this letter was not considered by them while deciding the interest on working capital. There is also no explanation in the impugned order regarding fixing interest rate at 11.25% on working capital. We, therefore, direct the

State Commission to true-up the interest rate on working capital for the years from 2012-13 to 2014-15 in the true up of the accounts, based on the actual interest rates.”

3.22 Accordingly, the Petitioner vide its letter dated July 05, 2013 has submitted the actual rate of interest from FY 2007-08 to FY 2013-14 which are as under:

Table 11: Actual rates of Interest

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Rate of Interest	10.34%	11.12%	11.52%	12.30%	14.16%	14.47%	14.15%

COMMISSION'S ANALYSIS

3.23 The Commission has already clarified this issue in Tariff Order dtd. 29/09/2015 as follows and needs no further deliberation in this Tariff Order as the matter is sub-judice before Hon'ble APTEL :

“ 3.31 In view of the above direction of the Hon'ble APTEL, it is pertinent to state that the SBI PLR has not deviated from FY 2007-08 to FY 2010-11 by more than 1% on either side. Therefore the Commission has not revised the interest rate from FY 2007-08 to FY 2010-11. The Commission, as such, has considered the revision in interest rate in truing up of FY 2011-12, since the SBI PLR has deviated by more than 1% (14.01% -12.50%) in FY 2011-12.

3.32 The Commission had provisionally allowed the actual rate of interest for FY 2011-12. It is observed that the SBI PLR varied by 2.13% in FY 2011-12 over the previous year, while the DISCOM was provisionally allowed the interest rate at 4.91% above the normative interest rate for FY 2010-11 in the Tariff Order dated July 2013. The Commission has decided to revise the rate of interest applicable to FY 2011-12 based on actual variation in average rate for SBI PLR from FY 2010-11 to FY 2011-12 of 2.13% and revised rate of interest is 11.29% (9.16% + 2.13%). Further, in view of the Hon'ble APTEL's direction in Appeal No. 36 of 2008 and Appeal No. 61 & 62 of 2012, the Commission has filed a Clarificatory Application before the Hon'ble APTEL, therefore a view in the matter will be taken, as deemed fit and appropriate, after receipt of the direction of the Hon'ble APTEL in the said application.”

REPAYMENT OF LOANS**PETITIONER'S SUBMISSION**

3.24 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

"102. In the light of above discussions we find force in the contentions of the Appellant and direct the Commission to re-evaluate the WACC considering the repayment of loans during the period and recomputed the RoCE payable to the Appellant. The issue is decided in favour of the Appellant." (Emphasis added)

3.25 The Petitioner has considered one-tenth of the outstanding balance of loan as repayment during the year. The same has been deducted from the loan balance for calculation of average debt during the year.

COMMISSION'S ANALYSIS

3.26 The Commission has already clarified this issue in Tariff Order dtd. 29/09/2015 in para nos. 3.34 to 3.37 and needs no further deliberation in this Tariff Order as the matter is sub-judice before Hon'ble APTEL in Appeal No. 297/2015.

FINANCING OF WORKING CAPITAL IN DEBT-EQUITY RATIO OF 70:30**PETITIONER'S SUBMISSION**

3.27 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

"9. However, the Appellants have reiterated in written submission that the Respondent has still not implemented the direction of this Tribunal to consider the working capital in the Debt: Equity ratio of 70:30.

10. We are not inclined to involve ourselves in to fact finding and direct the Commission to implement our directions in letter and spirit."

COMMISSION'S ANALYSIS

3.28 The Commission has already clarified this issue in Tariff Order dtd. 29/09/2015 in para nos.

3.22 to 3.26 and needs no further deliberation in this Tariff Order as the matter is sub-judice before Hon'ble APTEL in Appeal No. 297/2015.

3.29 Further, it is clarified that the Commission has implemented its MYT Regulations, 2007 & 2011 and directions of Hon'ble APTEL in letter and spirit. The formula specified in MYT Regulations, 2007 & 2011 does not provide opening Working Capital requirement to be part of opening RRB and instead it provides for change in WC for the 1st year of the Control period to be considered as the normative working capital requirement of the 1st year.

TRUING-UP OF FY 2007-08 (11 MONTHS)

PETITIONER'S SUBMISSION

3.30 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

"25. In the light of categorical submission that required true up would be made, the Commission is directed to carry out the same in its next tariff exercise and allow the differential amount, if any, along with carrying costs."

3.31 The Petitioner has submitted that the Commission in Tariff Order dated September 29, 2015 did not fully implement the directions of Hon'ble ATE, details of which are as under:

- a) Only actual O&M Expenses pertaining to first 11 months of FY 2007-08 have been allowed. No treatment of revision in O&M Expenses for subsequent years.
- b) Actual rate of depreciation as per Audited Accounts for first 11 months was not applied on actual opening GFA of FY 2007-08 appearing in the Audited Accounts. However the same has been applied on much lesser provisionally approved opening GFA for FY 2007-08 in Tariff Order.
- c) RoCE instead of ROE and Interest on loans has been allowed for first 11 months based on the principles specified in DERC Tariff Regulations, 2007 which are actually applicable from March 1, 2008.

COMMISSION'S ANALYSIS

3.32 The Commission has already clarified this issue in Tariff Order dtd. 29/09/2015 in para nos.

3.60 to 3.64 and needs no further deliberation in this Tariff Order as the matter is sub-judice before Hon'ble APTEL in Appeal No. 297/2015

REVISION IN O&M EXPENSES FOR SUBSEQUENT YEARS PETITIONER'S SUBMISSION

- 3.33 The Petitioner has submitted that the Commission despite revising the Employee and A&G Expenses during FY 2007-08 has still considered the employee and A&G Expenses from FY 2008-09 to FY 2010-11 on older base employee expenses of FY 2007-08 which is no longer in existence. Regulation-5.4 of MYT Regulations, 2007 provides the formula for computation of Employee and A&G Expenses during the control period which clearly specifies that for the purpose of computation of Employee and A&G Expenses of subsequent year, inflation factor based on CPI and WPI ought to be applied on Employee and A&G Expenses determined for the previous year. The Petitioner has further submitted that as per the methodology adopted by the Commission, the employee expenses approved for FY 2008-09 are lesser by Rs. 25 Crore as compared to the employee expenses approved for FY 2007-08 which means a reduction of 15% instead of inflation factor of 4.66%. Such a treatment is contrary to the above Regulations.
- 3.34 Accordingly, the Commission ought to have applied the inflation factor of 4.66% as determined for the control period on the revised employee and A&G Expenses of FY 2007-08 on y-o-y basis.
- 3.35 The Petitioner has further submitted that the definition of "Base Year" and "Control Period" is clearly specified in MYT Regulations, 2007 which states as under:

"2.1 In these Regulations, unless the context otherwise requires-

...

(d) "Base Year" means the Financial Year immediately preceding first year of the Control Period and used for purposes of these Regulations;

...

9.. *"Control Period" means a multi-year period fixed by the Commission, from the date of issuing Multi Year Tariff order till 31st March 2011;*

...” (Emphasis added)

- 3.36 A plain reading of the aforesaid definitions clearly states that the Control Period starts from the date of issuance of Multi Year Order, i.e., February 23, 2008 and base year is the financial year immediately preceding first year of the control period, i.e., FY 2007-08. Since the Hon’ble Commission has revised the employee expenses of FY 2007-08, i.e., base year, the employee expenses ought to be revised for the period FY 2008-09 to FY 2011-12.
- 3.37 Accordingly the Petitioner has submitted that the Commission may allow the additional Employee and A&G Expenses from FY 2008-09 to FY 2011-12 by applying inflation of 4.6% over the increase in O&M Expenses approved for FY 2007-08 as tabulated below:

Table 12: Increase in O&M Expenses from FY 2007-08 to FY 2011-12 (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12
1	Employee	13	14	14	15	15
2	A&G Expenses	2	2	2	2	2
3	Total Expenses	14	15	16	17	17

EFFECT OF 6TH PAY COMMISSION FOR NON-DVB EMPLOYEES PETITIONER’S SUBMISSION

- 3.38 The Hon’ble ATE in Judgment dated May 15, 2015 (RP No. 7 of 2015) has ruled as under:

“7. The Review Petitioner/Appellant had also furnished the comparison between average salary of FRSR employees and non-FRSR employees showing that the average salary of non-FRSR employees is lower than FRSR employees. It is also stated that the average cost to company (CTC) of non-FRSR employees even after accounting for additional emoluments given in view of implementation of Pay Commission Report for FRSR employees, the average CTC of non-FRSR employees is less than average CTC of FRSR employees.

In view of above we allow the Review Petition. Delhi Commission will consider the issue as per the judgment of this Tribunal in 2009 ELR (APTEL) 880.”

- 3.39 The Commission in Tariff Order dated September 29, 2015 is silent on the issue of 6th pay commission for non-DVB Employees. The Petitioner has explained the computation of impact on account of 6th pay commission in subsequent paragraphs.

- 3.40 The Commission vide Tariff Order dated February 23, 2008 has allowed the following

employee expenses from FY 2005-06 to FY 2006-07 as under:

Table 13: Employee expenses approved for FY 2005-06 and FY 2006-07 (Rs. Cr.)

Sr. No.	Particulars	FY 06	FY 07
1	Net Employee Expenses#	121.13	137.60
2	Employee Expenses pertaining to DVB Employees	75.64	85.92
3	Employee Expenses pertaining to Non-DVB Employees	45.50	51.68

3.41 Further the Commission vide Tariff Order dated August 26, 2011 has allowed the following employee expenses from FY 2007-08 to FY 2010-11:

Table 14: Employee Expenses approved from FY 2007-08 to FY 2010-11 (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11
1	Net Employee Expenses#	144.01	150.72	157.74	165.09

3.42 Since the bifurcation of employee expenses from FY 2007-08 to FY 2010-11 has not been provided, the Petitioner has applied the same ratio as provided for FY 2006-07 for bifurcation of employee expenses between DVB and Non-DVB Employees as under:

Table 15: Bifurcation of Employee Expenses into DVB and Non-DVB Employee expenses approved during FY 2006-07 (Rs. Cr.)

Sr. No.	Particulars	FY 07	%
1	Net Employee Expenses#	137.60	100%
2	Employee Expenses pertaining to DVB Employees	85.92	62%
3	Employee Expenses pertaining to Non-DVB Employees	51.68	38%

Table 16: Bifurcation of Employee expenses into DVB and Non-DVB Employee (Rs. Cr.)

Sr. No.	Particulars	Reference	FY08	FY09	FY10	FY11
1	Total salary	Table-37 of TO dt. Aug 26, 2011	144.01	150.72	157.74	165.09
2	Salary of FRSR	62% x 1	89.92	94.11	98.50	103.09
3	Salary for Non FRSR	38% x 2	54.09	56.61	59.24	62.00

3.43 The Commission vide Tariff Order dated August 26, 2011 has allowed the following amount on account of arrears due to sixth pay commission for DVB Employees:

Table 17: Arrears approved on account of 6th pay commission from FY 07 to FY 11 (Rs. Cr.)

Sr. No.	Particulars	FY 06	FY 07	FY08	FY09	FY10	FY11
1	Arrears on account of 6 th pay Commission	6.74	27.06	28.32	37.73	45.39	47.50

3.44 The impact of increase in salary of non-DVB Employees on account of 6th pay commission from FY 2007-08 to FY 2010-11 has been computed below:

Table 18: Impact of increase in salary of non-DVB Employees on account of 6th pay commission from FY 2007-08 to FY 2010-11 (Rs. Cr.)

Sr. No.	Particulars	FY06	FY07	FY08	FY09	FY10	FY11
1	Total salary	121.13	137.6	144.01	150.72	157.74	165.09
2	Effect of 6 th pay	6.74	27.06	28.32	37.73	45.39	47.5
3	Salary of FRSR	75.64	85.92	89.92	94.11	98.50	103.09
4	Salary for Non FRSR	45.50	51.68	54.09	56.61	59.24	62.00
5	Effect of 6th pay on non FRSR	4.05	16.28	17.03	22.69	27.30	28.57

3.45 Further, the Petitioner has submitted that the Commission in Tariff Order dated August 26, 2011 has applied an inflation of 4.66% on employee expenses approved for FY 2010-11 (which includes impact of 6th pay commission for DVB Employees) to arrive at employee expenses for FY 2011-12. Accordingly, the effect of 6th pay on non-FRSR Employees during FY 2011-12 is tabulated below:

Table 19: Impact of increase in salary of non-DVB Employees on account of 6th pay commission during FY 2011-12 (Rs. Cr.)

Sr. No.	Particulars	Reference	FY11	Inf.	FY12
1	Total salary	A	165.09	4.66%	172.78
2	Effect of 6th pay	B	47.5	4.66%	49.71
3	Salary of FRSR	C	103.09	4.66%	107.89
4	Salary for Non FRSR	D	62.00	4.66%	64.89
5	Effect of 6th pay on non FRSR	E=D/C X B	28.57		29.90

3.46 The Petitioner has submitted that the impact on account of the increase in the salary of non-DVB Employees due to the 6th pay Commission from FY 2007-08 to FY 2011-12 has been computed along with carrying cost up to FY 2013-14 is as under:

Table 20: Impact on account of 6th pay commission along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	4	22	43	73	112	157	212	244
2	Additions	4	16	17	23	27	29	30		
3	Cl. Balance	4	21	39	65	100	140	187	212	244
4	Average	2	12	30	54	87	126	172	212	244
5	Rate of interest	9%	9%	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%

Sr. No.	Particulars	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
6	Carrying cost	0	1	4	7	11	17	26	32	37
7	Grand Cl. Balance	4	22	43	73	112	157	212	244	281

3.47 It is to be noted that the Hon'ble ATE has in its Order dated May 15, 2015 in RP No.7 of 2015 in Appeal No.61 of 2012, RP No.13 of 2015 in Appeal No.62 of 2012 directed this Commission to consider the expenses of the non-FRSR employees as per the judgment of the Hon'ble ATE in 2009 ELR (APTEL) 880.

INCREASE IN EMPLOYEE EXPENSES CORRESPONDING TO INCREASE IN CONSUMER BASE PETITIONER'S SUBMISSION

3.48 In the Petitioner's licensed area of supply, consumer base has increased by 59 % in FY 12 as compared to FY 2006-07 (FY 07: 10.9 Lakhs, FY 12; 17.33 Lakhs) and units billed have grown by 51 % in FY 2011-12 as compared to FY 2006-07 (Units billed 2007: 5872 MU, 2012: 8844 MU). The Petitioner is obligated under the extant regulatory framework to maintain standards in supply of electricity and to retain AT & C loss levels effectively. As per the Hon'ble ATE order, the Hon'ble Commission is required to factor in the increase in employee cost required due to increase in consumer base.

3.49 The Hon'ble ATE in Judgment dated October 6, 2009 (Appeal No. 36 of 2008) has held that the Delhi Commission should true up employee expense to the extent of increase caused by increase in consumer base. The relevant extracts are reproduced below:

"74) Having gone through the impugned order we do find that the Commission has not considered the issue of possible increase in the number of employees consequent on increase in the consumer base. Nor has the Commission ruled on the Petitioner's proposal to increase the salaries etc. The Commission has nonetheless assured to true up the employees expenses subject to prudence check. The Commission shall also take care of the related carrying cost. This should satisfy the Petitioner.

75) ... We thus conclude the issue of employees' expenses by saying that the: The Commission shall allow the expenses incurred towards the retirement benefit of SVRS optees pending decision of the Actuarial Arbitration Tribunal and shall true up the

employee expenses to the extent of increase caused by increase in the consumer base..... “

3.50 The Hon'ble Commission in Tariff Order dated July 31, 2013 stated as under:

“3.112 As regard true up of the employees expenses to the extent of increased cost by increase in consumer base and salary hike comparable to sixth pay Commission's recommendations for employees other than erstwhile DVB employees, the Commission has initiated a benchmarking exercise for employee expenses taking into account the increased consumer base as well as increase in sales. This would also take into account the salary hike of employees other than the erstwhile DVB employees. The impact will be given once the benchmarking exercise is completed.”

3.51 The aforesaid benchmarking exercise has not found place in any of the tariff orders issued after July 31, 2013.

3.52 The Petitioner has further submitted that they have added considerable number of employees during the MYT Control period to cater to the needs of the business growth.

3.53 As per the DERC MYT Regulations, sales is an uncontrollable factor because the licensee has a universal obligation to provide electricity to any consumer. Therefore to meet with the business growth, the licensee is forced to employ additional manpower. Under this circumstance, the Hon'ble Tribunal had directed the Hon'ble Commission to true up the employees expenses to the extent of increased cost by increase in consumer base. The Hon'ble Commission has already trued up the consumer base of the Petitioner for the First MYT Control Period but is yet to implement the judgment of the Hon'ble ATE. The impact of increase in consumer base on the employee cost is estimated below:

Table 21: Increase in employee expenses from FY 08 to FY 12 (Rs. Cr.)

Sr. No.	Particulars	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12
1	Employee Expenses in the base year	181					
2	No. of Consumers served during base year	1090691					
3	Employee Expenses per consumer in the base year	1659					
4	Escalation Factor		4.66%	4.66%	4.66%	4.66%	4.66%

7	Grand Cl. Balance	15	60	95	134	173	198	228

3.54 In view of the aforesaid, the Petitioner has submitted that the Commission is required to expeditiously implement the Hon'ble ATE judgment and to true-up the employee expenses to the extent of increased cost by increase in consumer base along with carrying costs.

COMMISSION'S ANALYSIS

3.55 The Hon'ble APTEL in Appeal No. 142/2009 directed the State Commission to true up the financials for the period 1.4.2007 to 28.2.2008 and allow the costs with carrying cost. Accordingly, the Commission has already implemented the said directive in its Tariff Order dtd. 29/09/2015 in para nos. 3.60 to 3.63.

3.56 However, the Petitioner has also requested for true up O&M expenses for FY 2008-09 to FY 2011-12 which is not based on the direction of Hon'ble APTEL in Appeal No. 142/2009. Therefore, the Commission has not considered this issue in this Tariff Order as O&M expenses is controllable in nature.

- 3.57 Further, regarding revision in Employee Expenses on account of increase in Consumer base and impact of the 6th Pay Commission on Non FRSR employees, the Commission had provided the methodology for Truing up of O&M Expenses for the 1st Control Period in its Tariff Order dtd. 23/02/2008 as follows:

“ Truing up of O&M Expenses for the Control Period

4.148 As per the MYT Regulations, 2007 Clause 4.16 (b) (i), O&M expenses (viz. Employee expenses, A&G expenses and R&M expenses) is a controllable factor and hence the O&M expenses projected for the Control Period, as per the methodology specified in the MYT Regulations, 2007 are not subjected to truing-up in the ARR.

4.149 The Commission, however, considering the uncontrollable nature of the recommendations of the 6th Pay Commission, shall allow the truing up of employee expenses to the extent it varies from the projections considering the effect of the recommendations of the Pay Commission.

4.150 Any variations on account of A&G expenses shall not be trued up and any surplus or deficit on account of over or under achievement shall be to the account of the Petitioner.

4.151 Any variations on account of R&M expenses shall not be trued up and any surplus or deficit on account of over or under achievement shall be to the account of the Petitioner. The Commission clarifies that though the value of GFA is subjected to truing up at the end of the Control Period, the Commission, however, shall not true-up R&M expenses as a consequence of the same.”

- 3.58 In view of the above, it is pertinent to mention that total O&M expenses as approved by the Commission in its MYT Order dtd. 23/02/2008 as per DERC MYT Regulations, 2007 were covered under Controllable parameters except the impact of recommendations of the 6th Pay Commission. However, the Petitioner is interpreting the methodology for True up for its advantage under R&M Expenses and claiming additional Employee Expenses over and above impact of recommendations of the 6th Pay Commission under the head of increase in consumer base, impact of Non-FRSR employees cost and impact of revised base year.

- 3.59 The Petitioner in this Tariff Petition has sought upward revision in Employee Expenses for 1st

MYT Period against the methodology as indicated above of the 1st MYT Order.

3.60 Further, the Commission has analysed O&M Expenses approved vis-a-vis audited O&M Expenses and O&M Expenses claimed by the Petitioner for the period from FY 2007-08 to FY 2011-12 in totality and it is observed that the Petitioner has claimed O&M expenses more than the audited O&M expenses to tune of around Rs. 268 Cr. under un-controllable expenses. The comparative analysis of the O&M Expenses is as follows:

Table 23: Comparative Analysis of the O&M Expenses

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	Remarks
1	Employee Expenses	136.54	141.08	148.33	203.07	211.38	Tariff Order FY 2015-16 Table No. 3.46
2	R&M Expenses	71.44	78.42	102.28	112.93	122.97	
3	A&G Expenses	65.31	68.35	71.54	74.88	78.37	
4	Total O&M Expenses	273.29	287.85	322.15	390.88	412.72	
5	Efficiency Factor		2%	3%	4%	4%	
6	6th Pay Commission Arrears		8.35	136.88			
7	SVRS Pension	14.17	10.88	18.28	9.97	7.39	
8	Net O&M Expenses	287.46	301.32	467.65	385.22	403.6	
9	O&M Expenses earlier allowed in T.O	289.54	305.25	458.88	386.69	407.94	
10	Difference to be (allowed)/recovered	2.08	3.93	-8.77	1.47	4.34	
ACTUAL							
12	Employee Expenses	164.39	182.06	318.76	250.62	285.43	Audited Accounts
13	R&M Expenses	79.23	72.95	63.77	98.49	114.75	
14	A&G Expenses	67.02	70.86	53.94	74.19	85.15	
Claimed Now by BRPL							
15	Additional Employee Expenses based on 11 months impact	13	14	14	15	15	Petition table 3.17e
16	Increase In Employee due to Consumer Addition	14	40	25	25	17	Petition table 3.17ab
17	Increase In Employee due to 6th Pay on Non-FRSR	17	23	27	29	30	Petition table 3.17w
18	TOTAL SOUGHT BY BRPL	195	234	365	274	281	Computation
19	Difference in Claimed v/s Audited Accounts	30	52	46	23	-4	Computation
21	Additional R&M Expenses	1	12	8	17	23	Petition table 3.17 bu

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	Remarks
22	Difference in Claimed v/s Audited Accounts	-7	16	43	27	31	Computation
20	Additional A&G Expenses	2	2	2	2	2	Petition table 3.17 e
21	Difference in Claimed v/s Audited Accounts	0	-2	17	-1	-5	Computation
22	Total O&M Claimed	334	391	543	473	507	Computation
23	Total O&M as per Audited Accounts	311	326	436	423	485	
24	Difference in Claimed v/s Audited Accounts	23	66	107	49	22	
25	Difference in Approved v/s Audited Accounts	-23	-25	31	-38	-82	

3.61 In view of the above, the Commission has not considered the additional claim of the Petitioner under O&M Expenses for the period from FY 2007-08 to FY 2011-12 as the claim is more than the Audited Accounts and highly inflated. Further, the matter is sub-judice in Appeal No. 297/2015 and Clarificatory Application filed before Hon'ble APTEL, therefore, does not merit consideration at this point of time.

DEPRECIATION FOR FIRST 11 MONTHS OF FY 2007-08 PETITIONER'S SUBMISSION

3.62 The Petitioner has submitted that the Commission has applied the depreciation rate on the opening GFA, which itself was not based on the actual audited accounts, but computed on the basis of the methodology in the MYT Regulations, 2007. If the Commission were to apply Regulation 12.1 in its entirety, it ought to have applied the rate of depreciation on the opening GFA as per the audited books of accounts.

3.63 The Petitioner has submitted that the Commission has actually done a mix and match. It has derived the rate on the basis of audited accounts, but has derived the opening GFA on the basis of the MYT Regulations, 2007 which admittedly, did not apply during that period. If

Regulation 12.1 is to be applied in its entirety, both the rate and the asset base have to be taken as per the audited books.

- 3.64 The Petitioner has submitted that the Commission, while determining the opening GFA for that period, has reduced from the GFA, the average consumer contribution. Meaning thereby, that the Hon'ble Commission has, from the GFA, reduced that portion of the GFA, which was ascribable to the consumer contributions received. This principle of disallowance is only to be found in the MYT Regulations, 2007, which admittedly, do not apply for the aforesaid 11 month period. The Commission cannot, in law, pick and choose those parts of the Regulations which they would like to apply for a period which is not covered in the Regulation at all.
- 3.65 Since Regulation 12.1 of the MYT Regulations, 2007 mandates that the financials for the 11 month period have to be trued-up on actuals, subject to prudence check, there cannot be any normative disallowance. It is respectfully submitted that the Hon'ble Commission ought to be consistent in its approach. If it is looking at the actual rate, it must equally look at the actual asset base. It cannot look at the actual rate on a normative asset base.
- 3.66 Accordingly the Petitioner has requested the Commission to consider the depreciation during first 11 months of FY 2007-08 as under:

Table 24: Depreciation during first 11 months of FY 2007-08

Sr. No.	Particulars	UoM	Amount
1	Opening GFA	Rs. Cr.	3001
2	Rate of depreciation	%	5.25%
3	Depreciation	Rs. Cr.	144
4	Depreciation allowed in TO dt. Sep 29, 2015	Rs. Cr.	99.68
5	Depreciation earlier allowed for FY 08	Rs. Cr.	70.98
6	Depreciation allowed for first 11 months	Rs. Cr.	94
7	Difference to be allowed now	Rs. Cr.	51

COMMISSION'S ANALYSIS

- 3.67 It is observed that the Petitioner has claimed depreciation on total GFA of Rs. 3001 Cr. which includes the consumer contribution, de-capitalisation and dis-allowances due to related party transactions.
- 3.68 The Commission has not revised depreciation for the 11 months period of FY 2007-08 as the

same is sub-judice before Hon'ble APTEL in Appeal No. 297/2015.

ROCE INSTEAD OF ROE AND INTEREST ON LOANS FOR FIRST 11 MONTHS PETITIONER'S SUBMISSION

3.69 The Hon'ble Commission in Tariff Order dated July 23, 2014 stated as under:

"3.107 As per the Policy Direction Period, the return on equity and interest on loan is linked to the change in the equity and debt based on the capital expenditure made by the Petitioner. Whereas, as per the MYT Regulations, 2007, the return on capital employed is based on the capitalization of the assets of the Petitioner.

*3.108 The Petitioner has not provided details of the capital investment made during FY 2007-08 (11 months) on the basis of which the return on equity and debt **is also required to be reviewed in line with the Policy Direction Period.***

3.109 In view of the above, the Commission had provided final opportunity to the Petitioner to make submissions for the purpose of true up of 11 months (01.04.2007 - 29.02.2008) by March 31, 2014. The Petitioner submitted the audited month wise P&L statement only where in no information was submitted pertaining to capital investment."

3.70 The Petitioner has provided the details to the Commission vide its letter no. RA/2014-15/01/A/522 dated 03.11.2014. As evident from aforesaid, the Commission decided to apply the principles of Policy Direction Period for truing-up of first 11 months of FY 2007-08. However the Commission has adopted a different approach and has allowed the O&M expenses and depreciation rate as per actual.

3.71 The Petitioner has submitted that the Commission has not allowed capital expenditure on the basis of actual. Since the Commission had itself adopted a different principle that it needed to look at the actual numbers for the purpose of depreciation it ought to equally look at the actual number for the purpose of capital expenditure and RoE.

3.72 The Petitioner has submitted that it is completely incongneous to have depreciation on the basis of actual audited accounts but have capitalization, RoE and interest on loans on normative basis as provided for in the subsequent MYT Regulation which was never

applicable in the 11 months period.

- 3.73 The Petitioner has submitted that the difference between additional ROE and Interest on loan during first 11 months of FY 2007-08 and RoCE is tabulated below:

Table 25: Difference between additional ROE and Interest on loan to RoCE (Rs. Cr.)

Sr. No.	Particulars	FY 08
1	Opening Equity	783
2	Rate of ROE	16%
3	ROE	115
4	Interest on loan during first 11 months	182
5	Total	297
6	Less: RoCE	267
7	Impact	30

- 3.74 Based on the aforesaid submissions, the Petitioner has requested the Commission to allow the impact of truing-up of first 11 months of FY 2007-08 as under:

Table 26: Impact of truing-up of first 11 months of FY 2007-08 (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	102	132	166	206	255	293
2	Additions	95	15	16	17	17		
3	Cl. Balance	95	117	148	182	223	255	293
4	Average	48	109	140	174	214	255	293
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	6.50	15.01	18.30	23.31	31.90	38.33	44.02
7	Grand Cl. Balance	102	132	166	206	255	293	337

COMMISSION'S ANALYSIS

- 3.75 The Commission had allowed Return on Equity and Interest on Loan on Net Capital Employed during FY 2007-08 in its Tariff Order dtd. 29/09/2015 in the form of RoCE. As per the Policy direction, the Petitioner is also eligible for Interest on Loan and Return on Equity for the funding requirement of Work in Progress (CAPEX) during FY 2007-08. Accordingly, the Commission has now allowed Interest on Loan and Return on Equity for funding requirement of Work in Progress (CAPEX) during FY 2007-08. The impact is indicated in Table 101: Impact as approved by the Commission on account of implementation Hon'ble APTEL Judgments (Rs. Cr.).

REVISION IN DISTRIBUTION LOSS FROM FY 2007-08 TO FY 2010-11**PETITIONER'S SUBMISSION**

3.76 The Hon'ble ATE in Judgment dated October 6, 2009 (Appeal 36 of 2008) has ruled as under:

"32) There is however, no bar on the Commission considering the target that has been set and amend the relevant Regulation, if necessary. The target for MYT period needs to be set on the basis of losses at the beginning of the MYT Period and not on the basis of loss level on the date of privatisation when the policy target period began. The consequences of failure or success in reaching the loss reduction target have already been done by the licensee. Hence reference to the initial level of loss at the time of privatization is not necessary. The Commission may itself consider the plea of any amendment in the target set in this regard in case the appellant makes out a case. Therefore, we direct that the appellant may make an appropriate representation to the Commission in this regard within one month hereof and that if a representation is so made the Commission shall dispose it of in two months."

3.77 The Petitioner vide letter dated November 20, 2009 has submitted the representation within one day of the date of receipt of certified copy of the Judgment. The same was not even listed for admittance hearing by the Commission till July 15, 2014. The Commission vide Order dated July 17, 2014 rejected the Petition stating that the Petitioner has already availed opportunity to present its case on various issues which have been addressed in past tariff Orders. However the Commission did not provide any opportunity to represent on the issue of revision in distribution loss. In fact the Commission did not deal with the issue of revision in distribution loss in any of the tariff orders.

3.78 The Petitioner has challenged the aforesaid issue in Appeal 230 of 214 before Hon'ble ATE. During the course of proceedings before Hon'ble ATE, the Commission suo-moto without giving any opportunity to the Petitioner to present its case, reviewed its earlier order dated July 17, 2014 and passed another order on April 20, 2015 wherein the prayer to revise the distribution loss was rejected.

3.79 The Petitioner has submitted that the Commission in Order dated April 20, 2015 did not implement the direction given by Hon'ble ATE in its real intended scope. The Petitioner has

challenged the same in Appeal No. 155 of 2015. Without pre-judice to the Appeal, it is submitted that the direction given by Hon'ble ATE in Judgment dated October 6, 2009 was to:

- a) Consider the plea for necessary amendment in distribution loss based on representation of DISCOMs;
- b) Amend the Regulations if required.

3.80 The Petitioner's prayer was not to change the AT&C Loss target for FY 2010-11 but to revise the inter-se AT&C Loss target from FY 2007-08 to FY 2009-10 based on actual distribution loss during FY 2006-07. The Petitioner has further submitted that the distribution loss target set for FY 2007-08 is unrealistic which is evident from the following statement of the Commission in Tariff Order dated February 23, 2008:

*"3.138 In the MYT petition, the Petitioner had claimed total power purchase of 9122 MU, 5872 MU as unit billed and units realized as 6393 MU. It has shown **distribution losses of 35.63%**, collection efficiency of 108.87% and AT&C loss level of 29.92%.*

...

4.32 Further, the Commission has assumed collection efficiency of 99.00%, 99.25% 99.50% and 99.50% for current dues for FY08, FY09, FY10 and FY11 respectively and derived distribution losses of 25.95%, 22.88%, 19.83% and 16.58% for the FY08, FY09, FY10 and FY11 respectively. The AT&C loss reduction and distribution loss reduction trajectory approved by the Commission are summarised in the table below:

Table 50: Commission Approved AT&C and Distribution Loss Reduction Trajectory

Particular	FY08	FY09	FY10	FY11
AT & C loss target	26.69%	23.46%	20.23%	17.00%
A T & C loss Reduction over previous year	3.23%	3.23%	3.23%	3.23%
Distribution loss target	25.95%	22.88%	19.83%	16.58%
Collection Efficiency	99.00%	99.25%	99.50%	99.50%

..

3.81 As evident from above, the Commission has set distribution loss target of 25.95% in one month, i.e., March 2008 as against actual distribution loss of 35.63% achieved by the Petitioner. The Commission in Order dated April 20, 2015 has not dealt with the representation of DISCOM.

3.82 The Petitioner has submitted that the Loss targets approved by the Commission as proposed

by the them from FY 2007-08 to FY 2010-11 as sought in the aforesaid proposal are tabulated below:

Table 27: Proposal for revision in Distribution Loss

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11
A	As per MYT Order dated Feb 23, 2008				
A	AT&C loss Reduction Target	26.69%	23.46%	20.23%	17.00%
B	Distribution Loss	25.95%	22.88%	19.83%	16.58%
C	Collection Efficiency	99.00%	99.25%	99.50%	99.50%
B	Revised Proposal				
A	AT&C loss Reduction Target	29.67%	26.66%	21.74%	17.00%
B	Distribution Loss	30.87%	26.11%	21.34%	16.58%
C	Collection Efficiency	101.73%	99.25%	99.50%	99.50%

3.83 As evident from the above, the Petitioner is not praying to change the AT&C loss Target of FY 2016-17 but to amend the target from FY 2007-08 to FY 2009-10 based on distribution loss so to have realistic AT&C Loss Targets.

3.84 The adverse financial impact on the Petitioner on the aforesaid issue, due to non-implementation of Judgment of this Hon'ble Tribunal is tabulated below:

Table 28: Financial Impact including carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	65	145	200	227	260	299
2	Additions	61	66	34	0	0		
3	Cl. Balance	61	131	179	200	227	260	299
4	Average	30	98	162	200	227	260	299
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	4.15	13.49	21.20	26.75	33.71	39.13	44.94
7	Grand Cl. Balance	65	145	200	227	260	299	344

3.85 The Petitioner has requested the Commission to approve the aforesaid impact on account of revision in AT&C Loss trajectory.

COMMISSION'S ANALYSIS

3.86 The Commission in its Tariff Order dtd. 29/09/2015 has already dealt this issue in para nos. 3.68 and 3.69 wherein it is specifically indicated that the Commission has reviewed the distribution loss for 1st MYT Control period (FY 2007-08 to FY 2010-11) as per the direction of

Hon'ble APTEL in Appeal No. 61 of 2012, in its Order dated 20.04.2015. Further, the Petitioner has preferred an appeal on this issue in Appeal No. 155 of 2015 against the Commission's order dated 20.04.2015.

- 3.87 In view of the above Order dated 20.04.2015 passed by the Commission in compliance of the Hon'ble APTEL direction and appeal filed by the Petitioner the Commission will consider the issue after the final judgement of Hon'ble APTEL as the matter is still sub-judice.

TRUING-UP OF AT&C LOSS FOR FY 2008-09 PETITIONER'S SUBMISSION

- 3.88 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

"75. In view of categorical assertions made by the Appellants that full details related to AT&C losses to the Commission, we direct the Commission to reconsider the matter taking in to account the information submitted by the Appellants. The Appellants are also directed to make all the additional information, if any, required by the Commission. The matter is disposed of accordingly. "

- 3.89 The Hon'ble Commission in Tariff Order dated September 29, 2015 has stated as under:

"3.95 The claim of the Petitioner on account of AT&C overachievement is being re-examined as per the direction of the Hon'ble APTEL. Considering that the data is more than 5 years old, it involves & thorough analysis, because the Petitioner was not able to substantiate its claims in the past as indicated in the para's of the said Order referred above.

3.96 The impact on account of True up of AT&C loss for FY 2008-09, if any, may be considered by the Commission in subsequent Tariff Order."

- 3.90 The Petitioner has recomputed the AT&C Loss for FY 2008-09 based on the above direction of Hon'ble ATE in Appeal 61 of 2012 as under:

- a. Enforcement Units has been calculated by dividing revenue collected by twice the ABR for other categories prevailing during FY 2008-09.

Table 29: Energy billed and revenue billed including enforcement

Particulars	UoM	Amount

Particulars	UoM	Amount
Total energy billed during FY 09	Rs. Cr.	7013.70
Less: Enforcement	Rs. Cr.	131.58
Energy Billed excluding enforcement	MU	6882.12
Amount billed excluding enforcement	Rs. Cr.	3164.16
Amount collected on account of enforcement	Rs. Cr.	60.4
ABR of other categories	Rs./ kWh	4.60
Enforcement units	MU	66
Total energy billed incl. enforcement	Rs. Cr.	6947.81
Revenue billed incl. enforcement	Rs. Cr.	3224.56

- b. Amount collected has been computed by deducting financing cost of LPSC from the total amount collected during FY 2008-09 as under:

Table 30: Net amount collected excluding financing cost of LPSC

Sr. No.	Particulars	Amount (Rs. Cr.)
1	Total amount collected	3271.00
2	Less: financing cost of LPSC	14.68
3	Net amount collected	3256.32

- c. Accordingly AT&C Loss for FY 2008-09 has been computed as under:

Table 31: AT&C Loss for FY 2008-09

Particulars	UoM	Amount
Total revenue collected	Rs. Cr.	3256.32
Revenue Billed	Rs. Cr.	3225
Collection efficiency	%	100.99%
Energy Input	MU	8931
Energy Billed	MU	6948
Distribution Loss	%	22.21%
AT&C loss	%	21.44%

- d. The over-achievement during FY 2008-09 is computed below:

Table 32: Over-achievement of AT&C Loss for FY 2008-09

Particulars	UoM	MYT Order	Actual
AT&C Loss	%	23.46%	21.44%
Over achievement/ (Under achievement)	%	2.02%	
Energy Input	MU	8931	8931

7	Grand Cl. Balance	0	45	51	57	66	76	87

3.92 The Petitioner has requested the Commission to allow the impact in the ARR.

COMMISSION'S ANALYSIS

3.93 The Commission has dealt this issue in its Tariff Order dtd. 29/09/2015 as follows:

"3.95 The claim of the Petitioner on account of AT&C overachievement is being re-examined as per the direction of the Hon'ble APTEL. Considering that the data is more than 5 years old, it involves & thorough analysis, because the Petitioner was not able to substantiate its claims in the past as indicated in the para's of the said Order referred above.

3.96 The impact on account of True up of AT&C loss for FY 2008-09, if any, may be considered by the Commission in subsequent Tariff Order."

3.94 The Commission observes that following major parameters are required to compute AT&C Loss:

- Energy Input to the Distribution Licensee's periphery,
- Energy Billed by the Distribution Licensee,
- Amount Billed, and

d) Amount Collected

- 3.95 The Commission in its Tariff Order dtd. 26/08/2011 has approved Energy Input as certified by SLDC and Energy Billed for the Petitioner for true up of FY 2008-09, the relevant extracts of the said Tariff Order are as follows:

*“ 3.167 The energy sales quantum of the Petitioner for FY 2008-09 as per its audited accounts was **7014 MU**.*

3.168 Therefore, for truing up of sales, the Commission has considered the sales figures submitted by the Petitioner for FY 2008-09 and approves the same for True Up....

....

*3.197 For verification of the energy input, the Commission directed State Load Dispatch Centre (SLDC) to submit the energy input to the Petitioner during FY 2008-09. SLDC through its letter dated July 28, 2011 submitted to the Commission that total energy input to BRPL for FY 2008-09 was 8932.43 MU, which was lower than 8965 MU shown by the Petitioner. SLDC also informed the Commission that 8932.43 MU includes 32.47 MU adjustments (negative) done in FY 2009-10 in the energy billed on account of change in CT/PT ratio in Rohtak and Rewari line for FY 2008-09. SLDC also informed the Commission that it has billed provided adjustment (negative) of 1.49 MU to BRPL for FY 2007-08 on account of change in CT/PT ratio in Rewari Line. Since the Commission has already trued up AT&C loss for FY 2007-08, the Commission has considered adjustment of 1.49 MU for FY 2007-08 in the energy input for FY 2008-09. **Thus Commission approves energy input for FY 2008-09 as 8930.94 MU as input energy for at Petitioner periphery for sale to its own consumers.”***

- 3.96 In view of the above the Commission has considered the sales as 7014 MU and as per the practice followed for treatment of sales unit on account of theft cases has been adjusted with two times Average Billing Rate to derive the sales unit on account of theft cases for the purpose of AT&C computation of FY 2008-09 as per the methodology specified in the Electricity Act, 2003 and methodology upheld by Hon’ble APTEL in appeal no. 61 & 62 of 2012. Total amount collected on account of theft was Rs.60.40 Crore and sales unit on

account of theft cases has been indicated as 130 MU however the Commission has computed sales unit on account of theft cases as 65 MU. Therefore, sales unit bill for FY 2008-09 has been considered as 6949 (7014-65) MU for the purpose of AT&C computation.

- 3.97 It is observed that the Amount Billed was not approved by the Commission for FY 2008-09 in its Tariff Order dtd. 26/08/2011, however, the Commission had approved Amount Billed & Units Billed for FY 2009-10 in its Tariff Order dtd. 26/08/2011. Therefore, the Commission has considered Amount Billed for FY 2008-09 on the basis of Average Billing Rate for FY 2009-10 as there was same Tariff applicable for FY 2008-09 and FY 2009-10.
- 3.98 It is further observed that the Amount Collected was not approved by the Commission for FY 2008-09 in its Tariff Order dtd. 26/08/2011, however, the Commission had approved the target for Collection efficiency for FY 2008-09 in its MYT Order dtd. 23/02/2008 as 99.25%. The relevant extract of the said Order is as follows:

“ 4.32 Further, the Commission has assumed collection efficiency of 99.00%, 99.25% 99.50% and 99.50% for current dues for FY08, FY09, FY10 and FY11 respectively and derived distribution losses of 25.95%, 22.88%, 19.83% and 16.58% for the FY08, FY09, FY10 and FY11 respectively.”

- 3.99 Accordingly, the AT&C Loss computed by the Commission and its financial impact is indicated in the Table 101: Impact as approved by the Commission on account of implementation Hon'ble APTEL Judgments (Rs. Cr.) as follows:

Table 34: AT&C Loss approved by the Commission for FY 2008-09

Sr. No.	Particulars	Petitioner's Submission	Trued up
1	Energy Input	8931	8930.94

REVISION IN AT&C LOSS TARGET OF FY 2011-12**PETITIONER'S SUBMISSION**

3.100 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

"72. In the light of above discussions we direct the Delhi Commission to refix the AT&C loss levels for the FY 2011-12 as per its letter dated 8.3.2011 and give consequential relief to the Appellants. The issue is decided in favour of the Appellants."

3.101 The Commission vide letter dated March 08, 2011 fixed the AT&C Loss Target for FY 2011-12 as under:

"The AT&C loss target for FY 2011-12 will be the lower of the following two figures.

i. Actual AT&C loss for 2010-11: &

ii. Reduction at 1% over the AT&C target for FY 2010-11"

3.102 However the Commission in Tariff Order dated September 29, 2015 has stated that a Clarificatory petition has been filed on the said issue which is pending adjudication before Hon'ble ATE. The same has no effect as the same is pending without a final disposal.

3.103 As already explained in Para-3.3.1 to 3.3.7 of the Petition, the directions of Hon'ble ATE regarding FY 2010-11 and FY 2011-12 in Judgment dated March 2, 2015 (Appeal 177 of 2012) and November 28, 2014 (Appeal 61 of 2012) gives an understanding as under:

- a) AT&C Loss for FY 2010-11 to be revised to 18.82% in case it is found that the Petitioner has not been able to achieve AT&C Loss reduction due to non-approval of capex schemes by the Commission.

- b) AT&C Loss for FY 2011-12 to be re-determined in terms of letter dated March 8, 2011 which states that the loss level for FY 2011-12 shall be lower of actual AT&C Loss for FY 2010-11 or the AT&C Loss target for FY 2010-11 minus 1%.

Therefore the AT&C loss target for FY 2011-12 becomes 17.82%, i.e., 18.82% minus 1%.

3.104 The Petitioner has submitted that the Commission has already trued-up actual AT&C Loss during FY 2011-12 as 18.11% and computed the under-achievement with respect to AT&C Loss Target of 15%.

3.105 The Petitioner has submitted that under-achievement ought to be recomputed with respect to AT&C Loss Target of 17.82% as under:

Table 36: Impact due to revision in AT&C Loss Target for FY 2011-12

Sr. No.	Particulars	UoM	MYT Order	Actual
1	AT&C Loss	%	17.82%	18.11%
2	Over achievement/ (Under achievement)	%	-0.29%	
3	Energy Input	MU	10909.72	10909.72
4	Units realised	MU	8966	8934
5	Average Billing Rate	Rs./ kWh	5.15	5.15
6	Amount realised	Rs. Cr.	4617	4601
7	Under-achievement	Rs. Cr.		16
8	Considered in TO dt. July 31, 2013	Rs. Cr.		168
9	Impact	Rs. Cr.		151

3.106 The Petitioner has requested that the above amount ought to be allowed along with carrying cost as under:

Table 37: Impact due to revision in AT&C Loss Target for FY 2011-12 along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 12	FY 13	FY 14
1	Op. balance	0	162	187
2	Additions	151		
3	Cl. Balance	151	162	187
4	Average	76	162	187
5	Rate of interest	14.88%	15.03%	15.01%
6	Carrying cost	11.25	24.42	28.05
7	Grand Cl. Balance	162	187	215

3.107 Accordingly the Petitioner has requested the Commission to allow the impact on account of

revision in AT&C Loss of FY 2011-12.

COMMISSION'S ANALYSIS

3.108 The Commission has already addressed this issue in its tariff order dated 29/09/2015 as follows:

"3.87 The Commission had already implemented the judgment in Appeal No. 14 of 2012 in case of TPDDL for AT&C trajectory of FY 2011-12 in last year Tariff Order for FY 2014-15 and on the basis of the normative trajectory AT&C loss target. Accordingly the Commission has filed a Clarificatory Application before Hon'ble APTEL, requesting to reconsider the AT&C loss target for FY 2011-12 of the Petitioner for maintaining parity amongst all the Distribution Utilities . The view on impact of AT&C Loss Target for FY 2011-12 will be considered, as deemed fit and appropriate, after receipt of the judgment of Hon'ble APTEL in the said Clarificatory application."

3.109 In view of the above, the Commission has not considered this issue as the matter is still sub-judice before Hon'ble APTEL.

NON-REVISION OF AT&C LOSS FOR FY 2012-13 AND FY 2013-14

PETITIONER'S SUBMISSION

3.110 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 and 178 of 2012) has ruled as under:

"30.12 The State Commission has proposed AT&C loss reduction 1.27% below the target fixed for 2011-12(15%). Now the AT&C loss target for FY 2011-12 has to be refixed to 16% for BRPL as per the decision of this Tribunal in Appeal no. 62 of 2012. The State Commission has fixed AT&C loss target for 2014-15 as 12.5% which would mean a loss reduction of 3.5% in the control period of 3 years which seems reasonable and can be distributed to 1.05% reduction in 2012-13, 1.2% in 2013-14 and 1.25% in 2014-15 over the target of previous year i.e. AT&C loss target of 14.99%, 13.75% and 12.5% respectively. Lower target for 2012-13 has been fixed as the impugned order was passed on 13.07.2012, about 3½ months after the commencement of FY 2012-13. In this way, the target for FY 2014-15 will remain the same as decided by the

Commission in the impugned order. Considering the performance in the past and the actual AT&C loss level, the above loss reduction trajectory will be reasonable. According decided.

30.13... When the target level for FY 2011-12 has to be refixed, the AT&C loss targets for FY 2012-13 to 2014-15 have also to be refixed by the State Commission accordingly."

3.111 As already explained in Para-3.3.1 to 3.3.7 of the Petition, the directions of Hon'ble ATE regarding FY 2010-11, FY 2012-13 to FY 2014-15 and FY 2011-12 in Judgment dated March 2, 2015 (Appeal 177 of 2012) and November 28, 2014 (Appeal 61 of 2012) as under:

- a) AT&C Loss for FY 2010-11 to be revised to 18.82% in case it is found that the Petitioner has not been able to achieve AT&C Loss reduction due to non-approval of capex schemes by the Commission.
- b) AT&C Loss for FY 2011-12 to be re-determined in terms of letter dated March 8, 2011 which states that the loss level for FY 2011-12 shall be lower of actual AT&C Loss for FY 2010-11 or the AT&C Loss target for FY 2010-11 minus 1%.
- c) AT&C Loss from FY 2012-13 to FY 2014-15 to be re-determined in ratio of 1.05% in FY 2012-13, 1.2% in FY 2013-14 and 1.25% in FY 2014-15.

3.112 Accordingly the AT&C Loss Target from FY 2012-13 and FY 2013-14 is proposed to be revised from 14.16% and 13.33% to 16.65% and 15.31% respectively.

3.113 The impact on account of revision in AT&C loss target from FY 2012-13 and FY 2013-14 is tabulated below:

Table 38: Impact due to revision of AT&C Loss Target from FY 2012-13 to FY 2013-14

Sr. No.	Particulars	UoM	FY 2012-13		FY 2013-14	
			ATE	DERC	ATE	DERC
1	AT&C Loss	%	16.65%	14.16%	15.31%	13.33%
2	Energy Input	MU	11233	11233	11509	11509
3	Units realised	MU	9362	9642	9747	9975
4	Average Billing Rate	Rs./ kWh	6.27	6.27	6.89	6.89
5	Amount realised	Rs. Cr.	5873	6049	6720	6877
6	Difference	Rs. Cr.		175		157

3.114 The aforesaid impact along with carrying cost is tabulated below:

Table 39: Impact due to revision of AT&C Loss Target (Rs. Cr.)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	189
2	Additions	175	157
3	Cl. Balance	175	346
4	Average	88	267
5	Rate of interest	15.03%	15.01%
6	Carrying cost	13.19	40.10
7	Grand Cl. Balance	189	386

COMMISSION'S ANALYSIS

3.115 The Commission has already addressed this issue in its tariff order dated 29/09/2015 as follows :

“3.215 The Hon’ble APTEL has directed the Commission in Appeal No. 14 of 2012, Appeal No. 61 & 62 of 2012 and Appeal No. 177 & 178 of 2012 to reconsider the AT&C Loss target from FY 2011-12 to FY 2014-15. The Commission has filed a Clarificatory Application before Hon’ble APTEL on various issues including AT&C Loss Target, decided in above mentioned appeals on account of different judgments by Hon’ble APTEL on the same issues. The Clarificatory Application is sub-judice before Hon’ble APTEL, therefore a view in the matter will be taken, as deemed fit and appropriate, after receipt of the direction of the Hon’ble APTEL in the said application. Therefore, the Commission is considering the AT&C Loss target for FY 2013-14 as approved in the 2nd MYT Order.”

3.116 In view of the above, the Commission has not considered this issue as the matter is still sub-judice before Hon’ble APTEL.

PAYMENT TO VRS OPTees

PETITIONER'S SUBMISSION

3.117 The Hon’ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

“14. Similarly, in view of specific assertion made by the Delhi Commission in the

subsequent order, the Delhi Commission is directed to allow the payments made by the Appellant to VRS optee employees on ad hoc basis and adjust the same after the decision of the Acturial Tribunal.”

3.118 The Petitioner vide letter dated May 1, 2015 and May 28, 2015 provided the documentary proofs, i.e., bank statement of Trust and the Petitioner to substantiate its claims towards payments made to VRS optees. The Hon’ble Commission in its Tariff Order dated September 29, 2015 has also acknowledged the same.

3.119 Accordingly, the Petitioner has requested the Commission to allow the payment to VRS optees along with the carrying cost as tabulated below:

Table 40: Impact on account of payment to VRS optees along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	67	98	93	105	121	140
2	Additions	63	21	-17	0	0	0	0

4	Average	31	77	90	93	106	121	140
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	4.28	10.63	11.75	12.43	15.71	18.25	20.97
7	Grand Cl. Balance	67	98	93	105	121	140	161

COMMISSION’S ANALYSIS

3.120 The Commission has already clarified this issue in its Tariff Order dtd. 29/09/2015 and has also indicated there that it has filed a Clarificatory Application before Hon’ble APTEL on this issue. The view on this issue will be taken, as deemed fit and appropriate, after receipt of the judgment of Hon’ble APTEL in the said Clarificatory Application.

R&M AND A&G EXPENSES FROM FY 2004-05 TO FY 2006-07

PETITIONER’S SUBMISSION

3.121 The Hon’ble ATE in Judgment dated October 10, 2009 (Appeal 36 of 2008) has ruled as under:

“91...

We are of the opinion that R&M expenses properly incurred should be approved and in case there is any gap between the demand made by the appellant and the amount sanctioned by the Commission, the Commission should enter into the exercise of a

prudent check and grant the approval to such expenses....

...

97...

It appears that the Commission is yet to true up the accounts for the year 2004-05 on the basis of the audited accounts and whenever such truing up is done the appellant's grievance of denial of administrative and general expenses of 2004-05 should disappear."

3.122 The Petitioner has submitted that the Commission in Tariff Order dated July 23, 2014 has allowed the R&M and A&G Expenses from FY 2004-05 to FY 2006-07 based on benchmarking with other DISCOMs of Delhi.

3.123 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

*"22. We agree with the contentions made by the Appellants that true up for the policy direction period cannot be carried out on the basis of benchmarking concept muted in MYT Regulations. **The Commission is directed to implement the direction of this Tribunal in true letter and spirit and do not involve in inventing any new methodology to circumvent to such directions.** The issue is decided in favour of the Appellants. " (Emphasis added)*

3.124 The Hon'ble Commission in Tariff Order dated September 29, 2015 stated as under:

"3.50 In compliance of the direction of Hon'ble APTEL in Appeal No. 61 and 62 of 2012, the Commission has appointed a Chartered Accountant firm empanelled with C&AG for independent verification of the claims of the Petitioner in respect of R&M and A&G expenses for FY 2004-05 to FY 2005-06. Final impact will be considered based on the report of Chartered Accountant firm appointed by the Commission."

3.125 The Hon'ble Commission has allowed Rs. 39.61 Crore (including carrying cost upto FY 2011-12) on account of benchmarking of R&M and A&G Expenses from FY 2004-05 to FY 2006-07. The Petitioner has deducted Rs. 40 Crore while calculating the impact of R&M and A&G Expenses from FY 2004-05 to FY 2006-07. The impact of R&M and A&G Expenses from FY 2004-05 to FY 2006-07 is tabulated as under:

Table 41: Impact of R&M and A&G Expenses from FY 2004-05 to FY 2006-07 (Rs. Cr.)

Particulars	FY 2004-05			FY 2005-06			FY 2006-07			Total
	Audited A/c	Tariff Order	Diff.	Audited A/c	Tariff Order	Diff.	Audited A/c	Tariff Order	Diff.	
A&G Expenses	38.54	29.04	9.50			0.00			0.00	9.50
R&M Expenses	92.02	68.99	23.03	75.30	71.75	3.55	89.49	70.98	18.51	45.10

8	Less: Amount allowed by DERC								40		
9	Net								82		

3.127 The Petitioner has requested the Commission to allow the aforesaid impact to the Petitioner.

COMMISSION'S ANALYSIS

3.128 The Commission has indicated in its Tariff Order dtd. 29/09/2015 that in compliance of the direction of Hon'ble APTEL in Appeal No. 61 and 62 of 2012, the Commission has appointed a Chartered Accountant firm empanelled with C&AG for independent verification of the claims of the Petitioner in respect of R&M and A&G expenses for FY 2004-05 to FY 2005-06. The report has been submitted by the firm and approved by the Commission.

3.129 Accordingly, the incremental impact based on the report of the firm on R&M and A&G Expenses from FY 2004-05 to FY 2006-07 is indicated in the Table 101: Impact as approved by the Commission on account of implementation Hon'ble APTEL Judgments (Rs. Cr.) as follows:

Table 43: Impact on R&M and A&G Expenses from FY 2004-05 to FY 2006-07 (Rs. Cr.)

FY	Particulars	Petitioner's Submission	Trued Up as per Consultant's Report	Approved in earlier TO	Difference
2004-05	Repair & Maintenance Expenses	92.02	68.99	78.70	-9.71
	Administrative & General Expenses	38.54	29.04	35.06	-6.02
2005-06	Repair & Maintenance Expenses	75.30	75.30	68.38	6.92
	Administrative & General Expenses	48.47	48.47	48.47	0.00
2006-07	Repair & Maintenance Expenses	89.49	89.49	77.20	12.29
	Administrative & General Expenses	66.65	66.65	66.65	0.00

LOWER RATES OF CARRYING COST

PETITIONER'S SUBMISSION

3.130 The Hon'ble ATE in Judgment dated July 30, 2010 (Appeal 153 of 2009) has ruled as under:

"51. It cannot be disputed that the State Commission shall be guided by the principles that reward efficiency in performance as provided under section 61(e) of the Electricity Act, 2003. Similarly, the said section provide that State Commission shall be guided by the National Electricity Policy and Tariff Policy. Therefore, the State Commission should have allowed the carrying cost at the prevailing market lending rate for the carrying cost so that the efficiency of the distribution company is not affected. The State Commission is required to take the truing up exercise to fill up the gap between the actual expenses at the end of the year and anticipated expenses in the beginning of the year. This Tribunal in various judgments rendered by it held in Appeal No. 36 of 2008 in the judgment dated 06.10.2009 reported in 2009 ELR (APTEL) 880 has held that "the true up exercise is to be done to mitigate the difference between the projection and actuals and true up mechanism should not be

*used as a shelter to deter the recovery of legitimate expenses/revenue gap by over-projecting revenue for the next tariff.” Therefore, the fixation of 9% carrying cost, in our view, is not appropriate. **Therefore, the State Commission is hereby directed to reconsider the rate of carrying cost at the prevailing market rate and the carrying cost also to be allowed in the debt/ equity of 70:30.***

...

58. ...

*(iv) The next issue is relating to the inadequate lower rate of 9% for the allowance of the carrying cost. The carrying cost is allowed based on the financial principle that whenever the recovery of the cost is to be deferred, the financing of the gap in cash flow arranged by the distribution company from lenders and/or promoters and/or accrual and/or internal accrual has to be paid for by way of carrying cost. The carrying cost is a legitimate expense. Therefore the recovery of such carrying cost is a legitimate expectation of the distribution company. **The State Commission instead of applying the principle of PLR for the carrying cost has wrongly allowed the rate of 9% which is not the prevalent market lending rate.** Admittedly, the prevalent market lending rate was higher than the rate fixed by the State Commission in the tariff order. **Therefore, the State Commission is directed to reconsider the rate of carrying cost at the prevalent market rate keeping in view the prevailing Prime Lending Rate.** ” (Emphasis added)*

3.131 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has reduced the rates of carrying cost based on net-worth as per Audited Accounts. Without pre-judice, the Petitioner requests the Hon’ble Commission to implement the aforesaid direction of Hon’ble ATE.

3.132 The Petitioner has applied the debt-equity ratio of 70:30 considering ROE as 16% and rate of interest as SBI PLR while computing the impact.

3.133 The carrying cost on already recognised Regulatory Assets upto FY 2013-14 is tabulated below:

Table 44: Impact due to difference in rates of carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
A	Opening Balance	382	601	540	1517	2935	5139	5788
B	Adjustments: Contingency Reserve				29			
C	Additions	156	-135	851	1169	1645	184	-304
D	Adjustment from surcharge						299	507
E	Closing	538	466	1391	2657	4580	5024	4976
F	Average	460	534	965	2073	3757	5081	5382
G	Carrying cost	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
H	Carrying cost	63	73	127	277	559	764	808
I	Grand Closing balance	601	540	1517	2935	5139	5788	5784

3.134 There is difference of Rs. 674 Crore above closing balance, i.e., Rs. 5784 Crore when compared with Regulatory Assets recognised up to FY 2013-14, i.e., Rs. 5110 Crore.

COMMISSION'S ANALYSIS

3.135 The Petitioner has made its prayer for allowing additional interest which has not been paid to any financial institution or bank for funding the Revenue Gap accumulated during the previous years after true up of ARR. The Petitioner has submitted return on equity for funding of accumulated revenue gap in the ratio debt: equity of 70:30 for allowance of carrying cost without investing equity for funding of accumulated revenue gap.

3.136 As per MYT regulations 2007 & 2011 for the purpose of WACC, where actual equity employed is less than 30%, the actual equity and Debt shall be considered. The Commission has assessed the actual equity and debt available with the licensee for the purpose of capitalisation, working capital and finally revenue gap funding. Under the normative circumstances, the disclosure is required to infuse adequate equity either from reserve & surplus or by infusing fresh equity from time to time to maintain adequate debt equity ratio of 70:30. In case the said ratio is not maintained, the Commission in accordance with regulation shall restrict the ROE on the actual equity available only with review of actual equity.

3.137 It is also clarified that the carrying cost on Revenue Gap has got reduced in case of the

Petitioner due to non availability of actual equity for funding of the Revenue Gap. Therefore one side the Petitioner has infused insufficient equity for funding the revenue gap which could have reduced the cost of borrowings and on the other hand asking additional return on the equity which has never been deployed into the business by the promoter. The impact of insufficient equity cannot be passed onto the consumers through ARR.

- 3.138 The Petitioner has interpreted the direction of Hon'ble Tribunal for funding the revenue gap in the ratio of 70:30 (debt:equity) but forget to mention that the ratio of 70:30 of debt:equity can only be applied if the promoter has infused equity for funding the revenue gap at the level of 30% or more. Secondly, the Petitioner wants the interest rate also should be allowed at the rate of SBI PLR, however it is clarified that the Petitioner was getting loans at the rates 2.75% less than SBI PLR as forecasted in the MYT order dated 23/02/2008.
- 3.139 The financing of business can be either by equity or loan. In accordance with the judgment of this Hon'ble Tribunal in Appeal No. 153 of 2009, the Commission has revised the carrying cost rate by issuing 70:30 ratios of debt and equity on provisional basis. The requirement of funds is primarily dependent on capitalisation and working capital requirement. Thus, Commission has provided the cost of capital including carrying cost based on actual equity available in the books of accounts as submitted by the Petitioner.
- 3.140 Further, regarding rate of return on Equity, it is clarified that the matter has already been decided against the one of the Delhi DISCOM by Hon'ble APTEL in Appeal No. 271/2013 as follows:

" 16.3) That it is clear from Regulation 5.10 that rate of return on equity has been specified by the Delhi Commission as 14% which has been given to the appellant on equity part of the carrying cost. Hence, there is no merit in this issue.

....

*17.3) **Regulation 5.9** deals with computation of Return on Capital Employed, prescribing a formula for such kind of computation. **Regulation 5.10** provides for computation of Weighted Average Cost of Capital (WACC) for each year of the control period, clearly providing that "cost of equity for wheeling business shall be considered at 14% post tax." **Regulation 5.39** clearly states that the return from the wheeling*

business and retail supply business shall not exceed 16% of equity. Thus, there is a rider restricting that the return from the wheeling business and retail supply business shall not exceed 16% of the equity. Thus, the maximum limit is 16% which cannot be allowed to exceed under any circumstances. Appellant is claiming 16% of equity on the basis of 14% RoE + 2% supply margin. In view of the above discussion, we do not find any illegality or perversity in the finding recorded in the Impugned Order on this issue and we approve the approach adopted by the Delhi Commission in deciding this issue. We find and observe that the learned Delhi Commission has correctly, in the impugned tariff order, considered the rate of return on equity at 14% to which we also agree. Hence, this issue is decided against the appellant."

3.141 Further, the Petitioner has already preferred an Appeal in Appeal No. 297/2015 filed before the Hon'ble APTEL. Therefore, the matter is sub-judice and decision will be taken by the Commission as deemed fit and appropriate, after receipt of the judgment of Hon'ble APTEL.

AT&C LOSS FOR FY 2010-11 PETITIONER'S SUBMISSION

3.142 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) has ruled as under:

"40.9 We remand the matter to consider the contentions of the Appellant regarding non-achievement of AT&C loss target for FY 2010-11 due to delay/non-approval of the schemes which was beyond its control after considering whether there was delay in according approval to the loss reduction schemes submitted by the Appellant in FY 2009-10 which resulted in the non-completion of these schemes during FY 2010-11. If it is found that the proposed loss reduction schemes were not approved for no fault of the Appellant then the Appellant will be entitled to a relief. Accordingly, directed."

3.143 The Petitioner vide its letter dated April 28, 2015 submitted category-wise details of the schemes which were submitted and approved by the Commission from FY 2007-08 to FY 2012-13. From the perusal of the data submitted, it is evident that:

- a) The Hon'ble Commission approved only 209 schemes amounting to Rs. 5442.18 lacs as against 401 schemes amounting to Rs.12884.40 lacs (excluding deposits schemes

which does not require in-principle approval) submitted by the Petitioner for reduction of AT & C loss.

- b) The Hon'ble Commission has only approved approx. 52% of the number of Capex schemes, which relates to approx. 42% of the amount of Capex schemes submitted by the Petitioner for reduction of AT & C loss level.
- c) The Capex schemes submitted by the Petitioner for reduction of AT&C loss in February 2009 were approved by the Hon'ble Commission in August 2009, i.e., after expiry of nearly 6 months. Even while approving the scheme, the Hon'ble Commission, without any justification has reduced the amount of Capex claimed by the Petitioner from Rs. 6708.11 crores to Rs. 5442.18 crores thereby constraining the ability of the Petitioner to execute the project.

3.144 Accordingly the Petitioner has computed the amount of under-achievement during FY 2010-11 as per Tariff Order dated August 26, 2011 along with carrying cost as under:

Table 45: Impact on account of under-achievement during FY 2010-11 along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	96	110	127
2	Additions	90	0	0	
3	Cl. Balance	90	96	110	127
4	Average	45	96	110	127
5	Rate of interest	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	6.02	14.28	16.57	19.03
7	Grand Cl. Balance	96	110	127	146

3.145 The Petitioner has requested the Commission to allow the impact along with carrying cost.

COMMISSION'S ANALYSIS

3.146 The issue is under consideration before the Commission in the matter of Petition No. 50/2015 filed by the Petitioner. The Petitioner vide its affidavit dtd. 28/08/2017 has requested the Commission to consider the impact of this issue, if any, in the next year tariff's proceedings as they are in the process of collecting various documents. Therefore, a view in the matter will be taken, as deemed fit and appropriate, after issuance of Order by the Commission in petition No. 50/2015 based on the information submitted by the Petitioner.

EFFICIENCY FACTOR FOR FY 2011-12**PETITIONER'S SUBMISSION**

3.147 The Hon'ble ATE in Judgment dated November 28, 2014 (Appeal 61 of 2012) has observed as under:

"126...This issue was also considered by this Tribunal in Appeal No. 14 of 2012 and was decided in favour of the Appellant therein. The relevant extracts of the said judgment are as under:

"...

25. ...

However, the efficiency factor has to be determined by the Commission based on licensee's filing, benchmarking, approved cost by the Commission in the past and any other factor that Commission feels appropriate. In the impugned order the Commission has determined the efficiency improvement factor as 2%, 3% and 4% for FY 2009, FY 2010 and FY-2011 respectively arbitrarily without any benchmarking or any analysis and identification of area of inefficiency where the improvement is desired to be carried out. Such efficiency factor has naturally to be determined only on the basis of material placed before the State Commission and analysis of various factors and not on ad-hoc basis as done by the State Commission. Therefore, this point is answered accordingly in favour of the Appellant".

201 So, on the strength of the judgment of this Tribunal in Appeal No. 28 of 2008, we decide this point accordingly in favour of the Appellant."

127. The above ratio of this Tribunal's judgment in Appeal No. 14 of 2012 applies squarely into the facts of the present case. The issue is decided in favour of the Appellants. "

3.148 The arbitrary determination of efficiency factor has resulted in reduction of Operation and Maintenance Expenses approved for FY 2011-12 by Rs. 17 Crore.

3.149 The impact due to the application of ad-hoc efficiency factor on Operation and Maintenance Expenses along with carrying cost is tabulated below:

Table 46: Impact due to application of ad-hoc efficiency factor (Rs. Cr.)

Sr. No.	Particulars	FY 12	FY 13	FY 14
1	Op. balance	0	18	20
2	Additions	17		
3	Cl. Balance	17	18	20
4	Average	8	18	20
5	Rate of interest	14.88%	15.03%	15.01%
6	Carrying cost	1.23	2.67	3.06
7	Grand Cl. Balance	18	20	23

3.150 The Petitioner has requested the Commission to allow the impact of the aforesaid issue in the ARR.

COMMISSION'S ANALYSIS

3.151 The Commission has filed a Clarificatory Application before Hon'ble APTEL and requested to reconsider the issue in line with judgment in Appeal No. 52 of 2008 as FY 2011-12 is part of extended 1st MYT Control Period and the same principle for efficiency factor may be considered throughout the Control Period (FY 2007-08 to FY 2011-12). The view on impact of efficiency factor for FY 2011-12 will be considered, as deemed fit and appropriate, after receipt of the judgment of Hon'ble APTEL in the said Clarificatory Application.

EFFICIENCY FACTOR FROM FY 2012-13 TO FY 2013-14

PETITIONER'S SUBMISSION

3.152 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) has directed the Hon'ble Commission as under:

"37.3 This issue has been considered by this Tribunal in Appeal no. 171 of 2012. The relevant paragraph of the judgment are reproduced below:

"12.5 We find that as per the Regulations, the efficiency factor can be determined by benchmarking and, therefore, there is no fault in the Commission's basic approach for benchmarking the O&M cost of the Appellant with other distribution companies. However, the benchmarking of O&M has to be with respect to like distribution licensees and for a larger span with analysis. In the present case, the State

*Commission has given figures of O&M cost per unit of sales and per consumer for a single year i.e. FY 2010-11. It is not clear whether the O&M expenses considered are the actual audited expenses or trued up expenses or the estimate of expenses approved in the tariff order. The State owned distribution licensee considered in the benchmarking should be much who maintain reliable power supply and distribution loss level comparable to the Appellant. The Commission should have benchmarked the O&M costs of some more distribution licensees having metropolitan area of supply such as other licensees of **Delhi, Mumbai, Kolkata** for at last three years before coming to a conclusion. The approach adopted by the State Commission is over simplified and lacks analysis.*

12.6 While we agree with the basic approach of benchmarking, the data and the analysis is required to be augmented as discussed above. Therefore, we remand the matter to the State Commission for redetermination of the Efficiency Factors.”

3.153 As discussed in Para-3.9.22 to 3.9.25 of the Petition, the Petitioner has requested the Commission to allow the impact on account of the efficiency factor from FY 2012-13 to FY 2013-14 is tabulated below:

Table 47: Impact of efficiency factor from FY 2012-13 to FY 2013-14 (Rs. Cr.)

Sr. No.	Particulars	FY 2012-13	FY 2013-14
1	Employee Expenses	458	494
2	Eff. Fact. %	2%	3%
3	Eff. Factor	9	15

The aforesaid impact has been considered along with carrying cost as under:

Table 48: Impact on account of efficiency factor along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	10
2	Additions	9	15
3	Cl. Balance	9	25
4	Average	5	17
5	Rate of interest	15.03%	15.01%
6	Carrying cost	0.69	2.59
7	Grand Cl. Balance	10	27

COMMISSION'S ANALYSIS

3.154 The Commission has already detailed this issue regarding levy of Efficiency Factor on O&M Expenses in True up of FY 2014-15 and FY 2015-16. Such efficiency factor is not considered for SVRS Pension and Arrears on account of statutory pay revision to employees.

EFFICIENCY FACTOR FOR FY 2010-11**PETITIONER'S SUBMISSION**

3.155 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) has directed the Hon'ble Commission as under:

"44. The 36th issue is arbitrary imposition of efficiency factor for determination of O&M Expenses for true-up of FY 2010-11

44.1 This issue has been considered by this Tribunal in Appeal No. 61 of 2012 and decided in favour of the Appellant. The relevant extracts of the Judgment are referred below:

...

201 So, on strength of the Judgment in Appeal No. 14 of 2012 applies squarely into the facts of the present case. The issue is decided in favour of the Appellants."

44.2 Accordingly, this issue is decided in favour of the Appellant."

3.156 The Petitioner vide letter dated April 28, 2015 requested the Hon'ble Commission to implement the said Judgment. However the Hon'ble Commission was silent on the same in Tariff Order dated September 29, 2015. The impact on account of the said issue along with carrying cost is tabulated below:

Table 49: Impact on account of efficiency factor during FY 2010-11 along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	17	19	22
2	Additions	16	0	0	0
3	Cl. Balance	16	17	19	22
4	Average	8	17	19	22
5	Rate of interest	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	1.05	2.48	2.88	3.31
7	Grand Cl. Balance	17	19	22	25

COMMISSION'S ANALYSIS

3.157 The Commission has observed that the Hon'ble tribunal in its judgments in Appeal No. 52/2008 has not find any merit in the contention raised by the TPDDL regarding introduction efficiency factor of 2%, 3% and 4% for FY 2009, FY 2010 and FY 2011 respectively as follows:

" 67. (ix) The last issue is erroneous computation of the Efficiency Factor. Admittedly, the Appellant had not proposed any Efficiency Factor in its MYT Petition in accordance with the MYT Regulations. The State Commission has compared the O&M expenses of the Appellant with similar urban distribution companies in other states and found the expenses of the Appellant on higher side. Accordingly, the State Commission has decided to introduce efficiency factor of 2%, 3% and 4% for FY 2009, FY 2010 and FY 2011 respectively. Therefore, we do not find any merit in the contention raised by the Appellant. Therefore, the State Commission finding on this issue is justified."

3.158 Further, the Petitioner has relied upon the judgment of Hon'ble APTEL in Appeal No. 177/2012 which has been pronounced on the basis of Appeal No. 14/2012. It is pertinent to state that TPDDL (Appellant in Appeal No. 14/2012) had prayed before Hon'ble APTEL against the Efficiency Factor for FY 2011-12 and not FY 2010-11 in issue no. 23. However, the Petitioner has misrepresented the facts before the Commission that Hon'ble APTEL has decided the issue for Efficiency Factor of FY 2010-11. The relevant extract of the said judgement is as follows:

" 198. On this issue, the learned Counsel for the Appellant submits as under:

...

(c) However, in the impugned order the Delhi Commission has merely extended the efficiency factor of 4% that was applicable for O & M expenses of the Appellant for the period FY 2010-11 to apply to FY 2011-12 and has also extended the MYT Order while extending the operation of the MYT Regulations to the period FY 2011-12. This has resulted in gross under- allowance of O & M costs for FY 2011-12...."

3.159 It is clarified that the Efficiency Factor had been introduced by the Commission for 1st MYT Control Period (FY 08-FY11) in its MYT Order dtd. 23/02/2008 for all the Distribution

Licensees. The Petitioner has not challenged the issue of Efficiency Factor in its Appeal against MYT Order dtd. 23/02/2008 and even Hon'ble APTEL has upheld the methodology for Efficiency Factor in case of other Distribution Licensee as indicated above. Therefore, this issue does not merit consideration.

**COMPUTATION OF AT&C LOSS FOR FY 2009-10:
PETITIONER'S SUBMISSION**

3.160 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) has directed the Hon'ble Commission as under:

"79. The perusal of the findings of the Commission in the Impugned Order would suggest that the Delhi Commission has failed to understand the working of the tri-vector meters installed at the consumers' premises by the Appellant. Basic electricity meters record only active power i.e. kWh consumed by the consumer. Tri-vector meters records all three vectors i.e. Active Power (kWh), Reactive Power (kVARh) and Apparent Power (kVAh). The principle parameter recorded by these meters is kWh. Other parameters are determined from this basic parameter based on instantaneous values of the current and voltage and their phaser angle. Therefore, the Commission has erred in computing kWh based on kVAh and power factor. It is interesting to note that the Commission has computed the average power factor for FY 2010-11 on the basis of kWh and kVAh recordings and computed kWh figures by reverse calculations using the kVAh figures for 2009-10 and average power factor for FY 2010-11.

80. In the light of above discussions we direct the Commission to recomputed the AT&C losses for FY 2009-10 using actual kWh figures as recorded in para 4.8 of the Impugned order. The issue is decided in favour of the Appellants."

3.161 The Hon'ble Commission in Tariff Order dated September 29, 2015 ruled as under:

"3.104 The Commission has indicated the power factor to be applied in the respective Tariff orders for projection of revenue and accordingly the revenue has been estimated and considered in the respective tariff orders for the purpose of tariff fixation. The power factor derived from the data provided by the Petitioner for FY

2009-10 was not in line with either the power factor considered by the Commission for projection of revenue or actual power factor for the past period. It is observed that the Petitioner had submitted only one actual data i.e. kWh, whereas, for computation of billed amount in respect of the consumers where kVAh billing is approved in the Tariff Schedule, either actual kVAh or kWh together with power factor is required. In view of this, the Commission has filed Clarificatory Application before Hon'ble APTEL and the view on impact of AT&C Loss for FY 2009-10 will be taken, as deemed fit and appropriate, after receipt of the judgment of Hon'ble APTEL in the said Clarificatory Application."

3.162 The Hon'ble Tribunal has clearly held that kWh is the basic parameter based on which the other factors are derived in the meters irrespective of the billing of the consumer. The Hon'ble Commission in Para-4.8 of the Tariff Order has stated that the energy sales in kWh was verified by the Commission during prudence check exercise. Therefore the Petitioner requests the Hon'ble Commission to implement the direction of Hon'ble ATE as per Judgment dated November 28, 2014. The computation of AT&C Loss for FY 2009-10 is tabulated below:

Table 50: AT&C Loss for FY 2009-10

Sr. No.	Particulars	Units	Now Approved
A	Units consumed at BRPL Periphery	MU	9700.62
B	Units billed	MU	7796.94
C	Amount billed	Rs. Cr.	3594.46
D	Distribution Loss	%	19.62%
E	Amount collected	Rs. Cr.	3573.98
F	Collection efficiency	%	99.43%
G	Units realised	MU	7752.52
H	AT&C Loss level	%	20.08%

3.163 The Hon'ble Commission determined the AT&C Loss Target for FY 2009-10 as 20.23%. Since the actual AT&C Loss during FY 2009-10 is 20.08%, the Petitioner is entitled for an incentive as per DERC MYT Regulations, 2007. The over-achievement on account of AT&C Loss for FY 2009-10 is tabulated below:

Table 51: Over-achievement of AT&C Loss during FY 2009-10

Particulars	UoM	MYT Order	Actual

Particulars	UoM	MYT Order	Actual
AT&C Loss	%	20.23%	20.08%
Over achievement/ (Under achievement)	%	0.15%	
Energy Input	MU	9700.62	9700.62
Units realised	MU	7738	7753
Average Billing Rate	Rs./ kWh	4.61	4.61
Amount realised	Rs. Cr.	3567	3574
Over-achievement	Rs. Cr.		7
Proposed to be transferred to consumers	Rs. Cr.		3.5
Proposed to be retained	Rs. Cr.		3.5
Less: E. Tax	Rs. Cr.		152
Less: LPSC	Rs. Cr.		15
Total revenue	Rs. Cr.		3404

3.164 The impact on account of re-computation of AT&C Loss of FY 2009-10 is tabulated below:

Table 52: Re-computation of AT&C Loss during FY 2009-10 (Rs. Cr.)

Sr. No.	Particulars	FY 2009-10
1	Revenue submitted by Petitioner	3408
2	Revenue considered in Tariff Order	3404
3	Net Impact	4

3.165 The total impact including carrying cost is tabulated below:

Table 53: Impact along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	4	4	5	6
2	Additions	4	0	0		
3	Cl. Balance	4	4	4	5	6
4	Average	2	4	4	5	6
5	Rate of interest	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.23	0.50	0.63	0.73	0.84
7	Grand Cl. Balance	4	4	5	6	6

COMMISSION'S ANALYSIS

3.166 The Commission has already clarified this issue in its Tariff Order dtd. 29/09/2015 as follows:

"3.104 The Commission has indicated the power factor to be applied in the respective Tariff orders for projection of revenue and accordingly the revenue has been estimated

and considered in the respective tariff orders for the purpose of tariff fixation. The power factor derived from the data provided by the Petitioner for FY 2009-10 was not in line with either the power factor considered by the Commission for projection of revenue or actual power factor for the past period. It is observed that the Petitioner had submitted only one actual data i.e. kWh, whereas, for computation of billed amount in respect of the consumers where kVAh billing is approved in the Tariff Schedule, either actual kVAh or kWh together with power factor is required. In view of this, the Commission has filed Clarificatory Application before Hon'ble APTEL and the view on impact of AT&C Loss for FY 2009-10 will be taken, as deemed fit and appropriate, after receipt of the judgment of Hon'ble APTEL in the said Clarificatory Application."

3.167 The Commission will consider the issue after the final judgment of Hon'ble APTEL as the matter is still sub-judice in the Clarificatory Application filed by the Commission.

REVERSAL OF SELF-CONSUMPTION DURING FY 2012-13 PETITIONER'S SUBMISSION

3.168 The Hon'ble Commission in Tariff Order dated September 29, 2015 stated as under:

"3.201 It is observed from the above table that the opening readings are much less than the closing reading as per the bill dated 12.06.2013 which shows that the meter readings are either suppressed or wrong. While adjusting the bill, the Petitioner adjusted the final readings to match the opening readings. Further it is noticed from the adjustment bill that meter readings of kWh and kVAh are same. The said CA number pertains to a Non Domestic LT Consumer which may have inductive/capacitive load leading to non unity power factor. Thus it can be seen that the original bill captures actual consumption, whereas adjusted bill is prepared manually by entering the meter reading. This shows that the own consumption bills are regularly being adjusted and it is also noted that out of 171.26 MU, 147.86 MU have been adjusted to match the normative consumption allowed by the Commission. Hence, the explanation provided by the Petitioner for adjustment of 147.86 MU in Form 2.1(a) against own consumption is not justified.

3.202 The Commission is of the view that such an act of suppression of facts by the petitioner will have adverse impact on tariff. Therefore as a penal action, the Commission has considered Sales against own consumption as 171.26 MU indicated in Form 2.1 (a) without considering negative adjustments of 147.86 MU.

3.203 In the 2nd MYT Order, the Commission vide directive 6.12 has directed all DISCOMs to meter self-consumption in their own premises and to raise the bills at appropriate tariff for actual consumption based on meter reading every month and the licensee may avail credit at zero tariff to the extent of the normative self-consumption approved by the Commission at the end of the financial year.

3.204 The Commission, vide Para 2.79 of 2nd in its MYT Order had decided the base self-consumption as 0.25% of total sales for FY 2010-11, to be escalated at the rate of 2% per annum up to FY 2014-15. Accordingly, the Commission has arrived at the normative own consumption for the Petitioner as 22.30 MU (21.86×1.02) for FY 2013-14 by escalating the own consumption approved for FY 2012-13 at the rate of 2% per annum.

3.205 It is noted that the own consumption over and above the normative consumption is 148.96 MU. As discussed above, the Commission decided to consider this excess own consumption of 148.96 MU at the Average Billing Rate of Rs. 10.45/kWh for FY 2013-14 of Non-Domestic category assuming all installations for non-domestic purpose as given in Form 2.1(a) submitted by the Petitioner and has disallowed the same in truing up for FY 2013-14. The additional amount to be considered as deemed revenue billed, thus computed as Rs.155.66 Crore ($148.96 \times 10.45/10$) on account of won consumption.”

3.169 As regards above, it is submitted that the Petitioner did not suppress any fact and the adjustment of 148 MU on account of self-consumption during FY 2013-14 was manual error. Same is evident from the following:

- Meters installed in BRPL grid stations are of L&G make. Even though the meters have the facility of AMR, downloaded data is incompatible with billing software.
- The reading from these meters are manually taken each month and fed in to the billing

software. Being a manual process, in certain cases wrong readings were punched.

- It is impractical to imagine that the Petitioner can have own consumption as high as 171 MU because of the following:
 - a. BSES does not has load equivalent to railway traction or Airport. DIAL and DMRC have consumption to the tune of 200 MU and 300 MU respectively.
 - b. The Consumption of all large industrial consumers combined together is 117 MU during FY 2013-14.
 - c. Other DISCOMs like TPDDL and BYPL also recorded self-consumption of 17 and 24 MU respectively.
- Further the issue of determination of self-consumption on normative basis was challenged by the Petitioner in Appeal 177 of 2012. The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) ruled as under:

"25.5 This issue has also been dealt by us in Appeal no. 195 of 2013 filed by a consumer and the Tribunal decided as under:

"We feel that the Appellant should have installed meters for self-consumption in all its offices, call centres, sub-stations, etc. The Respondent no.2 does not need specific instructions for the same. When the Respondent no.2 is including self-consumption in its energy sale figures, then it was legally bound to supply electricity for gross consumption only through correct meters. We feel that the State Commission should have allowed self-consumption only to the extent of actual consumption for metered installations. The formula proposed by the Respondent no. 2 for calculating own consumption in its installations is for calculating energy consumption for consumers in case of faulty meters. Accordingly, we direct the State Commission to re-determine the self-consumption based on the metered data only. We also do not feel that this would result in change in procedure in true up with respect to the MYT order dated 23.02.2008. In the MYT order the consumption is based on the projections. In the MYT order the State Commission has not approved that the self-consumption would not be metered and would only be assessed by a

formula considering the load, number of days/hours, load factor, etc.”

3.170 As evident from aforesaid, the Hon’ble ATE has directed the Hon’ble Commission to allow the actual self-consumption on metered basis and not apply any formula for computation of self-consumption. The same was communicated to the Hon’ble Commission vide letter dated May 1, 2015.

3.171 However the Hon’ble Commission continued with the normative formulae and considered normative revenue at tariff rates approved for non-domestic category beyond normative self-consumption. Accordingly the Petitioner requests the Hon’ble Commission to implement the direction of the Hon’ble ATE in Judgment dated March 2, 2015.

3.172 The revised revenue billed and revenue collection during FY 2013-14 is tabulated as under:

Table 54: Revenue billed and revenue collection during FY 2013-14 (Rs. Cr.)

Revenue billed		
Sr. No.	Particulars	Amount
A	Revenue billed	7444
B	Less: ED	309
C	Less: 8% Surcharge	514
D	Less: Revenue-enforcement	55
E	Add: Revenue-enforcement	35
F	Total	6602

Revenue Collection		
Sr. No.	Particulars	Amount
A	Revenue collection	7425
B	Less: ED	304
C	Less: 8% Surcharge	507
D	Less: LPSC	22
E	Net Amount	6592

3.173 The revised AT&C Loss during FY 2013-14 is tabulated below:

Table 55: Revised AT&C Loss during FY 2013-14

Sr. No.	Particulars	UoM	Amount
A	Energy l/p	MU	11509
B	Units Billed	MU	9652
C	Amount Billed	Rs. Cr.	6602
D	ABR	Rs./ U	6.84

Sr. No.	Particulars	UoM	Amount
E	Dist. Loss	%	16.13%
F	Amount collected	Rs. Cr.	6592
G	CE	%	99.85%
H	Units realised	MU	9637
I	AT&C Loss level	%	16.26%

3.174 The revised amount realized vis-à-vis that considered by the Hon'ble Commission in Tariff Order dated September 29, 2015 is tabulated below:

Table 56: Revised revenue after consideration of sales on account of self-consumption

Sr. No.	Particulars	UoM	Revised AT&C Loss	Tariff Order
A	AT&C Loss	%	13.33	13.33
B	Energy Input	MU	11509	11509
C	Units realised	MU	9975	9975
D	ABR	Rs./ kWh	6.84	6.89
E	Amount realised	MU	6822	6877
F	Difference	Rs. Cr.		55

3.175 The aforesaid impact along with carrying cost is tabulated below:

Table 57: Impact on account of self-consumption (Rs. Cr.)

Sr. No.	Particulars	FY 14
1	Op. balance	0
2	Additions	55
3	Cl. Balance	55
4	Average	27
5	Rate of interest	15.01%
6	Carrying cost	4.10
7	Grand Cl. Balance	59

COMMISSION'S ANALYSIS

3.176 The Commission has analyzed in detail regarding own consumption and reason for disallowance of adjustment made under the category of own consumption in Tariff Order dated 29.09.2015 as follows:

"3.196 The Petitioner has submitted the Own Consumption as 23.40 MU in FY 2013-14. During the Technical Validation Session held on 12.03.2015, it was indicated by

the Petitioner that all its installations are metered and the own consumption of 23.40 MU pertains to FY 2013-14 only. However, the Commission has observed that in Form 2.1(a) the Petitioner has made negative adjustment in sales of 147.86 MU against total Own Consumption of 171.26 MU and arrived at net own consumption of 23.40 MU.

3.197 The Commission enquired from the Petitioner that in spite of 100% metering at their own premises how the Own Consumption adjustment can be so high. The Commission, during the prudence check, also sought clarification about 147.86 MU of adjustment under Own Consumption. The Petitioner has clarified that in some of the cases where closing meter reading is less than opening meter reading in that case the billing software is recording the net reading as per Full Round Indicator. The Commission directed the Petitioner to submit the sample bill of cases where Full Round Indicator has been considered by the billing software in order to justify its submission.

3.198 However, the Petitioner has further submitted its clarifications vide letter dated 09.04.2015 as follows:

"....we would like to submit that meters installed in BRPL grid stations are of L&G make. Even though these meters have the facility for Automated Reading download (AMR), the data downloaded is not compatible without billing software. The reading from these meters are manually taken each month and fed in to the billing software. Being a manual process, in certain cases wrong readings were punched. Moreover, billing for Own Consumption were not subjected to pre and post audit checks earlier. As and when the errors were detected, the wrong bills were reversed and corrected bills were raised. All these reversals are reflected in the adjustments column of the monthly Form 2.1a submitted with the commission."

3.199 Further, the Petitioner has submitted only one original bill dated 12.06.2013 as well as adjusted bill dated 18.06.2013 for CA No. 150014810 raised for the month of June, 2013. The Petitioner has not submitted copy of any bill pertaining to Full Round Indicator error even after being asked to submit the same as discussed during the

Technical Validation Session.

3.200 The Commission has observed the variation in Original and Adjusted bill indicated in the table as follows:

Sl. No.	Particulars	Original Bill	Adjustment Bill
1	CA number	150014810	150014810
2	Date of Bill	12.06.2013	18.06.2013
3	Opening meter reading (kVAh)	1533.43	1533.43
4	Opening meter reading (kWh)	1533.43	1533.43
5	Closing meter reading (kVAh)	14284.90	1556.76
6	Closing meter reading (kWh)	11127.06	1556.76
7	Power Factor	0.75	1.00

3.201 It is observed from the above table that the opening readings are much less than the closing reading as per the bill dated 12.06.2013 which shows that the meter readings are either suppressed or wrong. While adjusting the bill, the Petitioner adjusted the final readings to match the opening readings. Further it is noticed from the adjustment bill that meter readings of kWh and kVAh are same. The said CA number pertains to a Non Domestic LT Consumer which may have inductive/capacitive load leading to non unity power factor. Thus it can be seen that the original bill captures actual consumption, whereas adjusted bill is prepared manually by entering the meter reading. This shows that the own consumption bills are regularly being adjusted and it is also noted that out of 171.26 MU, 147.86 MU have been adjusted to match the normative consumption allowed by the Commission. Hence, the explanation provided by the Petitioner for adjustment of 147.86 MU in Form 2.1(a) against own consumption is not justified.

3.202 The Commission is of the view that such an act of suppression of facts by the petitioner will have adverse impact on tariff. Therefore as a penal action, the Commission has considered Sales against own consumption as 171.26 MU indicated in Form 2.1 (a) without considering negative adjustments of 147.86 MU.

3.203 In the 2nd MYT Order, the Commission vide directive 6.12 has directed all DISCOMs to meter self consumption in their own premises and to raise the bills at appropriate tariff for actual consumption based on meter reading every month and the licensee may avail credit at zero tariff to the extent of the normative self

consumption approved by the Commission at the end of the financial year.”

3.177 The Commission will consider the issue after the final judgment of Hon’ble APTEL as the matter is still sub-judice in the Appeal No. 297/2015 filed by the Petitioner.

FINANCING COST OF LPSC BASED ON SBI PLR PETITIONER’S SUBMISSION

3.178 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 relied on Judgment dated November 28, 2013 and has rejected any revision in the interest rate for funding of LPSC on the ground that (a) the funding of LPSC is akin to the funding of working capital and (b) since the interest rate for working capital is to be trued-up only when the variation in the SBI PLR is more than +/-1%, and as the actual variation has not been more than 1%, there is no need to revise the rate of interest for funding of LPSC. Further the Hon’ble Commission has stated that a Clarificatory petition has been filed before Hon’ble ATE.

3.179 The Petitioner has submitted that the Commission has not referred to Hon’ble ATE’s directions in Judgment dated July 12, 2011 (Appeal 142 of 2009) which is reproduced below:

“10. The fifth issue is regarding the Late Payment Surcharge.

10.1. The above issue had been covered in this Tribunal’s Judgment dated 30.7.2010 reported in 2010 ELR (APTEL) 0891 titled as NDPL vs. DERC. The relevant extracts of the Judgment are reproduced below:

“The normative working capital compensates the distribution company in delay for the 2 months credit period which is given to the consumers. The late payment surcharge is only if the delay is more than the normative credit period. For the period of delay beyond normative period, the distribution company has to be compensated with the cost of such additional financing. It is not the case of the Appellant that the late payment surcharge should not be treated as a non-tariff income. The Appellant is only praying that the financing cost is involved due to late payment and as such the Appellant is entitled to the compensation to incur such additional financing cost. Therefore, the financing cost of outstanding dues, i.e. the entire principal amount,

should be allowed and it should not be limited to late payment surcharge amount alone. Further, the interest rate which is fixed as 9% is not the prevalent market Lending Rate due to increase in Prime Lending Rate since 2004-05. Therefore, the State Commission is directed to rectify its computation of the financing cost relating to the late payment surcharge for the FY 2007-08 at the prevalent market lending rate during that period keeping in view the prevailing Prime Lending Rate”.

This issue is decided accordingly in terms of the above Judgment.” (Emphasis added)

3.180 Further the Hon’ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) has directed the Hon’ble Commission as under:

*“4.8 We find that the State Commission has **mechanically allowed interest rate of 9.5% as allowed while passing the MYT order on funding of working capital without verifying the prevailing cost of debt contracted by the licensee and other relevant factors.** As directed in the judgment in appeal no. 153 of 2009, the financing cost for Late Payment amount has to be allowed at the prevalent market lending rates as per the Tariff Regulations. **According, the State Commission is directed to re-determine the interest rate and the amount of financing cost.” (Emphasis added)***

3.181 Accordingly the Petitioner has computed the financing cost of LPSC based on SBI PLR as under:

Table 58: Difference in financing cost of LPSC due to rate of interest (Rs. Cr.)

Sr. No.	Particulars	UoM	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13
1	Delayed Payment Surcharge	Rs. Cr.	32	28	28	29	35	31
2	Rate of LPSC per month	%	1.5%	1.5%	1.5%	1.5%	1.5%	1.5%
3	Rate of LPSC for 12 Months	%	18%	18%	18%	18%	18%	18%
4	Principal Amount	Rs. Cr.	177	155	156	162	197	172
5	SBI PLR	%	12.69%	12.79%	11.87%	12.26%	14.40%	14.61%
6	Financing Cost of LPSC	Rs. Cr.	22	20	19	20	28	25
7	Allowed by DERC	Rs. Cr.	19	14	15	17	25	17
8	Net Amount	Rs. Cr.	3	5	4	3	3	8

3.182 The aforesaid difference has been considered along with carrying cost as under:

Table 59: Impact on account of difference in financing cost of LPSC along with carrying cost (Rs. Cr.)

Sr. No	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	3	9	14	20	26	39
2	Additions	3	5	4	3	3	8	0
3	Cl. Balance	3	9	13	18	23	34	39
4	Average	2	6	11	16	21	30	39
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.21	0.82	1.47	2.14	3.17	4.53	5.80
7	Grand Cl. Balance	3	9	14	20	26	39	44

COMMISSION'S ANALYSIS

3.183 The Commission has already dealt this issue in its Tariff Order dtd. 29/09/2015 as follows:

" 3.44 Further, in view of the Hon'ble APTEL's direction in Appeal No. 36 of 2008 and Appeal No. 61 & 62 of 2012, the Commission has filed a Clarificatory Application before Hon'ble APTEL therefore a view in the matter will be taken, as deemed fit and appropriate, after receipt of the direction of the Hon'ble APTEL in the said application."

3.184 In view of the above the Commission has not reconsidered this issue in this Tariff Order as the issue is sub judice before Hon'ble APTEL.

SHORT-TERM GAIN

PETITIONER'S SUBMISSION

3.185 The Hon'ble Commission in Tariff Order dated September 29, 2015 has reversed the income from interest from Short term gain allowed for the period FY 2007-08 to FY 2011-12 without assigning any reason for the same. The Hon'ble Commission has stated as under:

"3.120 The Commission has observed that any income from investments other than Contingency reserves shall constitute Non Tariff Income of the Licensee. Accordingly the Commission has considered income from interest/short term capital gain as Non Tariff Income for 1st MYT Control Period i.e., FY 2007-08 to FY 2010-11."

3.186 As regards above, it is submitted that the Hon'ble ATE in Judgment dated July 30, 2010 (Appeal 153 of 2009) directed the Hon'ble Commission as under:

"The third issue relates to the wrongful deduction of interest on surplus funds out of share-holders' money, etc. from the ARR of the Appellant and treating as a non-tariff income. Only interest income on surplus funds to the extent of delayed payment

surcharge and interest on consumer security in excess of the rates specified by the Commission should be considered as non-tariff income for deduction in ARR. Also the interest income on consumer's share of incentive on over-achievement of AT&C losses need to be deducted from ARR. However, the Appellant has argued that he has factored the interest income while computing the carrying cost on the revenue gap. Consequently, the carrying cost is lower to that extent. When the benefit of the same has already been passed on to the consumer, the same cannot be passed on to them by way of interest cost. However, in order to correctly determine the ARR as per the Tariff Regulations, the interest income on delayed payment surcharge and difference in interest rate on consumer security with respect to that specified by the Regulations may be considered as non-tariff income to be deducted from the ARR. Also interest on consumer's share of incentive on over-achievement of AT&C losses has to be deducted from ARR. The Commission will compute the interest income for which credit is to be given to consumer from total interest income. Accordingly, adjustment may be made in carrying cost on the revenue gap claimed by the Appellant to avoid double deduction of the interest income on this account in the ARR. On the remaining surplus fund on Retail Supply Tariff the benefit of interest income is to be retained by the Appellant on account of return on equity earned, overachievement in AT&C losses and efficiency in controllable parameters, working capital, etc. invested in mutual funds/banks. The State Commission cannot erode the benefit to be derived by the distribution company by considering such interest income as a part of the non-tariff income. Accordingly, directed"

3.187 The impact of short term gain along with carrying cost is tabulated below:

Table 60: Impact on account of short term gain along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	2	9	12	15	22	32
2	Additions	2	6	2	1	4	7	8
3	Cl. Balance	2	9	11	13	19	28	40
4	Average	1	5	10	13	17	25	36
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
6	Carrying cost	0.14	0.74	1.31	1.70	2.54	3.76	5.39
7	Grand Cl. Balance	2	9	12	15	22	32	45

COMMISSION'S ANALYSIS

3.188 The Petitioner has submitted that Short term gain is on account of interest received on fixed deposits maintained by the Petitioner as margins kept with the funding agency for loans availed. Therefore, the Commission is of the view that the Petitioner is not allowed any interest /return on equity on the amount kept as fixed deposit in the ARR of the relevant year and interest on these fixed deposits should be allowed to be reduced from the Non-Tariff Income based on the Hon'ble APTEL judgment dated July 30, 2010 in Appeal No. 153 of 2009. The impact has been considered in Table 101: Impact as approved by the Commission on account of implementation Hon'ble APTEL Judgments (Rs. Cr.)

DISALLOWANCE OF REBATE ARISING OUT OF PAYMENT MADE TO DTL PETITIONER'S SUBMISSION

3.189 During the Policy Direction Period, i.e., FY 2002-03 to FY 2006-07, Delhi Transco Limited (hereinafter referred to as "DTL") was given the responsibility of purchasing power for the Delhi DISCOMs. As a result the DISCOMs were required to pay Bulk Supply Tariff (hereinafter referred to as "BST") to DTL as determined by the Hon'ble Commission. There was a dispute between DTL and the Petitioner on the methodology for computation of the exact power purchase cost payable by the Petitioner to DTL. The disputed amount was an amount of Rs. 6.39 Crores. This was challenged by the Petitioner before the Hon'ble Commission. While the dispute was pending, the Petitioner paid the disputed amount to DTL under protest.

3.190 The Petitioner in its Petition for Truing-up of FY 2006-07 claimed the actual power purchase cost incurred during FY 2006-07. However the Hon'ble Commission observed that there is a difference of Rs. 7.05 Crore (Rs. 6.39 Crore on account of rebate and Rs. 0.66 Crore on account of reactive energy charges) between the power purchase cost as stated by DTL and that claimed by the Petitioner in the Petition. Thus, the Hon'ble Commission took the lower amount, as appearing in DTL's book, as the power purchase cost of the Petitioner, though the

Petitioner had paid a higher amount as correctly reflecting in its book. This amount was paid under protest by the Petitioner, on account of which it was out of pocket to the extent of amount in question, which it had paid towards power purchase cost, which is a pass-through expense.

3.191 The Hon'ble Commission allowed the Petitioner to recover power purchase cost only as per the amount in the audited accounts of DTL, on account of the pending dispute between DTL and the Petitioner. While doing so, the Hon'ble Commission, stated that any additional power purchase cost on this account will be allowed in future. In other words, the Hon'ble Commission agreed to provide the Petitioner its entitlement once the disputes between DTL and the Petitioner were resolved and the amounts in question were reconciled in the books of DTL and the Petitioner. Therefore the power purchase cost of the Petitioner was understated by Rs. 7.05 Crore (Rs. 6.39 Crore on account of rebate and Rs. 0.66 Crore on account of reactive energy charges).

3.192 The Petitioner has challenged the treatment given by the Commission before Hon'ble Tribunal in Appeal 36 of 2008. The Hon'ble Tribunal in the Judgment dated October 6, 2009 ruled as under:

"87) It is clear from the portion of the impugned order quoted above that the Commission has not disallowed the rebate claimed on account of timely payment to the DTL. However, in this regard there is a dispute between the appellant and the DTL. The Commission has provisionally allowed the power purchase cost for the FY 2007. It was submitted before us by the senior counsel Mr.A. N. Haksar that he has already advised the Commission to decide the dispute as soon as possible. The Commission shall make suitable adjustments in the entitlement of the appellant as soon as the decision in this regard is taken."

3.193 During the adjudication of dispute before the Hon'ble Commission, a joint statement was signed by both the parties (Petitioner and DTL) wherein it was agreed that the Petitioner is entitled to recover the rebate of Rs. 6.39 Crore from DTL. The relevant extracts from the Order dated February 4, 2011 passed by the Hon'ble Commission in the aforesaid matter are reproduced below:

“30. After hearing the parties, the Commission accepted the joint statement duly signed by both the parties and directed that the Petition is disposed off as settled by mutual agreement.”

3.194 The Petitioner vide letter dated April 25, 2012 requested the Hon’ble Commission to allow the claim of additional amount of Rs. 6.39 Crore along with carrying cost in ARR of FY 2012-13 as per the assertion made by the Ld. Counsel of the Hon’ble Commission before this Hon’ble ATE during proceedings of Appeal 36 of 2008.

3.195 The Hon’ble Commission in Tariff Order dated July 13, 2012 ruled as under:

*“3.8 The Commission observes that while truing up of FY 2006-07 for DTL, the Commission did not considered prior period income as income of DTL. After truing up for FY 2006-07, the Commission had determined a surplus for the DTL and deficit for BRPL. As this amount was not considered while calculating the surplus/deficit till FY 2006-07, the surplus of DTL will increase by Rs 6.39 Cr and deficit of BRPL will increase by Rs 6.39 Cr. **The Commission directs DTL to adjust Rs 6.39 Cr along with carrying cost (considered by the Commission for revenue gap funding of BRPL) in first three bills for transmission charges issued by DTL after issuance of this tariff order.**”*
(Emphasis added)

3.196 As per the directions of the Hon’ble Commission, DTL transferred an amount of Rs. 14.86 Crore including carrying cost on Rs. 6.39 Crore. For the purpose of accounting, the Petitioner showed the same as Other Income.

3.197 The Petitioner has submitted that the above equation as per various tariff orders is tabulated as under:

Table 61: Power Purchase cost during FY 2006-07 allowed by the Commission (Rs. Cr.)

Particulars	TO dt. Feb 23, 2008	TO dt. Aug 26, 2011	TO dt. July 13, 2012	TO dt. September 29, 2015
PP Cost incurred by Petitioner	2102.96	2102.96	2096.57	2096.57
PP Cost borne by consumers	2095.91	2096.57	2096.57	2090.18
Disputed amount				
DTL	-6.39	-6.39	0	
Petitioner	6.39	6.39	0	6.39
Reactive Energy Charges	0.66			

- i. In Tariff Order dated February 23, 2008, the Petitioner bore total power purchase cost of Rs. 2102.96 Crore which included Rs. 0.66 Crore on account of reactive energy charges and Rs. 6.39 Crore on account of amount paid under dispute to DTL. However power purchase allowed to the Petitioner and that borne by the consumers was Rs. 2095.91 Crore.
- ii. Subsequent to the pronouncement of the Judgment dated October 10, 2009, the Hon'ble Commission allowed Rs. 0.66 Crore on account of reactive energy charges in its Tariff Order dated August 26, 2011. However, the Hon'ble Commission did not allow any additional power purchase cost despite of resolution of dispute between DTL and the Petitioner vide Order dated February 4, 2011.
- iii. In its Tariff Order dated July 13, 2012, the Hon'ble Commission directed DTL to transfer Rs. 6.39 Crore along with carrying cost to the Petitioner.
- iv. In Tariff Order dated September 29, 2015, the Hon'ble Commission passed on the income recovered from DTL to the consumers. As a result principal amount of Rs. 6.39 Crore remain unrecovered in the ARR of the Petitioner.

3.198 The Petitioner vide letter dated April 8, 2015 has requested the Commission not to consider the income recovered from DTL as a part of NTI during FY 2013-14. However the same has not been considered by the Commission and the income has been considered as NTI in Tariff Order dated September 29, 2015.

3.199 The amount along with carrying cost is tabulated below:

Table 62: Impact on account of DTL Rebate along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 14
1	Op. balance	0
2	Additions	15
3	Cl. Balance	15
4	Average	7
5	Rate of interest	15.01%
6	Carrying cost	1.12
7	Grand Cl. Balance	16

COMMISSION'S ANALYSIS

3.200 The Commission observes that the Petitioner had not indicated the amount of Rs. 14.86 Cr. in its Petition filed for True up of FY 2013-14 to be reduced from NTI in table no. 3.20. However, the Petitioner has submitted its claim in this Tariff Petition for true up of FY 2014-15 and FY 2015-16 that the amount of Rs. 14.86 Cr. was part of other income in the audited financial statements of FY 2013-14. Further, it is pertinent to state that there is no indication of amount of Rs. 14.86 Cr. in the audited financial statement of FY 2013-14 at Note 26 – “Other Income”. Therefore, the Commission has not considered this issue.

DVB ARREARS WHILE COMPUTING AT&C LOSS FOR FY 2008-09 PETITIONER’S SUBMISSION

3.201 The Hon’ble ATE in Judgment dated November 28, 2014 (Appeal 61 and 62 of 2012) has ruled as under:

“58. In view of the above discussions the issue is decided as under:

1) All the parameters such as LPSC, ED, DVB arrears have to be included both in the numerator as well in the denominator for computing the collection efficiency.

... “

3.202 The Petitioner has not deducted the DVB Arrears while computation of impact on account of over-achievement of AT&C Loss during FY 2008-09. Therefore the amount pertaining to DVB Arrears during FY 2008-09 ought to be allowed as an expense along with carrying cost as under:

Table 63: Impact on account of DVB Arrears (Rs. Cr.)

Sr. No.	Particulars	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	3	4	4	5	6
2	Additions	3					
3	Cl. Balance	3	3	4	4	5	6
4	Average	2	3	4	4	5	6
5	Rate of interest	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.21	0.43	0.50	0.63	0.73	0.84
7	Grand Cl. Balance	3	4	4	5	6	6

COMMISSION’S ANALYSIS

3.203 The Petitioner was not able to substantiate the claim of AT&C loss in Tariff Order dtd.

26/08/2011 due to non true up of amount collected including DVB arrears and the daily collection register (which was also not produced). Since, the information could not be substantiated, which had a direct bearing on calculation of AT&C losses claimed by the Petitioner, the Commission has trued up AT&C Loss of FY 2008-09 in this Tariff Order as indicated in para above by considering target Collection Efficiency for FY 2008-09.

REVISION OF R&M EXPENSES BY REVISING “K” FACTOR PETITIONER’S SUBMISSION

3.204 The Hon’ble ATE in Judgment dated March 2, 2012 (Appeal 177 of 2012) has ruled as under:

*“36.5 We find that the State Commission had decided to fix the ‘K’ factor as the average K factor based on the actual R&M expenses of the last five years. **We do not find any infirmity in the methodology except that the Commission has not followed the principle of computing the ‘K’ factor based on the actual for the last 5 years by ignoring the K factor for FY 2007-08. By this method the R&M expenses of FY 2012-13 have been determined more or less at the same level as 2011-12 which does not even cover the normal inflation factor. Therefore, the Commission should take into account the K factor for 2007-08 also and redetermine the K factor and the R&M expenses for the Control Period. Accordingly, directed.” (Emphasis added)***

3.205 As discussed in Para-3.9.15 to 3.9.21 of the Petition, the Petitioner has computed the R&M Expenses based on “K” factor as per the direction of the Hon’ble ATE and GFA considered by the Hon’ble Commission in Tariff Order dated July 13, 2012 as under:

Table 64: Difference in R&M Expenses due to revised “K” factor (Rs. Cr.)

Sr. No.	Particulars	FY 2012-13	FY 2013-14
1	GFA	4513	4997
2	K Factor	2.70%	2.70%
3	R&M Expenses	122	135
4	Allowed in MYT Order	94	102
5	Difference	28	33

3.206 The aforesaid impact along with carrying cost is tabulated below:

Table 65: Impact on account of difference in R&M Expenses (Rs. Cr.)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	30
2	Additions	28	33
3	Cl. Balance	28	63
4	Average	14	46
5	Rate of interest	15.03%	15.01%
6	Carrying cost	2.10	6.98
7	Grand Cl. Balance	30	70

COMMISSION'S ANALYSIS

3.207 The Commission has given the detailed reasoning and the factors which have been considered for determination of R&M expenses in Tariff Order dated 29/09/2015 and the same has been challenged by the Petitioner in Appeal No. 297/2015 before Hon'ble APTEL. As the matter is sub judice, therefore a view in the matter will be taken, as deemed fit and appropriate, after receipt of the direction of the Hon'ble APTEL in the said Appeal.

INTEREST DE-CAPITALISED

PETITIONER'S SUBMISSION

3.208 The Hon'ble Commission while undertaking Truing-up of FY 2007-08 in Tariff Order dated May 28, 2009 wrongly deducted the interest capitalized during FY 2007-08 from the ARR of the Petitioner.

3.209 The said treatment was challenged by the Petitioner in Appeal 142 of 2009. The Hon'ble Commission in its reply to the Appeal dated January 18, 2010 conceded the issue and indicated that the error would be corrected in the next true-up order. The same has also been captured in the Judgment dated July 12, 2011 (Appeal 142 of 2009).

3.210 The Hon'ble Commission in Tariff Order dated August 26, 2011 has in fact given detailed reasoning as to why the same should not be deducted from the ARR of the Petitioner which is reproduced below:

"3.135 NDPL appealed against the MYT Order of the Commission in Hon'ble ATE on interest capitalisation by the Commission for each year of the Control Period. This issue was also part of the appeal no 142 of 2009 filed by the BRPL in the Hon'ble ATE.

3.136 In its written submission to the Hon'ble ATE, the Commission submitted that

For the MYT Period DERC is following the principle of Return on Capital Employed in which it allows Return on Equity and Interest on Loan under RoCE only for the assets capitalized. Any interest cost incurred before capitalization is considered as IDC (Interest during Construction) and would be included in Asset base only after capitalization. DERC would correct this error based on this principle in the True Up Order.

3.137 Interest expenses of the Petitioner can be divided into two parts – interest expenses for loan on Capital Works in Progress and interest expenses for loan on assets capitalised.

3.138 In the Policy Direction Period, the Commission used to allow total interest expense incurred by the licensee under total revenue requirement and subtracted interest expenses for loan on the Capital Works in Progress (Interest Capitalised) as it was capital in nature. The interest capitalised was added to the cost of the asset as Interest during Construction (IDC).

3.139 In the MYT regime, the Commission is following the principle of Return on Capital

Employed (RoCE) as per the MYT Regulations, under which it approves return on equity and interest on loan only for assets capitalized and allows them in the Aggregate Revenue Requirement of the licensee. Any interest cost incurred before capitalization is considered as interest during construction and would be added to the cost of the assets.

3.140 The Commission now rectifies its mistake in this Order and is not considering any interest capitalization while computing the ARR for FY 2008-09 and FY 2010-11. In the True Up Order for FY 2007-08, the Commission had considered interest capitalisation of Rs 4.27 Cr in FY 2007-08. The Commission, in this Order, is approving additional revenue requirement of Rs 4.27 Cr for FY 2007-08 due to rectification of this mistake for FY 2007-08.

3.211 The Petitioner has submitted that the Commission has arbitrarily, without assigning any reason, deducted the amount of interest expenses capitalized from the ARR of FY 2007-08.

The Tariff Order dated August 26, 2011, in which the Hon'ble Commission has rectified the error has already attained finality and thus cannot be reopened. The Hon'ble ATE has also held in various Judgments that once the order has attained finality, same cannot be re-opened. The Commission does not have the power in law to suo motu reopen the said Order.

3.212 The impact on account of the aforesaid including carrying cost is tabulated below:

Table 66: Impact on account of interest de-capitalised (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	5	5	6	7	8	9
2	Additions	4					0	0
3	Cl. Balance	4	5	5	6	7	8	9
4	Average	2	5	5	6	7	8	9
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.29	0.63	0.68	0.79	0.99	1.15	1.32
7	Grand Cl. Balance	5	5	6	7	8	9	10

COMMISSION'S ANALYSIS

3.213 The Commission has considered this issue in this Tariff Order as per approval in Tariff Order dtd. 26/08/2011 and the impact has been indicated in the Table 101: Impact as approved by the Commission on account of implementation Hon'ble APTEL Judgments (Rs. Cr.)

ADDITIONAL UI CHARGES ABOVE 49.5 HZ

PETITIONER'S SUBMISSION

3.214 The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal 177 of 2012) has ruled as under:

"28.4 In view of above submissions of the Appellant, we direct the State Commission to reconsider the amount disallowed on account of UI charges to restrict it to the amount for overdrawals below the frequency at which penal charges for UI are leviable. Accordingly, decided."

3.215 As regards the issue of UI Charges, the Hon'ble Commission has given contradictory statement in Tariff Order dated September 29, 2015 which is as under:

"3.112 The Commission, in compliance to the Hon'ble APTEL's judgment in Appeal No. 177 of 2012, has vide its letter dated 05.08.2015 sought the details of additional UI charges paid by the Petitioner in FY 2010-11 duly certified by SLDC. The Petitioner vide

*its letter dated 12.08.2015 has submitted additional UI charges paid in FY 2010-11 as Rs. 5.50 Crore certified by SLDC, which is the same amount disallowed by the Commission in the Tariff Order dated 13.07.2012. It is pertinent to state that **SLDC has not differentiated between penal and additional charges on account of UI. All the additional UI charges are imposed on the Distribution Licensee to maintain the Grid discipline.** The Forum of Regulators in its Press Release dated 23.07.2009 had stated that additional UI charges imposed on various distribution utilities across the country for excessive over drawl from the Grid will not be allowed to be recovered from the consumers w.e.f 01.08.2009 as follows:*

“....

all the Chairpersons of State Electricity Regulatory Commissions as its members, has agreed that the additional Unscheduled Interchange (UI) charges imposed on distribution utilities for excessive over drawl from the grid would not be allowed to be recovered from consumers w.e.f. 1st August, 2009.”

3.216 In view of the above, **the Commission has not considered any impact on the same. (Emphasis added)**

3.217 As evident from above, the Hon’ble Commission has disallowed entire UI Charges only because SLDC has not differentiated between penal and additional UI Charges.

3.218 The Petitioner has submitted that the Central Electricity Regulatory Commission (UI and related matters) Regulations, 2009 (hereinafter referred to as the “UI Regulations”) as amended from time to time does not prescribe any UI rates as penal. However, the said Regulations prescribed drawls and injection below 49.2 Hz as a additional UI rate.

3.219 The Hon’ble Commission has also relied upon the deliberation of the FOR to justify the disallowance. It is submitted that the Press Release of the FOR dated July 23, 2009 provides as follows:-

*“3. After deliberation on the recommendation, the Forum of Regulators arrived at a consensus that the additional UI charges imposed on the utilities under the UI regulations of CERC for overdrawl during the period **when grid frequency is below 49.2 Hz.** should not be permitted in the annual revenue requirement of distribution*

utilities w.e.f. 1st August, 2009.” (Emphasis supplied)

3.220 It is clear from the above that the Commission has erred in relying upon the deliberations of the FOR as the FOR did not state that the additional UI charges for overdrawl during the period when grid frequency is between 49.5 and 49.2 Hz should not be permitted in the annual revenue requirement of distribution utilities.

3.221 Accordingly the Petitioner has requested the Commission to allow UI Charges worth Rs. 2.84 Crore above frequency 49.2 Hz along with carrying cost as under:

Table 67: Impact on account of UI Charges along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	3	3	4
2	Additions	3		0	0
3	Cl. Balance	3	3	4	4
4	Average	1	3	4	4
5	Rate of interest	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.19	0.45	0.53	0.62
7	Grand Cl. Balance	3	3	4	5

COMMISSION’S ANALYSIS

3.222 The Commission has given the detailed reasoning regarding penal nature of payment towards additional UI Charges due to non-adherence of the scheduled drawl by the Petitioner in its various Tariff Orders which has also been upheld by the Hon’ble APTEL in its judgement in Appeal No. 271/2013 as follows:

“7.6) Penal interests are applicable at the specified rates for over-drawal of electricity for each time block when grid frequency is below 49.5 Hz. The time block under UI Regulations is 15 minutes. We are totally unable to accept the contention of the appellant that the appellant has taken all the necessary steps to ensure compliance with the requirements of UI Regulations, over-drawal from grid below 49.5 Hz frequency is inevitable despite efficient management of the appellant. These are the problems which are to be sorted out by a Discom by making efficient management, proper scheduling of power and procurement etc. What is provided under the Regulation is that the State Commission is bound to follow those Regulations,

without giving any dilution or relaxation in the provisions of Act or Rules. We are unable to accept the appellant's contention that over-drawal or under-drawal depends on the scheduled generation available, since, the generation available changes constantly and further due to loss of generation the schedules are affected resulting in over-drawal by Discoms. In view of the above discussions, we do not find any merit in the contentions of the appellant and hence, this Issue No.8 is decided against the appellant."

3.223 Further, the Commission has given the detailed reasoning and certification received from SLDC regarding penal nature of payment towards additional UI Charges due to non-adherence of the scheduled drawl by the Petitioner in its Tariff Order dated 29/09/2015 and the same has challenged by the Petitioner in Appeal No. 297/2015 before Hon'ble APTEL. As the matter is sub judice, therefore a view in the matter will be taken, as deemed fit and appropriate, after receipt of the direction of the Hon'ble APTEL in the said Appeal.

DISALLOWANCE OF REACTIVE ENERGY CHARGES PETITIONER'S SUBMISSION

3.224 As regards the issue of reactive energy charges, the Hon'ble ATE in Judgment October 6, 2009 (Appeal 36 of 2008) ruled as under:

"88) The appellant has claimed reactive energy charge to the tune of Rs. 0.66 Crores. It is contended by the appellant that the obligation to pay reactive energy charge is a constituent of the obligation of power procurement charges to be borne by the appellant. This Tribunal vide the judgment in appeal No. 266 & 267 of 2006 allowed inclusion of the payment towards reactive energy charges in the power purchase cost. The Commission itself recognised the admissibility of the reactive energy charge for DTL. The Commission does not seriously dispute the admissibility of such amount as reactive energy charge. It has allowed reactive energy charge of Rs.0.85 Crores for the FY 2006. The Commission merely says that for the FY 2007 such amount was not given to the appellant as no such amount was claimed by it. It is said by the Commission that neither table 64 nor form A1 of the MYT petition indicated any reactive energy

charges. In fact, there was no column in the prescribed form Ao indicated the reactive energy charges. This cannot disentitle the appellant from claiming the same. The Commission will have to allow the appellant to recover the reactive energy charges amounting to Rs.0.66 Crores through tariff.”

3.225 The Hon’ble Commission in its Tariff Order dated August 26, 2011 allowed the amount of reactive energy charges but denied the carrying cost on account of the same.

3.226 The issue of denial of carrying cost was also challenged by the Petitioner in Appeal 61 of 2012. The Hon’ble ATE in Judgment dated November 28, 2014 (Appeal 61 of 2012) ruled as under:

“91. This Tribunal in number of judgments have held that carrying cost is a legitimate right of the licensee and its recovery is legitimate expense. Once the Hon’ble Commission has allowed certain expenses in the truing-up or on the directions of higher authority, the carrying costs for such expense would also become recoverable. The Commission, is therefore, directed to allow the carrying cost on Reactive Energy Charges for FY 2006-07. The issue is decided in favour of the Appellants.”

3.227 The Hon’ble Commission in Tariff Order dated September 29, 2015 at Table-3.52a has allowed the reactive energy charges during FY 2006-07 but deducted the same at Table-3.52b of the Order, thereby taking away with one hand what it gave by the other.

3.228 A comparison of the treatment with respect to reactive energy charges is tabulated below:

Table 68: Comparison of treatment of reactive energy charges in various Orders (Rs. Cr.)

Particulars	TO dt. May 28, 2009 and Aug 26, 2011		Impugned Order		Relief as per Hon’ble ATE directions	
	FY 07	FY 08	FY 07	FY 08	FY 07	FY 08
Power Purchase cost		2527.6		2527.6		2527.6
Reactive energy charges		0.66	0.66	-0.66	0.66	

3.229 As evident from above, the Hon’ble Commission, despite clear directions from the Hon’ble Tribunal in the Judgments dated October 6, 2009 (Appeal 36 of 2008) and November 28, 2014 (Appeal 61 of 2012) has not provided amount of reactive energy charges along with correct amount of carrying cost.

3.230 The impact on account of the same along with carrying cost is tabulated below:

Table 69: Impact on account of reactive energy charges along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 11	FY 12	FY 13	FY 14
1	Op. balance	1	1	1	1
2	Additions	0		0	0
3	Cl. Balance	1	1	1	1
4	Average	1	1	1	1
5	Rate of interest	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.12	0.15	0.18	0.20
7	Grand Cl. Balance	1	1	1	2

COMMISSION'S ANALYSIS

3.231 The Commission observed that the principal amount of Reactive Energy Charges as allowed in TO dtd. 26/08/2011 had not been considered in TO dtd. 29/09/2015 of Rs. 0.66 Cr. The same is therefore allowed in this Tariff Order and the impact has been indicated in the Table 101: Impact as approved by the Commission on account of implementation Hon'ble APTEL Judgments (Rs. Cr.)

**DISALLOWANCE OF PP COST DUE TO MOD
PETITIONER'S SUBMISSION**

3.232 The Hon'ble Commission in its Tariff Order dated September 29, 2015 directed the Petitioner as under:

"3.256...

Further, the Commission has analysed the slot-wise data of power procurement for FY 2013-14 received from SLDC. It was observed from Petitioner's letter dated 08.11.2013 addressed to SLDC requesting for back down of various stations whose average rate were in the range of Rs.1.61/kWh to Rs.3.56/kWh. The plants proposed for backing down by the Petitioner to SLDC are as follows:

Name of the Plant	Variable Rate (Rs./ kWh)
MTPS#6	2.5
CTPS#7&8	1.61
Kahalgaoon-I	2.97

Kahalgaon-II	2.41
Farakka	3.56

3.257 However, it is pertinent to state that in the said letter the Petitioner has not properly indicated Merit Order Dispatch considering all plants in its portfolio in accordance with the variable cost. Further, it is observed from Form F1 submitted with the Petition that the average cost of higher variable cost plants were not considered for backing down in the month of November i.e., the same month in which letter for back down was given to SLDC. The details of few costlier plants which has not been considered for backing down in the month of November'2013 is as follows:

Name of the Plant	Variable Rate (Rs./ kWh)
Dadri-I	2.5
Aravali	1.61
BTPS	2.97
Dadri-II	2.41
Pragati-I	3.56

3.258 Further, the Hon'ble APTEL in its judgment in Appeal No. 160 of 2012 dated 08.04.2015 (R-Infra-D v/s MERC) has ruled for avoided power purchase cost as follows:

“(vii) The Commission felt that it cannot carry out the micro analysis to quantify the exact impact of such imprudent power purchase and avoidable power purchase cost and therefore disallowed 2/3rd of the cost of Rs. 6.35 crores on account of such avoidable power purchase done from costlier firm/Day Ahead contracts which amounts to Rs. 4.23 crores.

(viii) In truing up for FY 2010-11 also the State Commission has given similar findings and disallowed 2/3rd of the cost of Rs. 22.94 crores on account of avoidable power purchase done from costlier firm/DA contracts amounting to Rs. 15.29 crores.

70. We find that the State Commission has given detailed findings and computed

avoidable power purchase after analysis of the data furnished by the Appellant.

...Accordingly we do not find any reason to interfere with the findings of the State Commission in this regard."

3.259 Therefore, avoided Power Purchase Cost due to scheduling of Power without considering Merit Order Dispatch Principle by the Petitioner is Rs. 139.39 Crore which has been computed based on slot wise and plant wise energy details received from SLDC and considering the actual station wise average Variable rates for FY 2013-14. The said amount has not been considered in the Power Purchase Cost of FY 2013-14."

3.233 As discussed in Para-3.5.2 to 3.5.3 of the Petition, the basis for disallowance of Scheduling based on MOD is only based on a letter of the Petitioner to SLDC to back-down the power plants of Eastern Region and is not based on analysis of data. Further the Hon'ble Commission has relied on Hon'ble ATE's Judgment dated April 8, 2015 (R Infra-D vs MERC) which cannot be actually made applicable in case of Delhi DISCOMs as unlike Delhi DISCOMs, Mumbai DISCOMs do not have allocation from Central Generating Stations and do not face any difficulty in DISCOM-wise scheduling of energy. Accordingly the Petitioner has considered the power purchase cost disallowed on account of non-scheduling of power as per MOD along with the carrying cost as per the table given below:

Table 70: Impact on account power purchase cost disallowed due to MOD along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 14
1	Op. balance	0
2	Additions	139
3	Cl. Balance	139
4	Average	70
5	Rate of interest	15.01%
6	Carrying cost	10.46
7	Grand Cl. Balance	150

COMMISSION'S ANALYSIS

3.234 It is observed that the Petitioner has submitted the disallowance due to violation of merit order dispatch is only based on the letter from the Petitioner to SLDC to back down the power plant from eastern region. However, the Commission had provided a sample month

of November, 2013 in its Tariff Order dated 29/09/2015, where backing down from Dadri-I and Dadri-II etc. stations had not been proposed in violation of Merit Order Dispatch Principle and surplus power had been sold below the variable cost of these stations. Therefore, the Commission hereby directs the Petitioner to submit station-wise detailed analysis for reconsideration of disallowance of power purchase cost on account of Merit Order Dispatch Principle during FY 2013-14 with all the relevant documents to justify their claims, if any.

INCORRECT COMPUTATION OF SLD PETITIONER'S SUBMISSION

- 3.235 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has considered an additional amount of Rs. 41.35 Crore on account of revision in treatment of SLD as part of Non-Tariff Income by reopening the numbers of FY 2012-13, despite the fact that the truing up for FY 2012-13 was already completed in the Tariff Order dated July 23, 24 (Refer: Para 3.124-3.125 of Tariff Order dated September 29, 2015). It is to be noted that under the Electricity Act, 2003, this Commission is not empowered to re-open the truing up figures for FY 2012-13 by its suo motu review of the Tariff Order dated July 23, 2014. It is submitted that such an approach would vitiate the decision making process and is legally unsustainable. It is to be furthermore noted that once the true up is carried out, it is not any more open to this Commission to go back and re-open those figures. This is neither permissible in law nor is a desirable approach as it will result in regulatory uncertainty.
- 3.236 Further the Commission has again considered additional Non-Tariff Income of Rs. 43.37 Crores in FY 2013-14 while truing-up for FY 2013-14 (Refer: Para 3.373 of Tariff Order dated September 29, 2015).
- 3.237 Without pre-judice to the Appeal filed before Hon'ble ATE, the Petitioner would like to submit that the Hon'ble Commission has considered pending SLD Charges twice in Tariff Order dated September 29, 2015. The Hon'ble Commission has added pending SLD Charges at Para-3.124 (Rs. 41.35 Crore) during FY 2012-13 and Para-3.373 (Rs. 43.37 Crore) during FY 2013-14. The actual pending charges are tabulated as under:

Table 71: Excess SLD considered by the Commission (Rs. Cr.)

Sr. No.	Particulars	FY 11	FY 12	FY 13	FY 14	Total	Reference
1	SLD Charges rec'd	30.75	38.92	42.57	43.77	156.01	
2	Considered in FY 11	10.25				10.25	
3	Considered in FY 12	10.25	12.97			23.22	
4	Considered in FY 13	10.25	12.97	14.19		37.41	
5	Considered in FY 14		12.97	14.19	14.59	41.75	
6	Total already considered	30.75	38.92	28.38	14.59	112.64	(2+3+4+5)
7	Total remaining	0	0	14.19	29.18	43.37	
8	Remaining amount considered by the Commission			41.35	43.37	84.72	Table-3.32 (Row b) and Table-3.84 (RowD)
9	Extra amount considered by the Commission					41.35	

3.238 The Petitioner has submitted that the a perusal of the above clearly shows that pending SLD Charges amounts to Rs. 43.37 Crore. However, the Commission has considered Rs. 41.35 Crore as pending SLD Charges during FY 2012-13 and Rs. 43.37 Crore during FY 2013-14.

3.239 The extra amount considered by the Commission along with carrying cost is tabulated below:

Table 72: Impact on account of excess SLD along with carrying cost (Rs. Crore)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	44
2	Additions	41	
3	Cl. Balance	41	44
4	Average	21	44
5	Rate of interest	15.03%	15.01%
6	Carrying cost	3.11	6.67
7	Grand Cl. Balance	44	51

3.240 Without pre-judice to the contentions in the aforementioned Appeal, the Petitioner has prayed that the Commission may kindly consider the figures in the abovementioned table in the ARR.

COMMISSION'S ANALYSIS

3.241 It is observed from the audited financial statement for FY 2013-14 that total service line deposit received during the year was Rs. 43.77 Crore and Rs. 42.57 Crore for FY 2013-14 and FY 2012-13 respectively. Further, the amount transferred to Profit & Loss Account out of

total service line deposit received has been indicated as Rs. 41.75 Crore and Rs. 37.41 Crore for FY 2013-14 and FY 2012-13 respectively, which has been considered as part of Non-tariff income by the Petitioner. Therefore, the Commission has considered the difference of service line deposit received during the year and account transferred to Profit and Loss Account as part of Non-tariff income for FY 2012-13 and FY 2013-14.

- 3.242 Further, the amount remained unaccounted for the Period FY 2010-11 (1/3 Rs.10.25 Crore) and FY 2011-12 (2/3 Rs.25.95 Crore) has been added into Non-tariff income for FY 2012-13. The impact has been indicated in the table for past period true up with carrying cost.

OVERLAPPING BANKING TRANSACTIONS

PETITIONER'S SUBMISSION

- 3.243 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 deducted the power purchase cost on account of overlapping of banking transactions.
- 3.244 The Petitioner has submitted that the 'Banking of Power', also termed as 'Swapping of Power' is an arrangement between two parties, through which power is traded on barter system. Thus, a banking transaction is a non- monetary transaction where excess power available with a Licensee is traded for power at a subsequent date, without any net payment of money for the power to the other party with whom such an arrangement is entered into. However, it is not always possible to conclusively confirm the complementary demand and surplus profiles to facilitate banking of power.
- 3.245 The Petitioner vide its letter dated August 12, 2015 provided detailed justification to the Hon'ble Commission regarding reasons for overlapping banking transactions. The Petitioner also highlighted that the Commission vide letter dated January 31, 2013 itself directed the Petitioner to arrange for extra power to meet the demand stating that Delhi SLDC during 26th meeting of Coordination Forum on January 18, 2013, has projected a shortage in availability of power during summer months. However the said demand never materialise due to longest monsoon during FY 2013-14. As a result the Petitioner put all out efforts and arranged to sell this surplus power through banking (since banking transactions are revenue neutral) so as to protect the interest of consumers. However the Hon'ble Commission has not dealt with any of the reasons given by the Petitioner and without providing any details has disallowed the

cost on account of overlapping of banking transactions.

3.246 The Petitioner has further submitted that the Commission by disallowing power purchase cost on account of overlapping banking transactions has actually acted contrary to its own findings in Tariff Order dated July 23, 2014 which are as under:

“3.85... The Commission feels that the power banking contracts/transaction should be revenue neutral and no additional cost can be allowed against banking contracts/transactions...”

3.247 The Commission has ignored the fact that when the power banking transaction ought to be revenue neutral then the overlapping banking transaction shall have no adverse impact on the consumers.

3.248 The impact on account of the disallowance of power purchase cost due to overlapping banking transactions along with carrying cost is tabulated below:

Table 73: Impact on account of over-lapping banking transactions (Rs. Cr.)

Sr. No.	Particulars	FY 14
1	Op. balance	0
2	Additions	6
3	Cl. Balance	6
4	Average	3
5	Rate of interest	15.01%
6	Carrying cost	0.45
7	Grand Cl. Balance	6

3.249 The Petitioner has preferred an Appeal bearing No. [297 of 2015] under section 111 of the Act from the deduction of the purchase cost on account of overlapping of banking transactions made in the said tariff order dated September 29, 2015. Without pre-judice to the contentions in the Appeal, the Petitioner hereby prays before the Hon'ble Commission to consider the submissions made above and thereafter allow the impact of Rs. 6 Crore in the ARR.

COMMISSION'S ANALYSIS

3.250 The Commission had disallowed the transmission charges and trading margin on account of overlapping banking transactions in true up of power purchase cost in its tariff order dated

29/09/2015. The Petitioner has submitted its claim that that the power banking transactions ought to be revenue neutral and there should not be any disallowance on account of overlapping banking transactions. However, It is pertinent to state that the disallowance due to overlapping in banking transactions has no relation with the statement that power banking transactions has a revenue neutral transactions. The distribution licensee has to incur transmission charges and trading margin for each banking transactions over and above the cost of power purchase for the quantum of power which has been used for banking.

3.251 Further, the Petitioner has challenged this issue in Appeal No. 297/2015. Since the matter is sub-judice, therefore, the Commission reiterates its decision in tariff order dated 29/09/2015 and has not reconsidered this issue.

NON-TARIFF INCOME

a) WRITE-BACK OF MISCELLANEOUS PROVISIONS:

PETITIONER'S SUBMISSION

3.252 The Hon'ble Commission in Tariff Order dated September 29, 2015 reversed miscellaneous provisions for doubtful debts for the period FY 2007-08 to FY 2011-12 and stated as under:

"3.121 As per Regulation 5.23 of MYT Regulation 2007, the miscellaneous receipts from the consumers shall constitute non tariff income of the licensee. Write back of provision of doubtful debts related to recovery of debts forms part of miscellaneous receipts of the petitioner. The Commission is of the view that the target of AT&C loss has been fixed by considering the collection efficiency at 99.5% with a scope of 0.5% provisions for bad/doubtful debts. Therefore, any recovery on account of bad and doubtful debts shall constitute non tariff income of the licensee to the extent of 0.5% provision on debtors. Accordingly, the income on account of any such write back of provision for doubtful/bad debts is considered as Non tariff income."

3.253 As regards above, the Petitioner has submitted that "... collection efficiency of 99.5% with a scope of 0.5% provisions for bad/ doubtful debts...." is factually inaccurate. By virtue of the billing lag which is inherent in an annual tariff re-determination, even if the collection efficiency were assumed to be 100%, even then the actual collection would still be in the

range of 99% to 99.25%. This is illustrated in the table below:

Table 74: Collection efficiency after tariff hike at cent percent collection

Months	Amount billed	Amount collected	Collection efficiency	Cumulative collection efficiency
	Rs.	Rs.	F/E	Cum.
April	1000	1000	100%	100%
May	1000	1000	100%	100%
June	1000	1000	100%	100%
July	1000	1000	100%	100%
August	1080	1000	92.59%	98.43%
September	1080	1040	96.30%	98.05%
October	1080	1080	100%	98.34%
November	1080	1080	100%	98.56%
December	1080	1080	100%	98.72%
January	1080	1080	100%	98.85%
February	1080	1080	100%	98.96%
March	1080	1080	100%	99.05%
Total	12640	12520	99.05%	99.05%

3.254 Further, the Petitioner has submitted that Commission has excluded the provision for doubtful debts as appearing in the Audited Accounts of FY 2006-07 for the projection of A&G Expenses from FY 2007-08 to FY 2011-12 as per the table given below:

Table 75: Net A&G Expenses from FY 2007-08 to FY 2011-12 by the Commission (Rs. Cr.)

Sr. No.	Particulars	Amount
1	Total A&G Expenses	138.72
2	Provision for Doubtful debts	76.05
3	Loss on sale of assets	1.18
4	Bad debts written off	0.00
5	Add: Bank Charges	5.17
6	Net A&G Expenses considered for projection	66.65

3.255 The Petitioner has submitted that the Commission in its Tariff Order dated February 23, 2008 has considered A&G Expenses as per the aforesaid table for projection of A&G Expenses from FY 2007-08 to FY 2010-11.

3.256 The impact on account of write-back of miscellaneous provisions along with carrying cost is tabulated below:

Table 76: Impact on account of write-back of miscellaneous provisions along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	2	4	29	36	50	60

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
2	Additions	2	2	23	3	8	3	6
3	Cl. Balance	2	4	27	32	44	53	66
4	Average	1	3	15	30	40	51	63
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.13	0.38	2	4	6	8	10
7	Grand Cl. Balance	2	4	29	36	50	60	76

3.257 The Petitioner has preferred an Appeal bearing No. 297 of 2015 under Section-111 of the Act from the said tariff order dated September 29, 2015. Without pre-judice to the contentions in the Appeal, the Petitioner hereby prays before the Hon'ble Commission to consider the submissions made above and thereafter allow the impact of Rs. 76 Crore in the ARR.

COMMISSION'S ANALYSIS

3.258 The Petitioner has already made an appeal in this matter therefore, the Commission will take a decision on the Petitioner's request based on the judgement of Hon'ble APTEL in Appeal No. 297 of 2015 as this issue is sub-judice before Hon'ble APTEL.

b) DOUBLE ACCOUNTING OF INCOME RECOVERED ON ACCOUNT OF BAD DEBTS

PETITIONER'S SUBMISSION

3.259 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has stated that the Petitioner has not indicated separately category-wise details of the amount collected on account of bad debts recovered in Audited Accounts of FY 2013-14 and has considered the income on account of bad debts as Non-Tariff Income.

3.260 As regards the same, the Petitioner has submitted that the recognition of income recovered on account of bad debts is merely an accounting entry as the audited accounts are based on cost and income accrued, i.e., costs billed and revenue billed during the year. It is further submitted that the provision for bad debts is a part of A&G Expenses and the recognition of income on account of bad debts in other income is merely a contra accounting entry. Since income on account of bad debts is a part of revenue realised and the revenue realised is never considered in audited accounts, the income on account of bad debts is recognised in other income as contrary entry against Provisions on account of bad and doubtful debts

appearing in A&G Expenses. Further, the Hon'ble Commission recognises the revenue realised during the year which already includes income on account of bad debts. Now consideration of income on account of bad debts recovered as part of Non-Tariff income results in double accounting and is therefore, incorrect. The Petitioner has also discussed the said treatment in detail from Para-3.11.27 to 3.11.31. Accordingly the income recovered on account of bad debts is already included in revenue collected during respective years and ought to be allowed to the Petitioner along with the carrying cost as per the table given below:

Table 77: Impact on account of bad debts recovered along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	1	10	19
2	Additions	1	7	7	3
3	Cl. Balance	1	9	17	21
4	Average	1	5	13	20
5	Rate of interest	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.09	0.75	1.96	2.97
7	Grand Cl. Balance	1	10	19	24

3.261 The Petitioner has preferred an Appeal bearing No. 297 of 2015 under Section-111 of the Act from the said tariff order dated September 29, 2015. Without pre-judice to the contentions in the Appeal, the Petitioner hereby prays before the Hon'ble Commission to consider the submissions made above and thereafter allow the impact of Rs. 24 Crore in the ARR.

COMMISSION'S ANALYSIS

3.262 The Petitioner has submitted that any amount recovered as bad debts is an energy income which is required to be included in the amount collected during the year as the same is received against the amount billed in the previous years. The amount billed and collected in previous years has already been considered for the purpose of AT&C loss calculation during respective years. Therefore, the Income on account of bad debts recovered is allowed to be reduced from Non-tariff income of the relevant year.

INTEREST ON FUNDING OF CARRYING COST

PETITIONER'S SUBMISSION

3.263 The Petitioner has submitted that the Commission in its respective Tariff Orders has provided carrying cost on the outstanding balance of Regulatory Assets. However in actual scenario, the carrying cost was actually not being recovered during the year. The Commission vide its Tariff Order dated July 13, 2012 introduced 8% surcharge during FY 2012-13 towards recovery of Regulatory Assets. The surcharge was insufficient to recover even the entire carrying cost during FY 2012-13. As a result the Petitioner was not able to recover entire carrying cost till FY 2011-12 and only partial carrying cost during FY 2012-13.

3.264 In absence of any recovery, the Petitioner was required to fund even the carrying cost incurred from FY 2007-08 to FY 2012-13. Since the Petitioner was funding the carrying cost on its own, the same also attracts interest. Therefore carrying cost ought to have been allowed after grossing up. Accordingly the Petitioner is seeking interest on funding of carrying cost during respective years as under:

Table 78: Interest on carrying cost from FY 2007-08 to FY 2012-13 (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14	Reference
1	Op. balance	0	3	7	14	30	66	83	A
2	Additions	48	58	107	239	483	525	538	B
3	Recovery of CC						299	507	C
4	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%	D
5	Carrying cost	3	4	7	16	36	17	2	$E=(B-C)XD/2$
6	Grand Cl. Balance	3	7	14	30	66	83	85	$F= E_{08} \text{ to } E_{14}$

COMMISSION'S ANALYSIS

3.265 The Petitioner has not submitted the factors on which carrying cost should be allowed on grossing up, however, the Commission has specifically indicated in its tariff order that the carrying cost rate is being allowed on the basis of Hon'ble APTEL's direction by allowing ratio of debt equity as 70:30 and as per MYT Regulations, there is no provision of allowing the return on equity on post tax basis for the purpose of computation of carrying cost.

3.266 Further, the matter has already been decided against the one of the Delhi DISCOM (TPDDL) by Hon'ble APTEL in Appeal No. 271/2013 as follows:

" 16.3) That it is clear from Regulation 5.10 that rate of return on equity has been

specified by the Delhi Commission as 14% which has been given to the appellant on equity part of the carrying cost. Hence, there is no merit in this issue.

...

17.3) Regulation 5.9 deals with computation of Return on Capital Employed, prescribing a formula for such kind of computation. Regulation 5.10 provides for computation of Weighted Average Cost of Capital (WACC) for each year of the control period, clearly providing that “cost of equity for wheeling business shall be considered at 14% post tax.” Regulation 5.39 clearly states that the return from the wheeling business and retail supply business shall not exceed 16% of equity. Thus, there is a rider restricting that the return from the wheeling business and retail supply business shall not exceed 16% of the equity. Thus, the maximum limit is 16% which cannot be allowed to exceed under any circumstances. Appellant is claiming 16% of equity on the basis of 14% RoE + 2% supply margin. In view of the above discussion, we do not find any illegality or perversity in the finding recorded in the Impugned Order on this issue and we approve the approach adopted by the Delhi Commission in deciding this issue. We find and observe that the learned Delhi Commission has correctly, in the impugned tariff order, considered the rate of return on equity at 14% to which we also agree. Hence, this issue is decided against the appellant.”

3.267 Therefore, there is no need to revise the rate of carrying cost as submitted by the Petitioner.

DE-CAPITALISATION OF ASSETS

PETITIONER’S SUBMISSION

3.268 The Hon’ble Commission in its Tariff Order dated September 29, 2015 observed as under:

“3.325 The Commission has approved the methodology for de-capitalization (replacement/ retirement) of assets vide its letter dated 26.11.2014. TPDDL has filed a separate petition against the methodology provided by the Commission in the said letter vide petition No. 39 of 2015. The view on impact on account of loss on retirement of assets will be taken after final Order in Petition No. 39 of 2015 regarding methodology of de-capitalization of assets.”

3.269 As regards above, the Petitioner has submitted that the Commission in its previous Orders specified to formulate policy for retirement of assets in regard to the treatment of loss on account of retirement of assets as a part of A&G Expenses. However, the Commission in its letter dated November 26, 2014 simply specified the procedure to be followed by the Utilities in case of retirement of assets and did not specify anything in relation to the treatment of loss on account of retirement of assets.

3.270 The relevant extracts from Tariff Order dated June 9, 2004 are reproduced below:

*"3.4.2...As regards the claim of loss on retirement/sale of assets, the Petitioner has highlighted that such assets needs to be replaced. The Commission till date has not prescribed any guidelines for **treatment of loss on retirement/sale of assets** as this is the new issue, which has emerged in this ARR Petition. The Commission would like to clarify that **before allowing the loss due to retirement of assets prior to completion of useful life, a detailed examination regarding the justification for each and every asset item retired prior to useful life is essential to be carried out.** Considering the magnitude of assets that needs potential replacement and its future implications and time lag involved in detailed examination of each asset, the Commission would examine the matter separately after the issue of the Tariff Order. For the purpose of ARR computation, the Commission has not considered loss on retirement/sale of assets as an expense and the Commission based on its decision on the aspect after detailed examination will consider the impact during the truing up process."*
(Emphasis supplied)

3.271 Also the relevant extracts from Tariff Order dated July 7, 2005 are reproduced below:

"2.35.31 Policy on Retirement of Assets

*As regards the Policy on Retirement of Assets, the Commission in this Order has **directed the Petitioner to submit a separate Petition towards treatment of loss on retirement of assets covering various assets retired or proposed to be retired.** The Commission will process this Petition separately."* **(Emphasis added)**

3.272 In this regard, the Petitioner has submitted that the Petition for loss on retirement of assets was submitted on October 25, 2012. Pending adjudication of the petition, the Commission in

Tariff Order dated September 29, 2015 instead of allowing the loss incurred on retirement of assets, decided to reduce all capex associated costs on account of retirement of assets (which was neither subject matter of the Petition nor the methodology for loss on retirement of assets as per TO dt. July 7, 2005) based on the methodology specified in letter dated November 26, 2014. Further the Commission has considered the income received on account of sale of scrap of assets. Without pre-judice to the contentions raised in the Appeal, it is submitted that the amount on account of loss on retirement of assets ought to be allowed following the principle of natural justice.

3.273 The amount on loss on retirement of assets along with carrying cost is tabulated as under:

Table 79 : Amount due to retirement of assets (Rs. Cr.)

Sr. No.	Particulars	FY 05	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	0	7	10	14	22	26	33	66	76
2	Additions	-0.46	7	2	3	6	1	3	26		
3	Cl. Balance	0	7	9	13	20	23	30	59	66	76
4	Average	0	3	8	11	17	23	28	46	66	76
5	Rate of interest	9%	9%	9%	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	-0.02	0.28	0.71	1.54	2.37	2.99	3.74	6.89	9.93	11.40
7	Grand Cl. Balance	0	7	10	14	22	26	33	66	76	87

COMMISSION'S ANALYSIS

3.274 The Commission has already indicated in its true up for FY 2014-15 and FY 2015-16 that sale of scrap has no direct relationship with de-capitalisation of assets as per the accounting principles on which audited financial statements are prepared. Therefore, the Commission has not considered the Petitioner's request for reconsideration of its claim on account of amount due to de-capitalisation of assets based on income from sale of scrap has been considered Non-tariff income.

COST OF ENERGY FROM ANTA, AURAIYA AND DADRI GAS STATIONS PETITIONER'S SUBMISSION

3.275 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 decided to disallow cost incurred on account of Anta, Auraiya and Dadri Gas stations

stating that the Petitioner has not undertaken prior approval from the Commission.

3.276 As discussed in Para-3.5.3 of the Petition, the cost of energy from Anta, Auraiya and Dadri Gas incurred during FY 2012-13 and FY 2013-14 is legitimate as per the License conditions and ought to be allowed. The impact on account of the disallowance of cost from the energy purchased from Anta, Auraiya and Dadri Gas Stations during FY 2012-13 and FY 2013-14 along with carrying cost is tabulated below:

Table 80: Impact on account of disallowance of power purchase cost from Anta, Auraiya and Dadri Gas along with carrying cost (Rs. Cr)

Sr. No.	Particulars	FY 2012-13	FY 2013-14
1	Op. balance	0	64
2	Additions	59	60
3	Cl. Balance	59	124
4	Average	30	94
5	Rate of interest	15.03%	15.01%
6	Carrying cost	4	14
7	Grand Cl. Balance	64	138

3.277 The Petitioner has preferred an Appeal bearing No. 297 of 2015 under Section-111 of the Act from the said tariff order dated September 29, 2015. Without pre-judice to the contentions in the Appeal, the Petitioner hereby prays before the Commission to consider the submissions made above and thereafter allow the impact of Rs. 138 Crore in the ARR.

COMMISSION'S ANALYSIS

3.278 The Petitioner has already preferred an appeal on disallowance of power purchase cost from Anta, Auraiya and Dadri gas stations against the Commission's order for PPAC dated 12/06/2015 before the Hon'ble APTEL. The Hon'ble APTEL vide its order dated 01/06/2016 in Appeal No. 186 of 2015 & IA No. 318 of 2015 and Appeal No. 196 of 2015 & IA No. 335 of 2015 has upheld the Commission's methodology for disallowance of the power purchase cost from Anta, Auraiya and Dadri gas stations as per the treatment in its tariff order dated 29/09/2015. Therefore, the matter does not merit reconsideration.

NORMATIVE REBATE

PETITIONER'S SUBMISSION

3.279 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has relied on Regulation-5.24 of DERC MYT Regulations, 2011. However the Commission has ignored Clause-4.21 of DERC Tariff Regulations, 2011 and Hon'ble ATE's observation in Judgment dated March 2, 2015 (Appeal 177 of 2012) and July 30, 2010 (153 of 2009). The same has already been discussed in detail at Para-3.6.2 of the Petition.

3.280 Further the Hon'ble ATE in another Judgment dated May 18, 2015 (Appeal 180 of 2013) has ruled as under:

"4. The first issue is inclusion of entire rebate in non-tariff income:

...

7. We find that the Regulations for working capital are different in Delhi and Uttarakhand. As per the Tariff Regulation, 2004 of Uttarakhand receivables for sale of electricity for a period equivalent to billing cycle plus 1 month suitably adjusted for security given by consumers and credit given by suppliers and estimated spares cost for a period approved as minimum inventory in R&M expenses. The billing cycle in Uttarakhand for domestic consumers is two months and other consumers one month. Thus, for domestic consumers Uttarakhand allows three months receivables in working capital. Delhi's Tariff Regulations allow only two months revenue from sale of electricity and do not allow estimated cost of spares. Further, in Delhi Commission's Regulations Power Purchase Cost for one month is deducted in computing working capital which is not so in Uttarakhand Regulations. Therefore, finding of this Tribunal in Appeal no. 153 of 2009 based on Delhi's Tariff Regulations will not be applicable to the present case." (Emphasis added)

3.281 As evident from above, the Hon'ble ATE has clearly specified the reason as to why only 1% rebate ought to be considered in case of Delhi DISCOMs.

3.282 The impact on account of disallowance due to the difference between the normative and actual rebate during FY 2012-13 and FY 2013-14 is tabulated below:

Table 81: Impact due to difference between normative and actual rebate (Rs. Crore)

Sr. No.	Particulars	FY 13	FY 14
1	Normative rebate	118	122

Sr. No.	Particulars	FY 13	FY 14
2	Actual rebate	42	41
3	Difference	76	81

3.283 The aforesaid impact along with carrying cost upto FY 2013-14 is tabulated below:

Table 82: Impact on account of rebate along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	82
2	Additions	76	81
3	Cl. Balance	76	162
4	Average	38	122
5	Rate of interest	15.03%	15.01%
6	Carrying cost	5.71	18.32
7	Grand Cl. Balance	82	181

3.284 The Petitioner has preferred an Appeal bearing No. 297 of 2015 under Section-111 of the Act from the said tariff order dated September 29, 2015. Without pre-judice to the contentions in the Appeal, the Petitioner hereby prays before the Hon'ble Commission to consider the submissions made above and thereafter allow the impact of Rs. 181 Crore in the ARR.

COMMISSION'S ANALYSIS

3.285 The issue of normative rebate is related to MYT Regulations, 2011 in which the power purchase cost has to be considered on the basis of maximum normative rebate on power purchase cost and transmission charges of the distribution licensee. One of the distribution licensee has challenged this issue before the Hon'ble High Court of Delhi in Writ Petition No.2203 of 2012. The Hon'ble High Court of Delhi has upheld the provision of MYT Regulations, 2011 regarding consideration of maximum normative rebate on power purchase cost and transmission charges for allowing power purchase cost to the distribution licensee. Therefore, the matter does not merit reconsideration.

DISALLOWANCE OF R&M EXPENSES FROM FY 2007-08 TO FY 2011-12

PETITIONER'S SUBMISSION

3.286 The Hon'ble Commission in its Tariff Order dated September 29, 2015 ruled as under:

“3.148 With revision in the Gross Fixed Asset based on de-capitalisation from FY 2004-05 to FY 2012-13 the R&M Expenses as per the formula specified in MYT Regulations, 2007 is as follows:

Table 3.40: Revised R&M Expenses from FY 2007-08 to FY 2011-12 (Rs. Crore)

Sl. No.	Particulars	FY 2007-08	FY 2008-09	FY 2009-10	FY 2010-11	FY 2011-12	Remarks
A	Opening GFA	2,012	2,209	2,881	3,181	3,464	Table 3.34
B	k factor	3.55%	3.55%	3.55%	3.55%	3.55%	MYT ORDER
C	R&M Expenses	71.44	78.42	102.28	112.93	122.97	(A*B) „

3.287 The Petitioner has submitted that the treatment provided by the Commission is contrary to Clause-4.16 (b) of DERC Tariff Regulations, 2007 which states as under:

“4.16 The true up across various controllable and uncontrollable parameters shall be conducted as per principle stated below:

...

(b) For controllable parameters,

(i) Any surplus or deficit on account of O&M expenses shall be to the account of the Licensee and shall not be trued up in ARR; and

...”

3.288 It is further submitted that the Hon’ble Commission in Tariff Order dated February 23, 2008 has stated that the R&M Expenses shall not be trued-up despite of change in GFA. The relevant extracts are as under:

*“4.151 Any variations on account of R&M expenses shall not be trued up and any surplus or deficit on account of over or under achievement shall be to the account of the Petitioner. **The Commission clarifies that though the value of GFA is subjected to truing up at the end of the Control Period, the Commission, however, shall not true-up R&M expenses as a consequence of the same.(Emphasis added).***

3.289 As evident from above, the Hon’ble Commission clearly specified that in any case R&M Expenses will not be subject to truing-up. However the Hon’ble Commission has itself acted contrary to the principle set in Tariff Order dated February 23, 2008 and revised R&M Expenses based on GFA at the stage of truing-up.

3.290 The Petitioner has further submitted that the Commission in its Tariff Order dated September 29, 2015 revised the R&M Expenses for the second time based on revision in GFA The Commission in Tariff Order dated July 31, 2013 has already revised the R&M Expenses from FY 2007-08 to FY 2011-12 based on the provisionally approved capitalisation pending physical verification of assets.

3.291 It is further submitted that the Petitioner in the Petition submitted on December 18, 2015 highlighted the contrary treatment given in Tariff Order dated July 31, 2013. However the Commission in Tariff Order dated September 29, 2015 without providing any reason for the deviation from Tariff Order dated February 23, 2008 again revised the R&M Expenses from FY 2007-08 to FY 2011-12.

3.292 The difference between the R&M Expenses approved in Tariff Order dated September 29, 2015 and February 23, 2008 is tabulated below:

Table 83: R&M Expenses from FY 2007-08 to FY 2011-12 (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12
1	R&M Allowed	72	91	110	130	146
2	R&M Actual	71	78	102	113	123
3	Difference	1	12	8	17	23

Table 84: Claim on account of R&M Expenses from FY 2007-08 to FY 2011-12 along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	1	14	24	45	76	88
2	Additions	1	12	8	17	23	0	0
3	Cl. Balance	1	13	22	41	68	76	88
4	Average	0	7	18	32	56	76	88
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.04	0.95	2	4	8	11	13
7	Grand Cl. Balance	1	14	24	45	76	88	101

3.293 The Petitioner has requested the Commission to allow the impact on account of the same in the ARR.

COMMISSION'S ANALYSIS

3.294 The Hon'ble APTEL has already upheld the methodology adopted by the Commission in this DELHI ELECTRICITY REGULATORY COMMISSION

matter in Appeal No. 271 of 2013 as follows :

“23.3

.....

In this view of the matter, we find no merit in the contentions of the appellant and this issue relating to revised R&M based on revised GFA is decided against the appellant.”

3.295 In view of the above, it is observed that this matter does not merit consideration.

EMPLOYEE AND A&G EXPENSES FROM FY 2012-13 TO FY 2013-14

PETITIONER’S SUBMISSION

3.296 The Hon’ble ATE in Judgment dated February 10, 2015 (Appeal 171 of 2012) set aside the methodology of benchmarking adopted for Employee and A&G Expenses by the Hon’ble Commission in Tariff Order dated July 13, 2012 and directed to re-determine the same by factoring in:

- a) Cost per unit of sales and Cost per employee instead of percentage increase;
- b) Comparison of overall O&M Expenses per consumer or per unit of sales instead of individual heads;
- c) Performance of distribution licensees in terms of system availability/ reliability of supply.

3.297 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has re-determined the Employee and A&G Expenses from FY 2012-13 to FY 2013-14 in accordance with the directions of Hon’ble ATE in Judgment dated February 10, 2015 (Appeal 171 of 2012).

3.298 As discussed in Para-3.9.2 to 3.9.14, the Hon’ble Commission has determined the norm for employee expenses based on net employee expenses of FY 2011-12 and FY 2007-08 appearing in the Audited Accounts, i.e., Gross Employee Expenses less Employee Expenses capitalized during respective year. The Commission has applied an escalation factor of 8% on y-o-y basis on normative employee expenses for FY 2011-12 which is already net of employee expenses capitalized during the year. However the Commission has again deducted 10% capitalisation as employee expenses capitalized from the so determined employee expenses from FY 2012-13 to FY 2014-15 (Arrived at after applying escalation factor of 8% on

normative employee expenses of FY 2011-12).

3.299 Accordingly the employee expenses from FY 2012-13 to FY 2013-14 is tabulated as under:

Table 85: Employee expenses from FY 2012-13 to FY 2013-14 (Rs. Crore)

Sr. No.	Particulars	FY 2012-13		FY 2013-14	
		Tariff Order	Petition	Tariff Order	Petition
1	Employee Expenses	270	300	292	324

3.300 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has considered the minimum of actual expenses during FY 2011-12 and norm derived for FY 2011-12 by escalating the actual expenses during FY 2007-08. It is further submitted that the Hon'ble Commission has considered the norm in case of employee expenses for the Petitioner as the norm is lower than the actual employee expenses incurred during FY 2011-12.

3.301 The aforesaid treatment is completely contrary to the following:

- Regulation 4.21 (b) (i) which clearly mandate that any surplus or deficiency on account of Operation and Maintenance (O&M) expenses shall be to the account of the licensee and shall not be trued up in the ARR
- Observations of Hon'ble ATE in Judgment dated November 28, 2013 (Appeal 14 of 2012)
- Clause-5.11 (f) of Tariff Policy, 2015

3.302 Accordingly the A&G expenses from FY 2012-13 to FY 2013-14 is tabulated as under:

Table 86: A&G Expenses from FY 2011-12 to FY 2013-14 (Rs. Crore)

Sr. No.	Particulars	FY 2011-12		FY 2012-13		FY 2013-14	
		Tariff Order	Petition	Tariff Order	Petition	Tariff Order	Petition
1	A&G Expenses	86.38	93.26	93	101	101	109

3.303 The difference on account of employee and A&G Expenses from FY 2012-13 to FY 2013-14 along with carrying cost is tabulated below:

Table 87: Impact on account of employee and A&G Expenses (Rs. Cr.)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	40
2	Additions	37	40
3	Cl. Balance	37	81

Sr. No.	Particulars	FY 13	FY 14
4	Average	19	61
5	Rate of interest	15.03%	15.01%
6	Carrying cost	3	9
7	Grand Cl. Balance	40	90

3.304 Without pre-judice to the Appeal, the Petitioner has requested the Commission to allow the aforesaid impact in the ARR.

COMMISSION'S ANALYSIS

3.305 The Commission has given the detailed reasoning and the factors which have been considered for determination of O&M expenses in Tariff Order dated 29/09/2015 and the same has challenged by the Petitioner in Appeal No. 297/2015 before Hon'ble APTEL and is sub judice. Therefore a view in the matter will be taken, as deemed fit and appropriate, after receipt of the direction of the Hon'ble APTEL in the said Appeal.

3.306 Further, the Commission in its reply in Appeal No. 297/2015 before Hon'ble APTEL had indicated that the Commission will consider this issue to the extent of double deduction on account of capitalization of employee expenses, if any. However, it is observed that there is no double deduction on account of capitalization of employee expenses while approving the Employee Cost for base year of FY 2011-12.

FIXED CHARGES AGAINST REGULATED POWER PETITIONER'S SUBMISSION

3.307 The Hon'ble Commission in its Tariff Order dated September 29, 2015 directed the Petitioner as under:

"Impact on account of Regulated Power for FY 2012-13

...

3.115 The Commission has received the claims regarding disallowance on account of regulated power in truing-up of FY 2012-13 in tariff order dated 23.07.2014. In order to finalise the claim of the Petitioner, the Commission has directed SLDC to submit the relevant information like quantum of Short Term Purchase during regulated period in

*case there has been no regulation of power. **The said information is awaited from SLDC. The Commission will take the final view on the basis of information submitted by SLDC.***

...

3.262 Accordingly, the Commission vide its letter dated 18.03.2015 directed SLDC to submit various details pertaining to regulation of power viz. period of regulation, quantum of regulated power and short term procurement during regulated period.

SLDC vide its letter dated 21.04.2015 has submitted 99.31 MU of regulated quantum and 40.49 MU of short term purchase during the regulated period i.e., during 01.04.2013 to 14.04.2013.

3.263 The Commission has considered the weighted average per unit rate of Rs. 2.70 based on bill details of TPDDL pertaining to the period of regulation for regulated stations. The Petitioner vide its letter dated 10.04.2015 has submitted the slot wise details of quantum of power purchased from short term sources during the regulation period and furnished that 14 MU of short term power procurement would have been avoided without regulation of power.

3.264 The Commission has derived additional expenditure incurred for procurement of 14 MU by considering the average power purchase cost from various sources from which power was purchased during the period of regulation. The weighted average per unit cost of power procured during the period of Regulation has been derived as Rs. 3.32/kWh for 40.49 MU which were procured by the Petitioner through short term power purchase. The Commission has considered the weighted average cost of long term power procurement at Rs. 2.70/kWh in case the Petitioner's power was not regulated from these stations. The Commission decides to disallow this differential amount of power procurement for 14 MU @ Rs. 0.62/kWh (3.32-2.70) i.e., Rs. 0.87 Crore incurred in the power purchase cost for FY 2013-14.

3.265 As discussed above, the additional fixed cost amounting to Rs. 11.77 Crore was borne by the Petitioner. The Commission has already given the treatment to 14.00 MU out of 99.31 MU which the Petitioner would have received had his power not

been regulated. The Commission, therefore, decides to disallow the prorated fixed cost against 85.31 (99.31-14.00) MU which works out to Rs. 10.11 Crore (85.31(11.77/99.31))." (Emphasis added)*

3.308 As regards above, the Petitioner would like to submit that the Hon'ble Commission in Tariff Order dated July 23, 2014 stated as under:

"3.88... Further, the Petitioner may submit within one month, claim if any along with relevant documents, related to loss on sale of surplus power during the off-peak hours from regulated stations that would have been otherwise imminent in case the power was not regulated.

...

3.91 Accordingly, the Commission obtained from SLDC the details of power drawn from other sources during regulation period and also the stations from which power regulation was done along with the quantum of power that would have been available if there was no regulation." (Emphasis added)

3.309 As evident from above, the Commission in Tariff Order dated July 23, 2014 already obtained the information pertaining to Regulation of power during FY 2012-13 from SLDC and directed the Petitioner to submit the cost-benefit analysis. Accordingly the Petitioner within one month vide letter dated August 25, 2014 submitted its claim along with relevant documents, related to loss on sale of surplus power during the off-peak hours from regulated stations that would have been otherwise imminent in case the power was not regulated. A meeting was also convened by the Commission staff on November 20, 2014, wherein the savings on account of regulation of energy from long term sources was demonstrated. However the Hon'ble Commission has now stated that information from SLDC is awaited (which was actually the basis for disallowance of cost on account of regulation of power in Tariff Order dated July 23, 2014). It is noteworthy to mention that the Hon'ble Commission has considered the credit received during FY 2013-14 on account of power regulated during FY 2012-13 and passed on the benefit to the consumers. However the cost borne on account of the same is yet to be recovered.

3.310 Further the Petitioner vide letter dated April 10, 2015 also submitted the cost-benefit

analysis on account of regulation of power during FY 2013-14. However the Hon'ble Commission has not considered the submission of the Petitioner and disallowed the cost incurred during regulation of power during FY 2013-14 based on the submissions of SLDC for FY 2013-14 unilaterally.

3.311 Due to the regulation of power, the surplus power which otherwise would have been sold at lower rate during off-peak period never materialized. However, the Petitioner was also required to purchase additional short term power to cater the peak demand for a few hours in a day. It is submitted that during regulation of power the Petitioner was able to avoid purchase of 671 MU during off-peak hours whereas the Petitioner was required to purchase additional 165 MU though short term power during peak hours. As a result, the regulation of power actually contributed in net savings to the consumers due to the reduction in power purchase cost. The same is tabulated as under:

Table 88: Reduction in Power Purchase Cost on account of Regulation of Power for FY13

Particulars	Quantum	Avg. per unit rate	Amount
	MU	Rs./ kWh	Rs. Cr.
Actual Power Purchase cost during FY 13 (A)	11233	5.2	5843
Regulated Power during FY 2012-13	671	2.39	160
Short term power purchase to make up for Regulated power when demand exceeds schedule (FY 2012-13)	165	3.24	53
Power Purchase Cost assuming no regulation of power in FY 2012-13 (B)	11739	5.07	5950
Net savings to consumers due to reduction in power purchase cost			107

3.312 Similarly during regulation of power during FY 2013-14, the Petitioner was able to avoid purchase of 99 MU during off-peak hours whereas the Petitioner was required to purchase additional 14 MU though short term power during peak hours. As a result, the regulation of power actually contributed in net savings to the consumers due to the reduction in power purchase cost. The same is tabulated as under:

Table 89: Reduction in Power Purchase Cost on account of Regulation of Power during FY14

Particulars	Quantum	Avg. per unit rate	Amount
	MU	Rs./ kWh	Rs. Cr.

Particulars	Quantum	Avg. per unit rate	Amount
	MU	Rs./ kWh	Rs. Cr.
Actual Power Purchase cost during FY 14 (A)	11509	5.36	6174
Regulated Power during FY 2013-14	99	2.39	24
Short term power purchase to make up for Regulated power when demand exceeds schedule (FY 2013-14)	14	2.23	3
Power Purchase Cost assuming no regulation of power in FY 2013-14 (B)	11594	5.34	6194
Avoided cost consumer due to reduction in power purchase cost			21

3.313 Without pre-judice to the Appeal, the Petitioner has requested the Commission to consider the above submissions and allow the cost incurred on account of Regulated Power from FY 2011-12 to FY 2013-14 along with carrying cost as tabulated below:

Table 90: Amount pertaining to Regulated Power from FY 2011-12 to FY 2013-14 (Rs. Cr.)

Sr. No.	Particulars	FY 12	FY 13	FY 14
1	Opening balance	0	23	173
2	Disallowance pertaining to Regulated Power	21	137	11
3	Closing Balance	21	160	184
4	Average	11	91	179
5	Rate of carrying cost	14.88%	15.03%	15.01%
6	Carrying cost	2	14	27
7	Total closing balance	23	173	211

COMMISSION'S ANALYSIS

3.314 The Commission has analyzed the submission of the Petitioner and it is observed that the Petitioner has not factored the merit order principle while computing the opportunity cost and benefit due to regulation of power vis-a-vis sale of surplus power. It is clarified that in case the power would not have been regulated from these cheaper station of NHPC then the Petitioner had the opportunity to back down its costly station and avail the cheaper power from NHPC, which could have reduced the loss on sale of surplus power as considered by the Petitioner. Therefore, the claim of the Petitioner is not tenable.

BANK CHARGES/ SYNDICATION FEES

PETITIONER'S SUBMISSION

3.315 The Hon'ble Commission in its Tariff Order dated September 29, 2015 ruled as under:

As per Regulation 5.6 of the MYT Regulations, 2011,

“Return on Capital Employed (RoCE) shall be used to provide a return to the Distribution Licensee, and shall cover all financing costs, without providing separate allowances for interest on loans and interest on working capital”.

As per Accounting standard (AS 16 - Borrowing Costs) issued by Institute of Chartered Accountants of India and notified by Companies amendment Act 1999,

“6. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalized as part of the cost of that asset. The amount of borrowing costs eligible for capitalisation should be determined in accordance with this Statement. Other borrowing costs should be recognised as an expense in the period in which they are incurred.”

Conjoint reading of all the three extracts above, the Commission is of the view that the borrowing costs directly related to the capital assets shall be added to the cost of such capital assets.

The information provided by the Petitioner does not distinguish the borrowing costs on capital expenditure loans and other loans. The Commission is of the view that only the borrowing cost will be considered at the time of final true up of capitalization. Accordingly, the Commission has not considered the syndication and documentation charges claimed by the Petitioner.”

3.316 Borrowing costs pertaining to capex Loans is not capitalized with Assets: The borrowing costs which are capitalized during the year are not directly attributable to specific assets/ capital expenditure incurred during the year. In fact the funds are borrowed generally for capex purposes and related borrowing costs are capitalized as per the requirements of Clause-12 of AS-16 which states as under:

“12. To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation should be determined by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate should be the weighted average of the borrowing costs

applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalised during a period should not exceed the amount of borrowing costs incurred during that period."

3.317 However the borrowing costs/ syndication fees are not being capitalized and are charged to Profit and Loss Account as finance costs. The practice adopted by the Petitioner regarding borrowing costs, i.e., syndication fees and finance charges etc. is in line with that followed by DISCOMs operating in other states.

3.318 Borrowing costs pertaining to non-capex Loans are directly linked to Regulatory Assets:

In absence of any amortization plan of Regulatory Assets, the Petitioner is required to fund the entire Regulatory Assets on its own. The Petitioner is funding a large portion of these Regulatory Assets through debt for which the Petitioner is required to bear syndication and documentation fees. It is noteworthy to mention that the finance charges have been borne mainly on account of IDBI Loan of Rs. 5000 Crore which was borrowed in absence of amortization of Regulatory Assets so as to clear the dues to the Gencos during FY 2011-12 and FY 2012-13. The Petitioner also informed the same to the Hon'ble Commission vide letter dated December 16, 2011 and November 1, 2012. The Petitioner also submitted the loan agreement before the Hon'ble Commission. Also the Hon'ble Commission vide its letter dated December 16, 2011 has assured the lender to amortize the Regulatory Assets completely by the end of Second Control Period.

3.319 It is further submitted that the energy distribution Sector is operating on cost plus regime. Any costs on account of Regulatory Assets ought to be allowed to the Petitioner otherwise the Petitioner will be penalized without any fault its own.

3.320 Borrowing cost have not been included in A&G Expenses:

The Hon'ble Commission itself has stated that Appendix 2 – Cost Allocation, Clause 3 (b) states as under:

"A&G Cost: A&G expenses related to power purchase, metering, billing and collection, financing expenses on loan related to Retail Supply business shall be allocated to Retail Supply business. Office expenses like telephone, stationery, electricity, lease

rent etc shall be apportioned between Wheeling and Retail Supply business on the basis of predominant usage concept.”

3.321 The Hon’ble Commission has not included financing charges as a part of A&G Expenses while approving A&G Expenses from FY 2012-13 to FY 2014-15 in Tariff Order dated July 13, 2012. The financing charges appear in a separate schedule and are not merged with the A&G Expenses in the Audited Accounts of the Petitioner. The comparison of A&G Expenses from FY 2006-07 to FY 2010-11 as considered by the Hon’ble Commission and that appearing in the Audited Accounts is tabulated below:

Table 91: A&G Expenses considered from FY 07 to FY 11 (Rs. Cr.)

Sr. No.	Particulars	Reference	FY 07	FY 08	FY 09	FY 10	FY 11
1	A&G Expenses considered by the Commission	Table-93, Page-140 of TO dt. July 13, 2012	137	158	108	145	110
	Less: Provisions		77	94	43	95	35
	Add: Lease Rentals		2	2	2	2	2
	Net A&G Expenses considered by Commission for benchmarking		61	65	67	52	76
2	A&G Expenses as per Audited Accounts	Respective Audited Accounts	139	159	113	147	110
3	Financing charges as per Audited Accounts[#]	Respective Audited Accounts	5	2	3	7	16

[#] not included in Sr. No. 2 and appearing in separate schedule of Audited Accounts

3.322 As evident from above, the Hon’ble Commission has not considered the financing charges while benchmarking A&G Expenses. Therefore, the financing charges have not been included in A&G Expenses from FY 2012-13 to FY 2014-15 and are required to be allowed separately.

3.323 Accordingly the Petitioner is claiming syndication fees/ borrowing cost incurred during previous year as under:

Table 92: Impact on account of syndication fees/ borrowing cost along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	2	6	14	33	60	109
2	Additions	2	3	7	16	21	37	36
3	Cl. Balance	2	5	13	30	54	97	145
4	Average	1	4	9	22	43	79	127
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	0.14	0.50	1.20	2.92	6.44	11.83	19.06
7	Grand Cl. Balance	2	6	14	33	60	109	164

COMMISSION'S ANALYSIS

3.324 The Commission had already clarified this issue in its tariff order dated 29/09/2015 that the borrowing cost including syndication & documentation charges for availing the loan will be considered at the time of final true up of capitalization. Further, the matter is sub-judice before Hon'ble APTEL in Appeal No. 297/2015 against the Commission's decision in Tariff Order dtd. 29/09/2015. Therefore, the matter does not merit consideration at this point of time.

**INCOME FROM OTHER BUSINESS-STREET LIGHT MAINTENANCE CHARGES:
PETITIONER'S SUBMISSION**

3.325 Apart from distribution licensed business, the Petitioner is also generating revenue from other business. These other business are being operated parallel by the Petitioner.

3.326 Section 51 of the 2003 Act entitles the Distribution Licensee such as the Petitioner to engage in any other business for optimum utilization of its assets. Section 51 also requires that a certain proportion of "the revenues" derived from such business be utilized for reducing the wheeling charges. Section 51 is an enabling provision contained in the legislation with some purpose. Disallowance of the legitimate expenses relating to other business would lead to discouraging the distribution licensee such as the Petitioner from generating income from other business, which is otherwise undertaken considering the interest of consumers at large and optimum utilization of assets of distribution business. The Petitioner has engaged in the following businesses which are within the scope of Section 51 of the 2003 Act and has hereinafter provided reasons for this Hon'ble Commission to consider: (1) The Income by deducting the expenditure from the Revenue; and (2) Reworking of the proportion of the Revenues to be retained by the Petitioner in excess of the 20% which was stipulated in the 2005 Regulations as "a general principle" and entitling the Petitioner to "approach the Commission for change of the aforesaid sharing formula with proper justification, for approval of the Commission".

3.327 The Hon'ble Commission in Tariff Order dated September 29, 2015 ruled as under:

“3.339 The Commission in its Tariff Order dated 23.07.2014 has clarified that income from street light maintenance is part of other income of regulated business. Further, the Petitioner has not substantiated that whether any incentive is included in revenue of street light maintenance which should not be considered a pass through in the calculation of ARR as per above Order. The Petitioner shall be allowed incentive, if any, on account of street light maintenance for FY 2013-14 on production of documentary evidence without any carrying cost.”

3.328 As regards above, the Petitioner has submitted that the responsibility of maintaining street light is not contained in the License of the Petitioner. Electricity Act 2003 does not mandate the Distribution Licensee to maintain Street Lights. Further as per Section-42 of Delhi Municipal Corporation Act, 1957, it is the responsibility of MCD to maintain Street lighting system which is reproduced below:

“42. Obligatory functions of the Corporation

....

(o) the lighting, watering and cleansing of public streets and other public places;

...

(w) the maintenance and development of the value of all properties vested in or entrusted to the management of the Corporation;”

3.329 With the unbundling and restructuring of Delhi Vidyut Board (DVB) into corporate entities and privatisation of Distribution Business, the past legacy of maintenance of public lighting was passed on to the Petitioner as matter of course, though as distribution licensee the maintenance of public lighting was not their function. In fact the Petitioner vide letter dated March 24, 2004 intimated the Hon’ble Commission that maintenance of street lighting is the responsibility of MCD under DMC Act and not the Petitioner. Also the Hon’ble Commission in Order dated September 3, 2003 ruled as under:

“10. Having heard the submission of the parties, the Commission observed that it was the prerogative of the MCD, either to get the work done themselves or through the DISCOMs, in the latter alternative, scope of works, as also the commercial terms and conditions, shall need to be proposed by MCD. Thereafter, the Commission shall

determine the maintenance charges, etc. after having considered the responses of the DISCOMs.”

- 3.330 Therefore it is clear that maintenance of street lighting is an activity assigned to the Petitioner by MCD under DMC Act and does not fall under Regulated Business.
- 3.331 However there was a dispute between the Delhi DISCOMs and MCD on scope of work of the activities and charges at which is the maintenance is to be undertaken by Delhi DISCOMs. During FY 2003-04 The Hon’ble Commission received number of complaints on the poor conditions of street light prevailing in respect of Public Lighting in Delhi. Consequently in order to settle the matter, the Hon’ble Commission vide letter dated October 15, 2003, identified the scope of works as maintenance of existing streetlights, addition of new streetlights, installing of high mast lights, transformers, etc. Further the Hon’ble Commission vide Order dated March 5, 2004 determined the rates for maintenance of street lights. These rates were further amended by the Order issued by the Hon’ble Commission on September 24, 2009.
- 3.332 The Petitioner has further submitted that the determination of rates and scope of work by the Commission does not mean that maintenance of streetlights fall under Licensed Activity and is a part of regulated business. The scope of work and determination of rates by the Hon’ble Commission has only helped MCD and the Petitioner to reach a consensus to avoid dispute.
- 3.333 Therefore, the Petitioner is maintaining Street Lights not as an obligation under Licensed Business but on behalf of road owning agencies, viz. MCD, NHAI, PWD in the areas comprising South and West Delhi.
- 3.334 For carrying out the maintenance services the Petitioner optimally engages its existing manpower, Technicians, Electricians, Electric Men, Line Engineers and also outsources further manpower.
- 3.335 It is further submitted that the Petitioner vide letter dated April 8, 2015 submitted the details of incentive along with sample joint inspection report. However the letter dated April 8, 2015 has not been considered by the Hon’ble Commission as evident from Table-1.1, i.e, List of correspondences with the Petitioner of Tariff Order dated September 29, 2015.

3.336 The income from street light maintenance business along with carrying cost is tabulated below:

Table 93: Impact on income from SLM Business along with carrying cost (Rs. Cr.)

Sr. No.	Particulars	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
1	Op. balance	0	16	21	48	80	122	168
2	Additions	15	3	22	24	28	26	26
3	Cl. Balance	15	19	44	72	108	148	194
4	Average	7	17	32	60	94	135	181
5	Rate of interest	13.68%	13.75%	13.11%	13.38%	14.88%	15.03%	15.01%
6	Carrying cost	1.01	2.38	4.24	8.01	13.97	20.26	27.16
7	Grand Cl. Balance	16	21	48	80	122	168	221

3.337 Without pre-judice the Petitioner has requested the Commission to allow the aforesaid along with carrying cost.

COMMISSION'S ANALYSIS

3.338 The Commission has already clarified this issue in true up of FY 2014-15 and FY 2015-16 that there is no mention of incentive on street light maintenance in the notes of the audited financial statement. Therefore, the Commission has not considered incentive on street light maintenance in the ARR of the relevant year.

FINANCING COST OF LPSC DURING FY 2013-14

PETITIONER'S SUBMISSION

3.339 As regards LPSC, the Petitioner has submitted that the Petitioner levied LPSC @ 1.5% per month on flat basis till FY 2012-13. The Commission was therefore allowing only financing cost of LPSC to the Petitioner by computing the principal amount (LPSC divided by 18% (12 x 1.5%) and allowing carrying cost on the principal amount. The difference between the amount of LPSC and the principal amount was passed on the consumers by way of NTI.

3.340 Based on the representation of Foundation of Rubber & Polymer Manufacturers, the Commission vide letter dated December 13, 2012 communicated that LPSC should be charged proportional to the number of days of delay in receiving payment from the consumers by the Petitioner. The Commission in Tariff Order dated July 31, 2013 again directed the Petitioner to charge LPSC proportionate to the number of days of delay in

receiving the payment from the consumers of the DISCOMs.

- 3.341 The Petitioner in its Petition for Truing-up of FY 2013-14, Review of FY 2014-15 and ARR and Tariff for FY 2015-16 requested the Commission to allow the entire LPSC instead of financing cost of LPSC as during FY 2013-14, the Petitioner charged LPSC proportionate to the number of days of delay and not on flat basis. The methodology of charging LPSC proportionate to the number of days of delay leads to recovery of only financing cost of LPSC for the delay in payment and not on flat basis. However the Hon'ble Commission without referring to its' direction for change in charging of LPSC continued with the earlier methodology which was utilised for computation of financing of LPSC till FY 2012-13. Such treatment has actually resulted in allowance of financing cost of LPSC at much lower rate.
- 3.342 The Petitioner has further submitted that the concept of financing cost of LPSC was introduced by the Commission in Tariff Order dated August 26, 2011 as LPSC was considered as a part of revenue realisation for the purpose of computation of AT&C Loss as per Clause-4.7 (c) of DERC Tariff Regulations, 2007. As per DERC Tariff Regulations, 2011, the methodology of computation of revenue realisation for the purpose of computation of AT&C Loss has been changed and LPSC is no longer being included as a part of revenue realisation for computation of AT&C Loss from FY 2012-13 onwards. Since the methodology for computation of AT&C Loss has been changed, the Petitioner ought to be allowed entire LPSC instead of financing cost of LPSC.
- 3.343 The Petitioner has further submitted that the concept of financing cost of LPSC is based on the principle that the Petitioner will fund the amount delayed through loans whereas, it is practically not possible to arrange for the funding of such delayed payment as the Petitioner does not know in advance as to which consumer will pay the bill on deadline and which consumers will not pay the bill on deadline. The process of raising loans for funding any expenditure is time taking process and therefore, in case of any default on part of consumers to pay electricity bills in time, the Petitioner has to face the following penalties as per the MYT Regulations 2011:
- a. Penalty on account of under-achievement of AT&C Loss: As per DERC MYT Regulations, 2011, the AT&C Loss Target has been categorized as controllable parameter. In case of

any under-achievement of AT&C Loss, the Hon'ble Commission levies penalty on the Petitioner irrespective of the fact that the default in collection efficiency is on account of consumers.

- b. Penalty in repayment of Loans: In present scenario, the Petitioner is not operating in business as usual situation. Apart from normal capex loan and working capital loan, the Petitioner is required to fund huge amount of regulatory assets and the revenue gap during the year on account of variation between the estimated ARR and actual ARR. In such a situation any default in payment of billed amount put financial constraints on the ability of the Petitioner to efficiently discharge its debt obligations. As a result the Petitioner has to face penalty on account of delay in repayment of loans which is not being passed in the ARR.
- c. Penalty by Generators: Generators levy penalty of 1.5% per month in case of non-payment of dues within time.

3.344 The Commission neither allows the amount nor financing cost on account of these penalties. These penalties are entirely borne by the Petitioner. However the penalty paid by the consumers on account of the delayed payment is not being allowed to the Petitioner and only financing cost on such delayed payment is being allowed. Therefore the Petitioner requests the Hon'ble Commission to allow entire LPSC during FY 2013-14 to be retained by the Petitioner as the same merely meets the financing cost of delay in payment.

3.345 The difference in LPSC and the amount allowed by the Hon'ble Commission, i.e, Rs. 9.39 Crore (Rs. 21.78 Crore- Rs. 12.39 Crore) in Tariff Order dated September 29, 2015 along with carrying cost is tabulated below:

**Table 94: Impact on account of difference in LPSC during FY 2013-14
along with carrying cost (Rs. Cr.)**

Sr. No.	Particulars	FY 14
1	Op. balance	0
2	Additions	9
3	Cl. Balance	9
4	Average	5
5	Rate of interest	15.01%
6	Carrying cost	0.70
7	Grand Cl. Balance	10

COMMISSION'S ANALYSIS

3.346 The Petitioner has submitted that total LPSC collected from the consumer should be allowed to be retained by the Petitioner. However, as per the practice followed by the Commission and Hon'ble APTEL's direction in Appeal No. 61 & 62 of 2012 dated 28/11/2014, the cost of funding of working capital due to delayed payment by the consumers has been allowed to the Petitioner. Therefore, the Commission has not considered the additional cost over and above the cost of funding of working capital for financing of LPSC during FY 2013-14.

WRONG COMPUTATION OF CARRYING COST**PETITIONER'S SUBMISSION**

3.347 Regulation 5.40 of MYT Regulations, 2011 states as under:

*"5.40 Truing-up shall be carried out in accordance with Regulation 4.21, for each year based on the actual/audited information and prudence check by the Commission; Provided that if such variations are large, and it is not feasible to recover in one year alone, the Commission may take a view to create a regulatory asset, **as per the guidelines provided in clause 8.2.2 of the National Tariff Policy.**"(emphasis supplied)*

3.348 Clause-8.2.2 of National Tariff Policy, 2015 dated January 28, 2016 states as under:

"8.2.2 The facility of a regulatory asset has been adopted by some Regulatory Commissions in the past to limit tariff impact in a particular year. This should be done only as a very rare exception in case of natural calamity or force majeure conditions and subject to the following:

a. Under business as usual conditions, no creation of Regulatory Assets shall be allowed;

*b. Recovery of outstanding Regulatory Assets **along with carrying cost** of Regulatory Asset should be time-bound and with a period not exceeding seven years. The State Commission may specify the trajectory for the same."*(emphasis supplied)

3.349 The Hon'ble Commission in Tariff Order dated September 29, 2015 directly deducted the 8% surcharge from the revenue gap during the year instead of adjusting the same firstly against the carrying cost. In such a manner, the Hon'ble Commission has not provided any carrying

cost on Regulatory Assets during truing-up of FY 2013-14.

3.350 The Petitioner has further submitted that the adjustment of revenue from 8% surcharge directly from revenue gap recognised during the year is contrary to the following:

a) Hon'ble Commission statement in Tariff Order dated July 31, 2013:

*"5.28 For meeting carrying cost of the revenue gap till FY 2013-14, the Commission **has decided to continue the existing surcharge at 8% over the revised tariff**. The Commission in consultation with GoNCTD shall evolve a reasonable schedule for liquidation of revenue gap which will be fair to all stakeholders. **(Emphasis added)***

b) Submission made by the Hon'ble Commission on November 25, 2013 in IA 358 & 365 of 2013 on affidavit before Hon'ble ATE:

*"3...Furthermore, in compliance of APTEL's Order of November 11, the Commission in a time span of less than one year approved another tariff hike of 23% with quarterly power purchase adjustment surcharge and **additional surcharge @ 8% for recovery of carrying cost and partial recovery of Regulatory Assets**. It was expected that the recovery of accumulated short-fall will commence w.e.f. 1st July 2012...*

...

6. The surcharge of 8% was introduced in FY 12-13 so as to meet a partial gap in carrying costs and start the process of gradual recovery of the Regulatory Assets..."[Emphasis Added]

c) Submission made before the Hon'ble Supreme Court in Writ Petition 104 of 2014:

The Hon'ble Commission submitted a road-map for liquidation of Regulatory Assets before Hon'ble Supreme Court wherein Delhi DISCOMs would be allowed to recover carrying cost separately apart from recovery of principal amount whereas the Hon'ble Commission is adjusting 8% surcharge directly from revenue gap during the year without providing the carrying cost.

3.351 The Petitioner has further submitted that the Commission has done similar treatment in Tariff Order dated July 23, 2014 for FY 2012-13. The Petitioner in the Petition submitted on December 18, 2014 also highlighted the erroneous treatment given for 8% surcharge in Tariff Order dated July 23, 2014 and requested to rectify the same. However the Commission

without assigning any reason continued with the same methodology. The Hon'ble Commission did not even indicate as to where the carrying cost on Regulatory Assets created upto FY 2013-14 has been allowed in the truing-up of FY 2013-14.

3.352 In view of the above submissions, the correct computation of Regulatory Assets is tabulated below:

Table 95: Correct computation of Regulatory Assets (Rs. Cr.)

Sr. No.	Particulars	FY 2012-13	FY 2013-14	Reference
1	Opening Balance	4974	5400	A
2	Additions	184	-304	B
3	8% Surcharge	-299	-507	C
4	Net (Gap)/ Surplus	-115	-812	D=B+C
5	Rate of CC	10.67%	10.80%	E
6	Carrying cost	541	567	$F=(A+B/2) \times E$
7	Closing Balance	5400	5155	$G=A+D+F$
8	RA during the year	5384	5110	H
9	Difference	16	45	$I=G-H$

3.353 The aforesaid amount along with carrying cost is tabulated below:

Table 96: Impact on account of correct computation of RA (Rs. Cr.)

Sr. No.	Particulars	FY 13	FY 14
1	Op. balance	0	17
2	Additions	16	45
3	Cl. Balance	16	62
4	Average	8	40
5	Rate of interest	15.03%	15.01%
6	Carrying cost	1.19	5.94
7	Grand Cl. Balance	17	68

COMMISSION'S ANALYSIS

3.354 The Petitioner has failed to appreciate that the computation of carrying cost for FY 2013-14 is on net gap/surplus for FY 2013-14 by considering the adjustment of 8% surcharge in the revenue gap/surplus for FY 2013-14 only. Therefore, the Petitioner's Submission is not correct and advised to re-verify the computation of carrying cost for FY 2013-14 available in tariff order dated 29/09/2015.

ERRONEOUS NET-WORTH COMPUTATIONS**PETITIONER'S SUBMISSION**

3.355 As discussed in Para-3.13.21, the net-worth will be revised based on implementation of Hon'ble ATE Judgments. As a result, RoCE also ought to be revised based on the same.

3.356 The impact on account of the same is already included in Table-3.17b of the Petition.

3.357 Without pre-judice, the Petitioner has requested the Commission to allow the same in the ARR.

COMMISSION'S ANALYSIS

3.358 The Petitioner has not submitted the specific justification and reasons where net worth computation is erroneous and the Petitioner has already preferred an appeal on this issue in its appeal against tariff order for FY 2014-15 and FY 2015-16. Therefore, appropriate decision can be taken after the judgement of Hon'ble APTEL on this issue.

CORRECTION IN OPENING BALANCE OF CONSUMER CONTRIBUTION IN OPENING RRB**PETITIONER'S SUBMISSION**

3.359 The Hon'ble Commission vide mail dated March 24, 2015 directed the Petitioner to submit the consumer contribution data duly audited in a specified format. The Petitioner vide letter dated May 7, 2015 submitted the data duly certified by Auditor with respect to consumer contribution. However the Hon'ble Commission did not assigned any reason for not considering the same in Tariff Order dated September 29, 2015. Since the Hon'ble Commission allowed the funding of capital expenditure instead of capitalisation during Policy Direction Period, i.e., FY 2002-03 to FY 2006-07, the Petitioner has considered the actual consumer contribution and grants received till FY 2006-07.

3.360 Further the Hon'ble Commission has shifted from RoCE approach to ROE approach during MYT Regime, i.e., from March 1, 2008 onwards. The actual consumer contribution and grants capitalised till FY 2006-07 is Rs. 39.53 Crore and Rs. 18.63 Crore respectively. The Petitioner has accordingly considered the same for the purpose of computation of depreciation and RoCE.

COMMISSION'S ANALYSIS

3.361 The Commission vide its order dated 23/12/2015 has already directed the Petitioner to refund the balance of consumer contribution collected by the Petitioner during FY 2002-03 to FY 2006-07 which has been offered by the Petitioner as means of finance during FY 2002-03 to FY 2006-07 and submit its claim on account of total amount refunded to the respective consumers during each year for recasting of ARR by the Commission. Though, the Petitioner has submitted the total amount to be refunded in each year, however he is yet to indicate the status of refund to these consumers as well as the continuity of those consumers so as to determine the impact in ARR.

CORRECTION IN RATE OF DEPRECIATION**PETITIONER'S SUBMISSION**

3.362 The Hon'ble Commission in Tariff Order dated September 29, 2015 derived the rate of depreciation as per Audited Accounts of FY 2013-14 and applied the same for calculation of depreciation. However the rate of depreciation so computed on the basis of Audited Accounts in Tariff Order did not actually match with Audited Accounts. The comparison of rate considered in Tariff Order and as per Audited Accounts is tabulated below:

Table 97: Comparison of depreciation rate appearing in Audited Accounts and considered in Tariff Order (Rs. Cr.)

Sr. No.	Particulars	Audited Accounts	Tariff Order
A	Opening GFA as per audited accounts	4667	3883
B	Closing GFA as per audited accounts	4961	4171
C	Average of GFA	4814	4027
D	Depreciation as per Audited Accounts	176	168
E	Average depreciation rate	3.65%	3.48%

3.363 It is further submitted that the Petitioner also submitted the computation of average rate of depreciation as per the Audited Accounts for FY 2013-14 at Table-3.26 of the Petition. However the Hon'ble Commission considered the rate of depreciation as 3.48% instead of 3.65% which is unfounded in the Audited Accounts of FY 2013-14.

3.364 Further the Petitioner would like to clarify that there is difference between the rates

considered in the Audited Accounts and that as per DERC MYT Regulations as under:

Table 98: Comparison between Audited Accounts and Regulatory Books

Sr. No.	Particulars	Audited Accounts	Regulatory books
1	Basis of rates	Schedule XIV (Companies Act, 1956)	DERC MYT Regulations, 2011
2	Asset depreciated upto	95% of original cost of asset	90% of original cost of asset
3	Life of asset	As per CERC Notification no. L-7/ 25 (5)/ 2003-CERC dated 26 March 2004 or independent valuer's certificate whichever is lower	DERC MYT Regulations, 2011

3.365 Accordingly the Petitioner has applied the rates of depreciation as per DERC Tariff Regulations, 2007 and DERC Tariff Regulations, 2011 and computed the depreciation from FY 2007-08 to FY 2013-14. The impact on account of the same is already included in Table-3.17b of the Petition.

COMMISSION'S ANALYSIS

3.366 The Petitioner has requested for correction in rate of depreciation for FY 2013-14 however, the Petitioner has not specifically indicated the rate of depreciation as per MYT Regulations, 2011 which should be applied on GFA for the depreciation of FY 2013-14 in its present tariff petition. The Commission will consider the rate of depreciation as per the rates specified in MYT Regulations, 2011 for different class of assets based on true up of capitalization of the relevant year. Therefore, the Commission directs that the Petitioner should submit the detailed class of year-wise computation of depreciation before the Commission to consider this issue in subsequent tariff order.

3.367 Based on the above submissions, the total impact claimed on account of previous claims is tabulated below:

Table 99: Total impact claimed on account of implementation of Hon'ble ATE Judgment (Rs. Cr.)

Sr. No.	Particulars	Amount
1	Capitalisation from FY 08 to FY 14	2905
2	Truing-up of FY 08 (First 11 months)	337

Note: The total impact at the end of FY 2015-16 has been added to the Closing Revenue Gap of FY 2015-16 indicated in Chapter 5 of this Order

ENERGY SALES**PETITIONER'S SUBMISSION**

3.368 The Petitioner had submitted that the actual sales during FY 2014-15 & FY 2015-16 was 10,179 MU (including sales on account of enforcement) as against 10,684 MU and 10,505 MU as against 10,683 MU estimated by the Commission in its Tariff Order dated 23 July 2014 and 29 September 2015 respectively.

3.369 The Petitioner has further submitted that the Enforcement Sales which pertains to the quantum of energy sold to consumers/persons booked under Sections 126 and/or Section 135 of the Electricity Act 2003 for indulging in unauthorized use of electricity or theft of electricity. The Commission in its order dated August 26, 2011 in the true-up for FY 2008-09 and FY 2009-10 and ARR for FY 2011-12 had reduced the MU in relation to enforcement sale by dividing the enforcement collection by twice the average billing rate instead of single ABR and which was upheld by the Hon'ble APTEL in Judgment dated November 28, 2014 (Appeal No. 61 and 62 of 2012).

3.370 The Petitioner has submitted that it has filed an appeal before the Hon'ble Supreme Court on the aforesaid Judgment of the Hon'ble APTEL dated November 28, 2014. However, pending judgement of the Hon'ble Supreme Court, BRPL has computed enforcement sales in accordance with the procedure adopted by the Commission which has been upheld by Hon'ble APTEL's judgement dated November, 28, 2014.

3.371 The Petitioner has considered the sales against Own Consumption as 49 MU during FY 2014-15 and 18 MU during FY 2015-16.

3.372 The Petitioner has indicated the units and billed amount adjusted during FY 2014-15 & FY 2015-16 due to bill revision separately in Form-2.1a. The units adjusted are 262 MU and amount adjusted is Rs. 198 Crore during FY 2014-15. The units adjusted during FY 2015-16 is (-) 460 MU and amount adjusted is Rs. (-) 465 Crore.

3.373 Accordingly, the Petitioner has submitted the category-wise sales during FY 2014-15 & FY 2015-16 as follows:

Table 102: Category wise Energy Sales for FY 2014-15 & FY 2015-16 (MU)

Sr. No.	Category	Approved in TO 23 July, 2014	FY 2014-15	Approved in Tariff Order Sep 29, 2015	FY 2015-16

COMMISSION'S ANALYSIS

3.374 The Commission has analyzed category-wise monthly sales data submitted by the Petitioner for each month of FY 2014-15 and FY 2015-16.

3.375 The validation of billing database was done at the Commission's office, wherein the data was submitted by the Petitioner. The Commission directed the Petitioner to verify the sales details submitted in their Petition for FY 2014-15 and FY 2015-16 from their billing database vis-à-vis audited Forms 2.1a & audited financial statements.

3.376 As per the Electricity Act, 2003 and directions of the Hon'ble APTEL in Appeal Nos. 61&62/2012 and 14/2012 all cases of enforcement/theft, energy has to be billed at twice the rate of the normal tariff and accordingly, the Petitioner has divided the total payment received against enforcement cases by twice the average billing rate for the year to arrive at realistic estimate of sales due to enforcement and so the same is accepted and the sales against enforcement are considered as 35.26 MU in FY 2014-15 and 41.48 MU in FY 2015-16 as per audited Forms 2.1a.

3.377 In the 2nd MYT Order, the Commission vide its directive 6.12 has directed all DISCOMs to meter self consumption in their own premises and to raise the bills at appropriate tariff for actual consumption based on meter reading every month and the licensee may avail credit at zero tariff to the extent of the normative self consumption approved by the Commission at the end of the financial year.

3.378 The Commission observes that in Tariff Order dtd. 29/09/2015, there was an act of

suppression of facts by the petitioner in Own Consumption which had adverse impact on tariff as the own consumption bills were regularly being adjusted and out of 171.26 MU, 147.86 MU were adjusted for FY 2013-14 to match the normative consumption allowed by the Commission. The relevant extract of the Tariff Order dtd. 29/09/2015 is as follows:

“3.201 It is observed from the above table that the opening readings are much less than the closing reading as per the bill dated 12.06.2013 which shows that the meter readings are either suppressed or wrong. While adjusting the bill, the Petitioner adjusted the final readings to match the opening readings. Further it is noticed from the adjustment bill that meter readings of kWh and kVAh are same. The said CA number pertains to a Non Domestic LT Consumer which may have inductive/capacitive load leading to non unity power factor. Thus it can be seen that the original bill captures actual consumption, whereas adjusted bill is prepared manually by entering the meter reading. This shows that the own consumption bills are regularly being adjusted and it is also noted that out of 171.26 MU, 147.86 MU have been adjusted to match the normative consumption allowed by the Commission. Hence, the explanation provided by the Petitioner for adjustment of 147.86 MU in Form 2.1(a) against own consumption is not justified.

3.202 The Commission is of the view that such an act of suppression of facts by the petitioner will have adverse impact on tariff. Therefore as a penal action, the Commission has considered Sales against own consumption as 171.26 MU indicated in Form 2.1 (a) without considering negative adjustments of 147.86 MU.”

3.379 The Commission, vide Para 2.79 of the 2nd MYT Order had decided the base self consumption as 0.25% of total sales for FY 2010-11, which shall be escalated at the rate of 2% per annum. The Commission has decided to adhere to its past methodology regarding computation of Own Consumption in line with Para 2.79 of the 2nd MYT Order that the Own Consumption shall be 0.25% of total sales for FY 2010-11 and shall be escalated at the rate of 2% per annum up to FY 2014-15 and FY 2015-16. Accordingly, the Commission has arrived at the normative Own Consumption for the Petitioner as 22.75 MU (22.30×1.02) for FY 2014-15 and 23.20

MU (22.75*1.02) for FY 2015-16 by escalating the Own Consumption approved for FY 2013-14 (22.30 MU) at the rate of 2% per annum.

3.380 The Petitioner has submitted the own consumption as 24.44 MU in FY 2014-15 and 18.00 MU in FY 2015-16. During the validation session, it was indicated by the Petitioner that all its installations were metered. However, the Commission has observed in audited Form 2.1(a) that the Petitioner has made a negative adjustment of (-) 49.66 MU in FY 2014-15 as against total own consumption of 74.10 MU and arrived at net own consumption of 24.44 MU i.e., there is adjustments of 67.02%. The Commission is of the view that such adjustments involve manual interference and there is possibility of error and suppression of billed units, thereby decreasing the Sales and Revenue Billed and burdening the consumers.

3.381 In view of above, the Commission has decided to consider the (-) adjustment of 49.66 MU in FY 2014-15 as Sales under Own Consumption for the purpose of Revenue Billed.

3.382 It is noted that the Own Consumption over and above the normative consumption is 51.33 MU (74.10-22.75) in FY 2014-15.

3.383 It was further observed during the prudence check that the Petitioner is billing its own Guest House at Sadiq Nagar with CA No. 151084150 under Domestic Category. As per Commission's past directives all premises covered under Own consumption are to be billed under Non-Domestic Category. The Commission directs the Petitioner to submit the list of all its connections under the name of the Petitioner with various fields like Name, Sanctioned Load, Type of Category, and Addresses within 1 (one) month from the issuance of this Tariff Order.

3.384 The Petitioner has submitted that units adjusted are 262 MU and amount adjusted is Rs. 198 Crore during FY 2014-15. Similarly, the units adjusted during FY 2015-16 is (-) 460 MU and amount adjusted is Rs. (-) 465 Crore. The Commission observed that units adjusted are (-) 4.20% and (-)2.52% for FY 2015-16 and FY 2014-15 respectively of the total sales of the Petitioner, which is on the higher side on account of delay in meter reading, raising of long duration provisional bills etc. Therefore, the Commission directs the Petitioner to restrict to a maximum adjustment of 1% in total Units billed from FY 2017-18 onwards. The Petitioner shall be liable for penalty due

to non-adherence of this directive as indicated in Chapter 6 of this Tariff Order.

3.385 Further, during the prudence check, the Commission observed that the Petitioner is billing Hoardings & Displays at Malls and Multiplexes at Non-Domestic Tariff. However, as per Commission's Tariff Schedule, the above are to be billed as per Advertisement/Hoardings category rates. Such under-billing by the Petitioner is resulting into revenue loss to the Petitioner and burdening the consumer at large. Therefore, the Commission directs the Petitioner to bill, within 1 (one) month of issuance of Tariff Order, the Hoardings & Displays at Malls and Multiplexes at Advertisement/Hoardings category and submit compliance report of the same to the Commission.

3.386 The trued up energy sales for FY 2014-15 and FY 2015-16 as approved by the Commission are indicated in the table as follows:

Table 103 : Trued Up Energy Sales during FY 2014-15 (MU)

L	Temporary Supply		81	80.86	
M	Own Consumption	147	18	18.00	
N	Enforcement		42	41.57	
P	Total	10683	10505	10,505.38	

3.387 As discussed in true up of Sales for FY 2014-15, the Commission has decided to consider excess Own Consumption of 51.33 MU over and above Normative Own Consumption at the Average Billing Rate of Rs. 11.30/kWh for FY 2014-15 of Non-Domestic as per audited Form 2.1(a) submitted by the Petitioner for FY 2014-15. The additional amount to be considered as deemed revenue billed, thus computed as Rs. 58.00 Crore ($51.34 \times 11.30 / 10$) on account of Own Consumption.

3.388 Further, it is observed from the audited Revenue Billed Statement for FY 2014-15 and FY 2015-16 (Note 47 of FY 2015-16) that Revenue Collected on account of Enforcement has not been added into total revenue Billed for FY 2014-15 of Rs. 51.47 Cr. (excluding E-tax and surcharge) whereas in FY 2015-16 Revenue Collected on account of Enforcement has been added into total revenue Billed for FY 2015-16 of Rs. 63.52 Cr. (excluding E-tax and surcharge). However, the Petitioner has already adjusted the Revenue Billed on account of Enforcement in its True up Petition for FY 2014-15 and FY 2015-16. Accordingly, the Commission has considered Rs. 51.47 Cr. (excluding e-tax and surcharge) as revenue Billed on account of Enforcement for the purpose of AT&C Loss computation.

3.389 Further, the Petitioner has submitted that the Rebate on account of monthly billing should be reduced from the revenue Billed, however, the Commission has already clarified in Note 5 (vi) of its Tariff Schedule of the relevant financial year that the rebate on account of number of bills raised in a year to the consumers shall not be pass through in the ARR of Distribution Licensees.

3.390 Accordingly the revenue billed for FY 2014-15 and FY 2015-16 based on Schedule 36(K) of the Audited Accounts for FY 2014-15, Note 43(A) of the Audited Accounts for FY 2015-16 and audited Form 2.1a, considered for computation of AT&C Loss is indicated in the table as follows:

Table 105: Trued up Revenue billed for FY 2014-15 and FY 2015-16 (Rs. Crore)

Sr. No.	Category	Petitioner's Submission		Trued up	
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16

AT&C LOSSES

PETITIONER'S SUBMISSION

Revision in AT&C losses trajectory from FY 2012-13 to FY 2015-16:

3.391 The Petitioner has submitted that they have challenged the basis for determination of AT&C Loss for FY 2011-12 in Appeal No. 61 of 2012.

3.392 The Petitioner has submitted that in accordance with letter dated March 8, 2011, the

AT&C Loss Target for FY 2011-12 shall be lower of the:

- a) Actual loss level of the Petitioner, i.e., 18.82%
- b) Reduction of 1% over AT&C Loss Target for FY 2011-12, i.e., 18.82%-1%= 17.82%.
- c) Therefore the AT&C Loss Target for FY 2011-12 is 17.82%.

3.393 Further, as per Hon'ble ATE, the AT&C Loss targets have to be reasonable in nature and in case the AT&C Loss target would have been 16%, then AT&C Loss reduction target would be a reduction of 1.05%, 1.2% and 1.25% from FY 2012-13 to FY 2014-15 respectively. For FY 2015-16, a reduction of 0.83% in AT&C Loss computed for FY 2014-15 has been considered. Applying the same ratios on AT&C Loss Target of 17.82%, the Petitioner arrives submitted the following AT&C Loss targets:

Table 106: Revised AT&C Loss targets as per ATE Directions

Sr. No.	Particulars	Commission	APTEL	Petitioner
1	AT&C Loss for FY 2010-11	17%	18.82%	18.82%
2	AT&C Loss for FY 2011-12	15%	17.82%	17.82%
1	Base loss for FY 2011-12	15%	16.00%	17.82%
2	AT&C Loss for FY 2012-13	14.16%	14.95%	16.65%
3	AT&C Loss for FY 2013-14	13.33%	13.75%	15.31%
4	AT&C Loss for FY 2014-15	12.50%	12.50%	13.92%
5	AT&C Loss for FY 2015-16	11.67%	---	13.03%

3.394 In view of the above, the Petitioner has requested the Commission to consider the AT&C Loss target as 13.92% for FY 2014-15 and 13.03 % FY 2015-16 for computation of AT&C loss over/ (under) achievement.

3.395 The Petitioner has computed AT&C Loss level of 13.67% during FY 2014-15 as summarised below:

Table 107: AT&C Loss for FY 2014-15 & FY 2015-16

Sr. No	Particulars	Approved in MYT Order July 2012	Submission	Revised AT&C Loss Target
1	FY 2014-15	12.50%	13.67%	13.92%
2	FY 2015-16	11.67%	11.90%	13.03%

3.396 The revenue billed and revenue collected for the purpose of computation of AT&C losses during FY 2014-15 & FY 2015-16 is tabulated as follows:

Table 108: Revenue Billed for AT&C Loss True-up for FY 2014-15 & FY 2015-16 (Rs. Crore)

Sr. No	Particulars	FY 2014-15	FY 2015-16
A	Revenue Billed (excluding Electricity Duty)	8034	8694

Sr. No	Particulars	FY 2014-15	FY 2015-16
B	Less: 8% Surcharge	580	619
C	Less: Other Adjustment	48	28
D	Revenue Billed for AT&C True-up	7407	8047

Table 109: Revenue Collected for AT&C Loss True-up for FY 2014-15 & 2015-16 (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	Revenue Collected	8421	9108
B	Less: 8% Surcharge	576	620
C	Less: Electricity Tax	346	379
D	Revenue collected for AT&C Loss true-up	7499	8109

3.397 Accordingly the computation of AT&C Loss Target for FY 2014-15 & FY 2015-16 is tabulated as follows, as submitted by Petitioner:

Table 110: Computation of AT&C Loss for FY 2014-15 & FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	Unit	FY 2014-15	FY 2015-16
A	Energy Input at Petitioner End	MU	11938	12017
B	Units Billed	MU	10179	10505
C	Amount Billed	Rs. Crore	7407	8047
D	Average Billing Rate	Rs./ kWh	7.28	7.66
E	Distribution Loss	%	14.73%	12.57%
F	Amount Collected	Rs. Crore	7499	8109
G	Collection efficiency	%	101%	101%
H	Units realised	MU	10306	10587
I	AT&C Loss level	%	13.67%	11.90%

3.398 The Petitioner has submitted that based on the revised AT&C Loss Trajectory, they will be entitled for an incentive on account of over-achievement of AT&C Loss as under:

Table 111: Impact of over achievement in AT&C Loss for FY 2014-15 & FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	Target AT&C Loss level	13.92%	13.03%
B	Actual AT&C Loss level	13.67%	11.90%
C	Target AT&C Loss level	15.31%	13.92%
D	Additional Return on Equity (%)	0.18%	1.27%

COMMISSION'S ANALYSIS

3.399 The Commission directed the Petitioner to show the relevant back up data with respect to energy billed (in MU), revenue billed and revenue collected (in Rs. Crore)

for FY 2014-15 and FY 2015-16 during the validation.

3.400 For the purpose of the validation, the Petitioner was directed to bring supporting data to substantiate sales details and also to bring evidence in support of the entries for calculation of AT&C loss.

3.401 In order to conduct the prudence check to verify the reliability of sales data, the Petitioner was directed to produce month-wise billing and daily collection details for FY 2014-15 and FY 2015-16. During the course of validation exercise, Petitioner's officials brought the collection details and billing database for FY 2014-15 and FY 2015-16.

3.402 Regulation 4.7(c) of DERC (Terms and conditions for Determination of Wheeling Tariff and Retail Supply Tariff) Regulations, 2011 specifies that Collection Efficiency shall be measured as ratio of total revenue realized to the total revenue billed in the same year and revenue billed and revenue realized from Electricity Duty and Late Payment Surcharge shall not be included for computation of Collection Efficiency.

3.403 The Commission had already decided earlier that revenue collection on account of 8% Surcharge will not be considered for computation of achievement of AT&C loss targets and also communicated the same to the Distribution Licensees vide its letter dated 09/05/2013.

3.404 The Net Revenue collected during FY 2014-15 and FY 2015-16 as arrived at by the Commission for calculation of AT&C loss purpose is as follows:

Table 112: Revenue Collection during FY 2014-15 approved by Commission((Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission	Now Approved	Remarks
A	Revenue collected as per Audited Accounts	8,421.00	8,489.77	Note 47 (B) of Audited Accounts of FY 2015-16
B	Less: Electricity Duty	346.00	345.51	
C	Less : 8% Surcharge	576.00	576.07	
D	Less: LPSC	Subtracted in Sr. No. A	25.03	
E	Less: Monthly Rebate		44.15	
F	Net amount collected	7,499.00	7,499.01	A-B-C-D

Table 113: Revenue Collection during FY 2015-16 approved by Commission (Rs. Crore)

C	Less : 8% Surcharge	620.00	619.59	
D	Less: LPSC	Subtracted in Sr. No. A	26.98	
E	Less: Monthly Rebate		27.76	
F	Net amount Collected	8,109.00	8,109.10	A-B-C-D

3.405 The Commission has issued directive in the Tariff Order dated 31.07.2013 regarding cash payment collection as follows:

"5.96 The Commission directs the Petitioner, that in case the bill for consumption of electricity is more than Rs. 4000, payment for the bill shall only be accepted by the Petitioner by means of an Account Payee cheque/DD. However, the Commission has considered that the blind consumers shall be allowed to make payment of electricity bills, for any amount, through cash."

3.406 During the prudence check exercise it has been observed that in the month of June-2014 there were 12,763 instances where amount collected in cash was higher than Rs. 4,000.00. Total amount of collection from such cases was approximately Rs. 10.95 Crore.

3.407 In view of the above, the Petitioner was directed via e-mail dated 11/07/2017 to provide the data for cash collection of more than Rs. 4000/-. The Petitioner provided the said information in soft copy during prudence check.

3.408 On analysis of the said information, it was observed that during FY 2014-15 there were 32,212 numbers of cash collection transactions of more than Rs. 4000/- amounting to total of Rs. 29.14 Crore. Further the Commission vide e-mail dated 11/07/2017 directed the Petitioner to explain the reason for violation of the said directive. The Petitioner has not submitted proper justification for such violation of the Commission's directive. Accordingly, the Commission has decided to impose penalty of 10% of the total amount collected through cash payment over and above Rs. 4000/-. Amount collected over and above Rs 4,000/- was Rs.16.26 Crore. Accordingly, the penalty payment works out to Rs.1.62 Crore which is reduced from the ARR of FY 2014-15.

3.409 Similarly, on analysis on the said information it was observed that during FY 2015-16 there were 32 numbers of cash collection transactions of more than Rs. 4000/-

amounting to total of Rs. 1.77 Crore. Further the Commission vide e-mail dated 11/07/2017 directed the Petitioner to explain the reason for violation of the said directive. However, the Petitioner has not specifically replied in this regard. Accordingly, the Commission has decided to impose penalty of 10% of the total amount collected through cash payment over and above Rs. 4000/-. Amount collected over and above Rs. 4,000 was Rs. 49,140 accordingly, the penalty works out to Rs. 4,914/-.

3.410 For verification of the energy input for computation of AT&C Loss, the Commission directed State Load Dispatch Centre (SLDC) to submit the energy input for the Petitioner during FY 2014-15 and FY 2015-16 vide its letter dtd. 01/05/2017. SLDC vide its letter dtd. 25/05/2017 submitted to the Commission that energy input to Petitioner for FY 2014-15 was 11,823.75 MU and 11,892.62 MU for FY 2015-16 at the Petitioner's periphery. Further, the Commission observed from the Minutes of meeting held on 10/03/2017 at SLDC regarding resolution of accounting issue of 33kV Bhikaji Cama feeder, wherein it has been agreed by the Petitioner, NDMC, DTL and SLDC that there will be net Debit of 109.96 MU to the Petitioner and net Credit of 109.96 MU for NDMC for the period 09/04/2015 to 08/06/2016 out of which for FY 2015-16 it is 107.79 MU. Also, SLDC vide its e-mail dtd. 24/07/2017 has specifically indicated that due to non accounting of 33 kV Bhikaji Kama feeder of BRPL energy of 107.79 MU have been booked to NDMC in FY 2015-16 instead of BRPL. Accordingly, the Commission has debited i.e., added 107.79 MU to Energy Input of the Petitioner for AT&C Loss computation of FY 2015-16.

3.411 Based on the above, the Commission considers the AT&C loss for FY 2014-15 and FY 2015-16 for truing up purpose as follows:

Table 114: AT&C Loss considered by the Commission for truing up for FY 2014-15 and FY 2015-16

Sr. No.	Particulars	UoM	Petitioner Submission FY 2014-15	Trued up FY 2014-15	Petitioner Submission FY 2015-16	Trued up FY 2015-16	Remarks
A	Energy Input at Petitioner's Periphery	MU	11938.00	11823.75	12017.00	12000.40	SLDC Certified Data
B	Units Billed	MU	10179.00	10228.79	10505.00	10505.38	
C	Amount Billed	Rs. Cr.	7407.00	7512.84	8047.00	8074.53	
D	Average Billing Rate	Rs/kWh	7.28	7.34	7.66	7.69	(C/B)*10
E	Distribution Loss	%	14.73%	13.49%	12.57%	12.46%	(1-B/A)

Sr. No.	Particulars	UoM	Petitioner Submission FY 2014-15	Trued up FY 2014-15	Petitioner Submission FY 2015-16	Trued up FY 2015-16	Remarks
F	Amount Collected	Rs. Cr.	7499.00	7499.01	8109.00	8109.10	
G	Collection Efficiency	%	101.24%	99.82%	100.77%	100.43%	(F/C)
H	Units Realized	MU	10306.00	10209.96	10587.00	10550.35	(B*G)
I	AT&C Loss Level	%	13.67%	13.65%	11.90%	12.08%	(1-H/A)

3.412 Accordingly, the AT&C loss considered by the Commission in truing up for FY 2014-15 and FY 2015-16 is summarised as follows:

Table 115: AT&C loss for FY 2014-15 (%)

Particulars	Approved in 2 nd MYT Order	Petitioner's Submission	Now Approved
AT&C Loss	12.50%	13.67%	13.65%
Distribution Loss	12.06%	14.73%	13.49%
Collection Efficiency	99.50%	101.00%	99.82%

Table 116: AT&C loss for FY 2015-16 (%)

Particulars	Approved in 2 nd MYT Order	Petitioner's Submission	Now Approved
AT&C Loss	11.67%	11.90%	12.08%
Distribution Loss	11.23%	12.57%	12.46%
Collection Efficiency	99.50%	101.00%	100.43%

3.413 The AT&C loss of 13.65% for FY 2014-15 calculated in true up is higher than the target AT&C loss of 12.50% for the Petitioner as specified in the Tariff Order dated July 13, 2012.

As per Regulation 4.8 of the MYT Regulations, 2011,

“the Distribution Licensee will be eligible for incentive by the way of higher rate of Return on Equity (to be considered while calculating RoCE) for achieving lower AT&C loss level than specified in the loss reduction trajectory...

.....

...and any financial loss on account of underperformance with respect to AT&C loss targets shall be to the Licensee's account.”

3.414 Accordingly, the under-recovery in the revenue realized on account of non-achievement of the AT&C loss target of the Petitioner for FY 2014-15 is summarized in the table as follows:

Table 117: Computation of under achievement for FY 2014-15

Sr. No.	Particulars	UoM	FY 2014-15		Reference
			Approved in 2 nd MYT Order	Now Approved	
A	AT&C Loss	%	12.50%	13.65%	Table No. 101
B	Under/(Over) achievement	%		1.15%	(13.65%-12.50%)
C	Energy Input	MU	11,823.75	11,823.75	Table No. 114
D	Units realised	MU	10345.78	10,209.96	As per audited power purchase certificate
E	Average Billing Rate	Rs/Unit	7.34	7.34	C*(100%-A)
F	Amount realised	Rs Crore	7598.77	7499.01	AT&C loss table
G	Financial impact on account of under/over achievement which has to be borne by the Petitioner	Rs Crore		(99.76)	Amount realised now approved minus amount realised in 2 nd MYT order
H	Total revenue available towards ARR for FY 2014-15 (Excluding E Duty & Surcharge)	Rs Crore		7,598.77	F+G

3.415 Hence, the total revenue available towards ARR for FY 2014-15 excluding Electricity Duty and 8% Surcharge has been computed by the Commission at Rs. 7,598.77 Crore, which includes additional burden of Rs. 99.76 Crore to be borne by the Petitioner for underachievement of AT&C loss target for FY 2014-15.

3.416 Similarly, the AT&C loss of 12.08% for FY 2015-16 calculated in true up is higher than the target AT&C loss of 11.67% for FY 2015-16 for the Petitioner as specified in the 2nd MYT Order. Accordingly, as indicated above, the under-recovery in the revenue realized on account of non-achievement of the AT&C loss target of the Petitioner for FY 2015-16 is summarized in the table as follows:

Table 118: Computation of under achievement for FY 2015-16

Sr. No.	Particulars	UoM	Approved for FY 2015-16 in T.O. dated 29/09/2015	Now Approved	Reference
A	AT&C Loss	%	11.67%	12.08%	Table No. 101
B	Under/(Over) achievement	%		0.41%	(12.08%-11.67%)
C	Energy Input	MU	12,000.40	12,000.40	Table No. 114
D	Units realised	MU	10599.95	10,550.35	As per audited power purchase certificate
E	Average Billing Rate	Rs/Unit	7.69	7.69	C*(100%-A)
F	Amount realised	Rs Crore	8147.22	8109.10	AT&C loss table
G	Financial impact on	Rs		(38.12)	

Sr. No.	Particulars	UoM	Approved for FY 2015-16 in T.O. dated 29/09/2015	Now Approved	Reference
	account of under/over achievement which has to be borne by the Petitioner	Crore			
H	Total revenue available towards ARR for FY 2015-16 (Excluding E Duty & Surcharge)	Rs Crore		8,147.22	

3.417 Hence, the total revenue available towards ARR for FY 2015-16 excluding Electricity Duty and 8% Surcharge has been computed by the Commission at Rs. 8,147.22 Crore, which includes additional burden of Rs. 38.12 Crore to be borne by the Petitioner for underachievement of AT&C loss target for FY 2015-16.

3.418 The Petitioner has submitted for revision in AT&C Loss trajectory from FY 2011-12 to FY 2015-16 based on the order/judgment of Hon'ble APTEL in Appeal No. 14 of 2012, Appeal No. 61 & 62 of 2012 and Appeal No. 177 & 178 of 2012.

3.419 The Commission has indicated its difficulty in its in Tariff Order dtd. 29/09/2015 as suggested by Hon'ble APTEL in its judgment of OP 1 of 2012 dtd. 14/11/2013 whose relevant extract is as follows:

"36. If there are any difficulties in implementation of the orders and directions issued by this Tribunal, it is open to the Delhi Commission either to file an Application seeking for clarification or praying for Review on those aspects. Instead of doing so, the State Commission ought not to have adopted the approach of confrontation with this Tribunal observing that they would not follow the Tribunal's directions."

3.420 Accordingly, the Commission has filed a Clarificatory Application before Hon'ble APTEL, requesting to reconsider the AT&C loss targets of the Petitioner for maintaining parity amongst all the Distribution Utilities. The view on impact of AT&C Loss Targets will be considered, as deemed fit and appropriate, after receipt of the judgment of Hon'ble APTEL in the said Clarificatory application.

LONG TERM POWER PURCHASE QUANTUM

PETITIONER'S SUBMISSION

3.421 The Petitioner has submitted that almost 90% of power is purchased from generating companies owned and/ or fully controlled by the Central Government and State Government by virtue of Long Term Power Purchase Agreements which have been inherited from Delhi TRANSCO Ltd. (initially signed by DTL).

3.422 The Petitioner has considered the total cost on account of long term sources during FY 2014-15 and FY 2015-16 which includes the following:

- a) All Power Purchase cost including fixed cost, variable cost, arrears, other charges etc. as scheduling of power is controlled by SLDC.
- b) Cost incurred on account of Anta, Auraiya and Dadri Gas Stations.
- c) Amount received on account of credit against Regulated Power has been considered and the benefit has been passed to the consumers.

3.423 The Petitioner had submitted source-wise Quantum and Cost of Long Term Power purchased for FY 2014-15 and FY 2015-16 as follows:

Table 119: Power Purchase Quantum for FY 2014-15 & FY 2015-16 (MU)

Sr. No.	Particulars	Approved in Tariff Order dated July 23, 2014	Submission for FY 2014-15	Approved in TO dated Sep 29, 2015	Submission for FY 2015-16
A	Power Purchase:				
I	Gross Power Purchase Quantum	13932	13476	12860	13418
li	Power sold to other sources	1883	1057	432	963
lii	Net Power Purchase	12049	12419	12428	12455
B	Transmission Loss:				
I	Inter-State Transmission Loss	385	481	308	439
li	Intra-State Transmission Loss	116		85	
lii	Total transmission loss	501	481	393	439
C	Net power available after Transmission Loss	11548	11938	12035	12017

3.424 The Petitioner has enclosed the details of DISCOM-wise energy input for FY 2014-15 & FY 2015-16.

3.425 The source-wise details of power sourced through short term sources is tabulated as follows:

Table 120: Details of Short Term Power Purchase

Sr.	Particulars	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16

No.		Energy	(%)	Energy	(%)	Energy	(%)	Energy	(%)
		(MU)		(MU)		(MU)		(MU)	
A	Bilateral	256	18.40%	452	28.34%	0	0.00%	55	2.58%
B	Banking	760	54.66%	992	62.26%	799	53.06%	436	20.51%
C	Exchange	55	3.92%	33	2.06%	565	37.53%	1192	56.06%
D	Intra-State	79	5.65%	16	1.00%	102	6.77%	373	17.54%
E	UI	242	17.38%	101	6.33%	40	2.64%	70	3.31%
F	Total	1391		1593		1506		2126	

3.426 As regards short term power purchase, the Commission in Tariff Order dated July 23, 2014 has advised the Petitioner that *“in case of excess demand the Petitioner may first utilise the quantum of Banked Energy and in case of further shortage they may purchase from Bilateral/ Exchange etc. so as to keep the short term power purchase cost at minimum level.”* Accordingly, the Petitioner has arranged more than 50% of short term power purchase requirement through banking and 38% through exchange during FY 2014-15.

3.427 The Petitioner has submitted that the Commission in Tariff Order dated July 23, 2014 took the view that the Petitioner ought to surrender the surplus power. The reduction in surplus power by almost 50% during FY 2014-15 and FY 2015-16 when compared to FY 2013-14 has been mainly due to the re-allocation of costly power. The re-allocation of costly power has benefited the consumers. Further the Commission in Tariff Order dated July 23, 2014 advised that *“the Petitioner should endeavour to maximise revenue from sale of surplus power and enter into more banking, intrastate and bilateral transactions.”* Accordingly the Petitioner sold almost 70% of surplus power through Banking, Bilateral and Intra-State Transactions. During FY 2015-16, the Petitioner sold 75% of surplus power through Banking. Rest of power was sold through other sources.

3.428 Further, the bilateral purchases were zero during FY 2014-15 as the Letter of Credit (LC) could not be provided to the traders owing inter alia to the non-liquidation of humungous regulatory assets/revenue gap and its pendency for the last several years. The Commission is well aware about the cash flow crisis being faced by the Petitioner since 2012.

3.429 The Petitioner has done more transaction through exchange as the rates of exchange has shown downward trend and has reached at par with the rates in bilateral mode.

3.430 The SLDC does not provide station-wise energy received at Delhi Periphery. The Petitioner vide letter dated January 4, 2016 and January 6, 2016 requested SLDC to provide the break-up of plant-wise transmission losses as per the format specified by the Commission. A similar letter was also addressed to PGCIL on January 4, 2016. However the Petitioner has not received any response with respect to the same. The total quantum purchased during FY 2015-16 duly reconciled with the details furnished by SLDC vide mail dated June 8, 2016 and Petitioner's share are tabulated as follows:

Table 121: Details of Short Term Power Sales

Sr. No.	Particulars	FY 2012-13		FY 2013-14		FY 2014-15		FY 2015-16	
		Energy	(%)	Energy	(%)	Energy	(%)	Energy	(%)
		(MU)		(MU)		(MU)		(MU)	
A	Bilateral	34	1.80%	98	4.33%	9	0.84%	0	0.00%
B	Banking	1066	57.11%	966	42.54%	706	66.77%	718	74.57%
C	Exchange	653	35.00%	1057	46.54%	188	17.75%	28	2.90%
D	Intra-State	3	0.15%	2	0.09%	13	1.19%	18	1.89%
E	UI	111	5.95%	147	6.49%	142	13.45%	199	20.65%
F	Total	1867		2271		1057		963	

3.431 The Petitioner has submitted that the Commission in its Tariff Order dated July 23, 2014 took the view that the Petitioner ought to surrender the surplus power. The reduction in surplus power by almost 50% during FY 2014-15 when compared to FY 2013-14 has been mainly due to the surrender of costly power. The surrender of costly power has benefited the consumers in terms of lesser surplus power.

3.432 Further, the Commission in Tariff Order dated July 23, 2014 advised that "the Petitioner should endeavour to maximise revenue from sale of surplus power and enter into more banking, intrastate and bilateral transactions." Accordingly the Petitioner sold almost 70% of surplus power through Banking, Bilateral and Intra-State Transactions. During FY 2014-15, the Petitioner mainly relied upon Banking of surplus power (67%). Almost 18% surplus energy was sold at exchange as these transactions were mainly at night hours for which there were no buyers in bilateral mode.

3.433 SLDC does not provide station-wise energy received at Delhi Periphery. However, the total quantum purchased during FY 2014-15 & FY 2015-16 duly reconciled with the

details furnished by SLDC vide mail dated May 21, 2015 & June 8, 2016 and
Petitioner's share are tabulated as follow:

Table 122: Details of Power Purchase Quantum Station wise for FY 2014-15 & FY 2015-16

3.434 In view of the above, the Petitioner has prayed to consider the actual power purchase quantum of 11,970 MU for FY 2014-15 and 11,292 MU for FY 2015-16, as submitted in the above table for truing-up of FY 2014-15 & FY 2015-16.

COMMISSION'S ANALYSIS

3.435 The Commission in its Tariff Order dated 23/07/2014 has approved gross power purchase quantum of 13,932.11 MU from all sources including Central and State Sector Generating Stations for FY 2014-15. Similarly, the Commission in its Tariff Order dated 29/09/2015, has approved gross power purchase quantum of 12,859.35 MU from all sources including Central Sector, State Sector and other Generating

Stations for FY 2015-16.

- 3.436 The Commission vide its letter dated 01/05/2017 directed SLDC to verify the figures of Long Term Power Purchase and Short Term Power purchase/sale for Delhi DISCOMs. SLDC vide its letter dated 25/5/2017 has submitted source wise Long Term Power Purchase and Short Term Power purchase/sale for Delhi DISCOMs.
- 3.437 The Commission observed that there was deviation in the Power Purchase Quantum submitted by Petitioner in its Petition and that submitted by SLDC to the Commission due to peripheral mismatches i.e., for few plants the Petitioner has considered the power at Northern periphery whereas SLDC has considered at DTL periphery. Therefore, a meeting was held in the office of the Commission on 07/07/2017 attended by officials of the DISCOMs and SLDC. The Commission directed the Petitioner and SLDC to reconcile station wise long term power purchase and source wise short term power purchase at DTL periphery jointly signed by the officials of the Petitioner and SLDC.
- 3.438 Accordingly, SLDC vide its email dtd. 24/07/2017 has submitted the Long Term Power Purchase Quantum station after reconciliation and the Commission considers the same for FY 2014-15 and FY 2015-16.

LONG TERM POWER PURCHASE COST

- 3.439 The Commission, in its Tariff Order dated 23/07/2014 had approved Rs. 5,808.92 Crore as Gross Power Purchase Cost from Central and State Generating Stations for 13,870.99 MU at an average rate of Rs. 4.19/kWh for FY 2014-15. The Petitioner has submitted the Gross Power Purchase Cost of Rs. 5,772.00 Crore for purchase of 11,970.00 MU at an average rate of Rs. 4.82/kWh.
- 3.440 The Commission has verified the station-wise, month-wise power purchase bills raised by various generators to the Petitioner for FY 2014-15 and FY 2015-16. It is observed that major reason for increase in actual average rate of power purchase cost in comparison to the projected average power purchase cost for major Power Plants is as follows:

Table 123: Comparison of Projected Rate vis-à-vis Actual Rate FY 2014-15

Power Plant	Projected Rate for FY 2014-15 (Rs./kWh)	Actual Rate FY 2014-15 (Rs./kWh)
Pragati-I	4.20	5.37

Power Plant	Projected Rate for FY 2014-15 (Rs./kWh)	Actual Rate FY 2014-15 (Rs./kWh)
Rajghat	6.36	6.99
PPS-III Bawana	6.22	8.34
Sasan UMPP	1.19	1.32

3.441 Similarly, the Commission, in its Tariff Order dated 29/09/2015 had approved Rs. 5,761.67 Crore as Gross Power Purchase Cost from Central and State Generating Stations for 12,859.55 MU at an average rate of Rs. 4.48/kWh for FY 2015-16. The Petitioner has submitted the Gross Power Purchase Cost of Rs. 4,921.00 Crore for purchase of 11,292.00 MU at an average rate of Rs. 4.36/kWh as indicated in the aforesaid Table, which is lesser than that projected in the Tariff Order.

AVOIDABLE POWER PURCHASE COST-NON-ADHERENCE OF MERIT ORDER DISPATCH PETITIONER'S SUBMISSION

3.442 The Petitioner has stated that Merit Order Despatch (MOD) is controlled by SLDC and the Commission has relied upon one of the letter dated May 19, 2015 vide which the Petitioner has requested SLDC for backing down of two Eastern Region plants. However, the Petitioner also submitted SLDC's letter dated December 13, 2013 wherein SLDC intimated that RLDC does not schedule power as per the requirement of DISCOMs.

3.443 The Petitioner has further submitted that Commission has relied on Hon'ble ATE Judgment dated April 8, 2015 (Appeal No. 160 of 2012) (R-Infra D versus MERC). However the Commission ignored the fact that Mumbai DISCOMs do not have any allocation from Central Generating Stations and thus scheduling is not dependent on SLDC in their case. Unlike Delhi, DISCOM-wise scheduling is possible in Mumbai. The scheduling is still being done by SLDC and DISCOMs have no control over backing-down of the costly power plants. Hence the Petitioner has not considered any deduction in power purchase cost on account of Merit Order Despatch.

COMMISSION'S ANALYSIS

3.444 The Clause 5.4 of the Terms and Conditions of the Licence granted by the Commission to the Petitioner deals with optimisation of Power Purchase Cost which

is as follows:

“The Licensee shall purchase the energy required by the Licensee for Distribution and Retail Supply in an economical manner and under a transparent power purchase or procurement process.....”

- 3.445 Further, as per Regulation 5.25 of the DERC MYT Regulations, 2011, while approving the cost of power purchase, the Commission shall determine the quantum of power to be purchased from various sources in accordance with the principles of merit order schedule and despatch based on ranking of all approved sources of supply in the order of their variable cost of power. All power purchase costs shall be considered legitimate unless it is established that the merit order principle has been violated or power has been purchased at unreasonable rates or the power procurement guidelines as laid down by the Commission from time to time has not been followed.
- 3.446 As per the above mentioned licence condition and Regulation, the Petitioner is required to procure the power in an economical manner following the principle of Merit Order Dispatch which is an integral part of this process. As per Merit Order Dispatch principle, the plants are stacked in least cost approach of their Variable Cost. The demand is then met through stations in ascending order of their Variable Cost subject to various Technical Constraints and the balance power from the left over stations after meeting the required demand, are not scheduled. Such balance power from the left over stations could have been backed down considering Technical Constraints and such surplus power could have been avoided.
- 3.447 The Commission further observes that it has directed SLDC vide its letter dtd. 21/11/2013 to implement DISCOM-wise scheduling in Delhi based on the request of the Distribution Licensees. Therefore, the contention of the Petitioner that on account of non implementation of DISCOM-wise scheduling in Delhi, it could not adhere to Merit Order Despatch principle is wrong and rejected.
- 3.448 During the prudence check exercise, the Petitioner was asked to provide correspondences related to backing down request made to SLDC. Petitioner submitted letter dated 05/04/2014 from SLDC which states that due to grid constraints scheduling of generation of BTPS, Pragati, RPH and GT shall be done by

SLDC only. However, in their letter dated 07/05/2014 SLDC states that the interval between consecutive revisions may be kept at least 90 minutes and accordingly the pre-planning of load generation balance is carried out by DISCOMs.

3.449 Therefore, the Commission has excluded various power stations from Merit Order Dispatch principle which have must run status like Nuclear & Hydro, State GENCOs which are considered in the Islanding scheme of Delhi and Eastern Region Plants where there is time delay in revision of schedule.

3.450 The Commission has observed that in FY 2014-15 and FY 2015-16 the Petitioner has violated Merit Order Dispatch principle for few stations like NCPP Dadri I and II which were scheduled over and above the technical limit even after meeting the demand. During such time period when NCPP Dadri I and II were scheduled over and above the technical limit, and the Surplus Power from these substations was sold below the variable cost of these stations.

3.451 The Commission has computed the impact due to violation of Merit order by considering the month-wise actual units of power purchase over and above the Technical Minimum limit which had been sold as Surplus Power (except Banking and UI) but could have been backed down.

3.452 Avoidable Power Purchase Cost due to scheduling of Power without considering Merit Order Dispatch Principle by the Petitioner is Rs. 1.49 Crore for FY 2014-15 and Rs. 2.08 Crore for FY 2015-16 has not been considered in the Trued up Power Purchase Cost.

3.453 The Commission directs that the Petitioner to adopt Merit Order Dispatch principle as specified in DERC MYT Regulations, 2011 and directions in various Tariff Orders in totality for all plants excluding the plants under must run and plants associated with islanding scheme and submit back down requests for such targeted plants to SLDC in a timely and desired manner.

AVOIDABLE POWER PURCHASE COST FROM ANTA, AURAIYA AND DADRI GAS STATIONS PETITIONER'S SUBMISSION

3.454 The Petitioner has submitted that the Commission has in its Orders dated June 12, 2015 and September 29, 2015 disallowed power purchase cost Power Purchase Cost from Anta, Auraiya and Dadri Gas Stations. It had purchased power in accordance

with the terms of the PPAs, which had not been objected to and in fact accepted during the assignment/reassignment of PPAs in the past by the Commission and as per the tariff determined by Hon'ble CERC. Therefore, now the Commission is estopped from withdrawing the purchase permitted in its past tariff orders, which have attained finality on this issue.

3.455 The disallowance is all the more egregious and unsustainable as the same has been done in truing up. The basis of incurring such costs by the Petitioner was the tariff orders which allowed the Petitioner to purchase power from these power stations during the years in which the tariff orders, which are being trued up, were passed.

COMMISSION ANALYSIS

3.456 The Commission in its Tariff Order dtd. 29/09/2015 observed that validity of PPA from Anta, Auraiya and Dadri stations have expired on 31.03.2012. However, the Petitioner renewed PPA of these plants without getting approval from the Commission which is violation of Licence condition. Therefore, the Commission disallowed Rs. 60.40 Cr. from these stations in its Tariff Order dtd. 29/09/2015 for FY 2013-14 by setting of the cost of procurement of these stations at the monthly average rate of exchange. The relevant extract of the Tariff Order dtd. 29/09/2015 is as follows:

“As physically the power was received from Anta, Auriya and Dadri Gas Stations in FY 2013-14, the Commission has considered all power scheduled from these stations as it was procured by the Petitioner through short term sources. Therefore, the cost of procurement of this power shall be allowed limited to the monthly average rate of exchange of Northern Region (N2) as per CERC Monthly Market Monitoring Report for FY 2013-14. Accordingly, the difference between the actual rate of power procured and exchange rate of Northern Region (N2) amounting to Rs. 60.40 Crore from these stations has not been considered into the power purchase cost of FY 2013-14.”

3.457 The Commission in its PPAC Order dtd. 12/06/2015 excluded the cost of procurement of power from these stations. The said Order was challenged by TPDDL in Appeal No. 186 of 2015 & IA No. 318 of 2015 and Appeal No. 196 of 2015 & IA No. 335 of 2015

before Hon'ble APTEL. Hon'ble APTEL has examined the methodology adopted by the Commission in Tariff Order dated 29/09/2015 regarding disallowance of Power Purchase Cost for FY 2012-13 and FY 2013-14 due to power procured from Anta, Auraiya and Dadri gas stations and upheld the same as follows:

" 7.7 Further, the Appellant has relied on Clause 5.1 of the license conditions which states as under:

"5.1 The Licensee shall be entitled to purchase, import or otherwise acquire electricity from such sources and persons with whom the Licensee had agreements or arrangements of power purchase or procurement of energy as on the date of the coming into force of the Transfer Scheme, in accordance with the terms and conditions of such agreement and arrangement".

The contention of the Appellants that the approval of the Commission is not required, is not correct and the licensees are bound to comply with the license conditions. Further, there is no provision of a deemed approval in the license conditions. It is also mentioned in the license conditions that the licensee shall purchase the energy required for distribution and retail supply in an economical manner and under a transparent power purchase or procurement process and in accordance with the Regulations framed by the Commission from time to time. As per the license conditions, prior approval from Delhi Commission was required which had not been done by the Appellants.

....

7.9 Accordingly, we do not find any infirmity in disallowing the actual cost of power procurement from Anta, Auraiya and Dadri Gas Generating Stations. However, the Commission considered the power drawn from these stations at short-term power purchase rate as the power was already consumed by the Appellant.

3.458 The Commission has adopted similar methodology as upheld by Hon'ble APTEL for computing avoidable Power Purchase Cost from Anta Auraiya and Dadri costly Gas based Power Plants as follows:

Table 124: Amount Disallowed from Anta, Auraiya and Dadri Gas Stations during FY 2014-15

Sr. No.	Power Stations	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total	Ref.

K	Total													48.53	(H+I+J)

3.459 In view of the above, the Commission has decided to disallow power purchase cost by Rs. 43.85 Cr. and Rs. 48.53 Cr. for FY 2014-15 and FY 2015-16 respectively.

IMPACT DUE TO REGULATION OF POWER PETITIONER'S SUBMISSION

3.460 The Petitioner has submitted that it has paid fixed cost to the generating companies

which have discontinued their power supply on account of non-payment of their dues, and have further more diverted the power supply to some other beneficiary, in accordance with the CERC (Regulation of Power Supply) Regulations, 2010.

3.461 The Petitioner has submitted before the Commission to consider fixed cost paid to the Generators due to the following reasons:

- a) The Petitioner is purchasing power from long term sources at RTC basis. The power available from long term sources is sold at lower rates than the average power purchase cost during off-peak hours. The loss on account of sale of surplus power being uncontrollable in nature is passed on to the consumers. By regulation of power, however, such a loss is mitigated because when certain generating stations discontinue supply of power under the scheme of 'Regulation of Power', the Petitioner is only required to pay the fixed charges and not the energy charges. Therefore the Petitioner is avoiding the loss on account of sale of surplus power during off-peak hours.
- b) In terms of the Power Purchase Agreement executed by the Petitioner with various Generating Companies, the Petitioner is contractually mandated to pay fixed charges to the Generating Company even though it is the Generating Company which restricts the power supply under the mechanism of regulation of supply owing to the non-payment of its outstanding dues. Under section 86(1)(b) while approving procurement of power through Power Purchase Agreements, the Commission allows fixed charges and variable charges to be paid by the Petitioner to the Generating Companies.
- c) The financial position of the Petitioner over the past 3 - 4 years was a result of a lack of cost reflective tariff and non- implementation of the various Orders passed and directions issued by the Hon'ble APTEL. As a result there is building up of regulatory assets.
- d) The funding of these regulatory assets has been done by availing financial assistance from lenders through increased debt. Because of these reasons, payments of suppliers, generators and transmission companies had to be deferred.

COMMISSION'S ANALYSIS

3.462 During FY 2014-15 & FY 2015-16, the Petitioner's power was regulated from NHPC, SJVNL and DVC due to non-payment of outstanding dues to the generators. As a result petitioner had to procure power on short term basis from Bilateral Contracts, Power Exchanges and Inter DISCOM Transfer at high rates compared to rate of regulated Stations.

3.463 This Petitioner's Submission that part of surplus power has been reduced due to regulation of power and the petitioner could still meet the demand by procuring lower quantum of power through short term market on need basis is not justified. The Commission is of the view that if power would not have been regulated then the Petitioner would have the option for backing down costlier plants in-order to procure power at comparative economical rate in order to optimize their power purchase cost. Further, Regulation of Power cannot be treated as mechanism to optimise surplus power and meet demand by procuring power from short term market.

3.464 CERC vide its Regulations had introduced Central Electricity Regulatory Commission (Regulation of Power Supply) Regulations, 2010 on 28/09/2010 which are applicable to the Generating Station and the Transmission System where there is a specific provision in the Agreement between the Beneficiaries and Generating Company or the Transmission Licensee as the case may be, for Regulation of Power supply in case of non-payment of outstanding dues or non-maintenance of Letter of Credit or any other agreed Payment Security Mechanism. In its Statement of Reasons (SOR), CERC has specifically indicated that responsibility of bearing the capacity charges has to remain with the Regulated Entity. The relevant extract of the said SOR is as follows:

" 9.3 We have considered the comments and are of the view that a balance has to be maintained between the benefit and risk of the Regulating Entity as well as Regulated Entity. As a result of regulation of power supply, the generator is already ensured of getting all its expenses, including the capacity charge, energy charge and incidental charges like trading margin, if sold through a trader. So, there would not be loss to the generator due to regulation of power. As per the provisions of these regulations, the Regulated Entity has to pay capacity charge even if the power is not scheduled to him

due to regulation.

....

*13.7 We are of view that during the regulation of power, the allocation of generating capacity remains with the Regulated Entity and only the power generated from it is being diverted for the specific reason of non-payment of outstanding dues by the Regulated Entity. **Therefore, the responsibility of bearing the capacity charges has to remain with the Regulated Entity.***

3.465 The Commission vide its letter dated 28/12/2012 and dated 11/04/2013 communicated its decision to the distribution licensee as follows:

"..in such cases where cheaper power is regulated due to nonpayment of dues and eventually distribution licensee purchases expensive power to meet the demand, at the time of true-up cost of such expensive power will be restricted to the cost of cheaper power"

3.466 In view of the above, the Commission has decided to continue with its existing practice for treatment of Regulated Power and disallow the prorated Fixed Cost as also indicated in para 3.265 of the Tariff Order dtd. 29/09/2015.

3.467 The Commission vide its letter dtd. 01/05/2017 directed SLDC to submit the Regulated Quantum of power station wise, power available if there would not had been Regulation and also source-wise short term purchases done during such Regulated period. SLDC has submitted the said information indicating that for FY 2014-15 there was 91.85 MU and 400.01 MU of regulated power for FY 2014-15 and FY 2015-16 from various stations of NHPC, SJVNL and DVC.

3.468 The Petitioner has submitted the Credit received for such Regulated Power in its Petition. The Commission had sought information from NHPC, SJVNL and DVC regarding Credit given to the Petitioner and found that the information submitted by the Petitioner is same with that provided by various Generator Companies.

3.469 The Commission observed that the power was regulated from NHPC, SJVNL and DVC stations for some period during FY 2014-15 and FY 2015-16. Short term procurement, except Banking and UI done by the Petitioner was 70.72 MU and 366.01 MU during FY 2014-15 and FY 2015-16 respectively whose weighted average rate is Rs. 3.33/kWh and Rs. 3.57/kWh during FY 2014-15 and FY 2015-16 respectively.

3.470 The weighted average per unit rate pertaining to the period of Regulation was Rs. 2.96/kWh for FY 2014-15 and Rs. 2.51/kWh for FY 2015-16 which have been arrived at considering current bill details of TPDDL wherein these stations were not Regulated.

3.471 The Commission has analyzed that petitioner incurred additional expenditure for procurement of 70.72 MU in FY 2014-15 and 366.01 MU in FY 2015-16. Average short term power purchase cost for the period FY 2014-15 was Rs. 3.33/kWh therefore the Commission has decided to dis-allow normative loss of Rs. 2.60 Cr. $[(70.72 \times (3.33 - 2.96)) / 10]$ on account of purchase of power from short term sources instead of cheaper power availability from regulated power.

3.472 Similarly, average short term power purchase cost for the period FY 2015-16 was Rs. 3.57/ kWh therefore the Commission has decided to dis-allow normative loss of Rs. 38.88 Cr. $[366.01 \times (3.57 - 2.51)) / 10]$ on account of purchase of power from short term sources instead of cheaper power availability from regulated power

3.473 In view of the above the Commission has decided not to allow following costs for FY 2014-15 and FY 2015-16 due to additional high cost short term purchase and prorated fixed cost (Fixed Cost for period of Regulation on difference of Energy Regulated and Short Term purchases) on account of Regulated Power:

Table 126: Calculation of Normative Loss on account of Regulated Power

Financial Year	Regulated Quantum (MU)	Energy Purchased during the period of regulation (MU)	Weighted Average Per Unit Cost of regulated Quantum (Rs./kWh)	Avg. per unit cost of power purchased during the period of regulation (Rs/kWh)	Additional Power Purchase Cost (Rs. Cr.)	Net Fixed Cost borne on account of Regulated Power
	1	2	3	4	$5 = [(4 - 3) \times 2] / 10$	
2014-15	91.85	70.72	2.96	3.33	2.60	4.74
2015-16	400.01	366.01	2.51	3.57	38.88	4.26

IMPACT OF HON'BLE SUPREME COURT JUDGMENT ON SASAN POWER LIMITED

3.474 The Hon'ble Supreme Court of India vide its judgement dated 08/12/2016 has ruled as follows:

"48. We thus find that the Appellate Tribunal is wholly incorrect in accepting the case of waiver put forward by learned counsel for Sasan, and is equally incorrect in absolving the independent engineer for the test certificate given

by him on 30.3.2013. We, therefore, set aside the Appellate Tribunal's judgment, and reinstate the judgment dated 8.8.2014 of the Central Electricity Regulatory Commission."

3.475 Further, the relevant extract of CERC Order dated 08/08/2014 is as follows:

"30. Under the provisions of Article 6.3.2 of the PPA, if the commissioning test is not as per Article 6.3.1, the seller is required to retake the relevant test within a reasonable period with prior written notice to the procurers and Independent Engineer. It is noticed that SPL instead of taking appropriate remedial measures under the PPA has vide its email dated 30.3.2013 (Annexure-9 to the petition) to WRLDC intimated the commercial operation of the Unit from 0000 hrs of 31.3.2013 and sent the declared capacity of the Sasan UMPP for 31.3.2013 for 620.4 MW. In our view, SPL has not acted strictly as per the provisions of the PPA. We directed SPL to carry out the revised testing in accordance with the PPA to achieve the unit tested capacity of not less than 95% of the contracted capacity as existing on the effective date. SPL after 31.3.2013 has carried out Performance Test in June 2013 and finally from 11.8.2013 to 14.8.2013. The Independent Engineer has issued the final certificate for commercial operation stating that the plant has been in operation for 72 hours at above 95% of the contracted capacity. However, it has been noticed that there was a single dip to 575.627 MW in one time block between 1745 hrs to 1800 hrs on 12.8.2013. The Commission enquired from WRLDC as to whether such dip in generation during the period of 72 hours the machine is being put to test for achievement of super critical parameters could be considered as continuous operation for declaring COD. WRLDC has explained that in case of other generating stations also, intermittent variation for short durations has been allowed while declaring COD of the generating station. It has been stated by SPL that the procurers have accepted the final testing of the unit and declaration of COD in August, 2013. MPPMCL, lead procurer, vide its letter dated 16.8.2013 has accepted the performance test carried out by SPL. Therefore, we consider that the unit has complied with the testing requirement as per the Schedule 5 of the PPA and accept the COD as

16.8.2013.”

3.476 As per the conjoint reading of above indicated judgments establishes COD of Sasan UMPP as 16/08/2013.

3.477 The Petitioner has started procuring power from Sasan UMPP w.e.f. FY 2013-14 and quantum purchased in this FY is split in two periods i.e. 01.04.2013 to 15.08.2013 and 16.08.2013 to 31.03.2014. As per CERC order dated 08.08.2014 supply of power for the period 01.04.2013 to 15.08.2013 should be treated as infirm power and accordingly infirm power is considered at UI rate and for the period 16.08.2013 to 31.03.2014 the rate billed by Sasan to the Petitioner for past years vis-a-vis the rate to be billed due to Hon'ble Supreme Court judgment is as follows:

Table 127: Sasan Rate Summary

Financial Year	Rate as per Sasan PPA	Applicable rate after Hon'ble Supreme Court's Judgment dated 08.12.2016
2012-13	Rs. 0.696/kWh	Rate suitable for infirm power
2013-14	Rs. 0.700/kWh	Upto 15.08.2013 rate suitable for infirm power from 15.08.2013 Rs. 0.696/kWh
2014-15	Rs. 1.320/kWh	Rs. 0.700/kWh
2015-16	Rs. 1.570/kWh	Rs. 1.311/kWh

3.478 The impact due to Hon'ble Supreme Court's Judgment on Power Purchase Cost till FY 2015-16 is as follows:

Table 128: Impact of Hon'ble Supreme Court's Judgment on Power Purchase Cost

Particulars	UoM	FY 2013-14		FY 2014-15	FY 2015-16
		01.04.13 to 15.08.13	16.08.13 to 31.03.14		
As per petitioner's Submission and approved by DERC on the basis of PPA					
Power Procured from SPL	MU	48.33	77.67	459.00	596.00
Billing rate by SPL	Rs/kWh	0.710	0.710	1.320	1.570
Total Cost of power procured through SPL	Rs. Crore	3.43	5.51	60.59	93.57
As per Hon'ble Supreme Court					
Billing rate as per Hon'ble Supreme Court Judgment	Rs/kWh	1.450	0.696	0.700	1.311
Total Cost of power procured through SPL	Rs. Crore	7.01	5.41	32.13	78.14
Total Cost procured from SPL eligible for dis-allowance	Rs. Crore	3.58	(0.11)	(28.46)	(15.44)

3.479 On the basis of above table below would be the impact on respective year's power purchase cost:

Table 129: Treatment of impact of Supreme Court Judgment (Rs. Cr.)

Financial Year	Impact on Power Purchase Cost
2013-14	3.47
2014-15	(28.46)
2015-16	(15.44)

3.480 The Commission directed the Petitioner to provide credit note received by the Petitioner in this regard. During the prudence check discussion, the petitioner has informed the Commission that they have received credit note from SPL regarding Supreme Court judgment.

3.481 The Petitioner vide their e-mail dated 24/07/2017 submitted copy of credit note received from SPL. As per credit note from SPL, the Petitioner had made excess payment of Rs. 28.49 Cr. for the FY 2013-14, FY 2014-15 and FY 2015-16.

3.482 The Petitioner is directed to submit the justification, within 1 (one) month from the issuance of this Tariff Order, for the difference in excess payment as computed by the Commission in the table above and that by submitted by SPL. The difference in excess payment as finalised by the Commission will be considered during True up of FY 2016-17.

3.483 As discussed above, the Power Purchase quantum and cost considered by the Commission for FY 2014-15 is as detailed in the table as follows:

Table 130: Details of Power Purchase Cost Station wise for FY 2014-15

SHORT TERM POWER PURCHASE PETITIONER'S SUBMISSION

3.486 The Petitioner submitted source wise details of Power purchased on short term basis during FY 2014-15 and FY 2015-16 in order to meet the peak demand as follows:

Table 133: Details of Short Term Power Purchase

Sr. No.	Particulars	FY 2014-15		FY 2015-16	
		Rate per unit	Amount	Rate per unit	Amount
		(Rs. / kWh)	(Rs. Cr.)	(Rs. / kWh)	(Rs. Cr.)
A	Bilateral	0	0	4.09	22

Sr. No.	Particulars	FY 2014-15		FY 2015-16	
		Rate per unit	Amount	Rate per unit	Amount
		(Rs. / kWh)	(Rs. Cr.)	(Rs. / kWh)	(Rs. Cr.)
B	Banking	4.00	320	4.05	178
C	Exchange	4.36	246	3.45	411
D	Intra-State	3.79	39	3.54	132
E	UI	7.88	31	3.67	26
F	Total	4.22	636	3.62	769

3.487 The Petitioner has submitted that Commission has introduced first time Contingency limit to dispose of surplus power in UI at 3% of Gross Power Purchase in the Tariff Order for FY 2015-16. However, the Commission has retrospectively applied the same for transactions carried out during FY 2013-14 which needs to be re-considered. Further, the Petitioner has requested to consider additional UI Charges.

3.488 The Petitioner has submitted that the Commission did not consider any cost on account of short term purchase in the ARR of FY 2014-15 & 2015-16. Further the existing PPAC formula does not cover the variations on account of short term power purchase cost. The cost incurred on account of short term power purchase transactions to cater the peak demand of Delhi is funded by the Petitioner on its own and is purely revenue gap during FY 2014-15 & 2015-16 which will attract at least two years of carrying cost to be recovered now.

3.489 In view of the above, the Petitioner has requested the Commission to allow the power purchase cost of Rs. 636 Crore for FY 2014-15 and Rs. 769 Crore for FY 2015-16 from short term sources as submitted in the above table.

3.490 The Petitioner submitted source wise details of surplus Power sold through short term basis in FY 2014-15 and FY 2015-16 as follows:

Table 134: Details of Short term power sales for FY 2014-15 & FY 2015-16

COMMISSION'S ANALYSIS

3.491 For the process of prudence check for FY 2014-15 and FY 2015-16 short term power purchase, the Commission issued detailed formats for short term power purchase vide its e-mail dated 08.03.2017 and the Petitioner has submitted replies vide letter ref: RA/2017-18/01/A/188 dated 17/07/2017 in these formats.

3.492 The Commission compared the short term power purchase and sale through different modes in the FY 2013-14 with respect to FY 2014-15 and 2015-16 as follows:

Table 135: Comparison of Short Term Power Purchase Quantum (MU)

Sr. No.	Particulars	FY 2013-14		FY 2014-15		FY 2015-16	
		Energy (MU)	%	Energy (MU)	%	Energy (MU)	%

F	Total Sale	2.69	610	3.22	340.00	8.36	301.00

3.493 The Commission observes that the Petitioner has sold majority of its Surplus Power in banking which is revenue neutral. Further, the Commission vide its letter dated 20 January, 2010 had already issued directions for procurement and sale of power by Distribution Licensee as follows wherein it is specifically indicated that the Distribution Licensees endeavour should be first to dispose of surplus power through banking transaction:

“7..... the Distribution Licensee, for any reason whatsoever, the licensee may enter into a short-term arrangement or agreement for procurement of power/sale of power through a transparent process of open tendering and competitive bidding in accordance with these guidelines.

8. Distribution Licensee shall adopt a bid evaluation or scoring system that is sufficiently comprehensive and transparent to permit a competitive result which identifies the least cost proposal for procurement and highest in case of sale of power.

.....

15. The Distribution Licensees endeavor should be first to dispose off surplus power through banking transaction. Such banking transactions should be tried at first on direct basis.”

EXCESSIVE QUANTUM OF TRANSACTIONS IN UI MODE

3.494 The Commission recognises the efforts of Petitioner in selling majority of its Surplus power in banking. The purchase through exchange has increased significantly from 2.08% to 55.97% from FY 2013-14 to FY 2015-16. However, the sale under exchange has decreased significantly from 46.46% to 2.70% from FY 2013-14 to FY 2015-16.

3.495 The Commission has observed that in spite of their direction in previous tariff order the Petitioner has not made its efforts to control its sale of surplus power through under UI. Its sale through UI has increased from 6.53% in FY 2013-14 to 20.38% in FY 2015-16.

3.496 UI charges under ABT mechanism were incorporated to maintain Grid Discipline and benefit those entities which support Grid and penalize those which hamper Grid so as to maintain Grid frequency near to 50 Hz. CERC vide its Order dtd. 4/01/2000 has dealt up the reason for implementation of UI Charges under ABT mechanism as follows:

*“...Apart from the two charges, a third charge contemplated in the ABT scheme is for the unscheduled interchange of power (**UI charges**). The UI charges are payable/receivable depending upon who has deviated from the schedule and also subject to the grid conditions at that point of time. **This is the element, which is expected to bring about discipline in the system.**”*

3.497 The month wise analysis of power sold under UI to Gross Power Purchase for the Petitioner is indicated in the table as follows:

Table 139: Month wise analysis of power sold under UI to Gross Power Purchase during 2015-16

Month	Total Power Procured (MU)	Sold under UI (MU)	Avg rate per unit UI (Rs/kWh)	Gross Amount RS Cr	Percentage UI sold on Gross power (%)	Contingency Limit (%)	Deviation (%)

Mar-16	967.32						

3.498 Sale of power under UI is linked to real time frequency mechanism which cannot be 100% avoided due to dynamic power system. However, there has to be certain contingency limit to dispose of surplus power in UI, which was fixed at 3% on Gross Power Purchase for every month in the Tariff Order dtd. 29/09/2015. The Commission has decided to keep same percentage for contingency limit and percentage sale over and above the contingency limit is set off with the differential rate of Exchange Rate at N2 Region v/s. UI Rate for BRPL. The disallowed cost arrived at is indicated in the Table as follows:

Table 140: Disallowance of UI Contingency Limit for FY 2015-16

Month	Total Unit sold under UI	Gross Power Procured	MUs allowed at UI rate	Deviation Quantum allowed at Exchange Rate	IEX rate for the month	UI rate for the month	Gross Amount Allowed	Gross Amount as per Petitioner	Penalty
1	2	3	4=3%*(3)	5=(2-4)	6	7	8 [(4*7)+(5*6)]/10	9	10 (8-9)
Aug.	60.11	1356.05	40.68	19.43	2.80	0.94	9.26	5.65	3.61
Sept.	42.68	1365.69	40.97	1.71	3.65	1.18	5.46	5.04	0.42
Total									4.04

3.499 In view of above, the Commission has decided to dis-allow Rs. 4.04 Cr. on account of sale of power through UI mode which cannot be treated as mode to dispose off surplus power rather UI mode is a real time frequency settlement mechanism for ensuring Grid Discipline.

3.500 Further, the Commission observes that the sale under UI in FY 2014-15 is within the contingency limit of 3%.

OVERLAPPING IN BANKING TRANSACTIONS

3.501 During prudence check, the Commission directed the petitioner to provide statement of banking transactions indicating opening and closing balance of banking transactions as per that indicated in the audited financial statement.

3.502 Further, the Commission observed that import units of LOI no. 2000 and 2026 overlapping with export units of LOI 1962 for the month of January for FY 2014-15 and import units of LOI no. 1962 and 2085 are overlapping with export units of LOI no. 2031, 2000, 2026 for the month of September in FY 2015-16. The Commission has sought clarification on these transaction vide e-mail dated 30/06/2017.

3.503 The petitioner submitted detailed reply to the Commission's e-mail vide their letter ref. : RA/2017-189/01A/177 dated 13/07/2017. In their reply they have submitted that tender for LOI no. 1932 was floated on 10/09/2014 but LOI was finally signed on 14/11/2014. And contrary to LOI no. 1932 tender for LOI no. 2000/2026 was floated on 18/12/2014 just after 33 days of signing of LOI no. 1962. The Commission is of the view that the petitioner was well aware if they sign LOI no. 2000/2026 then banking transaction will overlapped in the month of January 2015. Therefore, such

transactions could have been avoided if the petitioner could have planned in a better manner to optimise power purchase cost. During January 2015 short term power purchase is generally available at cheaper rate as compared with summer period. Therefore, there is no point that shortfall in power due to sudden re-allocation of power could not be arranged through other short term means.

3.504 Further, signing date of LOI no. 1962, 2000, 2026, 2031 and 2085 were within a range of 3 months. Therefore the Commission is of the view that planning for said banking LOIs is a failure at petitioner's end. Banking LOIs should not be entered by the petitioner against the philosophy of banking of power. Banking of surplus power was evolved and supported by the Commission in past to optimise power purchase cost by exporting surplus power in winter and to meet shortage of power by importing in summer period. On the contrary, it has been observed that the petitioner is involved in banking of power in which power is being imported in the winter period and is being exported in summer peak. Signing of LOI no. 2000/2062 is a perfect example of this.

3.505 In view of the above it has been observed that 19 MU and 42 MU were overlapped in banking transactions due to non-consideration of opportunity losses by petitioner in the FY 2014-15 and FY 2015-16 respectively while planning for power banking. Therefore, the Commission has decided to disallow transmission charges and trading margin related to overlapped units from total power purchase cost.

Table 141: Overlapping in banking transactions submitted by Petitioner (MU)

Financial Year	Period of Overlapping	Import Units	Export Units	Overlapped Units
2014-15	January, 2015	19 MU	22 MU	19 MU
2015-16	September, 2015	46 MU	42 MU	42 MU

3.506 In view of the above, the Commission has decided to dis-allow total additional cost due to overlapping in banking transaction of Rs. 1.97 Cr. and Rs. 4.89 Cr. from total power purchase cost in FY 2014-15 and FY 2015-16 respectively.

REBATE ON POWER PURCHASE AND TRANSMISSION CHARGES PETITIONER'S SUBMISSION

3.507 The Petitioner has submitted that rebate is not allowed on interest charges and other

billing items which are in nature of reimbursement, such as Income Tax, Other Taxes, Cess, Duties etc.

3.508 The Petitioner submitted that the Commission in Tariff Order dated September 29, 2015 has continued to rely upon Regulation 5.24 of DERC MYT Regulations, 2011 which entitles Distribution Licensees to recover cost of power considering maximum normative rebate. However the normative rebate cannot be applied at the time of truing-up due to the following reasons:

- a. The Commission has completely ignored Regulation-4.21 of DERC MYT Regulations, 2011 which provides that the power purchase cost is uncontrollable is nature and shall be trued-up based on actual. The Regulation does not provide any distinction for treatment of rebate. The rebate on power purchase being an intrinsic and inseparable part of power purchase must also be trued up on actual in terms of Regulation 4.21 of the said Regulations.
- b. The Hon'ble ATE in Judgment dated March 2, 2015 (Appeal No. 178 of 2012) has again confirmed the Judgment dated July 30, 2010 (Appeal 153 of 2009) and directed that normative rebate of at best 1% can be considered as per the norms specified for working capital in DERC Tariff Regulations, 2011.

3.509 In accordance with above submissions, the Petitioner requested the Commission to consider the actual rebate on Power Purchase and Transmission Charges during FY 2014-15, i.e., Rs. 12.95 Crore and to consider the actual rebate on Power Purchase and Transmission Charges during FY 2015-16.

COMMISSION'S ANALYSIS

3.510 The Regulation 5.24 of DERC (Terms and conditions for Determination of Wheeling Tariff and Retail Supply Tariff) Regulations, 2011, specifies that :

"Distribution licensee shall be allowed to recover the net cost of power it procures from sources approved by the Commission, viz. Intra-State and Inter-State Trading Licences, Bilateral Purchases, Bulk Suppliers, State generators, Independent Power Producers, Central generating stations, non-conventional energy generators, generation business of the Distribution Licensee and others, assuming maximum normative rebate available from each source for payment

of bills through letter credit on presentation of bills for supply to consumers of Retail Supply Business”.

3.511 Further, it is pertinent to state that TPDDL has already made an Appeal before Hon’ble High Court of Delhi against the Delhi Electricity Regulatory Commission (Terms and Conditions of Wheeling Tariff & Retail Supply Tariff) Regulations, 2011. It is submitted that Hon’ble High Court of Delhi in its judgement dtd. 29/07/2016 in W.P.(C) 2203/2012 & C.M. No.4756/2012 has rejected the submissions of TPDDL regarding maximum normative rebate and has ruled as follows:

*“ 39. The Commission is an expert body which is constituted to perform the functions as specified under the Act including determination of the tariff and specifying the terms and conditions for such determination. **Such functions which by nature require expert knowledge would ordinarily be outside the scope of judicial review** and no interference would be warranted unless it is established that the actions of the Commission are contrary to the provisions of the Act and/or ultra vires the Constitution.*

.....

*40. In view of the above, **we are unable to accept that the impugned Regulations are violative of any provision of the Act** or are ultra vires the Constitution of India.”*

3.512 In view of the above, the Commission has considered the maximum normative rebate on rebatable amount, without considering the rebate on Anta, Auraiya and Dadri Gas Power Plants whose differential cost has already been disallowed, as follows:

Table 142: Rebate on Power purchase and Transmission Cost for FY 2014-15 (Rs. Crore)

Sr. No.	Particulars	Rebatable Amount	Non-Rebatable Amount	Rebate claimed by petitioner	Rebate Calculated by the Commission
A	Long Term Power Purchase	5,762.00	10.00	26.00	113.18
B	Short Term Purchase	0.00	636.00	0.00	0.00
C	Short Term Sale	4.00	336.00	0.22	0.08
D	Transmission Charges	851.00	62.00	0.09	17.02
E	Total	6,609.00	372.00	25.87	130.12

Table 143: Rebate on Power purchase and Transmission Cost for FY 2015-16(Rs. Crore)

Sr. No.	Particulars	Rebatable Amount	Non-rebatable Amount	Rebate claimed by petitioner	Rebate Calculated by the Commission
1	Long Term Power Purchase	4,917.00	748.00	0.80	96.34
2	Short Term Purchase	22.00	297.00	0.45	0.44
3	Short Term Sale	0.00	4.00	0.00	0.00
3	Transmission Charges	713.00	0.00	0.00	14.26
4	Total	5,652.00	1,041.00	1.25	111.04

IMPACT DUE TO SHORT TERM POWER PROCUREMENT AT MORE THAN RS. 5.00/KWH

3.513 The Commission in its Tariff Order dtd. 23/07/2014 and 29/09/2015 for ARR of FY 2014-15 and FY 2015-16 has directed the Petitioner as follows:

6.12. The Distribution licensee is directed to take necessary steps to restrict the cost of power procured through short term contracts at Rs.5 per kWh. Further in case of short term power purchase at a rate higher than the above ceiling rate (of Rs.5 per kWh), the impact of such purchase on total short term power purchase shall not exceed 10 Paise /kWh during the financial year. In case the cost of power proposed to be procured exceeds the above limits, this may be brought to the notice of the Commission within 24 hours detailing the reasons or exceptional circumstances under which this has been done. The Commission reserves the right to restrict allowance to the permissible limit if proper justification is not provided.

3.514 In view of above direction, during prudence check session, the Commission directed the Petitioner to provide information related to short term power purchase at a rate higher than the ceiling rate of Rs. 5.00/kWh.

3.515 As per Petitioner's Submission vide letter ref.: RA/2017-18/01/A165 dated 10/07/2017, the Commission observed that petitioner procured total 153.27 MU at a cost of Rs. 94.85 Cr on various occasions at the rate of more than Rs. 5.00/kWh for FY 2014-15 and the impact of such purchases on total short term power purchase exceeded 10 paise/kWh at its periphery which leads to violation to the above mentioned directive in FY 2014-15. The detailed calculation is as follows:

Table 144: Impact of Short term power procured at above Rs 5/kWh during FY 2014-15

Sr. No.	Particulars	Units	Slot wise landed

		(MU)	cost at DISCOM periphery (Rs.)
A	Total Short Term Power Purchase (STPP)	1506	636
B	Rate for Total STPP at Sr. No. A		4.22
C	STPP @ more than Rs. 5.00/kWh	153.27	94.85
D	Short Term Power Purchase cost excluding power purchase Cost where it crossed Rs. 5 per kWh	1352.73	541.15
E	Rate for STPP at Sr. No. 4		4.00
F	Impact for STPP @ more than Rs. 5.00/kWh	153.27	0.22
G	Short Term Power Purchase Cost dis-allowance on account of violation of Commission's directive	153.27	1.88

3.516 Therefore, the Commission has decided to disallow Rs 1.88 Cr. on account of violating the Commission's directive regarding short term power purchase at a rate higher than the ceiling rate of Rs. 5.00/kWh whose impact exceeded 10 paise/kWh at Petitioner's periphery.

3.517 No violation of short term power purchase at a rate higher than the ceiling rate of Rs. 5.00/kWh whose impact exceeded 10 paise/kWh at Petitioner's periphery was observed in FY 2015-16.

3.518 SLDC vide its letter dtd. 25/05/2017 and email dtd. 24/07/2017 has submitted in response to the Commission's letter dtd. 01/05/2017 that additional UI Charges borne by the Petitioner in FY 2014-15 is Rs. 13.41 Cr. and Rs. 5.58 Cr. in FY 2015-16. Additional UI charges are imposed on the Distribution Licensees to maintain the Grid discipline. The Forum of Regulators in its Press Release dated 23.07.2009 had stated that additional UI charges imposed on various distribution utilities across the country for excessive over drawl from the Grid will not be allowed to be recovered from the consumers w.e.f 01.08.2009 as follows:

"....

*all the Chairpersons of State Electricity Regulatory Commissions as its members, has agreed that the **additional Unscheduled Interchange (UI)** charges imposed on distribution utilities for excessive over drawl from the grid would not be allowed to be recovered from consumers w.e.f. 1st August, 2009."*

3.519 The Commission as a deterrent action has decided that any penal/ additional UI charges will not be allowed in the power purchase cost and has accordingly decided

in line with past practices followed in earlier Tariff Orders to disallow the same.

3.520 The Petitioner has not considered LPSC of Rs. 757.00 Cr. and Rs. 685.00 Cr. in its Gross Power Purchase Cost in line with the past practices followed by the Commission in earlier Tariff Orders.

TRUED-UP POWER PURCHASE COST FOR FY 2014-15 & FY 2015-16

3.521 With the above observations and considering the principle of avoidable Power Purchase Cost upheld by the Hon'ble APTEL in Appeal No. 160 of 2012 dated 08/04/2015 and Appeal No. 186 of 2015 & IA No. 318 of 2015 and Appeal No. 196 of 2015 & IA No. 335 of 2015 dtd. 01/06/2016, the Commission approves the total power purchase cost for FY 2014-15 and FY 2015-16, summarized in the table as follows:

Table 145: Trued-Up Power Purchase Cost for FY 2014-15 (Rs. Crore)

Sr. No.	Particulars	Approved in Tariff Order Dated 23/07/2014	Petitioner's Submission	Commission's Approval	Reference
A	Gross Power Purchase Cost	5,935.00	6,408.00	6,408.00	
B	Less: Cost of Surplus Power Sold	668.00	340.00	340.00	
C	Net Power Purchase Cost	5,267.00	6,068.00	6,068.00	(A-B)
D	Total Transmission Charges	806.00	913.00	913.45	
E	Total Power Purchase Cost	6,073.00	6,981.00	6,981.45	(C+D)
F	Less Normative Rebate	128.00	26.00	(130.12)	
G	Net Power Purchase Cost including Transmission Charges	5,945.00	6,955.00	6,851.33	(E-F)
H	<u>Less:</u> Avoidable Power Purchase Cost Anta, Auraiya and Dadri costly Gas based Stations		-	(43.85)	
I	<u>Less:</u> Impact of per unit increase in power purchase cost due to power procurement of more than Rs. 5 per unit		-	(1.88)	
J	<u>Less:</u> Additional UI Charges disallowed		-	(13.41)	
K	<u>Less:</u> Disallowance due purchase of power against regulated quantum & additional Fixed Cost		-	(7.35)	

Sr. No.	Particulars	Approved in Tariff Order Dated 23/07/2014	Petitioner's Submission	Commission's Approval	Reference
L	Less: Scheduling of Power without considering Merit Order		-	(1.49)	
M	Less: Disallowance on account of overlapping in banking transaction		-	(1.97)	
N	Trued-Up Power Purchase cost	5,945.00	6,955.00	6,781.39	(G-Sum of H to M)

Table 146: Trued-Up Power Purchase Cost for FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	Approved in Tariff Order Dated 29/09/2015	Petitioner's Submission	Commission's Approval	Reference
A	Gross Power Purchase Cost	5,870.00	5,690.00	5,690.00	
B	Less: Cost of Surplus Power Sold	151.00	301.00	301.00	
C	Net Power Purchase Cost	5,719.00	5,389.00	5,389.00	(A-B)
D	Total Transmission Charges	995.00	1,007.00	1,007.10	
E	Total Power Purchase Cost	6,714.00	6,396.00	6,396.10	(C+D)
F	Less Normative Rebate	130.00	1.00	(111.04)

J	Less: Additional UI Charges disallowed		-	(5.58)	
K	Less: Disallowance due to purchase of power against regulated quantum & additional Fixed Cost		-	(43.14)	
L	Less: Disallowance on account of overlapping in banking transaction		-	(4.89)	

Sr. No.	Particulars	Approved in Tariff Order Dated 29/09/2015	Petitioner's Submission	Commission's Approval	Reference
M	Trued-Up Power Purchase cost	6,584.00	6,395.00	6,176.81	(G-Sum of H to L)

RPO COMPLIANCE

3.522 The Commission had directed the Petitioner in its Tariff Order dtd. 29/09/2015 as follows:

“ 6.9. The Commission directs the Petitioner that RPO requirements for green power for the year 2015-16, must be met along with requirements carried over from the previous year, and if so required by way of purchase of REC's from the exchange. Non compliance of Renewable Purchase Obligation (RPO) shall attract penalty of 10% of the cost of REC for quantum of shortfall in RPO.”

3.523 In view of the above direction, the Commission has sought details of RPO compliance from the Petitioner for the period from FY 2012-13 to FY 2015-16 and accordingly computed the amount of penalty based on quantum of shortfall for each year of Solar and Non-Solar RPO which is offset with the REC rate of the relevant year.

3.524 Accordingly, the amount of penalty on account of non-fulfilment of RPO to be adjusted in ARR of FY 2015-16 is as follows:

Table 147: Penalty for non-compliance of RPO

FY	Target (%)		Actual Sales	Target (MU)		Actual (MU)		Shortfall (MU)		REC Rate (Rs./kWh)		Impact of Shortfall (Rs. Cr.)	
	Solar	Non Solar		Solar	Non Solar	Solar	Non Solar	Solar	Non Solar	Solar	Non Solar	Solar	Non Solar
2013-13	0.15	3.25	4688.50	7.03	152.38	0	40	(2.55)	(112.38)	10.99	1.50	(2.81)	(16.86)
2013-14	0.20	4.60	9652.00	19.30	443.99	0	95	(19.30)	(348.99)	10.99	1.50	(21.22)	(52.35)

Grand Total													(284.31)
Penalty													28.43

OPERATION AND MAINTENANCE (O&M) EXPENSES**EMPLOYEE AND A&G EXPENSES****PETITIONER'S SUBMISSION**

3.525 The Petitioner has submitted that the Commission has determined the Employee Expenses based on net employee expenses of FY 2011-12 appearing in the Audited

Accounts. The Commission has applied an escalation factor of 8% on y-o-y basis on actual employee expenses for FY 2011-12 (minimum of computed and audited expense) which is already net of employee expenses capitalized during the year. Even while computing the normative expenses the base year i.e. FY 2007-08 was net of capitalisation as is also admitted by the Commission in Table 3.18 of the same Tariff Order dated September 29, 2015. However the Commission has again deducted 10% capitalisation as employee expenses capitalized from the so determined employee expenses from FY 2012-13 to FY 2014-15 (arrived at after applying escalation factor of 8% on actual employee expenses of FY 2011-12). Therefore, there is double deduction of employee expenses to the extent of 10% capitalized during the year from FY 2012-13 to FY 2014-15.

3.526 The Petitioner has submitted that the treatment done by the Commission by considering minimum of the actual expenses and normative derived expenses is contrary to the Regulation 4.21 (b) (i) which clearly mandate that any surplus or deficiency on account of Operation and Maintenance (O&M) expenses shall be to the account of the licensee and shall not be trued up in the ARR. This is entirely against the principles of normative tariff determination as has been so held by the Hon'ble Tribunal in judgment dated 29.04.2013 in Appeal Nos. 63, 64 & 146 of 2012.

3.527 The Petitioner has submitted that the Commission in Tariff Order dated September 29, 2015 has considered the minimum of actual A&G expenses during FY 2011-12 and norm derived for FY 2011-12 by escalating the actual expenses during FY 2007-08. The Petitioner has submitted that the Commission has considered the actual A&G expenses for the Petitioner being lower than the normative A&G expenses during FY 2011-12 which is Contrary to the Regulation 4.21 (b) (i) of MYT Regulations and the Hon'ble Tribunal in judgment dated 29.04.2013 in Appeal Nos. 63, 64 & 146 of 2012.

R&M EXPENSES

PETITIONER'S SUBMISSION

3.528 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 has re-determined R&M expenses and has continued to true-up R&M Expenses by multiplying "K" factor by GFA. The Petitioner has further submitted on December 18, 2014 highlighted the fact that the Commission itself submitted in

Tariff Order dated February 23, 2008 as under:

“4.151...The Commission clarifies that though the value of GFA is subjected to truing up at the end of the Control Period, the Commission, however, shall not true-up R&M Expenses as a consequence of the same.”

3.529 The Petitioner has submitted that the Commission in MYT Order for second control period dated July 13, 2012 did not specify as to whether R&M Expenses shall be trued-up or not. As per the Regulations, same principles shall continue during second control period unless revised by the Commission.

3.530 The Petitioner has accordingly, considered the R&M expenses during FY 2014-15 & FY 2015-16 as follows:

Table 148: Revised R&M Expenses from FY 2012-13 to FY 2015-16 (Rs. Crore)

Particulars	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16
Opening GFA	4,513.00	4,997.00	5,297.00	5,605.00
K Factor	2.70%	2.70%	2.70%	2.70%
R&M Expenses	122.00	135.00	143.00	152.00

3.531 The Petitioner has submitted that in accordance with the recommendation of 6th pay commission, the Govt. of India had enhanced the grade pay of Head Clerk / Jr. Stenographer and Section Officer / Sr. Stenographer from Rs. 4,000 to Rs. 4,600 & from Rs. 4200 to Rs. 4800 respectively w.e.f. 01.01.2006 for its employees. Accordingly, GoNCTD and Delhi Transco Limited had also revised their pay structure in line with the above said notification.

3.532 The Petition further, clarified that accordingly an office order no. GM (HR)/2013-14/309 dated 24.12.2013 was issued revising the grade pay of the aforementioned employees. The Petitioner had borne an additional liability of Rs. 10.79 Crore during FY 2014-15 on account of the same. The Petitioner vide letter dated December 31, 2013 has also submitted the auditor certificate in support of the payment made during FY 2014-15.

3.533 The Petitioner has submitted that the said amount was not included in the employee expenses in the base year, i.e., FY 2011-12. As a result, the same is not included even in the projection during the second control period. Accordingly the Petitioner is claiming additional employee expenses of Rs. 10.79 Crore in true-up of employee expenses of FY 2014-15.

3.534 The Petitioner has submitted the O&M Expenses for FY 2014-15 and FY 2015-16 as follows:

Table 149: O&M Expenses for FY 2014-15 (Rs. Crore)

Sr. No.	Particulars	Tariff Order dated 23/07/2014	Submission	Tariff Order dated 29/09/2015	Submission
		FY 2014-15		FY 2015-16	
A	Employee Expenses	315.00	350.00	340.00	378.00
B	A&G Expenses	109.00	117.00	118.00	127.00
C	R&M Expenses	110.00	143.00	117.00	152.00
D	Gross O&M Expenses	534.00	611.00	575.00	657.00
E	Efficiency factor%	4%	-	4%	-
F	Less: Efficiency Improvement	21.00	0.00	23.00	0.00
G	SVRS Pension	7.00	7.00	7.00	2.00
H	Revision in salary of Head Clerk/ Jr. Stenographer	-	11.00	-	9.00
I	Net O&M Expenses	520.00	629.00	560.00	667.00

COMMISSION'S ANALYSIS

3.535 The Petitioner has submitted that expenses fixed on normative basis can't be trued up as per direction of Hon'ble APTEL in Appeal no. 63 of 2012, Appeal no. 66 of 2012 and Appeal no. 144 of 2012. However, it is pertinent to state that the Hon'ble APTEL in its judgement in the appeal no. 271 of 2013 in the matter of Tata Power Delhi Distribution Limited v/s Delhi Electricity Regulatory Commission has upheld the true up of R&M expenses by the Commission as follows:

"23.3) After giving consideration to the earlier tariff orders the learned Delhi Commission has in the Impugned Order provisionally allowed the capitalization based on the appellant's submission and audited accounts of the appellant. Accordingly, the GFA had been revised for the MYT control period for FY 2007-08 and 2011-12 and due to this revision in the GFA under the MYT control period, the R&M expenses have also been revised provisionally subject to final true up of capitalization. Accordingly, the learned Delhi Commission has considered the impact on the R&M expenses in a tabular form with a revised true up for the control period. After analyzing the

whole facts and figures, as provided by the appellant, at the time of previous tariff orders and the present Impugned Order, the learned Delhi Commission in paragraph 3.127 of the Impugned Order has clearly observed that employee expenses and A&G expenses had been trued up in the relevant FY up to 2010-11 based on the information furnished by the appellant/petitioner taking into consideration the provisions of MYT Regulations 2007. Since the efficiency factor has erroneously been applied during the true up of employee expenses on SVRS pension for 2008-09 and 2009-10, the same has now been rectified by the Delhi Commission in compliance of this Appellate Tribunal's directions in Appeal No.36 of 2008. This is the whole situation which has led the Delhi Commission to provisionally allow capitalization based on the appellant's submissions and the audited accounts of the appellant. All these factors have led to revision of GFA under MYT control period and the R&M expenses have also been revised provisionally, subject to final true up of capitalization. The learned Delhi Commission in paragraph 3.130 of the Impugned Order clarifies that employee expenses include expenses towards SVRS Pension. However, while calculating the net employee expenses, no efficiency factor has been applied on SVRS Pension. In this view of the matter, we find no merit in the contentions of the appellant and this issue relating to revised R&M based on revised GFA is decided against the appellant."

3.536 The Commission has considered the additional employee cost of Rs. 10.79 Cr. and Rs. 8.50 Cr. for FY 2014-15 and FY 2015-16 respectively on account of office order no. GM(HR)/2013-14/309 dated 24.12.2013 for revision in the grade pay of Head Clerk / Jr. Stenographer and Section Officer / Sr. Stenographer from Rs. 4000 to Rs. 4600 & from Rs. 4200 to Rs. 4800 respectively w.e.f. 01.01.2006 for its employees. As these increase in employee expenditure are uncontrollable in nature and protected by the transfer scheme and tripartite agreement dated January 16, 2001 entered into between GoNCTD, DVB and the various DVB employees unions (prior to privatization), FRSR employees for their service terms and conditions.

EFFICIENCY FACTOR

PETITIONER'S SUBMISSION

3.537 The Petitioner has referred the Hon'ble ATE's Judgment dated March 2, 2015 (Appeal No. 177 of 2012) as under:

"37.3 This issue has been considered by this Tribunal in Appeal no. 171 of 2012. The relevant paragraph of the judgment is reproduced below:

"12.5 We find that as per the Regulations, the efficiency factor can be determined by benchmarking and, therefore, there is no fault in the Commission's basic approach for benchmarking the O&M cost of the Appellant with other distribution companies. However, the benchmarking of O&M has to be with respect to like distribution licensees and for a larger span with analysis. In the present case, the State Commission has given figures of O&M cost per unit of sales and per consumer for a single year i.e. FY 2010-11.

***It is not clear whether the O&M expenses considered are the actual audited expenses or trued up expenses or the estimate of expenses approved in the tariff order.** The State owned distribution licensee considered in the benchmarking should be much who maintain reliable power supply and distribution loss level comparable to the Appellant. The Commission should have benchmarked the O&M costs of some more distribution licensees having metropolitan area of supply such as other licensees of **Delhi, Mumbai, Kolkata for at last three years** before coming to a conclusion. The approach adopted by the State Commission is over simplified and lacks analysis.*

12.6 While we agree with the basic approach of benchmarking, the data and the analysis is required to be augmented as discussed above. Therefore, we remand the matter to the State Commission for redetermination of the Efficiency Factors."

3.538 The Petitioner has submitted that the reasoning given by the Commission is contrary to the direction given by Hon'ble ATE because of the following reasons:

- a) **Benchmarking the O&M costs of Distribution Licensees of Delhi, Mumbai, Kolkata:** The Commission has ignored the O&M costs of Calcutta Electricity Supply Company (the only distribution licensee in the city of Kolkata) and Brihan-Mumbai Electric Supply and Transport Undertaking).
- b) **Comparison of cost for last three years:** The Commission has compared the

O&M Expenses based on the projected MYT Order from FY 2012-13 to FY 2014-15 instead of comparing with last 3 years, i.e., FY 2009-10 to FY 2011-12. A comparison with the Utilities of Mumbai and Kolkata over last 3 years is as follows:

Table 150: Comparison of O&M Expenses per unit of Sales over Past 3 Years (Rs. Per Unit)

Sr. No.	Utility	FY 10	FY 11	FY 12
		Approved	Approved	Approved
A	RINFRA-D, Mumbai	0.74	0.78	0.81
B	BEST, Mumbai	0.62	0.74	0.8
C	CESC, Kolkata	0.69	0.7	0.76
D	BYPL	0.52	0.6	0.61
E	BRPL	0.43	0.48	0.48

- c) **No details of computation or references given:** The comparison provided by the Commission in Tariff Order does not contain the amount of O&M expenses, sales and date of tariff order issued by MERC and only provides O&M Expenses per unit of sales. However, MERC vide Order dated August 22, 2013 (Case No. 9 of 2013) determined the Multi-Year tariff for Rlnfra-D second control period from FY 2012-13 to FY 2015-16. As per the said MYT Order, the O&M Expenses per unit of sales from FY 2012-13 to FY 2014-15 is tabulated below:

Table 151: O&M Expenses per unit of Sales approved by MERC for R Infra-D

Particulars	UoM	FY 2012-13	FY 2013-14	FY 2014-15
O&M Expenses	Rs. Cr.	637	913	971
Sales	MU	9922	10337	10894
O&M Expenses per unit of sales	Rs./ Unit	0.64	0.88	0.89

3.539 Further, Petitioner added that MERC has already trued-up O&M Expenses and sales for FY 2012-13 and FY 2013-14 vide Order dated June 26, 2015 (Case 4 of 2015 for Rlnfra-D). This Order has not been considered by the Commission while benchmarking O&M Expenses in Tariff Order dated September 29, 2015. The O&M Expenses per unit of sales tabulated by the Petition is as below:

**Table 152: O&M Expenses per unit of Sales
Trued-up by MERC For R Infra-D During FY 2012-13 and FY 2013-14**

Particulars	UoM	R Infra-D	
		FY 2012-13	FY 2013-14
O&M Expenses	Rs. Cr.	971	925

Particulars	UoM	R Infra-D	
		FY 2012-13	FY 2013-14
Sales	MU	9322	9311
O&M Expenses per unit of sales	Rs./ Unit	1.04	0.99

3.540 In view of above, the Petitioner has requested the Commission to consider efficiency factor as 0% during FY 2014-15 & FY 2015-16.

COMMISSION'S ANALYSIS

3.541 The Commission has examined the submissions of the Petitioner regarding various Tariff Orders of Maharashtra Electricity Regulatory Commission and has analysed the O&M Expenses per unit of Sales year-wise for Reliance Infrastructure Ltd. - Distribution Business (RInfra-D) in the said Tariff Orders:

Table 153: RInfra-D - FY 2013-14

Case No.	Matter	O&M Expenses (Rs. Cr.)	Sales (MU)	O&M Expenses per unit of Sales (Rs./Unit)
Case No. 158 of 2011 dtd. 23/11/2012	Business Plan Order for FY 13 to FY 16	642	10140	0.63
Case No. 9/2013 dtd. 22/08/2013	MYT Order for FY 13 to FY 16	913	9887	0.92
Case No. 4 of 2015 dtd. 26/06/2015	True up of FY 14 and provisional True up of FY 15 and revised ARR for FY 16	925	9,311.33	0.99

Table 154: RInfra-D - FY 2014-15

3.542 The Commission has further examined the various Tariff Orders of Maharashtra Electricity Regulatory Commission and has analysed the O&M Expenses per unit of Sales year-wise for Tata Power Company Limited- Distribution Business (TPC-D) in the said Tariff Orders:

Table 156: TPC-D - FY 2013-14

Case No.	Matter	O&M Expenses (Rs. Cr.)	Sales (MU)	O&M Expenses per unit of Sales (Rs./Unit)
Case No. 165 of 2011 dtd. 26/08/2012	Business Plan Order for FY 13 to FY 16	157.89	6612.63	0.24
Case No. 179 of 2011 dtd. 28/16/2013	MYT Order for FY 13 to FY 16	158.43	6974.08	0.23
Case No. 18 of 2015 dtd. 26/06/2015	True-up of FY14, provisional Truing-up for FY15 & revised ARR for FY16	142.68	6538.01	0.22

Table 157: TPC-D - FY 2014-15

Case No.	Matter	O&M Expenses (Rs. Cr.)	Sales (MU)	O&M Expenses per unit of Sales (Rs./Unit)
Case No. 165 of 2011 dtd. 26/08/2012	Business Plan Order for FY 13 to FY 16	177.53	6988.46	0.25
Case No. 179 of 2011 dtd. 28/16/2013	MYT Order for FY 13 to FY 16	195.39	7610.97	0.26
Case No. 18 of 2015 dtd. 26/06/2015	True-up of FY14, provisional Truing-up for FY15 & revised ARR for FY16	153.21	5961.90	0.26
Case No. 47 of 2016 dtd. 21/10/2016	True-up of FY15 & provisional Truing-up for FY 16	153.68	5968.34	0.26

Table 158: TPC-D - FY 2015-16

Case No.	Matter	O&M Expenses (Rs. Cr.)	Sales (MU)	O&M Expenses per unit of Sales (Rs./Unit)
Case No. 165 of 2011 dtd. 26/08/2012	Business Plan Order for FY 13 to FY 16	199.61	7378.73	0.27
Case No. 179 of 2011 dtd. 28/16/2013	MYT Order for FY 13 to FY 16	219.67	8305.62	0.26
Case No. 18 of 2015 dtd. 26/06/2015	True-up of FY14, provisional Truing-up for FY15 & revised ARR for FY16	180.90	6555.93	0.28
Case No. 47 of 2016 dtd. 21/10/2016	True-up of FY15 & provisional Truing-up for FY 16	161.26	5,767.16	0.28

3.543 Further, the Commission analysed various Tariff Orders of Gujarat Electricity Regulatory Commission and has observed that the O&M Expenses per unit of Sales year-wise for Torrent Power Limited (Distribution) Ahmedabad and Surat in the said Tariff Orders:

Table 159: Torrent Power Limited (Distribution) Ahmedabad
True up Orders Case No. 1627/2016, 1552/2015 and 1467/2014

Financial Year	O&M Expenses (Rs. Cr.)	Sales (MU)	O&M Expenses per unit of Sales (Rs./Unit)
FY 2013-14	232.79	6069.62	0.38
FY 2014-15	259.40	6451.19	0.40
FY 2015-16	268.41	6666.00	0.40

Table 160: Torrent Power Limited (Distribution) Surat
True up Orders Case No. 1628/2016, 1553/2015 and 1468/2014

Financial Year	O&M Expenses (Rs. Cr.)	Sales (MU)	O&M Expenses per unit of Sales (Rs./Unit)
FY 2013-14	91.61	3165.04	0.29
FY 2014-15	105.57	3308.27	0.32
FY 2015-16	111.11	3313.00	0.34

3.544 From the above analysis, the Commission observes that O&M Expenses per unit of Sales for Rlnfra-D varies from Rs. 0.63/kWh to Rs. 0.99/kWh for same year (FY 2013-14) in various Orders of Business Plan, Multi Year and True up. Therefore, the Commission decides not to consider O&M Expenses per unit of Sales of Rlnfra-D for comparison purpose for Delhi DISCOMs.

3.545 It is observed that BRPL is being allowed O&M Expenses per unit of Sales are Rs. 0.52/kWh and Rs. 0.54/kWh in FY 2014-15 and FY 2015-16 respectively as compared

to the O&M Expenses per unit of Sales for Torrent Power Limited (Distribution) Surat (Rs. 0.30/kWh), Torrent Power Limited (Distribution) Ahmedabad (Rs. 0.40/kWh) and Tata Power Company Limited- Distribution Business (Rs. 0.28/kWh) and there is scope for improvement in O&M Expenses. Therefore, the Commission decides to retain the efficiency factor of 3%, 4% and 4% for FY 2013-14, FY 2014-15 and FY 2015-16 respectively. Such efficiency factor is not considered for SVRS Pension and Arrears on account of statutory pay revision to employees.

3.546 Accordingly, the Commission approves O&M Expenses for FY 2014-15 and FY 2015-16 factoring Efficiency factor is as follows:

Table 161: O&M Expenses approved by the Commission for FY 2014-15 and FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	FY 2014-15		FY 2015-16		Reference
		Petitioner's Submission	Now Approved	Petitioner's Submission	Now Approved	
A	Employee Expenses	350.00	315.21	378.00	340.43	
B	A & G Expenses	117.00	108.81	127.00	117.52	
C	R & M Expenses	143.00	109.41	152.00	117.28	
D	Gross O& M Expenses	611.00	533.43	657.00	575.22	A+B+C
E	Efficiency Factor	-	4.00%	-	4.00%	
F	Less: Efficiency Improvement	0.00	21.34	0.00	23.08	D*E
G	Add: SVRS Pension	7.00	7.39	2.00	7.39	
H	Add: Revision in salary of Head Clerk and Jr. Stenographer	11.00	10.79	9.00	8.50	
I	Net O & M Expenses	629.00	530.28	667.00	568.11	D-E+G+H

OTHER MISCELLANEOUS EXPENSES

INCREMENTAL LICENSE FEES PAID TO DERC

PETITIONER'S SUBMISSION

3.547 The Petitioner has submitted that as per Section 12 of the License condition, the Petitioner is liable to pay a license fee equivalent to 0.05% of the amount billed during previous financial year. Since the sales and the amount Billed during the previous financial year is uncontrollable in nature, the License Fee paid to the Commission over and above the License Fee paid in FY 2010-11, consequently also becomes uncontrollable. The incremental License Fee incurred by the Petitioner during FY 2014-15 & FY 2015-16 due to increase in Sales, which is uncontrollable expense in terms of DERC MYT Regulations, 2011, is tabulated as follows:

Table 162: Incremental License Fees paid during FY 2014-15 & FY 2015-16

Sr. No.	Particulars	UoM	Amount (in Rs. Cr.) 2014-15	Amount (in Rs. Cr.) 2015-16
A	Base Year expenditure (FY 10-11)	Rs. Cr.	1.20	1.20
B	Inflation Factor	%	8%	8%
C	License fees allowed as part of A&G Expenses	Rs. Cr.	1.63	1.76
D	Efficiency factor approved	%	4%	4%
E	Approved license fees after eff. Factor	Rs. Cr.	1.57	1.69
F	License fees actually paid during the year	Rs. Cr.	4.30	4.30
G	Incremental License fees	Rs. Cr.	2.73	2.61

COMMISSION'S ANALYSIS

3.548 The licence fee is applicable on actual sales for the respective year which is uncontrollable. Accordingly, the Commission has considered and approved the difference of normative license fee covered under A&G expenses and actual paid Rs. 2.73 Crore and Rs. 2.61 Crore on account of incremental license fees paid to the Commission during FY 2014-15 & FY 2015-16 respectively.

OMBUDSMAN EXPENSES

PETITIONER'S SUBMISSION

3.549 The Petitioner has submitted that the Commission had approved the Ombudsman Expenses which was required to be apportioned among the four Distribution Licensees of Delhi in proportion of energy drawn. Accordingly the Petitioner has submitted incremental Ombudsman Expenses as follows:

Table 163: Ombudsman Expenses paid during FY 2014-15 & FY 2015-16

Sr. No.	Particulars	UoM	FY 2014-15	FY 2015-16
A	Base Year expenditure (FY 10-11)	Rs. Crore	0.11	0.11
B	Inflation Factor	%	8%	8%
C	Expenses allowed as part of A&G Expenses	Rs. Crore	0.15	0.16
D	Efficiency factor approved	%	4%	4%
E	Approved expenses after eff. Factor	Rs. Crore	0.14	0.15
F	Expenses actually paid during the year	Rs. Crore	0.18	0.17
G	Incremental Expenses	Rs. Crore	0.04	0.02

COMMISSION'S ANALYSIS

3.550 The Commission had approved the Ombudsman Expenses which was required to be

apportioned among the four Distribution Licensees of Delhi in proportion of energy drawn. Therefore, the Commission approves incremental Ombudsman Expenses of Rs. 0.04 Crore and Rs. 0.02 Crore for FY 2014-15 and FY 2015-16 respectively as submitted by the Petitioner.

INCREMENTAL LICENCE FEES PAID ON ASSETS

PETITIONER'S SUBMISSION

3.551 The Petitioner pays License fees to GoNCTD for land rights. The Commission allowed the license fees to be paid to GoNCTD on normative basis by applying an escalation factor of 8% on the actual license fees paid during FY 2010-11. However the same ought to be allowed on actual basis. Accordingly the incremental license fees paid to GoNCTD is as under:

Table 164: Licensee fees paid to GoNCTD during FY 2014-15 & FY 2015-16

Sr. No.	Particulars	UoM	FY 11	FY 12	FY 13	FY 14	FY 15	FY 16
1	License fees included in base year	Rs. Crore	3.44					
2	Inflation Factor	%		8%	8%	8%	8%	8%
3	License fees approved	Rs. Crore		3.72	4.01	4.33	4.68	5.05
4	Efficiency Factor (DERC TO dated 23.07.2014)						4%	4%
5	Approved license fees after eff. Factor	Rs. Crore					4.49	4.85
6	License fees actually paid	Rs. Crore					4.62	5.38
7	Incremental License fees	Rs. Crore					0.12	0.52

3.552 Therefore the Petitioner has requested the Commission to consider incremental license fees paid on assets during FY 2014-15 & FY 2015-16.

COMMISSION'S ANALYSIS

3.553 The license fee paid to GoNCTD on asset is applicable on actual basis for the respective year which is uncontrollable. Accordingly, the Commission has considered and approved the difference of normative license fee covered under A&G expenses and actual paid Rs. 0.12 Crore and Rs. 0.52 Crore on account of incremental license fees paid to GoNCTD during FY 2014-15 & FY 2015-16 respectively.

SYNDICATION FEES/ BANK CHARGES AND OTHER BORROWING COSTS

PETITIONER'S SUBMISSION

3.554 The Petitioner has submitted that the syndication fees have not been considered

while projection of A&G Expenses for second control period. It is further submitted that the Petitioner had to take huge loans to finance its Regulatory Assets. For the purpose of availing such loans, the banks in the ordinary course of its business have charged various bank charges. The petitioner has claimed such syndication fees as part of its bank charges on the basis of actual amounts paid to the bank on such loans. The Petitioner has claimed recovery of such amount on actual basis in the true-up for FY 2015-16 since the original projection of expenses did not include any projection on this account.

3.555 The Petitioner has submitted that even the definition of RoCE in clause 5.6 of the DERC MYT Regulations expressly indicates that it shall cover all financing costs. Hence, it is obvious that even the return to the business would include something more than the actual interest on debt and also include such costs over and above the actual interest costs. The Petitioner has further clarified that to bridge the mismatch in cash flow due to insufficient or non-cost reflective tariff, the petitioner has been raising funds through Commercial borrowings for which certain financing charges are required to be paid over and above the interest cost. Apart from this, while arranging loans from lender some finance charges in the form of processing fee or upfront fee etc. has to be paid by the Petitioner for various credit facilities and financial assistance grant by the banks and other lenders. Hence the Petitioner is respectfully submitting to the Commission to allow these financing charges on actual basis.

3.556 The Petitioner has submitted that in the MYT order for the control period, the Commission has merely considered the closing balance of O&M expenses for the previous year and permitted an escalation thereon. Such expenses on account of bank charges and financing fees having arisen subsequent to such projection were not envisaged when the projection was made.

3.557 Accordingly the Petitioner is claiming syndication fees/ borrowing cost incurred Rs. 25.55 Crore during FY 2014-15 and Rs. 8.75 Crore for FY 2015-16 as a part of miscellaneous expenses.

COMMISSION'S ANALYSIS

3.558 The Commission has already dealt this issue in its Tariff Order dated 29/09/2015 as follows:

“As per Regulation 5.6 of the MYT Regulations, 2011, “Return on Capital Employed (RoCE) shall be used to provide a return to the Distribution Licensee, and shall cover all financing costs, without providing separate allowances for interest on loans and interest on working capital”.

3.559 As per Accounting standard (AS 16-Borrowing Costs) issued by Institute of Chartered Accountants of India and notified by Companies amendment Act 1999,

“6. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalized as part of the cost of that asset. The amount of borrowing costs eligible for capitalisation should be determined in accordance with this Statement. Other borrowing costs should be recognised as an expense in the period in which they are incurred.”

3.560 Conjoint reading of two extracts indicated above, the Commission is of the view that the borrowing costs directly related to the capital assets shall be added to the cost of such capital assets.

3.561 The Commission is of the view that only the borrowing cost will be considered at the time of final true up of capitalisation. Accordingly, the Commission has not considered the syndication and documentation charges claimed by the Petitioner and the same shall be considered at the time of final true up of capitalisation for the relevant year.

FEES FOR GEO-SPATIAL ACCESS:

3.562 The Petitioner vide its letter RA/ 2013-14/ 01/A/ 271 dated July 12, 2013 informed the Commission regarding the mandatory fees to be paid for Geo-Spatial Access. The Geo-spatial Delhi Limited vide its letter dated May 21, 2014 directed the Petitioner to pay an amount of Rs. 28.09 Lakhs (Rs. 25 Lakhs for annual fee + Rs. 3.09 Lakhs) for FY 2014-15 and FY 2015-16 each.

3.563 Accordingly, the Petitioner has requested the Commission to allow the annual fees to be paid on account of geo-spatial access as the same was not factored in the actual expenses incurred during FY 2010-11.

COMMISSION'S ANALYSIS

- 3.564 The Petitioner furnished the GoNCTD circular regarding Fees for Geo-Spatial access. During the prudence check, the Petitioner was asked to provide the payment receipt on account of fees paid for Geo-spatial access. The Petitioner has further submitted that the waiver of the fees on account of Geo Spatial Access is sought from GoNCTD vide letter dated 04.03.2013.
- 3.565 The Petitioner has not submitted the payment receipt towards fees paid for Geo-Spatial Access to GoNCTD, therefore, the same is not considered by the Commission for true up of FY 2014-15 and FY 2015-16. The same will be considered on producing the receipt by the Petitioner but without considering any carrying cost.

SPECIAL AUDIT RELATED EXPENSES**PETITIONER'S SUBMISSION**

- 3.566 The Petitioner has submitted that a Special Audit was undertaken by CAG on the special request of GoNCTD. This special Audit was initiated in January 2014 and continued up to September 2015. The Petitioner has incurred Rs. 2.71 Crore on various heads like engaging lawyers, legal opinion, air fare, hotel expenses, conveyance etc. Such expenses were not part of normal A&G Expenses in the base year, i.e., FY 2011-12. Therefore the Petitioner requests the Commission to allow the same in the ARR.

COMMISSION'S ANALYSIS

- 3.567 The Commission is of the view that the petitioner has spent the expenditure in various heads like engaging lawyers, legal opinion, air fare, hotel expenses, conveyance etc in its writ petition filed before Hon'ble High Court of Delhi and Hon'ble Supreme Court and the said expenditure has been incurred against the CAG audit of the books of account of the Petitioner. It is observed that these expenses have no relationship with the normal expenditure to be allowed in the ARR of the Petitioner. The Petitioner had also not taken any prior approval before engaging lawyers and related expenses incurred on account of CAG audit; therefore the Commission has not approved additional expenses under these heads in order to safeguard the consumer's interest.

- 3.568 Apart from the Incremental License Fees, Incremental Ombudsman expenses,

Syndication fees/borrowing costs, Special Audit related expenses, petitioner has also submitted their claim for Impact due to change in service tax rate, Food Allowance, Children Education Allowance in FY 2015-16.

FOOD ALLOWANCE & CHILDREN EDUCATION ALLOWANCE

PETITIONER'S SUBMISSION

3.569 The Petitioner has submitted that the Hon'ble ATE in its Judgment dated February 10, 2015 (Appeal 171 of 2012) has ruled as under:

"3.7... The enhancement of food allowance on the recommendations of the Sixth Pay Commission Report as adopted by DTL is binding on the Appellant as per the Statutory Transfer Scheme. As such, it is an uncontrollable expenditure. Accordingly, the State Commission shall allow the additional expenditure of Rs. 0.8 Crore on this account along with carrying cost."

"4.4 In the impugned order, the State Commission has not allowed the impact of increase of Children Education allowance as the State Commission had already considered the increase in Children Education allowance while revising employees' expenses of the Appellant in its tariff order dated 26.08.2011. This is not correct. Therefore, on the same analogy as made for allowance of increase due to food allowance under paragraph 3.7 the increase in expenditure of the Appellant due to increase in Children Education allowance from Rs. 40/- p.m. per child to Rs. 1,000/- p.m. per child has to be allowed with carrying cost. Accordingly directed."

3.570 Accordingly the Petitioner has claimed Rs. 1.06 Crore and Rs. 1.82 Crore for Food allowance and Children Education Allowance respectively for FY 2015-16.

COMMISSION'S ANALYSIS

3.571 The Commission observes that the judgement referred by the Petitioner of Hon'ble APTEL in Appeal No. 171 of 2012 pertains to impact of Food Allowance and Children Education Allowance based on the recommendations of the Sixth Pay Commission Report which has been implemented in 1st MYT Control period and the same has already been allowed by the Commission to the Petitioner in Tariff Order dtd. 26/08/2011. The relevant extract of the said Tariff Order is as follows:

"3.125 Further, the Commission has also observed that while the increase in salaries due to wage revision was with retrospective effect from January 1, 2006, the implementation of wage revision recommendations also led to

introduction/removal/increase of certain allowances such as HRA, TPA, CCA, LTC Encashment and Children Education Allowance with effect from FY 2008-09. The impact on employee cost on account of these “New Allowances” has been added separately from FY 2008-09 onwards. As these allowances were started / discontinued in FY 2008-09 and were not applicable for the entire year of FY 2008-09, the Commission has considered the impact on employee cost on account of these allowances in FY 2009-10 as base year, when these allowances were applicable for full year and escalated the total allowances paid in FY 2009-10 by the escalation factor to arrive at the figure for FY 2010-11. ”

3.572 Therefore, the Commission is of the view that the impact of New Allowance based on the recommendations of 6th Pay Report has already been allowed in the relevant years True up during 1st MYT Control Period and the same is part of Employee Expenses for base year FY 2011-12 which has been utilised for projecting Employee Expenses for FY 2015-16. Accordingly, the Commission has not considered these expenses for FY 2015-16.

3.573 Based on the above analysis, the total amount considered under the head “Other Expenses’ is given in the table as follows:

Table 165: Other Expenses Truing up for FY 2014-15 and FY 2015-16 (Rs. Crore)

Particulars	Petitioner's Submission		Now Approved	
	FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16
Incremental License Fees paid to DERC	2.73	2.61	2.73	2.61
Ombudsman Expense	0.040	0.02	0.040	0.02
Syndication fees/borrowing Costs	25.55	8.75	-	-
Geo-Spatial	0.29	0.29	-	-
Incremental License Fee paid on asset	0.12	0.52	0.12	0.52
Special Audit related Expenses	4.05	2.71	-	-
Food Allowance	-	1.06	-	-
Children Education Allowance	-	1.82	-	-
Total	32.78	17.78	2.89	3.15

NON-TARIFF INCOME

INTEREST ON CONSUMER SECURITY DEPOSIT

PETITIONER'S SUBMISSION

3.574 The Petitioner has submitted the difference between the interest on Consumer Security Deposit (CSD) computed on the basis of carrying cost as per SBI PLR and that

already paid to the consumers has been added in NTI as under:

Table 166: Interest on CSD (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	Opening Balance of CSD	568.55	649.00
B	Closing Balance of CSD	648.53	707.00
C	Average Balance	608.54	678.00
D	Interest rate	14.94%	14.80%
E	Interest on CSD	90.90	100.00
F	Interest paid to the consumers	35.42	39.00
G	Net Interest to be considered	55.48	61.00

COMMISSION'S ANALYSIS

3.575 The Commission is of the view that the Petitioner has invested the Consumers security deposits in the regulated business. The Commission has considered the normative interest rate as per the rate of interest on carrying cost. The difference in the normative interest and the interest booked on consumer security deposit (at the rate of 6%) for FY 2014-15 and FY 2015-16 as per the audited financial statements has been considered as Non Tariff Income as the funds are already with the DISCOM which is being utilised for the Regulated business. The approved interest on consumer security deposit considered as part of Non Tariff Income is computed as follows:

Table 167: Interest on Consumer Security Deposit (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	Opening CSD	568.55	648.53
B	Additions	79.98	58.00
C	Closing CSD	648.53	706.53
D	Average CSD	608.54	677.66
E	Rate of Interest	10.44%	10.47%
F	Normative interest on CSD	63.53	70.95
G	Interest paid to the consumers	35.42	38.89

SERVICE LINE-CUM-DEVELOPMENT (SLD) CHARGES

PETITIONER'S SUBMISSION

3.576 The Commission in Tariff Order dated September 29, 2015 ruled as under:

"3.355 The Commission has observed from the audited financial statements (Note 8) that the service line charges received from the consumers amounting to Rs.23.76 Crore is remained unadjusted and kept in deposit account. These service line charges are collected from the consumers and by deferring and

not treating as nontariff income will inflate the ARR by the same extent which tantamount to collection of the same from the consumers again through tariffs.”

3.577 The Petitioner has challenged the aforesaid issue before Hon’ble ATE in Appeal No. 290 of 2015. Without pre-judice to the contentions in the Appeal, the Petitioner has added the difference between the SLD Charges received during FY 2014-15 and FY 2015-16 appearing in the Other Income in the Audited Accounts for the purpose of computation of Non-Tariff Income as under:

Table 168: Difference on account of SLD (Rs. Cr.)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	Received during the year	60.00	59.00
B	SLD appearing in Other Income	49.00	54.00
C	Difference considered	11.00	5.00

COMMISSION’S ANALYSIS

3.578 The Commission has observed from the audited financial statements of FY 2014-15 and FY 2015-16 that the service line charges received from the consumers amounting to Rs. 11.09 Crore and Rs. 5.12 Crore respectively by the Petitioner. Therefore, as per the prevailing practice in previous Tariff Orders, the Commission has considered these amounts as part of Non-Tariff Income for the relevant year.

LATE PAYMENT SURCHARGE

PETITIONER’S SUBMISSION

3.579 The Petitioner has requested to allow Rs. 21.12 Crore and Rs. 19 Crore during FY 2014-15 and FY 2015-16 respectively to be retained as the same merely meets the financing cost of delay in payment.

COMMISSION’S ANALYSIS

3.580 As per judgment in Appeal No. 14 of 2012 of Hon’ble APTEL :

“135. Delhi Commission has submitted that allowing financing cost for LPSC means allowing of additional working capital for the time period between the due date and the actual date of payment. Hence, financing cost of LPSC has to be at the same rate as that approved for working capital funding. The view

taken by the Delhi Commission is correct and need not be interfered with."

3.581 The Commission has approved the rate of interest of working capital at 10.44% for FY 2014-15 and 10.47% for FY 2015-16. In view of the judgment of Hon'ble APTEL, the Commission considers the financing cost at 10.44% for FY 2014-15 and 10.47% for FY 2015-16 and interest approved for funding of principal amount of LPSC for FY 2014-15 and FY 2015-16 indicated in the table as follows:

Table 169: Approved Funding of LPSC (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	LPSC Collected @ 18 %	25.03	26.98
B	Principal amount on which LPSC was charged (A/18%)	139.06	149.89
C	Interest Rate for funding of Principal of LPSC	10.44%	10.47%
D	Interest approved on funding of Principal amount of LPSC (B*C)	14.52	15.69
E	Net LPSC to be considered in NTI	10.51	11.29

REBATE ON POWER PURCHASE COST AND TRANSMISSION CHARGES

PETITIONER'S SUBMISSION

3.582 The Petitioner has submitted that since the actual rebate on power purchase and transmission charges has been deducted for the purpose of calculation of net power purchase cost, same ought to be deducted from Non-Tariff Income. Accordingly the Petitioner has deducted rebate on power purchase and transmission charges from Non-Tariff Income.

COMMISSION'S ANALYSIS

3.583 The Regulation 5.24 of the MYT Regulations, 2011 specifies that

"Distribution licensee shall be allowed to recover the net cost of power it procures from sources approved by the Commission,...
...assuming maximum normative rebate available from each source for payment of bills through letter of credit on presentation of bills for supply to consumers of Retail supply business".

3.584 Accordingly, the actual rebate earned by the Petitioner as per the audited financial statements for FY 2014-15 and FY 2015-16 is Rs. 26.21 Crore and Rs. 1.25 Crore respectively has been allowed to be reduced from Non Tariff Income.

WRITE-BACK OF MISCELLANEOUS PROVISIONS PETITIONER'S SUBMISSION

3.585 The Petitioner has referred the Commission's Tariff Order dated September 29, 2015 which did not consider the write-back of miscellaneous provisions as follows:

"3.354 The A&G expenses for the base year FY 2010-11 have been benchmarked for the purpose of MYT period FY 2012-13 to FY 2014-15 without adjusting provision for miscellaneous expenses. Thus, the Petitioner has been allowed O&M expenses on a normative basis without considering whether actually spent or provisioned. The Commission is of the view that the provisions written back are to be included in the Non-Tariff Income."

3.586 The Petitioner has further submitted that the aforesaid treatment is contrary to the statement of the same tariff order where the Commission has submitted as follows:

"4.199 The Commission has removed abnormal expenses such as provision for retirement of fixed assets, Loss on Sale/Discarding of Assets, Provision for Doubtful debts, Inventory of stores and spares written off, bad debts written off, transfer from opening provision of doubtful debts and has added lease rentals transferred from R&M expenses to the total A&G expenses as per submission of the Petitioner"

Particulars	2006-07	2007-08	2008-09	2009-10	2010-11
A&G expenses as per audited accounts	136.82	157.58	108.28	144.94	109.62
Less: Provision for retirement of Assets	-	-	-	14.48	12.29
Less: Loss on Sale/Discarding of Assets	1.18	2.25	223	0.22	2.88
Less: Provision for Doubtful Debts	76.05	91.99	41.14	-	20.24
Less: Bad Debts written off	-	-	-	-	199.59
Less: Inventory of Stores & Spares Written off	-	-	-	-	-
Less: Transfer from opening provision for doubtful debts	-	-	-	78.24	(199.59)
Less: Fines and Penalties inc under Sundry Expenses	-	-	-	1.68	-
Add: Lease Rentals transferred from R&M cost	1.57	1.55	2.42	1.54	1.55
Net A&G Cost	61.16	64.89	67.33	51.86	75.76

"

3.587 It is clear from the above extract that if the cost of the provisions were not considered by the Commission while projecting the A&G expenses, in any case, the revenue from any recovery under such provision cannot be added to the ARR.

3.588 The Petitioner has further referred the Commission's Tariff Order dated September 29, 2015 that has also reversed the write-back of excess provisions for doubtful debts allowed during the earlier period, i.e., FY 2007-08 to FY 2011-12. The extracts are reproduced as under:

"3.121 As per Regulation 5.23 of MYT Regulation 2007, the miscellaneous receipts from the consumers shall constitute non tariff income of the licensee. Write back of provision of doubtful debts related to recovery of debts forms part of miscellaneous receipts of the petitioner. The Commission is of the view that the target of AT&C loss has been fixed by considering the collection efficiency at 99.5% with a scope of 0.5% provisions for bad/doubtful debts. Therefore, any recovery on account of bad and doubtful debts shall constitute non tariff income of the licensee to the extent of 0.5% provision on debtors. Accordingly, the income on account of any such write back of provision for doubtful/bad debts is considered as Non tariff income."

3.589 The Petitioner has submitted that "... collection efficiency of 99.5% with a scope of 0.5% provisions for bad/ doubtful debts...." is factually inaccurate. By virtue of the billing lag which is inherent in an annual tariff re-determination, even if the collection efficiency were assumed to be 100%, even then the actual collection would still be in the range of 99% to 99.25%.

3.590 For FY 2014-15, the Petitioner has requested that income on account of write-back of provisions for doubtful debts should be allowed as Non-Tariff Income. Whereas, for FY 2015-16, the Petitioner has requested that income on account of write-back of provisions for doubtful debts should not be allowed as Non-Tariff Income.

COMMISSION'S ANALYSIS

3.591 The A&G expenses for the base year FY 2011-12 have been benchmarked for the purpose of MYT period FY 2012-13 to FY 2015-16 on the basis of A&G Expenses indicated in the Audited Financial Statement without considering whether the amount has been actually spent or provisioned. Therefore, the Commission is of the view that the provisions written back are to be included in the Non Tariff Income.

SHORT TERM GAIN**PETITIONER'S SUBMISSION**

3.592 The Petitioner has requested the Commission to allow him to retain the income on account of the funds of the Petitioner parked in Debt Service Reserve Account (DSRA) of Rs. 10.12 Cr and Rs. 3.00 Cr. for FY 2014-15 and FY 2015-16 respectively as the cost incidental to the same has not been allowed in the ARR.

COMMISSION'S ANALYSIS

3.593 The Petitioner has submitted that Short term gain is on account of interest received on fixed deposits maintained by the Petitioner as margins kept with the funding agency for loans availed. Therefore, the Commission is of the view that interest on these fixed deposits should be allowed to be reduced from the Non-Tariff Income as Rs. 10.12 Cr. and Rs. 3.00 Cr. for FY 2014-15 and FY 2015-16 respectively.

RECOVERIES FROM EMPLOYEES**PETITIONER'S SUBMISSION**

3.594 The Petitioner has mentioned that the recoveries from employees include mobile bill, bill on account of data-card etc. Since, the Commission is allowing the O&M Expenses on normative basis, income on account of recoveries from employees ought to be deducted from Non-Tariff Income.

COMMISSION'S ANALYSIS

3.595 The Commission has allowed O&M expenses on a normative basis and as per MYT Regulations, 2011 and under/over recovery on account of O&M Expenses is to the account of the Petitioner. Therefore, the recoveries from employees on account of mobile bill, data-card bill etc. are allowed to be reduced from Non Tariff Income as Rs. 0.02 Cr. and Rs. 0.01 Cr. for FY 2014-15 and FY 2015-16 respectively.

TRANSFER FROM CONSUMER CONTRIBUTION AND CAPITAL WORKS**PETITIONER'S SUBMISSION**

3.596 The Petitioner has submitted that the Commission in Tariff Order dated 29/09/2015 allowed transfer from consumer contribution for capital works to be reduced from

NTI for FY 2013-14 for the other DISCOMs. In view of the above, the Petitioner requests the Commission not to consider this amount as Non-Tariff Income during FY 2014-15 and FY 2015-16.

COMMISSION'S ANALYSIS

3.597 The Commission is of the view that the consumer contribution is not considered for calculation of depreciation and RoCE and the Petitioner is making book adjustments in compliance of accounting standards and has no impact on cash flows. Therefore, amount transferred from Consumer contribution and capital works are allowed to be reduced from Non-Tariff Income.

INCOME ON ACCOUNT OF BAD DEBTS RECOVERED

PETITIONER'S SUBMISSION

3.598 The Petitioner has submitted that the Commission in its Tariff Order dated September 29, 2015 ruled as under:

"3.351 As per Regulation 5.35 of MYT Regulations, 2011, all incomes being incidental to electricity business and derived by the Licensee shall constitute non-tariff income of the Licensee.

3.352 The Petitioner has submitted that any amount recovered as bad debts is an energy income which is required to be included in the amount collected during the year as the same is received against the amount billed in the previous years. The amount billed and collected in previous years has already been considered for the purpose of AT&C loss calculation during respective years. However, the Petitioner has not indicated separately category wise details of the amount collected on account of bad debt recovered in its audited financial statement for FY 2013-14. Therefore, the bad debts actually recovered by the Petitioner under the head 'other income' as indicated in the audited financial statement of FY 2013-14 are considered under non tariff income."

3.599 The Petitioner has submitted that the treatment rendered by the Commission leads to double accounting of the same income. It is further submitted by the Petitioner that vide letter dated April 10, 2015 the Auditor Certificate duly certifying that the

income on bad debts recovered is a part of normal collection. The Petitioner has further submitted that the accounting treatment of income recovered on account of bad debts is similar to transfer of consumer contribution for capital works.

3.600 The Petitioner has requested the Commission to not consider income recovered on account of bad debts as NTI.

COMMISSION'S ANALYSIS

3.601 The Petitioner has submitted that any amount recovered as bad debts is an energy income which is required to be included in the amount collected during the year as the same is received against the amount billed in the previous years. The amount billed and collected in previous years has already been considered for the purpose of AT&C loss calculation during respective years. It is observed that the amount recovered from the bad debts written off by the Petitioner is part of total collection for the relevant year has also been indicated under the head 'other income' in the audited financial statement of FY 2014-15 and FY 2015-16. Therefore, the Income on account of bad debts recovered is reduced from Non Tariff Income.

SALE OF SCRAP

PETITIONER'S SUBMISSION

3.602 The Petitioner has submitted that Commission did not allow the recoveries from sale of scrap to be retained by the Petitioner as under:

"3.344 In view of the MYT Regulation 2011 as quoted above, all incomes incidental to electricity business and derived by the Licensee from sources including but not limited to profit derived from disposal of assets is to be included in the NTI. Further, the receipts from sale of scrap have not been adjusted while determining O&M expenses of the base year. Therefore, the amount on account of sale of scrap is considered in Non tariff Income.

3.603 The Petitioner has further submitted that the Commission has ignored the fact that MYT Regulations, 2011 also provides for all legitimate expenses. The Petitioner understands that the MYT Regulations, 2011 cannot be read in isolation such that all costs incidental to electricity business are not recovered but all incomes incidental to electricity business are considered for the purpose of ARR. It is a settled principle

that any investment on assets by the Petitioner is required to be recovered from the consumers. Any investment by the Petitioner cannot be left unrecovered as same tantamount to violation of ensured return on equity in electricity business.

3.604 The Petitioner has requested that as per above Regulation, the depreciation is required to be allowed only on the assets funded through equity and debt subject to maximum value of 90% of the total cost of assets and rest 10% of the value is required to be recovered through income from scrap.

3.605 The Petitioner has submitted that in case income from sale of scrap is passed to the consumers, then the same will effectively reduce the rate of return on equity. For example: An asset of Rs. 100 is funded through debt-equity in ratio of 70:30 respectively. The Petitioner shall be able to recover only 90% of the total asset value, i.e., Rs. 90 and rest Rs. 10 will be residual value. Now the residual asset is sold at Rs. 5 which becomes income from scrap. This Rs. 5 ought to be utilized in the recovery of unrecovered residual value otherwise same will reduce return on equity of the Petitioner.

COMMISSION'S ANALYSIS

3.606 As per DERC MYT Regulations 2011, clause 5.35,

"All incomes being incidental to electricity business and derived by the Licensee from sources, including but not limited to profit derived from disposal of assets, rents, net late payment surcharge (late payment surcharge less financing cost of late payment surcharge), meter rent (if any), income from investments, income on investment of consumer security deposit and miscellaneous receipts from the consumers shall constitute Non-Tariff Income of the Licensee."

3.607 It is observed that Petitioner submission is contrary to the accounting principle specified by the Institute of Chartered Accountants of India in Accounting Standard (AS) 10 for treatment of disposal of fixed asset. As per AS 10 only gains or losses arising on disposal of fixed assets are generally recognised in the profit and loss statement and not the whole sale proceeds as follows:

"14.3 In historical cost financial statements, gains or losses arising on disposal

are generally recognised in the profit and loss statement.”

3.608 The Petitioner has submitted the audited financial statement indicating sale of scrap under the head other income and it is also pertinent to state that the audited financial statement has been prepared by the auditors in accordance with the applicable accounting standards prescribed in the Companies (Accounting Standards) Rules 2014 issued by the Central Government. Therefore, the amount on account of sale of scrap of Rs. 9.61 Cr. and Rs. 7.00 Cr. indicated in audited financial statement for FY 2014-15 and FY 2015-16 respectively has not been reduced from Non tariff Income.

COMMISSION ON ELECTRICITY DUTY

PETITIONER'S SUBMISSION

3.609 The Petitioner has submitted that as an agent on behalf of Municipal Corporation of Delhi (MCD), it collects and pays to the MCD the Electricity Duty. For undertaking this activity, there is incidence of use of assets and facilities of the licensed business towards collection of the Electricity Duty. As such this collection activity is a separate business and optimally utilizes the assets of the Petitioner. Section-51 of the 2003 Act, as well as, Delhi Electricity Regulatory Commission (Treatment of Income from Other Business of Transmission Licensee and Distribution Licensee) Regulations, 2005 permits the Petitioner to engage in any other business for optimal utilization of its assets.

3.610 The Petitioner has added that to perform in-house operations also for which the Petitioner is required to incur additional O&M Expenses. Some of these in-house activities involve maintenance of records regarding Electricity Duty (Amount of Electricity Billed, Collected, Outstanding, Paid to GoNCTD etc.), cash-handling activities, interaction with GoNCTD, etc. which involves cost. The Petitioner incurs security and conveyance expenses towards transfer of money. Additionally, the Petitioner has also engaged various collection agencies for which the Petitioner has to pay service charges for such engagement. All these expenses are not being allowed by Commission since O&M Expenses are allowed on a normative basis. It is further submitted that the commission on collection of Electricity Duty is being provided as compensation in lieu of the Petitioner's efforts in collecting and

accounting and other services rendered by the Petitioner to GoNCTD. The Petitioner has submitted that, therefore, the Income from commission received on account of collection of Electricity Duty ought to be deducted from Non-Tariff Income.

COMMISSION'S ANALYSIS

3.611 The Commission is of the view that collection of electricity duty is not a separate function/job and electricity duty is collected with electricity bills as normal collection of electricity dues billed by the Petitioner. Therefore, the Petitioner's Submission that there is extra cost on account of collection of electricity duty is neither indicated in the audited financial statement nor justified. Accordingly, amount on account of Commission on Electricity Duty of Rs. 11.27 Cr. and Rs. 11.00 Cr. indicated in audited financial statement for FY 2014-15 and FY 2015-16 respectively has not been reduced from Non Tariff Income.

INTEREST ON INTER-COMPANY LOANS

PETITIONER'S SUBMISSION

3.612 During FY 2014-15, the Petitioner offered loan to BYPL which otherwise would have been borrowed by BYPL from some other bank/ financial institution. Such interest earned is on account of inter-company transfer and is not incidental to electricity business. As per MYT Regulations, 2011, the interest on loans borrowed by the Petitioner is only allowed as part of ARR. Therefore the interest on loans given to BYPL is not covered in ARR.

3.613 The Petitioner offered loan to BYPL which otherwise would have been borrowed by BYPL from some other bank/ financial institution. The Petitioner has not claimed the cost of such a loan in its ARR and the interest earned should not be deducted from its ARR as a non tariff income. Such interest earned is on account of inter-company transfer and is not incidental to electricity business. Usage of the funds available to the Petitioner in the form of equity is in terms of Regulation-5.35 proviso is specifically excluded from Non-Tariff Income. Under those circumstances, the interest earned on the loan given by the Petitioner from its equity cannot be shared by regulated business of the Petitioner. The aforesaid principle of demarcation is well recognized by this Hon'ble Tribunal in a catena of Judgments specifically in Income

Tax starting from Judgment dated April 4, 2007 in Appeal No. 251 of 2006 which is carry forth all the way upto the Judgment dated November 28, 2013 in Appeal No.138 of 2012.

3.614 In all those Judgments it has been categorically stated that the licensed business must be treated as a water tight compartment and only the expenses and revenue of the business are form as a business activity and statement of affairs of the licensed business. Hence, no part of an unlicensed and an unrelated activity could form either a cost component or a revenue component in the ARR.

3.615 Therefore the Petitioner has requested the Commission to allow the Petitioner to retain the interest earned on inter-company loans.

COMMISSION'S ANALYSIS

3.616 It is observed from the audited balance sheet of the petitioner that the actual equity available for funding of fixed assets is lesser than the normative equity of 30%. Therefore, petitioner was not in a situation to offer loan to any company. Since, actual equity is lesser than normative equity therefore the amount of loan offered to BYPL is undoubtedly pertains to BRPL. In view of above the Commission decides to include interest earned on intercompany loan in to NTI.

INTEREST ON LOANS AND ADVANCES TO STAFF PETITIONER'S SUBMISSION

3.617 As per Clause-5.14 and Clause-5.15 of DERC Tariff Regulations, 2011, the Petitioner is earning interest on loans utilised for the purpose of funding capital expenditure on RoCE whereas the loans and advances to staff are not covered under the loans utilised for the purpose of funding capital expenditure. Therefore the Petitioner requests the Commission to allow the interest on loans and advances to staff to be retained by the Petitioner.

COMMISSION'S ANALYSIS

3.618 The funds used as loans and advances to staff and recoveries from employees are funded out of the distribution business funds on which the Petitioner is earning RoCE. The Commission is of the view that such recoveries or interest paid by the staff

shall be included in the non tariff income.

INTEREST ON CONTINGENCY RESERVE**PETITIONER'S SUBMISSION**

3.619 The Petitioner has claimed that interest on contingency reserve of Rs.2.69 Crore and Rs. 2.00 Crore for FY 2014-15 and FY 2015-16 respectively be excluded from NTI.

COMMISSION'S ANALYSIS

3.620 The Commission held the view that since the contingency reserve has been set off against the revenue gap during FY 2010-11 and the interest on the contingency reserve investments received by the Petitioner may be retained by the Petitioner. Accordingly, the interest on contingency reserve of Rs. 2.69 Crore and Rs. 2.00 Crore for FY 2014-15 and FY 2015-16 respectively is allowed to be reduced from NTI.

PENALTIES FROM CONTRACTORS**PETITIONER'S SUBMISSION**

3.621 The Petitioner has submitted that the Commission has ignored the fact that the penalty from contractors is recovered on account of delay in implementation of various schemes. Delhi Electricity Supply Code and Performance Standards is applicable to assess the performance of the Licensee. If there is any deviation in standards of performance due to the delay in implementation of various schemes, the Petitioner is required to pay compensation to the consumers. This amount of compensation paid to the consumers is not allowed by the Commission in the ARR/ Tariff and has to be entirely borne by the Petitioner.

3.622 Further in case delay in execution of any scheme is resulting in non-achievement of specified AT&C targets, normative revenue is considered by the Commission for the computation of revenue gap. Therefore the consumers are facing any disadvantage due to delay in works executed by the contractors.

3.623 Hence, the penalties from contractors ought not to be treated as Non-Tariff Income and allowed to be retained by the Petitioner as a back to back arrangement since due to the default on the part of the contractors it is the Petitioner which is liable to pay compensation to the consumers.

COMMISSION'S ANALYSIS

3.624 The Commission believes that imposing penalty on contractor is a part of contracting activity. And contracting activity pertains to the business for which petitioner is holding license. Therefore, any income resulting due to such contracting activity should be considered as income aroused from an activity, which is incidental to electricity business. In view of this, the Commission has decided to retain such penalties from contractors as non tariff income.

INCOME FROM OTHER THAN LICENSED BUSINESS**CONSULTANCY BUSINESS****PETITIONER'S SUBMISSION**

3.625 The Petitioner has engaged its existing manpower, additional new manpower as well as external consulting firm to render consultancy services to Ethiopian power sector. For rendering said consultancy services, the Petitioner has spent certain amount towards domestic and international airfare, boarding and lodging, long distance fares etc. and towards incentivizing the existing manpower, engaging additional new manpower as well as towards the fees of external consulting firm. After adjusting these expenses the net income remaining with the Petitioner is Rs. 4.02 Crore.

3.626 The Petitioner has submitted that Rs. 13.44 Crore was earned from consultancy business for the FY 2014-15 and has prayed that out of this amount, 1/3rd may be transferred to the consumers and 2/3rd may be allowed to be retained by the Petitioner.

3.627 For the FY 2015-16 Rs 11.00 Crore was earned from consultancy business and has prayed that entire income of Rs. 11.00 Crore on account of consultancy business may be allowed to be retained by the Petitioner.

COMMISSION'S ANALYSIS

3.628 As per the Regulation 5.37 of the MYT Regulations, 2011 the income from other business shall be calculated as per "DERC Treatment of Income from other business of Transmission Licensee and Distribution Licensee Regulations, 2005". The Regulation 5 (5) of DERC Treatment of Income from other business of Transmission

Licensee and Distribution Licensee Regulations, 2005, specify that the licensee shall retain 20% of the revenues arising on account of other business and pass on the remaining 80% of the revenues to the regulated business.

3.629 Accordingly, 80% of net income of Rs. 13.44 Crore and Rs 11.00 for FY 2014-15 and FY 2015-16 received by the Petitioner from the consultancy services i.e., Rs. 10.75 Crore and Rs. 8.80 Crore for FY 2014-15 and FY 2015-16 respectively is treated as income from other business, and 20% of the net income i.e. Rs. 2.69 Crore and Rs. 2.23 Crore for FY 2014-15 and FY 2015-16 respectively is allowed to be retained by the Petitioner.

STREET LIGHT MAINTENANCE BUSINESS

PETITIONER'S SUBMISSION

3.630 The Petitioner has submitted that the responsibility of maintaining street light is not contained in the Licence of the Petitioner. The Electricity Act 2003 does not mandate the Distribution Licensee to maintain Street Lights.

3.631 The Petitioner has submitted that the determination of rates and scope of work by the Commission does not mean that maintenance of streetlights fall under Licensed Activity and is a part of regulated business. The scope of work and determination of rates by the Commission has helped MCD and the Petitioner to reach at consensus.

3.632 Therefore, the Petitioner is maintaining Street Lights not as an obligation under Licensed Business but on behalf of road owning agencies, viz. MCD, NHAI, PWD in the areas comprising South and West Delhi.

COMMISSION'S ANALYSIS

3.633 The Commission in its Order dated March 5, 2004 regarding directions for street lighting in the areas of MCD has stated as follows:

"11. ... The best way doing this would be to have an in-built system of providing incentives in case of good performance and likewise, impose penalties in case the performance is lower than expectations..."

➤ *The Commission would like to evolve a system whereby good performance is rewarded. Similarly, poor performance also needs to be discouraged and therefore, the Commission directs that full maintenance charges may be paid*

for 90% performance. Performance higher than 90% shall earn an incentive for the DISCOMS according to the following table:

Performance level achieved	Incentive	Example
Between 90-95%	1% for each percentage in over achievement from target of 90%	Actual Performance 93% Incentive $93-90 = 3\%$
Between 95 - 97%	1.5% for each percentage in over achievement from target of 95%	Actual Performance 97% Incentive $= 5+3 = 8\%$
Above 97%	2.0% for each percentage in over achievement from target of 97%	Actual Performance 99% Incentive $= 8+4 = 12\%$

Performance less than 90% shall attract disincentive for the DISCOMS according to the following table:

Performance level achieved	Disincentive	Example
Between 80-90%	1% for each percentage in shortfall to achieve target of 90%	Actual Performance 83% Disincentive $90-83 = 7\%$
Between 70 - 80%	1.5% for each percentage in shortfall to achieve target of 80%	Actual Performance 77% Disincentive $= 10+4.5 = 14.5\%$
Below 70%	2% for each percentage in shortfall to achieve target of 70%	Actual Performance 60% Incentive $= 25+20 = 45\%$

The incentive or disincentive would not be a pass through in the calculation of the Annual Revenue Requirement and the payment would be made by the 15th day of the following month."

3.634 The Commission in its Tariff order dated 23/07/2014 has already clarified that income from street light maintenance is part of other income of regulated business. Further, the expenses incurred on account of this activity are part of O&M expenses of the base year. Therefore, no separate expenses are permissible under this head.

3.635 Further, the Commission had directed the Petitioner in Tariff Order dtd. 29/09/2015 to provide details of the incentive earned on account of street light maintenance which shall be allowed to be retained by the Petitioner. However, the Commission observes that there is no separate line item for incentive earned on street light maintenance in Note 25 of the audited financial statements of FY 2015-16 as claimed by the Petitioner.

3.636 The Petitioner has claimed that total income from street light maintenance business is Rs. 28.18 Cr and Rs. 11.00 Cr. in FY 2014-15 and FY 2015-16 respectively. However,

it is pertinent to state that in Note 26 of the audited financial statements of FY 2015-16 under the head "street light maintenance and material charges indicated as Rs. 12.00 Cr. and Rs. 14.89 Cr. only. It is also observed that there is no mention of incentive on street light maintenance in the notes to the audited financial statement whereas income from street light maintenance has been indicated as net of the material charges incurred on the street light maintenance. Therefore, the Commission has not considered the amount for Street Light Maintenance Business as Other Business Income of the distribution business and it has been treated as part of non tariff income of the Petitioner.

3.637 Based on the above analysis and deliberations, the Commission has approved the amount of Non Tariff Income summarized as follows:

Table 170: Non Tariff Income approved by the Commission (Rs. Cr.)

Sr. No.	Particulars	2014-15		2015-16	
		Petitioners projections	Now Approved	Petitioners projections	Now Approved

		Petitioners projections	Now Approved	Petitioners projections	Now Approved
14	Non Tariff Income	134.05	169.34	142	188.18

CAPITAL EXPENDITURE AND CAPITALISATION**PETITIONER'S SUBMISSION**

3.638 The Petitioner has submitted Capitalisation during the year as Rs. 245 Cr. and Rs. 262 Cr. for FY 2014-15 and FY 2015-16 respectively. Further, the Petitioner has submitted De-Capitalisation during the year as Rs. 20 Cr. and Rs. 46 Cr. for FY 2014-15 and FY 2015-16 respectively.

COMMISSION'S ANALYSIS

3.639 The Commission has considered closing GFA for FY 2013-14 as approved in the Tariff Order dtd. 29/09/2015 as opening GFA for FY 2014-15.

3.640 As per Audited Financial statements for FY 2014-15 and FY 2015-16, the Capitalisation, De-Capitalisation and Consumer Contribution is as follows:

Table 171: Audited Capitalisation, De-Capitalisation and Consumer Contribution (Rs. Crore)

Particulars	FY 2014-15	FY 2015-16
Capitalisation	337.62	383.06
De-Capitalisation	29.32	37.08
Consumer Contribution	67.40	80.54

3.641 In view of the pending physical verification of the fixed assets of the Petitioner, Capitalization for the purpose of true up has been considered provisionally based on audited financial statements for FY 2014-15 and FY 2015-16 as follows:

Table 172: GFA approved as per audited financial statements for FY 2014-15 & FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission		Trued up		Reference
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16	
A	Opening GFA	4,999.00	5,307.00	4,171.04	4479.34	
B	Additions during the year	337.62	383.26	337.62	383.26	
C	Decapitalisation	29.32	37.08	29.32	37.08	
D	Closing GFA	5,307.00	5,654.00	4,479.34	4825.52	(A+B-C)

MEANS OF FINANCE**PETITIONER'S SUBMISSION**

3.642 The Petitioner has submitted the financing of the capitalisation based on Debt : Equity detailed in the table as follows:

Table 173: Financing of new investment capitalised as submitted by Petitioner (Rs. Crore)

Particulars	FY 2014-15	FY 2015-16
Capitalisation	338.00	383.00
De-capitalisation	29.00	37.00
Consumers contributions	67.00	81.00
Balance Capitalisation	241.00	266.00
Equity	72.00	80.00
Loan	169.00	186.00

COMMISSION'S ANALYSIS

3.643 The Commission provisionally considers the audited financial statements and funding of capitalisation through equity and debt in the ratio of 30:70 in terms of Regulation 5.11 of the DERC MYT Regulations, 2011 as follows:

Table 174: Financing of new investment capitalised as approved by Commission (Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission		Trued up		Reference
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16

F	Loan	169.40	185.50	168.63	185.95	D*70%

DEPRECIATION

PETITIONER'S SUBMISSION

3.644 The Petitioner has submitted computation of Depreciation for FY 2014-15 and FY 2015-16 as follows:

Table 175: Computation of Avg. Rate of depreciation as submitted by petitioner (Rs. Cr.)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	Opening GFA	4,961	5,269
B	Closing GFA	5,269	5,615
C	Average of GFA	5,115	5,442
D	Average depreciation rate	3.54%	3.40%
E	Depreciation	181	186

COMMISSION'S ANALYSIS

3.645 Based on the provisionally approved Opening GFA, Capitalisation, De-Capitalisation and Consumer Contribution, provisional depreciation approved by the Commission for true up of FY 2014-15 and FY 2015-16 is as follows:

Table 176: Financing of new investment capitalised as approved by Commission (Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission		Trued up		Reference
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16	
A	Opening GFA	4961	5269	4171.04	4479.34	
B	Closing GFA	5269	5615	4479.34	4825.32	
C	Opening Consumer Contribution	394	462	449.59	516.99

F	Average GFA	5115	5442	4325.19	4652.43	(A+B)/2
G	Net GFA for Depreciation	4687	4939	3841.90	4095.17	(F-A)
H	Average depreciation rate	3.80%	3.79%	3.69%	3.70%	
I	Depreciation	178.11	187.21	141.77	151.52	(G*H)
J	Opening Accumulated Depreciation	1962.00	2135.00	1,667.93	1,788.96	
K	Closing Accumulated Depreciation	2135	2319	1,788.96	1,917.64	

WORKING CAPITAL

PETITIONER'S SUBMISSION

3.646 The Petitioner has submitted the computation of Working Capital Petitioner for FY 2014-15 and FY 2015-16 as follows:

Table 177: Working Capital Requirement as submitted by the Petitioner (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16	Reference
A	Annual Revenues from Tariff & Charges	8,219	7,713	
B	ARR equivalent to two months average	1,370	1,285	B/6
C	Power Purchase Expenses	6,942	6,389	
D	Less: 1/12 th of power purchase expenses	578	532	C/12
E	Working Capital	791	753	A1+B1-C1
F	Working Capital-Previous	581	791	
G	Change in Working Capital	210	-38	D-E

COMMISSION'S ANALYSIS

3.647 Regulation 5.14 and 5.15 of the MYT Regulations 2011 specifies that working capital shall consist of:

"For Wheeling business

(a) Receivables for two months of wheeling charges

For Retail supply business

(a) Receivables for two months of revenue from sale of electricity

(b) Less: Power purchase costs for one month

(c) Less: Transmission charges for one month, and

(d) Less: Wheeling charges for two months”

3.648 The Commission has computed the Working Capital considering the net power purchase cost including transmission charges and revenue available towards ARR as approved in the truing up for FY 2014-15 and FY 2015-16 as follows:

Table 178: Approved Working Capital Requirement for FY 2014-15 & 2015-16 (Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission		Trued up		Reference
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16	
A	ARR	8,219.00	7,713.00	7,598.77	8,147.22	
B	ARR equivalent to two months	1,370.00	1,285.00	1,266.46	1,357.87	A/6
C	Power Purchase Expenses	6,942.00	6,389.00	6,781.39	6,176.81	
D	Less: 1/12 th of Power Purchase Expenses	578.00	532.00	565.12	514.73	C/12
E	Working Capital	791.00	753.00	701.35	843.14	A+B-D
F	Working Capital-Previous	581.00	791.00	636.80	701.35	
G	Change in Working Capital	210.00	-38.00	64.54	141.79	E-F

REGULATED RATE BASE (RRB)

PETITIONER'S SUBMISSION

3.649 The Petitioner has submitted the Regulated Rate Base, Equity & Debt and RoCE for FY 2014-15 and FY 2015-16 detailed in the table as follows:

Table 179: Regulated Rate Base submitted for FY 2014-15 & FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	RRB - Base Year (Opening)	3,269	3,544
B	Change in RRB (Δ AB)	34	41
C	Investments capitalized	338	383
D	Depreciation for the year (incl. AAD)	174	184
E	Accumulated Depreciation on decapitalised asset	0	0
F	Consumer Contribution, Grants, etc for the year	67	81
G	Change in Working Capital	210	-36
H	RRB Closing	3,546	3,590
I	RRB (i)	3,513	3,549

COMMISSION'S ANALYSIS

3.650 The RRB has been computed based on provisional investment capitalised, depreciation, consumer contribution, depreciation on de-capitalized assets and

working capital requirements for FY 2014-15 and FY 2015-16 detailed in the table as follows:

Table 180: Approved Regulated rate base

Sr. No.	Particulars	Petitioner's Submission		Trued up		Reference
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16	
A	RRB Opening	3,269	3,544	2,756.49	2,940.91	
B	ΔAB (Change in Regulated Base)	34	41	124.48	198.85	
C	Investments Capitalized	338	383	308.3	346.18	
D	Depreciation on de-capitalised Assets			20.74	22.84	
E	Depreciation	174	184	141.77	151.52	
F	Consumer Contribution	67	81	67.40	80.54	
G	Change in working capital	210	-36	64.54	141.79	
H	RRB Closing	3,546	3,590	2,940.91	3,219.66	(A+B+G)
I	RRB (i)	3,513	3,549	2,880.97	3,139.76	(A+B/2+G)

WEIGHTED AVERAGE COST OF CAPITAL (WACC) & RETURN ON CAPITAL EMPLOYED (ROCE) PETITIONER'S SUBMISSION

3.651 The Petitioner has submitted RoCE and WACC considering the Rate of interest @ 14.25% and 14.00% for FY 2014-15 and FY 2015-16 respectively. Accordingly, WACC has been computed by the Petitioner detailed in the table as follows:

Table 181: Weighted Average Cost of Capital (WACC) submitted for FY 2014-15 and FY 2015-16

Sr. No.	Particulars	UoM	FY 2014-15	FY 2015-16
A	Average Debt	(Rs. Crore)	1,910	1,983
B	Average Equity	(Rs. Crore)	1,568	1,644
C	Total	(Rs. Crore)	3,513	3,549
D	Cost of Debt	%	14.25%	14.00%
E	Return on Equity	%	16.00%	16.00%
F	WACC	%	15.04%	14.91%
G	RRBi	(Rs. Crore)	3,513	3,549
H	RoCE	(Rs. Crore)	528	529

COMMISSION'S ANALYSIS

3.652 It is observed from the Audited Financial Statements that networth available for FY 2014-15 and FY 2015-16 is Rs. 1,357.42 Cr. and Rs. 1,424.88 Cr. against the requirement of Equity for net Capitalization (Average GFA – Average Accumulated Depreciation) funding of Rs. 2,601.04 Cr. and Rs. 2,781.74 Cr. Further, as per the directions of Hon'ble APTEL in its judgment in Appeal No. 153 of 2009, revenue gap should be funded in the ratio of debt: equity of 70:30.

3.653 It is observed that the State Bank of India base rate did not vary more than +/- 1%, as the same was 10% on 01.04.2012, 01.04.2014 and 01.04.2015. Therefore, the Commission has not trued up the rate of Interest on Loan for FY 2014-15 and FY 2015-16. Accordingly, WACC & RoCE has been computed for FY 2014-15 and FY 2015-16 as follows:

Table 182: Approved WACC and RoCE for FY 2014-15 and FY 2015-16

Sr. No.	Particulars	Petitioner's Submission		Trued up		Reference
		FY 2014-15	FY 2015-16	FY 2014-15	FY 2015-16	
A	RRB (i)	3,513	3,549	2,880.97	3,139.76	Table 159
B	Equity (limiting to 30% net capitalization)			650.78	688.99	
C	Average Equity balance as per net worth			1,326.21	1,391.15	
D	Equity now considered for WACC	1,568	1,644	650.78	688.99	Minimum (B,C)
E	Debt	1,910	1,983	2,230.19	2,450.77	A-D
F	Rate of return on equity (re)	16.00%	16.00%	16.00%	16.00%	
G	Rate of interest on debt (rd)	14.25%	14.00%	10.44%	10.47%	As per 2nd MYT Order
H	WACC	15.04%	14.91%	11.70%	11.68%	
I	RoCE	528	529	336.96	366.83	

INCOME-TAX

PETITIONER'S SUBMISSION

3.654 In accordance with above submissions, the Petitioner claimed the Income-Tax during FY 2014-15 and FY 2015-16 as follows:

Table 183: Income-Tax submitted for FY 2014-15 and FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	FY 2014-15	FY 2015-16
A	RRB (i)	3,376	3,549
B	Average Equity	1,517	1,644
C	Average Debt	1,808	1,983
D	% of Equity	46%	45%
E	Equity considered for Income Tax	1,540	1,609
F	Rate of Return on Equity	16%	16%
G	Return on Equity	246	257
H	Income Tax Rate	20.01%	20.96%
I	Income Tax	62	68

COMMISSION'S ANALYSIS

- 3.655 Regulation 5.32 of MYT Regulation 2011 specify that the income tax, if any liable to be paid on the licensed business of the distribution licensee shall be limited to tax on return on equity component of capital employed. Any additional tax other than this shall not be a pass through and it shall be payable by the Distribution licensee itself.
- 3.656 Regulation 5.33 specify that the actual assessment of income tax should take into account benefits of tax holiday and the credit for carry forward losses applicable as per the provisions of the Income Tax Act, 1961 shall be passed on to the consumers.
- 3.657 Regulation 5.40 specify that truing up shall be carried out in accordance with Regulation 4.21, for each year based on the audited information and prudence check by the Commission.
- 3.658 Conjoint reading of the above regulations explicitly specify that tax shall be considered in true up based on actual payment, subject to prudence check, duly taking into consideration the benefits of tax holiday and shall be limited tax on RoE.
- 3.659 It is observed from the audited financial statements that the Petitioner has made actual payment of Income Tax (MAT) of Rs. 31.08 Crore for FY 2014-15 and Rs. 14.46 Crore for FY 2015-16 which is lower than the Income Tax on return on Equity of Rs.52.24 Crore and Rs. 55.41 Crore for FY 2014-15 and FY 2015-16 respectively. Therefore, the Commission approves Income Tax of Rs. 31.08 Crore for FY 2014-15 and Rs. 14.46 Crore for FY 2015-16.

AGGREGATE REVENUE REQUIREMENT APPROVED FOR FY 2014-15 AND FY 2015-16

- 3.660 The ARR approved by the Commission in the truing up for FY 2014-15 and FY 2015-16 is summarized in the table as follows:

Table 184: ARR approved for FY 2014-15 (Rs. Crore)

Sr. No.	Particulars	Approved in Tariff Order dtd. 23/07/2014	Petitioner's submission	Now Approved	Reference
A	Power Purchase Cost (incl. Transmission charges)	5,944	6,955	6,781.39	
B	O&M Expenses	509	629	530.28

A4: ANALYSIS OF AGGREGATE REVENUE REQUIREMENT (ARR) FOR FY 2017-18**INTRODUCTION**

4.1 As per Regulation 3 of Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017. The Commission shall notify Business Plan Regulations for each Control Period based on the Business Plan submitted by the Utility which shall be read as part of these Regulations.

4.2 As per Regulation 4 of Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017, the Business Plan Regulations shall contain the following parameters applicable for a Control Period:

- (1) Rate of Return on Equity,
- (2) Margin for rate of interest on Loan,
- (3) Operation and Maintenance Expenses,
- (4) Capital Investment Plan,
- (5) Mechanism for sharing of incentive-disincentive mechanism,
- (6) Allocation of overhead expenses incurred on account of Administrative Expenditure out of Operation and Maintenance Expenses for creation of Capital Asset,
- (7) Generating Norms:
 - (a) Gross Station Heat Rate,
 - (b) Plant Availability Factor,
 - (c) Secondary Fuel oil consumption;
 - (d) Auxiliary consumption and
 - (e) Plant Load Factor;
- (8) Transmission Norms:
 - (a) Annual Transmission system availability;
 - (b) Annual Voltage wise Availability;
- (9) Distribution Norms:
 - (a) Distribution Loss Target;
 - (b) Collection Efficiency Target;
 - (c) Targets for Solar and Non Solar RPO;
 - (d) Contingency limit for Sale through Deviation Settlement Mechanism

(Unscheduled Interchange) transactions

(e) The ratio of various ARR components for segregation of ARR into Retail Supply and Wheeling Business.

- 4.3 The Petitioner has filed the Petition for determination of Aggregate Revenue Requirement (ARR) for FY 2017-18. The Commission has analysed the Petition submitted by the Petitioner for ARR for FY 2017-18 as required under the Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017.
- 4.4 In the process of ARR determination, the Commission held several prudence check sessions to validate the information submitted by the Petitioner and wherever required sought clarification on various issues. The Commission has considered all information submitted by the Petitioner as part of Tariff Petition, audited accounts for past years, response to queries raised during discussions and also during the Public Hearing for determination of ARR and Tariff for FY 2017-18.
- 4.5 This chapter contains detailed analysis of the Petition submitted by the Petitioner and the various parameters approved by the Commission for determination of ARR for FY 2017-18.

ENERGY SALES

PETITIONER'S SUBMISSION

- 4.6 The Petitioner has projected sales for each of the consumer category. Additionally, for the purpose of accurate projection of sales, the Adjusted Trend Analysis Method has also been considered. This method assumes the underlying factors which drive the demand for electricity are expected to follow the same trend as in the past. However, this approach also discounts any outliers (relative to the trend) observed in the growth rates over the period of 5 years and excludes them while projecting energy sales for each year of the control period.
- 4.7 The Adjusted Trend Analysis Method makes use of a statistical tool, namely the Compound Annual Growth Rate (CAGR) and, accordingly, Compound Annual Growth Rates (CAGRs) have been calculated from the past figures for each category, corresponding to different lengths of time in the past five years, along with the year on year growth rates from FY 2010-11 to FY 2015-16. The category-wise actual sales

since FY 2008-09 are as follows:

Table 186 : Actual sales from FY 2008-09 to FY 2015-16 (MU)

Sr. No.	Category	FY 09	FY 10	FY 11	FY 12	FY 13	FY 14	FY 15	FY 16

	Total	5.00%	4.14%	3.89%	3.86%	4.13%	3.20%

4.9 For forecasting the expected sales for each year of the control period, actual category-wise sales for FY 2015-16 have been considered (provisional figures for March 16) as base i.e. the chosen growth rate is applied over the sales for FY 2015-16. Subsequently to project the sales of each year, the chosen rates are applied upon the sales of preceding year to finally arrive upon the sales for FY 2020-21.

4.10 The category specific methodology adopted for projection of sales has been

elaborated as follows:

Table 188: Methodology adopted for projection of sales by the Petitioner for major categories

Sr. No.	Category	Remarks
A	Domestic	5 years
B	Non-Domestic	5 years
C	Industrial and Agriculture	Stagnant
F	Public Lighting	50% reduction in actual sales
G	DMRC	Increase of 25%

4.11 The Petitioner has projected the number of consumers, connected Load and Sales during FY 2017-18 as follows:

Table 189: Projected number of consumers, connected load and sales for FY 2017-18

Sr. No.	Category	Number of Consumers	Connected Load (MW)	Sales (MU)
A	Domestic	2028555	7755	6639
i	Domestic -other than A (ii)	2028315	7578	6463
ii	Single Delivery Point on 11 KV CGHS	240	177	176

COMMISSION'S ANALYSIS

4.12 The Petitioner has submitted the category wise energy sales and CAGR from FY 2008-09 to FY 2015-16 in their Tariff Petition. The Commission has approved sales

for FY 2017-18 considering trued up sales for the period FY 2009-10 to FY 2016-17.

The base year for projection of sales of FY 2017-18 has been considered as actual sales of FY 2015-16 as the audited Form 2.1(a) for FY 2016-17 was not submitted by the Petitioner. The category wise sales from FY 2008-09 to FY 2015-16 are indicated in the table as follows:

Table 190: Actual Sales from FY 2008-09 to FY 2015-16 (MU)

Sr. No.	Category	FY 2008-09	FY 2009-10	FY 2010-11	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16
1	Domestic	3515	4183	4509	4725	5076	5297	5737	5924
2	Non-Domestic	2417	2416	2538	2642	2759	2765	2827	2941

11	Adv. & Hoard.	-	-	-	-	-0.81%	-22.96%	156.56%

ESTIMATED SALES FOR FY 2017-18

4.14 The Commission has adopted an Adjusted Trend Analysis method for demand forecasting in FY 2017-18 which assumes the underlying factors driving the demand

for electricity to follow the same trend as in the past. Hence, the forecast is also based on the assumption that the past consumption trend will continue in the future.

4.15 The trend based approach has to be adjusted based on judgment on the characteristics of the specific consumer groups/categories.

4.16 The strength of the method, when used with balanced judgment, lies in its ability to reflect recent changes and therefore, probably best suited as a basis for short-term projection as used for the revenue projection in the context of ARR determination.

The category-wise sales forecast for FY 2017-18 is as discussed below:

DOMESTIC CONSUMERS

4.17 The consumption of energy by Domestic category constitutes about 56% of total sales in FY 2015-16. The Petitioner has projected sales of 6639 MU for FY 2017-18. The sales for FY 2016-17 has also been assumed based on the growth rate considered for projection of FY 2017-18. The growth rate for this category ranges from 3.25% to 7.74% from FY 2008-09 to FY 2015-16. Thus, the Commission considers growth rate of 5.28% (3 year CAGR from FY 2012-13 to FY 2015-16) for projecting the sales of 6566.32 MU for FY 2017-18 as it is considered to be realistic for Domestic consumers category.

NON-DOMESTIC CONSUMERS

4.18 The consumption of energy by Non-Domestic category constitutes about 28% of total sales in FY 2015-16. The Petitioner has projected sales of 3092 MU for FY 2017-18 at a growth rate of 2.25% (5 year CGAR of FY 2011-12 to FY 2015-16). The Commission considers the growth rate of 3.13% based on 2 year CAGR for projecting sales for FY 2017-18 as it is considered reasonable in view of the trend over the last 4 years. Therefore, the Commission approves the sales of 3128.51 MU for FY 2017-18 for Non-Domestic consumers.

INDUSTRIAL CONSUMERS

4.19 The consumption of energy by industrial consumers category constitutes about 2% of total sales in FY 2015-16. The Petitioner has projected the sales of 501 MU for FY

2017-18. The Commission has observed that there is declining growth rate since last 8 years. Thus, the Commission has also considered 3 year CAGR of -2.25% for projection of sales in this category and approves the sales of 479.14 MU for FY 2017-18.

PUBLIC LIGHTING

4.20 The consumption of energy in the Public Lighting category constitutes about 1.67% of total sales in FY 2015-16. By considering reduction in actual sales due to replacement of Halogen Street lights with energy efficient LED lights. It is observed that the consumption of this category is now on a declining trend due to replacement of Halogen Street Lights with energy efficient LED lights. Therefore, the Commission has considered the growth rate of 1 year CAGR at -6.71 % and projected the sale at 152.51 MU for FY 2017-18.

AGRICULTURE & MUSHROOM CULTIVATION

4.21 The power consumption for these two categories has been almost constant during last 4 years. The Petitioner has projected 16 MU for FY 2017-18 at growth rate of 1.42 % (2 year CAGR). The Commission has considered 2 year CAGR (1.42 %) for projected sales of FY 2017-18 which is 16.39 MU.

RAILWAY TRACTION

4.22 The sale of Railway Traction constitutes about 0.38% of total sales by the Petitioner during FY 2015-16. The Commission had sought from Railways about its projected quantum of purchase of power for traction load in the Petitioner's area of supply. Railway Department vide its letter No.56-Elect/TRD/222/ dated 16/01/2017 has intimated the projected purchase of 25 MU during FY 2017-18. Thus, the Commission has considered the quantum of sale at 25 MU as projected by Railways (Traction) for FY 2017-18.

DELHI METRO RAIL CORPORATION (DMRC)

4.23 The sale to DMRC constitutes about 2.65% of total sales by the Petitioner during FY 2015-16. The Commission had sought from DMRC about its projected quantum of

purchase in the Petitioner's area of supply vide its letter dated 23/12/2016 and 25/04/2017. DMRC vide its letter no. DMRC/DERC/Tariff/17 dated 08/05/2017 has intimated the projected purchase of 307.05 MU during FY 2017-18. Thus, the Commission has considered the quantum of sale at 307.05 MU as projected by DMRC for FY 2017-18.

DELHI INTERNATIONAL AIRPORT (P) LIMITED (DIAL)

4.24 The sale to DIAL constitutes about 2.12% of total sales by the Petitioner during FY 2015-16. The Commission had sought from DIAL about its projected quantum of purchase in the Petitioner's area of supply vide its letter dated 21/12/2016. DIAL vide its letter no. DIAL/P&E/2017-18/200 dated 26/04/2017 has intimated the projected purchase of 286.54 MU during FY 2017-18. Thus, the Commission has considered the quantum of sale at 286.54MU as projected by DIAL for FY 2017-18.

DELHI JAL BOARD (DJB)

4.25 The consumption of energy by DJB constitutes about 2.03% of total sales in FY 2015-16. The Commission vide its letter dated 23/12/2016 had sought from DJB about its projected quantum of purchase in the Petitioner's area of supply. DJB vide its letter No. DJB/FIN/DD-I/Power/2016-17 dated 16/01/2017 has intimated the projected purchase at 293.38 MU during FY 2017-18. Thus, the Commission has considered the quantum of sales at 293.38 MU as projected by DJB for FY 2017-18.

OTHER CATEGORIES

4.26 Other categories consist of places of worship, hospitals (Domestic Category) DVB Staff, enforcement, own consumption, temporary connections and advertisement & hoardings. The nature of sale in other categories do not fall the past CAGR trends in the future. Thus, the Commission has considered the quantum of sales to such other categories at 196.04 MU at the same level during FY 2015-16 with some growth in advertisement & hoardings.

4.27 On the basis of above analysis, the Commission approves the energy sales for the Petitioner for FY 2017-18 as follows:

Table 192: Approved Sales by the Commission for FY 2017-18 (MU)

Sr. No.	Category	Petitioner's Submission	Approved for FY 2017-18
1	Domestic	6639	6566.32
2	Non-Domestic	3092	3128.51
3	Industrial	501	479.14
4	Agriculture	16	16.39
5	Mushroom	0	0.11
6	Public Lighting	139	152.51
7	DJB	226	293.38
8	DIAL	0	286.54
9	Railway Traction	0	25.00
10	DMRC	435	307.05
11	Others*	22	196.04
12	Total	11,070	11,450.99

*Others includes Staff, Place of worship, Enforcement, Own consumption, Temporary Supply and Advertisement & Hoardings and DVB Staff.

REVENUE ESTIMATED FOR FY 2017-18 AT EXISTING TARIFF PETITIONER'S SUBMISSION

4.28 The Petitioner has estimated total revenue for FY 2017-18 as Rs. 7964 Crore at existing tariff for energy sales of 11,070 MU.

COMMISSION'S ANALYSIS

4.29 As per the two-part tariff principle followed in the NCT of Delhi, the tariff for each category consists of fixed/demand charges as well as energy charges. The fixed/demand charges are specified for different categories as a fixed amount per month or as a fixed amount per kW of sanctioned load per month. The energy charges, on the other hand, are always usage-based and are specified per unit of electricity consumed.

4.30 For Domestic consumers with sanctioned load less than 5 kW, the revenue from fixed charges is calculated by multiplying the corresponding fixed charge with the number of consumers in that particular tariff slab. For Domestic consumers with sanctioned load exceeding 5 kW, the revenue from fixed charges is calculated by multiplying the specified fixed charge with the connected load (in kW) of the category. For calculation of revenue from energy charges, the actual usage is multiplied by the applicable tariff category slab.

4.31 For Non-Domestic, Industrial, Railway Traction, DMRC and DJB categories, billing is done either on kW or kVA basis, as specified in the approved tariff schedule for FY 2015-16. Since projections for FY 2017-18 are done only on kW basis for sanctioned

load and on kWh basis for energy sales, wherever the tariff is specified in kVA/kVAh terms, the relevant kW/kWh projection is divided by the Power Factor in order to obtain the corresponding kVA/kVAh projection. Thereafter, revenue from demand charges is calculated by multiplying the demand charge of each tariff slab with the sanctioned load of that slab, while revenue from energy charges is calculated by multiplying the energy charges specified for each tariff slab with the energy consumption projected for that slab.

- 4.32 The Power Factor considered by the Commission for different categories is shown below:

Table 193: Power Factor considered by the Commission

Sr. No.	Consumer category slab	Power Factor
1	Non Domestic Low Tension (NDLT)	
A	Up to 10 kW	0.89
B	10-100 kW	0.93
C	Above 100 kW	0.93
2	Non Domestic High Tension (NDHT)	0.95
3	Small Industrial Power (SIP)	
A	10-100 kW	0.91
B	Above 100 kW	0.93
4	Large Industrial Power (LIP)	0.97
5	Railway Traction	0.94
6	DMRC	1.00
7	DJB	0.88

- 4.33 Based on the Petitioner's data of Sanctioned Load, Number of Consumers, Sales and the Power Factor, the Commission has estimated the total revenue of Rs. 8,416.41 Crore to be billed in FY 2017-18. The category-wise breakup of revenue estimated by the Commission on sale of 11,451 MU for FY 2017-18 is indicated in the table as follows:

Table 194: Revenue estimated by the Commission for FY 2017-18 (Rs. Crore)

Sr. No.	Category	Fixed Charges	Energy Charges	Total Revenue
1	Domestic	216.85	3,643.54	3,860.39
2	Non-Domestic	361.59	2,814.43	3,176.02
3	Industrial	38.45	399.74	438.19
4	Agriculture	0.48	4.51	4.99
5	Mushroom Cultivation	0.00	0.06	0.06
6	Public Lighting		111.33	111.33
7	DJB	17.69	246.92	264.61
8	DIAL	9.23	226.37	235.60
9	Railway Traction	2.44	18.09	20.53

Sr. No.	Category	Fixed Charges	Energy Charges	Total Revenue
10	DMRC	7.71	187.30	195.01
11	Adv. & Hoardings	0.65	4.92	5.57
12	Others	7.40	96.71	104.11
13	Total	662.50	7,753.91	8,416.41
14	Revenue at 99.50% Collection Efficiency			8374.33

DISTRIBUTION LOSS**PETITIONER'S SUBMISSION**

4.34 The Petitioner has submitted that targets for individual DISCOMs were set based on the consensus emerged during the Power Minister's conference at Guwahati in April, 2015 with an objective of achieving AT&C loss of 15% at National level by FY 2019-20. The figure prepared by the Ministry of Power was also reiterated by the GoNCTD vide its letter dated June 10, 2015 so that all stakeholders in Delhi can work towards achieving the same.

4.35 Therefore, the Petitioner has proposed to follow the same trajectory for FY 2017-18.

Table 195: Distribution Loss for FY 2017-18

Sr. No.	Particulars	FY 2017-18
A	T&D Losses	12.0%
B	Collection Efficiency	99.5%
C	AT&C Loss	12.4%

COMMISSION'S ANALYSIS

4.36 The Commission has fixed the targets for Distribution Loss in its Business Plan Regulations, 2017 as 10.93% for FY 2017-18, which has been considered for computation of energy requirement for FY 2017-18 of the Petitioner.

ENERGY REQUIREMENT**PETITIONER'S SUBMISSION**

4.37 Based on the above AT&C loss trajectory, the estimated energy requirement based on the sales and distribution loss as per the aforesaid discussion is tabulated as follows:

Table 196: Energy Requirement for FY 2017-18 as submitted by the Petitioner

Sr. No.	Particulars	Unit	FY 2017-18
A	Energy sales	MU	11070
B	Distribution Loss	%	12.0%
C	Energy Requirement	MU	12583
D	Distribution Loss	MU	1513

COMMISSION'S ANALYSIS

- 4.38 The Commission has computed the energy requirement at the Distribution Periphery of the Petitioner for FY 2017-18 considering the sales approved for FY 2017-18 and Distribution loss at 10.93%. The approved energy requirement is summarized in the table as follows:

Table 197: Energy requirement approved for FY 2017-18

Sr. No.	Particulars	Unit	Approved Energy Requirement	Remarks
A	Energy sales	MU	11450.99	Table 192
B	Distribution Loss	%	10.93%	
C	Energy Requirement	MU	12856.17	(A/(1-B))
D	Distribution Loss	MU	1405.18	(C-A)

POWER PURCHASE**PETITIONER'S SUBMISSION**

- 4.39 The Petitioner sources the power through a mix of long term and short term sources to meet the demand of Delhi. Long term sources include Central Generating Stations (owned by Central Government) and State Generating Stations (owned by State Government). The Petitioner has been assigned by the Hon'ble Commission share based on the PPAs which have been inherited from Delhi Transco Limited. The allocation of power within Delhi is being done by the Hon'ble Commission.
- 4.40 The total share, plant load factor, energy available in Delhi and Petitioner's share is tabulated as follows:

Table 198: Energy Requirement for FY 2017-18

COMMISSION'S ANALYSIS

4.41 Power purchase cost is the single largest component of ARR of a distribution licensee. It is pertinent to estimate the power purchase cost with utmost care based on the optimum method of procuring power from the generating stations.

ALLOCATION OF POWER FROM CENTRAL SECTOR AND STATE SECTOR GENERATING STATIONS

4.42 Delhi has a firm allocated share in Central Sector Generating Agency (CSGS), State Generating Stations (SGS) and other stations. The Commission has considered the allocation of firm power as per the allocations specified in Intra-state ABT based energy account for the month of May, 2017 dated 07/06/2017 issued by Delhi SLDC.

4.43 The distribution of unallocated quota from the various plants varies from time to time and is based on power requirement and power shortage in different States. Therefore, the Commission has not considered any power from unallocated quota for FY 2017-18.

4.44 The Commission has examined the quantum of power purchase proposed by the Petitioner from various generating stations. The Commission convened a meeting with SLDC and DISCOMs on 07/07/2017 to discuss the availability of power as submitted by SLDC and as projected by the Petitioner in its petition. In the meeting, the Commission has directed SLDC to reconcile the availability of energy from those energy stations where the projection of Petitioner was different from that of SLDC.

4.45 SLDC had submitted the reconciled availability for FY 2017-18 vide its Email dated 21/07/2017. The Commission has projected the availability of power from various stations as reconciled by the Petitioner with SLDC.

4.46 The Commission in its Tariff Order dated 29/09/2015 observed that the validity of PPA from Anta, Auraiya and Dadri Gas based Plants had expired on 31/03/2012. However, the Petitioner renewed PPA of their Plants without getting approval from

the Commission which was a violation of the licence condition. Accordingly, the Commission disallowed the power from these stations for FY 2012-13, FY 2013-14, FY 2014-15 and FY 2015-16. However, Hon'ble APTEL has examined in Appeal No. 186/15 and IA No. 318/2015, Appeal No. 196/2015 and IA No. 335/2015, the methodology adopted by the Commission in its Tariff Order 29/09/2015 regarding disallowance of power purchase cost from these stations and has up-held the methodology followed by the Commission.

- 4.47 In view of the above, the Commission has not considered the availability of power from Anta, Auraiya and Dadri gas based stations for FY 2017-18 also.
- 4.48 Further, SLDC had projected Power availability from Meja-1 (660 MW) from October '17 onwards. However, the Commission observes that the plant is yet to declare its Commercial date of Operation. Therefore, the Commission has not considered, the quantum and cost from Meja-1 (660 MW) for FY 2017-18.

RE-ALLOCATION OF POWER AMONG DELHI DISTRIBUTION LICENSEES

- 4.49 The Commission has analysed the power availability from various generating stations to Delhi vis-a-vis Sales projection of all Delhi DISCOMs and it was observed that there is deficit in power availability of NDMC during FY 2017-18. NDMC had projected to purchase 183.25 MU under Short Term purchase to meet the demand in its area during September'17 to March '18.
- 4.50 Further, TPDDL had requested for re-allocation of power from various generating stations to the Commission. A meeting was held on 29/11/2016 in the office of the Commission on the proposal for reallocation of share among Delhi DISCOMs for Dadri - 1, Dadri – 2 & APCPL.
- 4.51 The Commission has specified in its Regulation 121 (4) of Tariff Regulations, 2017 regarding re-allocation of power as follows:

“ 4) The gap between average Power Purchase Cost of the power portfolio allocated and average revenue due to different consumer mix of all the distribution licensee: Provided that the Commission may adjust the gap in power purchase cost by reassigning the allocation of power amongst the distribution licensees out of the overall power portfolio allocated to the National Capital Territory of Delhi by Ministry of Power, Government of India.”

4.52 Accordingly, the Commission has decided to reassign the allocation of power amongst the Distribution Licensees out of the overall power portfolio allocated to the National Capital Territory of Delhi as follows:

Table 199: Re-allocation of Power among Delhi DISCOMs

Sr. No.	Generating Station	From DISCOM	To DISCOM	Remarks
1	ARAVALI POWER CORPORATION LTD	BRPL	TPDDL	100% from Sept'17 onwards
2	NCPP – DADRI	TPDDL	BRPL	100% from Sept'17 onwards
3	DADRI EXTENSION	TPDDL	BRPL	100% from Sept'17 onwards
4	SALAL	TPDDL	BRPL	100% from Sept'17 onwards
5	RIHAND-III	TPDDL	BRPL	50% from Sept'17 onwards
6	RIHAND-III	TPDDL	BYPL	50% from Sept'17 onwards
7	GTPS	BRPL	NDMC	80% from Sept'17 to March'18
8	SASAN UMPP	TPDDL	BRPL	90% from Sept'17 to March'18

4.53 Based on the foregoing analysis, the availability of power to the Petitioner from Central, State and Other Generating Stations as approved by the Commission is given in the Table as follows:

Table 200: Energy available to Petitioner from Central and State Generating Stations and other Generating Stations approved for FY 2017-18

POWER PURCHASE COST

4.54 The following methodology has been adopted by the Commission for estimation of Power Purchase Cost for FY 2017-18:

- (a) The Commission has considered Fixed Charges for generating stations as approved by Central Electricity Regulatory Commission (CERC) for various generating stations of NTPC, NHPC, THDC and DVC for FY 2017-18 as per Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2014.
- (b) The generating stations whose fixed charges were not available for FY 2017-18, the Commission has considered the fixed charge per unit as approved in the Tariff Order dated 29/09/2015.
- (c) The Energy Charge Rate of Generating Stations other than State Generating Stations has been considered based weighted average of actual Energy Charge Rate of respective Generating Stations for 1st quarter of FY 2017-18.
- (d) The cost of power purchase from Solar Energy Corporation of India (SECI) has been considered at Rs. 5.50/kWh.
- (e) The Energy Charge Rate and Fixed Charges of State Generating Stations, TOWMCL and MSW Bawana have been considered as approved by the Commission in the respective Tariff Orders for FY 2017-18.
- (f) The fixed and energy charges for the re-allocated generating stations has been computed on the basis of 5 months and 7 months as the cost pertaining to the period of 5 months has already been borne as per the earlier allocation and cost pertaining to the period of 7 months shall be borne as per the revised allocation of power.

4.55 The total Power Purchase Cost projected by the Commission is summarized in the Table as follows:

Table 201: Approved Power Purchase Cost for various Generating Stations for FY 2017-18

Sr. No.	Particulars	Energy (MU)	Fixed Charges (Rs. Cr.)	E.C/unit (Rs./kWh)	Energy Charges (Rs. Cr.)	Total Charges (Rs. Cr.)	Avg. Rate (Rs./kWh)

COST OF POWER FROM OTHER SOURCES (SHORT TERM POWER PURCHASE)**PETITIONER'S SUBMISSION**

4.56 The Petitioner has proposed to purchase 1,013 MU of power from other sources under short term purchase at Rs.3.5 per unit at audited cost of Rs. 358 Crore as per following details:

Table 202: Short term power purchase for FY 2017-18

Sr. No.	Source	Energy Purchased (MU)	Cost per Unit (Rs./unit)	Total Cost (Rs. Cr.)
1	2	3	4	5=3*4
A	Exchange purchases	575	3.2	182
B	Banking Purchases	438	4.0	175
C	Total	1013	3.5	358

COMMISSION'S ANALYSIS

4.57 The Commission has not considered any power purchase cost from short term sources due to following reasons:

- There is a surplus power available with the Petitioner for FY 2017-18, as indicated in Energy balance approved by the Commission.
- The Commission has already directed the Petitioner to enter into banking arrangement during the off peak hours which should be scheduled during the peak hours to meet the demand.

RENEWABLE PURCHASE OBLIGATION (RPO)**PETITIONER'S SUBMISSION****SOLAR**

4.58 According to the DERC RPO Regulations 2012, BRPL is obligated to procure 9% of total consumption by means of renewable energy sources. Out of this 9%, 0.35% is to be procured through solar energy sources and the remaining through non solar energy sources. However the DERC RPO obligations 2012 only provides target till the year FY 2016-17.

4.59 Clause 6.4 of the National Tariff Policy 2016 dated 28th January 2016 requires the states to achieve the target of 8% solar RPO targets by FY 2020-21.

- 4.60 Since the RPO Target has only been defined by the Hon'ble Commission till FY 2016-17, for projection purposes an RPO trajectory has been assumed with gradual increase in each year to achieve a target nearer to 8% by FY 2020-21, in accordance with the NTP as presented above. The RPO Target trajectory assumed has been shown as under:

Table 203: RPO Trajectory for FY 2017-18

Financial Year	Non-Solar	Solar
FY 2017-18	9.00%	1.00%

- 4.61 Accordingly, the cost of REC purchase for meeting Solar RPO from FY 2017-18 is tabulated as follows:

Table 204: Cost of REC Purchase for meeting Solar RPO

Sr. No.	Particulars	UoM	FY 2017-18
A	Energy sales	MU	11070
B	RPO target - Solar	%	1.00%
C	RPO target - Solar	MU	111
D	Availability from Thyagraj and SECI	MU	39
E	Required to be met through RECs	MU	72
F	REC rates	Rs./kWh	3.5
G	Cost for REC purchase	Rs. Crore	25

NON-SOLAR

- 4.62 The Petitioner has considered cost of REC purchase for meeting non-solar RPO from FY 2017-18 is tabulated as follows:

Table 205: Cost of REC Purchase for meeting Non-Solar RPO

Sr. No.	Particulars	UoM	FY 2017-18
A	Energy sales	MU	11070
B	RPO target - Non-Solar	%	9.00%
C	RPO target - Non-Solar	MU	996
D	Availability from TOWMCL	MU	60
E	Required to be met through RECs	MU	936
F	REC rates	Rs./kWh	1.5
G	Cost for REC purchase	Rs. Crore	140

- 4.63 The Petitioner vide letter dated November 21, 2014 and December 9, 2014 requested the Hon'ble Commission to relax the RPO targets for FY 2012-13 and modify the RPO targets from FY 2013-14 to FY 2015-16. Copy of the letter is attached as Annexure-9. The Hon'ble Commission vide its letter dated January 2, 2015 without assigning any reason rejected the request of the Petitioner.

- 4.64 In accordance with the Hon'ble ATE vide Judgment dated April 1, 2015 (DFR No. 377 of 2015) the Petitioner has filed Petition for waiver of RPO Targets for the years FY 2013-14, FY 2014-15 and FY 2015-16 and deferment of the compliance thereof. The Hon'ble Commission vide its Order dated June 29, 2015 admitted the Petition. The petition is pending before the Hon'ble Commission.
- 4.65 However the Hon'ble Commission without disposing off the Petition in Order dated September 29, 2015 ruled as under:
- "6.9. The Commission directs the Petitioner that RPO requirements for green power for the year 2015-16, must be met along with requirements carried over from the previous year, and if so required by way of purchase of REC's from the exchange. Non compliance of Renewable Purchase Obligation (RPO) shall attract penalty of 10% of the cost of REC for quantum of shortfall in RPO."*
- 4.66 As evident from the aforesaid, the Hon'ble Commission has pre-decided the issue of deferment of RPO target during FY 2015-16 which has made the Petition filed by the Petitioner infructuous. Such treatment leads to violation of the direction of the Hon'ble ATE. The Petitioner prays that this Hon'ble Commission may kindly hear and dispose of the aforesaid Petition seeking deferment and/or waiver of the RPO targets considering not only the practical difficulties faced by the Petitioner on account of non-availability of renewable energy in the State of Delhi but also the non-cost reflective tariffs as well as unliquidated revenue gaps besides the fact that fulfilment of the RPO targets would ultimately be burdensome on the consumers of Delhi. The consumers in Delhi will not be able to utilize the RE power as only a negligible quantum of physical form of RE power would be available to the Petitioner, if at all. The Petitioner respectfully prays that this Hon'ble Commission may kindly take a holistic view of the matter relating to purchase from renewable sources of energy especially in the State of Delhi which does not produce renewable energy.
- 4.67 Accordingly, the Petitioner has considered the unmet RPO Target from FY 2012-13 to FY 2015-16 along with the RPO targets to be fulfilled during the period FY 2017-18 in line with the Petition No. 30 of 2015 as tabulated follow:

Table 206: Cost of REC Purchase for unmet RPO Targets

Particulars	UoM	FY 2017-18

		Non-Solar	Solar
Total available quantum from RE Sources	MU	60	39
Total sales	MU	11070	11070
RPO Obligation fulfilled	%	0.54%	0.35%
RPO Target	%	9.00%	1.00%
RPO Target	MU	996	111
Unmet Target	MU	936	72
Past Unmet brought forward	MU	341	8
Total RPO Target to be met	MU	1277	80
Floor Price	Rs./ kWh	1.50	3.50
Sub- total	Rs. Crore	192	28
Total Cost	Rs. Crore	219	

COMMISSION'S ANALYSIS

4.68 The Commission has notified the Business Plan Regulations, 2017 for the period of 3 years i.e., for FY 2017-18, FY 2018-19 and FY 2019-20. In the said Regulations, the Commission has specified RPO targets for the Petitioner indicated in the table as follows:

Table 207: Targets for Renewable Power Purchase Obligation

Sr. No.	Distribution Licensees	FY 2017-18
1	Solar Target (Minimum)	4.75%
2	Total	14.25%

4.69 As per the above said Business Plan Regulations, 2017, the Distribution Licensees have to purchase 14.25% of total energy sales approved by the Commission during FY 2017-18 from renewable energy sources including minimum 4.75% from solar sources.

4.70 The Commission has approved the total energy sales of 11451 MU in FY 2017-18 for the Petitioner. Based on the sales approved, the Petitioner has to purchase from Renewable Energy Sources for FY 2017-18 indicated in the table as follows:

Table 208: Renewable Energy to be procured by the Petitioner in FY 2017-18

Power Source	Approved Energy Sales (MU)	% of Total Energy Sales Approved in Regulations	Renewable Energy to be procured (MU)
Solar	11451	4.75%	543.92
Non Solar		9.50%	1087.84
Total		14.25%	1631.77

4.71 The Commission has noted that the Petitioner has reconciled its purchase from various Renewable Energy Sources with SLDC which has been submitted by SLDC to the Commission vide its letter dated 21/07/2017. The total requirement for RPO

compliance is more than the quantum of power available to the Petitioner from various Renewable Energy Sources.

- 4.72 The Commission, therefore, considers the balance of Renewable Energy procurement for RPO compliance through purchase of Renewable Energy Certificates during FY 2017-18.
- 4.73 CERC has fixed Floor Price and Forbearance Price for Non-Solar and Solar RECs for FY 2017-18 vide its order dated 30/03/2017 indicated in the table as follows:

Table 209: Floor and Forbearance Price for Non-Solar & Solar RECs

Sr. No.	Particulars	Floor Price	Forbearance Price
1	Non-Solar	Rs. 1000/MWh	Rs. 3000/MWh
2	Solar	Rs.1000/MWh	Rs. 2400/MWh

- 4.74 Further, Hon'ble Supreme Court of India has stayed the above mentioned Order of CERC vide its Order dated 08/05/2017 in Civil Appeal No. 6083/2017 and 6334/2017. Subsequently, Hon'ble Supreme Court of India in its Order dated 14/07/2017 has vacated the stay on trading of Non-Solar RECs at the Floor price prevalent earlier subject to pending Appeal No. 105/2017 before the Hon'ble APTEL. However, the obligated entities/Power Exchanges shall deposit the difference between Floor price prevalent earlier and Floor price as determined by CERC in its Order dtd. 30/03/2017 with the CERC. There is no vacation of stay on trading of Solar RECs.
- 4.75 In view of above, the Commission has considered the Floor Price of Non-Solar REC as approved earlier by CERC i.e., Rs. 1500/MWh on provisional basis subject to the outcome of Appeal No. 105/2017 filed before the Hon'ble APTEL. Further, due to stay on Solar REC trading, the Commission has considered the rate of Solar Energy for the purpose of RPO compliance based on the rate of SECI (Rs. 5.50/kWh).
- 4.76 It may be mentioned that the Forbearance price approved by CERC for Solar REC is Rs. 2400/MWh in its Order dtd. 30/03/2017 which is presently stayed by Hon'ble Supreme Court of India. Since, the Petitioner when procures power from Solar Energy sources to meet its RPO then it will have to back down the Generating stations which has highest variable cost i.e., NCPP-Dadri. Accordingly, the Commission has allowed the rate of Solar Energy to the Petitioner at Rs. 5.50/kWh i.e., around Rs. 2.40/kWh over and above the variable cost of NCPP-Dadri which is Rs. 3.18/kWh.

Table 210: Approved Cost of Power Purchases for RPO

Sr. No.	Sources of Renewable Energy	Quantity to be Purchased (MU)	Average Rate (Rs/kWh)	Total Cost (Rs. Crore)
SOLAR				
1	Own Solar	0.00	5.50	0.00
2	Solar (SECI)	41.31	5.50	22.72
3	Balance Solar Energy to be purchased	502.61	2.40	120.63
4	Sub Total	543.92		143.35
NON SOLAR				
5	TOWMCL	60.70	2.83	17.18
6	MSW Bawana	50.82	7.03	35.72
7	East Delhi MSW	-	-	-
8	Balance Non Solar RECs to be purchased	976.33	1.50	146.45
9	Sub Total	1087.84		199.35
10	TOTAL RPO	1631.77		342.70

TRANSMISSION LOSS AND CHARGES**PETITIONER'S SUBMISSION**

4.77 The Intra-State and Inter-State Transmission losses and charges projected for the period FY 2017-18 is tabulated as follow:

Table 211: Transmission Loss, Charges for FY 2017-18

Sr. No.	Particulars	FY 2017-18
A	Transmission losses (MU)	
i	Inter-State Transmission	323
ii	Intra-State Transmission	88
iii	Total Transmission losses (MU)	411
B	Transmission Charges (Rs. Crore)	
i	Inter-State Transmission*	456
ii	Intra-State Transmission (including SLDC)	424
iii	Contribution towards pension fund	
iv	Total Transmission Charges (Rs. Crore)	881

* Including Open Access Charges

COMMISSION'S ANALYSIS

4.78 The Commission has considered the Intra-state Transmission losses as 0.98% for FY 2016-17 as per the data available at SLDC website of Input Energy (30659.71 MU) and Output Energy (30359.58 MU) .

4.79 The Commission has considered the weighted average Inter-State Transmission loss in the Northern Region, Eastern Region and Western Region at 2.27% for FY 2017-18 based on the available actual Point of Connection (PoC) losses during November, 2016 at website of National Load Despatch Centre.

TRANSMISSION CHARGES

- 4.80 The Commission has considered the Transmission charges for Inter-state Transmission Licensee as projected by the Petitioner for FY 2017-18 in the Petition amounting to Rs. 553.04 Crore.
- 4.81 The Intra-State Transmission charges have been considered based on the DTL Order for FY 2017-18 in which the approved ARR for FY 2017-18 is Rs. 1083.59 Crore.
- 4.82 The Commission has considered the ratio of energy available to the Petitioner based on the energy projected by Delhi SLDC for FY 2017-18 for computation of share of intra-state Transmission Charges for FY 2017-18.
- 4.83 The Commission has considered SLDC charges of Rs. 3.71 Crore for the Petitioner for FY 2017-18 as that approved by the Commission in its Tariff Order dated 29/09/2015 because SLDC has not filed its ARR Petition for FY 2017-18.
- 4.84 Secretary, Pension Trust has requested the Commission to allow Rs. 694 Crore in FY 2017-18 for funding of Pension of erstwhile DVB Employees/Pensioners which has also been recommended by GoNCTD vide its letter dated 26/07/2017. Further, the Commission had allowed Rs. 573 Cr. in ARR of the Distribution Licensees for FY 2015-16 which continued till date.
- 4.85 The Commission has now decided to introduce additional surcharge of 3.70% for recovery of Pension Trust funding from September 2017 onwards. Accordingly, the Commission has considered the prorated amount of Rs. 116.47 Cr. towards Pension Trust funding from April 2017 to August 2017 in the ARR of the Petitioner. The mechanism of recovery and payment to Pension Trust is dealt up in Chapter 6 of this tariff Order.
- 4.86 In view of above, the Inter-State and Intra-State Transmission Losses and Transmission Charges as approved by the Commission for FY 2017-18 are indicated in the table as follows:

Table 212: Transmission Loss, Charges approved for FY 2017-18

Sr. No.	Particulars	Approved
A	Transmission losses (MU)	
1	Inter-State Transmission	265.39
2	Intra-State Transmission (DTL)	127.24
	Total Transmission Losses	392.63
B	Transmission Charges (Rs. Crore)	
1	Inter-State Transmission	553.04
2	Intra-State Transmission (DTL)(incl. SLDC)	435.86

Sr. No.	Particulars	Approved
3	Pension Trust	116.47
4	SLDC Charges	3.71
	Total Transmission Charges	1109.08

NORMATIVE REBATE (REBATE ON POWER PURCHASE AND TRANSMISSION CHARGES)**PETITIONER'S SUBMISSION**

4.87 The Petitioner does not propose any rebate on power purchase cost from generating stations and Transmission Charges from FY 2017-18.

COMMISSION'S ANALYSIS

4.88 With reference to rebate on power purchase and transmission charges, DERC Tariff Regulation, 2017 states as follows:

"119. Distribution Licensee shall be allowed to recover the net cost of power purchase from long term sources whose PPAs are approved by the Commission, assuming maximum normative rebate available from each source, for supply to consumers."

4.89 Accordingly, the Commission has considered power Purchase Rebate @ 2% of the Gross Power Purchase Cost and Transmission Rebate @ 2% of the total Transmission Charges for projection of the normative rebate on the power purchase cost for FY 2017-18

ENERGY BALANCE**PETITIONER'S SUBMISSION**

4.90 The energy balance submitted by the Petitioner is summarised in the table as follows:

Table 213: Energy balance projected for FY 2017-18 (MU)

Sr. No.	Particulars	FY 2017-18
1	Power Purchase @Exbus-FIRM	12906
2	Inter-State Losses	323
3	Power Available at Delhi Periphery	12583
4	Intra-state Loss & Charges (Including SLDC charges)	88
5	Power Available to DISCOM	12495
6	Banking Import	438
7	Shortfall to be met at Discom Periphery	575
8	Total Available	13508
9	Sales	11070
10	Distribution Loss	1510
11	Energy Requirement at Distribution Periphery	12579

Sr. No.	Particulars	FY 2017-18
12	Sale of Surplus power	469
13	Sale of Power through banking	460
14	Total Sale of Surplus energy	929

COMMISSION'S ANALYSIS

4.91 Based on the energy sales, distribution loss, Intra-state and Inter-state transmission losses approved by the Commission indicated in the above paragraphs, the energy required as approved by the Commission is summarized in the table as follows:

Table 214: Energy Balance approved by the Commission for FY 2017-18

Sr. No.	Particulars	UoM	FY 2017-18
	Energy Availability		
A	Total energy available (excluding BTPS, SGS & RE)	MU	11691.10
B	Inter-State Transmission Losses	%	2.27%
		MU	265.39
C	Energy available from BTPS, SGS & RE	MU	2039.60
D	Energy available at State Transmission Periphery	MU	13465.31
	Energy Requirement		
E	Energy sales	MU	11450.99
F	Distribution loss	%	10.93
		MU	1405.18
G	Energy requirement at distribution periphery	MU	12856.17
H	Intra-State Transmission Loss	%	0.98%
		MU	127.24
I	Energy Requirement at Transmission Periphery	MU	12983.40
J	Energy Surplus	MU	481.91

SALE OF SURPLUS POWER**PETITIONER'S SUBMISSION**

4.92 The Petitioner has proposed sale of estimated surplus power of 929 MU at Rs 3.4/kWh for FY 2017-18 indicated in the table as follows:

Table 215: Projected sale of surplus power by the Petitioner for FY 2017-18

Particulars	Surplus Energy (MU)	Average Sale Price (Rs. / kWh)	Total Revenue (Rs. Crore)
Bilateral / IEX	469	2.8	130.00
Banking	460	4.0	184.00
Total	929	3.4	314.00

COMMISSION'S ANALYSIS

4.93 The Petitioner has Long term Power Purchase Agreement (PPA) from Central Generating Stations based on allocation made by the Ministry of Power, Government of India.

4.94 The rate of surplus power realised by the DISCOMs varies during the last 5 years indicated in the table as follows:

Table 216: Quantum of surplus energy sold & per unit price realized from FY 2011-12 to FY 2015-16

Sr. No.	Year	BRPL		BYPL		TPDDL		Wt. Avg. Rate (Rs./kWh)
		Energy Sold (MU)	Price Realised (Rs./kWh)	Energy Sold (MU)	Price Realised (Rs./kWh)	Energy Sold (MU)	Price Realised (Rs./kWh)	
1	FY 2011-12	2393	3.23	1708	3.19	1680	2.94	3.13
2	FY 2012-13	1867	3.31	2634	3.12	2535	2.91	3.09
3	FY 2013-14	2123	2.80	1572	2.31	2721	3.08	2.80
4	FY 2014-15	1057	3.22	1051	3.41	1605	3.20	3.27
5	FY 2015-16	957	3.15	1093	3.21	1965	3.39	3.28

4.95 It is observed from the above table that there is no definite trend (upward or downward) in the rate of sale of surplus power realized by the DISCOMs.

4.96 The Commission observed during the true up of FY 2014-15 and FY 2015-16 that there was scope for better management of the process for short term sale of the surplus power so as to significantly protect the interest of the consumers. The Commission is of the view that Petitioner should endeavour to maximise revenue from sale of surplus power and enter into more banking, intrastate and bilateral transactions. Therefore, the Commission has considered the rate of sale of surplus power at Rs. 3.00/kWh for FY 2017-18.

4.97 Accordingly, the Commission approves the total sale of Surplus Power of 481.91 MU at Rs. 3.00/kWh as indicated in the table as follows:

Table 217: Approved Sale of Surplus Power for FY 2017-18

Particulars	Surplus Energy (MU)	Avg. Sale Price (Rs /kWh)	Total Cost (Rs. Crore)
Sale of Surplus Power	481.91	3.00	144.57

4.98 Further, the Commission directs the Petitioner to follow best possible practices as indicated in this Tariff Order so as to optimise its Power Purchase Cost from Long Term and Short Term sources.

TOTAL POWER PURCHASE COST

4.99 Based on the analysis above, the Total Power Purchase Cost for FY 2017-18 approved by the Commission is summarized as follows:

Table 218: Total Power Purchase Cost approved for FY 2017-18

Sr. No.	Particulars	Quantity (MU)	Amount (Rs. Crore)	Avg. Rate (Rs./kWh)

Sr. No.	Particulars	Quantity (MU)	Amount (Rs. Crore)	Avg. Rate (Rs./kWh)
1	Power Purchase from CSGS except BTPS, SGS and RE Plants	11691.10	4440.81	3.80
2	PGCIL Losses & Charges	265.39	553.04	
3	Power Purchase from SGS including BTPS excluding RE Plants	1886.78	1004.44	5.32
4	Renewable Energy Plants	152.83	75.62	4.95
5	Cost towards Renewable Energy Certificates		267.08	
6	Power Available at Delhi Periphery (cost excluding RECs)	13465.31	6073.90	4.51
7	DTL Loss & Charges including Pension trust, SLDC charges	127.24	556.04	
8	Power Purchase Rebate @ 2%		110.42	
9	Rebate on Transmission Charges @ 2%		22.10	
10	Power Available to DISCOM	13338.08	6497.42	4.87
11	Sales	11450.99		
12	Distribution Loss	1405.18		
13	Net Power Purchase cost including Transmission charges and REC	12856.17	6619.92	5.15
14	Net Surplus Power	481.91	144.57	3.00

POWER PURCHASE COST ADJUSTMENT CHARGES (PPAC)

4.100 As per Regulation 135 of the DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017, the Commission has to specify the detailed formula for PPAC in the Tariff Order for the relevant year.

4.101 Further, as per Regulation 134 of the DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017 only Price of Fuel from long term sources of Generation, Variation in Fixed Cost on account of Regulatory Orders from long term sources of Generation and Variation in Transmission Charges shall be allowed to be recovered in PPAC. The relevant regulation is as follows:

" 134. The Distribution Licensee shall be allowed to recover the incremental Power Procurement Cost on quarterly basis, over and above the Power Procurement Cost approved in the Tariff Order of the relevant year, incurred due to the following:

(a) Variation in Price of Fuel from long term sources of Generation;

(b) Variation in Fixed Cost on account of Regulatory Orders from long term sources of Generation;

(c) Variation in Transmission Charges. "

4.102 Accordingly, the Commission has specified the PPAC formula for FY 2017-18 by considering the base Power Purchase Cost from various generating stations over which any increase has to be taken for the purpose of PPAC during FY 2017-18

indicated as follows:

Power Purchase Cost Adjustment (PPAC) formula

$$\text{PPAC for } n^{\text{th}} \text{ Qtr. (\%)} = \frac{(A-B)*C + (D-E)}{\{Z * (1 - \frac{\text{Distribution losses in \%}}{100})\} * \text{ABR}}$$

Where,

- A = Total units procured in (n-1)th Qtr (in kWh) from power stations having long term PPAs – (To be taken from the bills of the GENCOs issued to distribution licensees)
- B = Proportionate bulk sale of power from Power stations having long term PPAs in (n-1)th Qtr (in kWh)

$$\frac{\text{Total bulk sale in (n-1)th Qtr (in kWh) * A}}{\text{Gross Power Purchase including short term power in (n-1)th Qtr (in kWh)}}$$

Total bulk sale and gross power purchase in (n-1)th Qtr to be taken from provisional accounts to be issued by SLDC by the 10th of each month.

- C = Actual average Power Purchase Cost (PPC) from power stations having long term PPAs in (n-1)th Qtr (Rs./ kWh) – Projected average Power Purchase Cost (PPC) from power stations having long term PPAs (Rs./ kWh) (from tariff order)

- D E = Actual Transmission Charges paid in the (n-1)th Qtr

$$= \frac{\text{Base Cost of Transmission Charges for (n-1)th Qtr} * (\text{Approved Transmission Charges}/4)}{100}$$

- Z = $\frac{[\{\text{Actual Power purchased from Central Generating Stations having long term PPA in (n-1)th Qtr (in kWh)} * (1 - \frac{\text{INTERSTATE TRANSMISSION LICENSEE losses in \%}}{100}) + \text{Power from Delhi GENCOs including BTPS (in kWh)} * (1 - \frac{\text{Intra state losses in \%}}{100}) - B]}{\text{in kWh}}$

- ABR = Average Billing Rate for the year (to be taken from the Tariff Order)
- Distribution Losses (in %) = Target Distribution Losses (from Tariff

Order)

$$\begin{aligned}
 \text{INTER STATE TRANSMISSION LICENSEE Losses} &= \frac{100^* \text{ Approved INTER STATE TRANSMISSION LICENSEE losses in Tariff Order (kWh)}}{\text{Approved long term power purchase from central generating stations having long term PPA in the Tariff Order (kWh)}} \\
 (\text{in \%}) \text{ DTL Losses (in \%)} &= \frac{100^* \text{ Approved DTL Losses (from the Tariff Order) Power}}{\text{available at Delhi periphery (from energy balance table tariff order)}}
 \end{aligned}$$

4.103 The Commission has specified the methodology for recovery of PPAC in its Business Plan Regulations, 2017 as follows:

“ The mechanism for recovery of Power Purchase Cost Adjustment Charges (PPAC) in terms of the Regulation 134 of the DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017 from FY 2017-18 to FY 2019-20 of the Distribution Licensees shall be as follows:

(1) The Commission shall specify the detailed formula for computation of PPAC in the Tariff Order for the relevant year.

(2) The Distribution Licensee shall compute the PPAC for any quarter as per the specified formula for the relevant year:

Provided that a quarter refers to one-fourth of a year i.e., January, February and March (Q1); April, May and June (Q2); July, August and September (Q3); and October, November and December (Q4).

(3) The PPAC computation of any quarter shall be equally spread and adjusted over subsequent quarter only:

Provided that the Commission may allow to carry forward PPAC to more than one quarter in order to avoid the tariff shock for consumers in terms of Regulation 136 of the DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017.

(4) The treatment of PPAC computation as per the specified formula shall be as follows:

(a)in case PPAC does not exceed 5% for any quarter, the Distribution Licensee may levy PPAC at 90% of computed PPAC with prior intimation to the Commission without going through the regulatory proceedings.

(b) in case PPAC exceeds 5% for any quarter, the Distribution Licensee may levy PPAC of 4.50% without going through the regulatory proceedings and shall file an application for prior approval of the Commission for the differential PPAC claim (Actual PPAC % – 4.50%).

(5) The Distribution Licensee shall upload the computation of PPAC on its website before the same is levied to the consumers' electricity bills.

(6) Revenue billed on account of PPAC by the Distribution Licensee, without going through the regulatory proceedings, shall be trued up along-with the Power Purchase Cost of the relevant year and no Carrying Cost shall be allowed due to under-recovery of revenue for the same year.

(7) Revenue billed on account of PPAC by the Distribution Licensee, without going through the regulatory proceedings, shall be trued up along-with the Power Purchase Cost of the relevant year and Carrying Cost shall be recovered at 1.20 times of interest rate on the excess revenue recovered for the same year."

4.104 PPAC on quarterly basis shall be charged as per the following:

- (a) The PPAC will be charged to all categories of consumers.
- (b) The weighted average base cost in Rs./kWh shall be as approved in this Tariff Order for FY 2015-16 is Rs 4.02 for Petitioner.
- (c) The Distribution licensee shall submit to the Commission the details in respect of changes in power purchase cost of plants having long term PPAC, as listed above for (n-1)th quarter. Further, Auditor's Certificate along with statement indicating plant-wise details of fixed charges, variable charges, other charges and units purchased from each plant having long term PPAs, as listed above, for (n-1)th quarter along with actual transmission charges for (n-1)th quarter shall be furnished along with the proposal of PPAC surcharge submitted for the Commission's approval. Further, similar information in respect of current bills should also be furnished in the Auditor's certificate.
- (d) The percentage of PPAC will be rounded off to two decimal places.
- (e) The percentage increase on account of PPAC will be applied as a surcharge on the total energy and fixed charges (excluding short term arrears, LPSC, Electricity Duty etc.) billed to a consumer of the utility. Further, PPAC surcharge should not be levied on the 8% surcharge and also the 8% surcharge towards recovery of past accumulated deficit is not to be levied on

PPAC.

- (f) The bill format shall clearly identify the PPAC percentage and amount of PPAC billed as separate entries.
- (g) This PPAC formula shall remain applicable till it is amended, reviewed, revised or otherwise amended.

OPERATION AND MAINTENANCE EXPENSES (O&M)

PETITIONER'S SUBMISSION

4.105 As per the detailed methodology for computation of O&M Expenses elaborated in the Business Plan, the Petitioner has requested the Commission to allow the O&M Expenses in the ARR for FY 2017-18 as follows:

Table 219: Total O&M Expenses for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 2017-18
A	O&M Expenses	
i	Employee Expenses	457
ii	A&G Expenses	248
iii	R&M Expenses	241
B	Gross O&M Expenses	945
C	Add: SVRS Pension	2
D	Net O&M Expenses	948

COMMISSION'S ANALYSIS

4.106 The Commission has notified Business Plan Regulations, 2017 wherein norms for Operation and Maintenance Expenses in terms of Regulation 4(3) has been determined for FY 2017-18.

4.107 On the basis of Network and Financial details submitted by the Petitioner, the Commission has determined O&M Expenses for FY 2017-18 indicated as follows:

Table 220: O&M Expenses approved by the Commission for FY 2017-18

Particulars	Capacity as on 31.03.2018	O&M Expenses Per Unit (Rs.)		O&M Expenses FY 2017-18 (Rs. Crore)
66 kV Line (kms)	1073	Rs. Lakh/Ckt. Km	3.45	37.06
33 kV Line (kms)		Rs. Lakh/Ckt. Km	3.45	
11 kV Line (kms)	6556	Rs. Lakh/Ckt. Km	1.00	65.66
LT Lines system (kms.)	10970	Rs. Lakh/Ckt. Km	5.17	567.13
66/11 kV Grid sub-station (MVA)*	6133	Rs. Lakh/MVA	0.93	57.23
33/11 kV Grid sub-station (MVA)*		Rs. Lakh/MVA	0.93	
11/0.4 kV DT (MVA)	4729	Rs. Lakh/MVA	2.21	104.48
Total				831.56

4.108 Impact of any Statutory Pay revision on employee's cost as may be applicable on case to case basis shall be considered separately, based on actual payment made by the Petitioner and prudence check at the time of true up of ARR as specified in the Business Plan Regulations, 2017.

CAPITAL INVESTMENT PLAN

PETITIONER'S SUBMISSION

4.109 The Petitioner has proposed Capital Expenditure and Capitalisation for FY 2017-18 indicated in the table as follows:

Table 221: Capex and Capitalisation for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 2017-18
A	Capital Expenditure	432
B	Capitalisation	425

COMMISSION'S ANALYSIS

4.110 The Commission has considered capital investment for FY 2017-18 as per the approved tentative capital investment plan in the Business Plan Regulations, 2017 for the Petitioner for FY 2017-18 indicated in the table as follows:

Table 222: Capital Expenditure & Capitalization approved for FY 2017-18 (Rs. Crore)

Particulars	Petitioner's Submission	Commission Approved
Investment during the year	432	472
Capitalisation	425	472

CONSUMER CONTRIBUTION

PETITIONER'S SUBMISSION

4.111 The Petitioner has computed the ratio of consumer contribution to capitalisation as approved by the Hon'ble Commission in Tariff Order dated July 13, 2012, i.e, 28 divided by 300, i.e., 9.33%.

4.112 This ratio has been applied on capitalisation proposed from FY 2017-18 as under:

Table 223: Consumer Contribution for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 2017-18
A	Opening balance	526
B	Additions during the year	40
C	Closing balance	566
D	Average Consumer Contribution	546

COMMISSION'S ANALYSIS

4.113 The Commission has projected the capitalization of consumer contribution during FY 2017-18 as per the projection of the Petitioner. Accordingly, the consumer contribution used for means of finance is as follows:

Table 224: Consumer Contributions approved to be capitalized for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	Petitioner's projections	Commission Approved
A	Opening Consumer's Contributions/ Grants	526	687.53
B	Additions	40	111.80
C	Closing Consumers contribution	566	799.33
D	Average Consumer's Contributions/Grants	546	743.43

DEPRECIATION

PETITIONER'S SUBMISSION

4.114 The Petitioner has projected the depreciation of Rs. 220 Crore for FY 2017-18 indicated in the table as follows:

Table 225: Depreciation for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 2017-18
A	Gross Fixed Assets (GFA)	
i	Opening Balance	5448
ii	Additions during the year	425
iii	Closing Balance	5874
B	Consumer Contribution	
iv	Opening Balance	
v	Additions during the year	40
vi	Closing Balance	40
C	Grants	
vii	Opening Balance	0
viii	Additions during the year	0
ix	Closing Balance	0
D	GFA net of consumer contribution	
x	Opening Balance	5448
xi	Additions during the year	386
xii	Closing Balance	5834
E	Average rate of depreciation	3.91%
F	Depreciation	220

COMMISSION'S ANALYSIS

4.115 The Commission has provisionally approved the closing GFA of Rs. 4825.52 Crore for FY 2015-16 in the truing up process for FY 2015-16. The Commission has considered capitalisation for FY 2016-17 at Rs. 450 Crore as projected by the Petitioner for the purpose of computation of depreciation of FY 2017-18. Further rate of depreciation has been considered as per the depreciation rate computed by the Petitioner for FY

2017-18 based on the depreciation schedule approved by the Commission. Based on GFA, Consumers contributions and rate of depreciation, the Commission has approved the depreciation for FY 2017-18 on provisional basis as follows:

Table 226: Depreciation approved for FY 2017-18 (Rs. Crore)

Particulars	Petitioner's Submission	Commission Approved
Opening GFA	5448.00	5275.52
Net Additions to Asset during the year	386.00	472
Closing GFA	5834.00	5747.52
Average GFA	5641.00	5511.52
Less: Average Consumer Contribution	546.00	743.43
Average GFA net of CC	5095.00	4768.09
Average rate of depreciation	3.91%	3.70%
Depreciation	199.21	176.42
Accumulated Depreciation		2102.77

WORKING CAPITAL

PETITIONER'S SUBMISSION

4.116 The Petitioner has submitted the working capital requirement for FY 2017-18 as follows:

Table 227: Working Capital for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 2017-18
A	Receivables from wheeling charges and sale of electricity	9052
B	Receivables equivalent to 2 months of revenue from wheeling charges and sale of electricity	1509
C	Net purchase expenses (incl. Transmission Charges)	7340
D	Less: One month power purchase expenses (incl. Transmission Charges)	612
E	O&M Expenses	948
F	Add: O&M Expenses for 1 month	79
G	Less: Working Capital allowed during PDP	72
H	Total working capital	904
J	Working Capital Requirement	904

4.117 Accordingly, the Petitioner has requested the Commission to allow the working capital as per the aforesaid submissions.

COMMISSION'S ANALYSIS

4.118 The Commission has considered the ARR for FY 2016-17 at the same level as approved for FY 2015-16 because tariff approved for FY 2015-16 was also applicable for FY 2016-17. Therefore, working capital for FY 2016-17 has also been considered

as determined for FY 2015-16. Thus, change in working capital for FY 2017-18 has been considered as change in working capital requirement with respect to working capital approved for FY 2015-16. The Commission has computed the working capital requirement for the Petitioner as per Regulation 84 (4) Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017. The relevant extract of the Regulation is as follows:

“84. The Commission shall calculate the Working Capital requirement for:

(4) Distribution Licensee as follows:

(i) Working capital for wheeling business of electricity shall consist of ARR for two months of Wheeling Charges.

(ii) Working Capital for Retail Supply business of electricity shall consist of:

(a) ARR for two months for retail supply business of electricity;

(b) Less: Net Power Purchase costs for one month;

(c) Less: Transmission charges for one month: “

4.119 Accordingly working capital requirement computed for FY 2017-18 is as follows:

Table 228: Working Capital approved for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission	Commission Approved
A	Annual Revenue	9052.00	7986.40
B	Receivables equivalent to 2 months average billing	1508.67	1331.07
C	Power Purchase expenses	7340.00	6619.92
D	power purchase expenses for 1 Month	611.67	551.66
E	Total Working Capital	897.00	779.41
F	Working capital required for FY 2015-16		843.14
G	Change in WC	53.86	-63.73

MEANS OF FINANCE

PETITIONER'S SUBMISSION

4.120 The Petitioner has considered 9.33% of the total capitalisation to be funded through consumer contribution.

4.121 The balance capitalization is proposed to be funded through debt and equity in the ratio of 70:30 respectively.

4.122 Accordingly the means of finance from FY 2017-18 is tabulated as follows:

Table 229: Means of Finance for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 2017-18
A	Capitalisation during the year	425
B	Means of Finance	
i	Consumer contribution	40
ii	Grants	0
iii	Internal Accruals	116
iv	Debt	270

COMMISSION'S ANALYSIS

4.123 The Commission has considered normative debt-equity ratio of 70:30 on the asset capitalised each year after utilizing the consumer contribution as specified in tariff regulations 2017. The relevant extract is as follows:

"25. The Capital Cost of a new project or scheme shall include the following:

- (1) The expenditure incurred or projected to be incurred up to the date of commercial operation of the project or scheme as approved by the Commission;*
- (2) Interest during construction and financing charges, on the loans being equal to debt as per financing excluding however the equity deployment, provided however the equity deployment shall not exceed 30% of the capital cost and in case equity is deployed in excess of 30% the excess shall be deemed to be a debt or notional loan;*
- (3) Capitalized initial spares subject to the ceiling rates specified by the Commission;*
- (4) Expenditure on account of additional capitalization determined in accordance with these Regulations;*
- (5) Adjustment of revenue on account of sale of infirm power by Generating Entity in excess of fuel cost prior to the COD as specified under these Regulations; and*
- (6) Adjustment of any revenue earned by the Utility, including by using the assets, before COD.*

26. The Capital cost of an existing project or scheme shall include the following:

- (1) The trued-up capital cost excluding liability admitted by the Commission;*
- (2) Additional capitalization and de-capitalization for the respective year of tariff as determined in accordance with these Regulation; and*
- (3) Expenditure on account of renovation and modernisation as admitted by the Commission in accordance with these Regulations.*

27. The capital cost incurred or projected to be incurred on account of any applicable PAT (Perform, Achieve and Trade) scheme of Government of India will be considered by the Commission on case to case basis and shall include:

(1) Cost of plan proposed by developer in conformity with norms of PAT Scheme; and

(2) Sharing of the benefits accrued on account of PAT Scheme.

28. The cost for the following shall be excluded or removed from the capital cost of the existing and new project or scheme as detailed out in Regulations 44 to 48 in these Regulations:

(1) The assets forming part of the project or scheme, but not in use;

(2) De-capitalized or retired asset.

29. Any grant or contribution or facility or financial support received by the Utility from the Central and/or State Government, any statutory body, authority, consumer or any other person, whether in cash or kind, for execution of the project or scheme, which does not involve any servicing of debt or equity or otherwise carry any liability of payment or repayment or charges shall be excluded from the Capital Cost for the purpose of computation of interest on loan, return on equity and depreciation."

4.124 As per the above Regulations, equity shall not exceed 30% of the total funding requirement for capitalization. The Petitioner has deployed equity at more than 30% for their capitalization funding requirement. Therefore the equity for the purpose of computation of Weighted Average Cost of Capital (WACC) has been considered at maximum 30% of net capital employed (GFA-Accumulated Depreciation-Consumer Contribution) subject to the actual equity available as per audited financial statement and debt has been considered at minimum 70% of net capital employed. Further, Regulation 70 of Tariff Regulations, 2017 specifies that the Working capital shall be considered 100% debt financed for the calculation of WACC. Accordingly, the requirement of debt and equity has been computed as follows:

Table 230: Debt and Equity approved by the Commission (Rs. Crore)

Sr. No.	Particulars	Amount	Reference
A	Average GFA	5511.52	
B	Average Consumer Contribution	743.43	
C	Average Accumulated Depreciation	2102.77	
D	Net Capital Employed	2665.32	(A-B-C)
E	Equity limiting to 30% of Net Capitalization	799.59	D*30%
F	Debt at 70% of Net Capitalization	1865.73	D*70%
G	Debt for Working Capital Funding	779.41	
H	Minimum Debt Requirement	2645.14	
I	Average Equity including free reserve as per audited accounts	1424.88	
J	Equity now considered for WACC (min of normative equity and audited equity)	779.41	
K	Debt for WACC	2645.14	

REGULATED RATE BASE (RRB), WEIGHTED AVERAGE COST OF CAPITAL (WACC) AND RETURN ON CAPITAL EMPLOYED (ROCE)

PETITIONER'S SUBMISSION

4.125 Since the Regulations for the period FY 2016-17 to FY 2020-21 are yet to be notified, the Petitioner has considered Return on Equity @ 16%. However, CERC in its Tariff Regulations, 2014 has allowed ROE@ 15.50% for thermal generating stations and 16.50% for storage type generating stations.

4.126 The Petitioner has grossed up ROE proposed for FY 2017-18 based on MAT Rate, i.e, 20.96% to compute ROE on pre-tax basis as follows:

Table 231: ROE for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	FY 18
1	Opening Equity	1564
2	Additions	116
3	Closing Equity	1680
4	Average Equity	1622
5	MAT Rate	20.96%
6	Rate of Return on Equity (%)	16%
7	Rate of return (%) (Pre-tax)	20.24%
8	Return on equity (Pre-Tax)	328

COMMISSION'S ANALYSIS

4.127 The Commission has approved Rate of Return on Equity computed at base rate of 14% on post tax basis for Wheeling Business and base rate of 2% on post tax basis for the retail business of the Petitioner in its Business Plan Regulations, 2017. Further, the Commission has approved the rate on interest on loan based on weighted average rate of interest (13.34%) of total loan portfolio of the Petitioner as on 1st April, 2017 subject to maximum of 14% as specified in Regulation 21 of Business Plan Regulations, 2017. Accordingly, Weighted Average Cost of Capital (WACC) has been computed by considering the equity and debt requirement for FY 2017-18 and Rate of Return on Equity and Interest on Loan with margin of 5.34% over one (1) year Marginal Cost of Fund based Lending Rate (MCLR) of SBI approved by the Commission as follows:

Table 232: Weighted Average Cost of Capital (WACC) approved for FY 2017-18

Sr. No.	Particulars	Petitioner's Submission	Commission Approved

Sr. No.	Particulars	Petitioner's Submission	Commission Approved
A	Equity	1622.00	779.41
B	Debt	2608.00	2645.14
C	Return on equity	16%	16%
D	Income Tax Rate	33.99%	33.99%
E	Grossed up Return on Equity	24.24%	24.24%
F	Rate of Interest	13.34%	13.34%
G	Weighted average cost of Capital	17.52%	15.87%

4.128 The Commission has computed the opening RRB, RRB for the year and closing balance of the RRB as per the formula specified in Tariff Regulations, 2017 as follows:

Table 233: RRB approved for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	Petitioners submission	Commission approved	Reference
A	Opening GFA	5448	5275.52	
B	Opening Accumulated Depreciation		2014.56	
C	Opening Consumer Contribution	526	687.53	
D	Opening Working Capital	864	843.14	
E	Opening RRB		3,416.56	(A-B-C+D)
F	Investment during the year		28.16	(G-H-I)/2
G	Net Capitalisation		472.00	
H	Depreciation		176.42	
I	Consumer Contribution		111.80	
J	Change in Working Capital		-63.73	
K	Regulated Rate Base - Closing		3,536.61	(E+G-H-I+J)
L	RRB(i)		3,444.72	(E+F+J)

4.129 The Commission has approved RoCE based on RRB(i) and WACC computed as follows:

Table 234: Return on Capital Employed approved by the Commission

Sr. No.	Particulars	Petitioners Submission	Commission Approved	Remarks
A	WACC		15.87%	
B	RRB (i)		3,444.72	
C	RoCE		546.67	A*B

NON-TARIFF INCOME

PETITIONER'S SUBMISSION

4.130 The Petitioner has considered Non-Tariff Income as Rs. 192.18 Crore each year during the period FY 2017-18.

COMMISSION'S ANALYSIS

4.131 The Commission has considered the Non-Tariff Income as approved during the true

up of FY 2015-16 for projecting Non Tariff Income for FY 2017-18 of Rs. 192.18 Cr.

COMPUTATION OF CARRYING COST

4.132 The Commission has approved Return on Equity in terms of Regulation 2(16) of the DERC (Terms and Conditions for Determination of Tariff) Regulations, 2017 for computation of weighted average rate of interest for funding of Regulatory Asset/accumulated Revenue Gap through debt and equity shall be considered at 14.00% on pre-tax basis in its Business Plan Regulations, 2017. Further, the rate of interest has been considered at 14.00% with margin of 6.10% over one (1) year Marginal Cost of Fund based Lending Rate (MCLR) of SBI based weighted average rate of interest on actual portfolio of the Petitioner for funding of revenue gap.

4.133 Accordingly, the Commission has computed Carrying Cost as follows:

Table 235: Carrying Cost approved by the Commission for FY 2017-18

Sr. No.	Particulars	FY 2017-18
A	Rate of Return on Equity	14.00%
B	Rate of Interest on Loan	14.00%
C	Rate of Carrying Cost	14.00%
D	Opening Revenue Gap	3586.10
E	Surcharge @ 8%	669.95
F	Carrying Cost	428.00

AGGREGATE REVENUE REQUIREMENT (ARR)

4.134 The ARR based on various component as approved by the Commission and submitted by the Petitioner for FY 2017-18 is summarised as follows:

Table 236: Approved ARR for FY 2017-18 (Rs. Crore)

Sr. No.	Particulars	Petitioner's Submission	Commission Approved
A	Power Purchase Cost including Transmission Charges	7340.00	6,619.92
B	O&M Expenses	948.00	831.57
C	Depreciation	220.00	176.42
D	Return on Capital Employed (RoCE)	691.00	546.67
F	Less: Non-Tariff income	148.00	188.18
G	Add: Carrying Cost	0.00*	428.00
H	Aggregate Revenue Requirement	9051.00	8,414.41
I	Revenue at Existing Tariff	7988.00	8374.33
J	Surplus for the year	-1063.00	-40.08

* The Petitioner has submitted that carrying cost should be allowed as a separate surcharge therefore it has not indicated carrying cost in its ARR

ALLOCATION OF ARR INTO WHEELING AND RETAIL SUPPLY

4.135 Based on the allocation of different expenses in accordance with the methodology followed in the Delhi Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2017 and Business Plan Regulations, 2017, the approved ARR for Wheeling and Retail Supply business of the Petitioner is indicated in the table as follows:

Table 237: Approved ARR for Wheeling Business for FY 2017-18 (Rs. Crore)

Particulars	FY 2017-18
O&M Expenses	498.94
Depreciation	498.94
Return on Capital Employed (RoCE)	404.54
Less: Non-tariff income	28.23
Aggregate Revenue Requirement	1,014.62

Table 238: Approved ARR for Retail Business for FY 2017-18 (Rs. Crore)

Particulars	FY 2017-18
Cost of Power Procurement	6,619.92
Operation and Maintenance expenses	332.63
Return on Capital Employed	142.13
Depreciation	37.05
Carrying Cost on Revenue Gap/Regulatory asset	428.00
Less: Non-Tariff Income	159.95
Aggregate Revenue Requirement	7,399.78

A5: TARIFF DESIGN**COMPONENTS OF TARIFF DESIGN**

5.1 The Commission has considered the following components for designing tariff of the Distribution Licensees.

- Consolidated Sector Revenue (Gap)/Surplus.
- Cost of service
- Cross-subsidization in tariff structure

CONSOLIDATED REVENUE (GAP)/SURPLUS FOR THE SECTOR**REVENUE (GAP)/SURPLUS TILL FY 2015-16**

5.2 The Commission has approved the Revenue (Gap)/Surplus for the Petitioner for FY 2014-15 & FY 2015-16 as discussed in detail in Chapter A3 of this Order. The Revenue (Gap)/Surplus upto FY 2015-16 is summarised in the table as follows:

Table 239: Revenue (Gap)/Surplus of BYPL till FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	Approved in Tariff Order dated Sep 29, 2015 upto FY 2013-14	FY 2014-15	FY 2015-16	Remarks
A	Opening level of (Gap) / Surplus	(2,831.92)	(3,051.19)	(3,090.56)	
B	Revenue Requirement for the year	3,999.39	4,262.58	3,674.77	
C	Revenue realised	3,800.63	4,235.66	4,478.95	
D	(Gap) / Surplus for the year	(198.76)	(26.93)	804.18	c-b
E	8% Surcharge for the year	280.00	306.09	332.68	
F	Net (Gap)/Surplus	81.24	279.16	1,136.86	d+e
G	Rate of Carrying Cost	10.77%	10.94%	10.96%	
H	Amount of carrying cost	(300.53)	(318.54)	(276.32)	$((a*g)+(f*g)/2)$
	Additional Impact of past period True up	-	-	(431.92)	
I	Closing Balance of (Gap)/Surplus	(3,051.19)	(3,090.56)	(2,661.95)	a+f+h

5.3 The summary of Revenue (Gap)/Surplus approved for BRPL and TPDDL till FY 2015-16 is summarised in the table as follows:

Table 240: Revenue (Gap)/Surplus of BRPL till FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	Approved in Tariff Order dated Sept 29, 2015 upto FY 2013-14	FY 2014-15	FY 2015-16	Remarks
a	Opening level of (Gap) / Surplus	(5,384.23)	(5,105.28)	(5,121.56)	
B	Revenue Requirement for the year	6,572.94	7,653.40	7,064.30	
C	Revenue realised	6,877.19	7,598.77	8,147.22	

Sr. No.	Particulars	Approved in Tariff Order dated Sept 29, 2015 upto FY 2013-14	FY 2014-15	FY 2015-16	Remarks
D	(Gap) / Surplus for the year	304.25	(54.63)	1,082.92	c-b
E	8% Surcharge for the year	507.45	579.57	619.16	
F	Net (Gap)/Surplus	811.70	524.94	1,702.08	d+e
G	Rate of Carrying Cost	10.80%	11.18%	11.23%	
H	Amount of carrying cost	(537.54)	(541.21)	(479.50)	$((a*g)+(f*g)/2)$
I	Additional Impact of past period True up	4.79*	-	(333.70)

Table 241: Revenue (Gap)/Surplus of TPDDL till FY 2015-16 (Rs. Crore)

Sr. No.	Particulars	Approved in Tariff Order dated September 29, 2015 upto FY 2013-14	FY 2014-15	FY 2015-16	Remarks
a	Opening level of (Gap) / Surplus	(3,375.83)	(3,351.48)	(3,194.01)	
b	Revenue Requirement for the year	4,976.41	5,601.83	5,377.54	
c	Revenue realised	4,987.37	5,680.52	6,063.70	
d	(Gap) / Surplus for the year	10.96	78.69	686.16	c-b
e	8% Surcharge for the year	390.70	445.90	472.89	
f	Net (Gap)/Surplus	401.66	524.59	1159.05	d+e
g	Rate of Carrying Cost	11.88%	11.88%	12.08%	
h	Amount of carrying cost	(377.32)	(367.12)	(315.83)	$((a*g)+(f*g)/2)$
i	Additional Impact of past period True up	-	-	(103.31)	
j	Closing Balance of (Gap)/Surplus	(3,351.48)	(3,194.01)	(2,454.10)	a+f+h+i

5.4 The Revenue Gap upto FY 2015-16 as determined by the Commission is indicated as follows:

Table 242: Revenue (Gap)/Surplus of the three DISCOMS till FY 2015-16 (Rs. Crore)

Particulars	Up to FY 2015-16	Remarks
BYPL	(2,661.95)	Table 239
BRPL	(4,232.68)	Table 240
TPDDL	(2,454.10)	Table 241
Total	(9,348.73)	

5.5 It can be seen from the above that the accumulated Revenue Gap till FY 2015-16 for all the three DISCOMs is Rs. 9,348.73 Crore.

REVENUE (GAP)/SURPLUS FOR FY 2017-18 AT EXISTING & REVISED TARIFFS FOR BYPL

5.6 The summary of net revenue (gap)/surplus approved for BYPL at Existing Tariff for the current year, FY 2017-18 is as follows:

Table 243: Revenue (Gap)/Surplus of BYPL at Existing Tariffs for FY 2017-18 (Rs. Crore)

Particulars	FY 2017-18
Revenue requirement for the year (including Carrying Cost)	4441.51
Revenue at existing tariff	4483.19
Revenue (Gap)/Surplus for the year	41.68

5.7 The summary of net revenue (gap)/surplus for BRPL and TPDDL at Existing Tariff for the current year, FY 2017-18 is as follows:

Table 244: Revenue (Gap)/Surplus of BRPL at Existing Tariffs for FY 2017-18 (Rs. Crore)

Particulars	FY 2017-18
Revenue requirement for the year (including Carrying Cost) (A)	8,414.41
Revenue at Existing tariff @ 99.50% Collection Efficiency (B)	8374.33
Revenue (Gap)/Surplus for the year (C)	(40.08)

Table 245: Revenue (Gap)/Surplus of TPDDL at Existing Tariffs for FY 2017-18 (Rs. Crore)

Particulars	FY 2017-18
Revenue requirement for the year (including Carrying Cost)	6,449.51
Revenue at existing tariff	6590.85
Revenue (Gap)/Surplus for the year	141.34

Table 246: Revenue (Gap)/Surplus of all the three DISCOMs at Existing Tariff for FY 2017-18 (Rs. Crore)

Particulars	FY 2017-18
BYPL (A)	41.68
BRPL (B)	(40.08)
TPDDL (C)	141.34
Total	142.94

5.8 The Commission has rationalized fixed charges based on under recovery of revenue through fixed charges in the ARR of the Distribution licensees as per the earlier tariff schedule.

5.9 The summary of revenue billed at revised tariffs (Apr'17-Aug'17 Revenue at Existing Tariff & Sept'17-Mar'18 Revenue at Revised Tariff), excluding 8% Surcharge, for FY 2017-18 is shown as follows:

Table 247: Revenue at Revised Tariffs for FY 2017-18 (Rs. Crore)

Sr. No.	Category	Fixed Charges	Energy Charges	Total Charges
1	Domestic	276.38	3643.54	3919.92
2	Non-Domestic	382.13	2814.43	3196.56
3	Industrial	39.67	399.74	439.42
4	Agriculture	0.48	4.51	4.99
5	Mushroom	0.00	0.06	0.06
6	Public Lighting	-	111.33	111.33
7	DJB	18.71	246.92	265.63
8	DIAL	9.59	226.37	235.96
9	Railway Traction	2.44	18.09	20.53
10	DMRC	8.02	187.30	195.32
12	Others	7.15	96.71	103.87
13	Total	745.48	7,753.91	8,499.40
14	Revenue @ 99.50% Collection Efficiency			8456.90

5.10 The revenue for FY 2017-18 projected by Commission at Revised tariff with Collection efficiency of 99.50% is Rs. 8456.90 Crore (excluding 8% surcharge) which will result Surplus of Rs. 42.91 Cr.

5.11 The Commission has also decided to continue with the existing surcharge at 8% over the revised tariff for liquidating the regulatory assets in line with proposed road map and this 8% Surcharge is estimated to result in an additional inflow of Rs. 679.95 Crore.

COST OF SERVICE MODEL

5.12 While determining the revenue requirement, various sectors of services, viz. generation, transmission and the distribution costs contribute to the total cost of service. The relative burden of constituent consumer categories is assessed and on the basis of the cost imposed on the system, it is decided as to how much share is due to which category of consumers. Although, it shall be equitable to have the embedded cost in designing the tariff for different consumer categories, it calls for a detailed database of allocated costs. Such allocations in the determination of embedded cost are done on the basis of following factors:

- (a) Voltage of supply;
- (b) Power factor;

- (c) Load factor;
- (d) Time of use of electricity;
- (e) Quantity of electricity consumed,
- (f) Distribution Loss
- (g) Collection Efficiency etc.

5.13 The approach adopted by the Commission for determining the cost of supply for different voltage levels has been described in the following paragraphs.

5.14 The approved ARR of the Wheeling and Retail Supply business is allocated to different voltage levels and the same has been considered along with the energy sales to the respective voltage level to arrive at the per unit Wheeling charge and Retail Supply Charge for that voltage level (detailed methodology discussed ahead).

ALLOCATION OF WHEELING ARR

5.15 The Commission has considered the gross energy sales (MU) approved for the DISCOM for the year and has allocated the same to different voltage levels in the proportion of energy sales (MU) to these voltages to total sales in that year as submitted by the respective DISCOMs. Both BYPL and BRPL have not indicated any energy sales above 66 kV level in their distribution areas and therefore, no energy sales has been considered above 66 kV level while computing the cost of supply. The voltage wise energy sales approved for FY 2017-18 is as shown in the following table:

Table 248: Approved Energy Sales for FY 2017-18 (MU)

Particulars	BRPL	BYPL	TPDDL
Sales above 66 kV level	0.00	0.00	90.89
Sales at 33/66 kV level	633.15	270.95	103.98
Sales at 11 kV level	1043.72	638.52	885.71
Sales at LT level	9774.12	5224.71	7376.86
Total	11450.99	6134.18	8457.44

5.16 The Commission has, thereafter, grossed up the energy sales (MU) at the specific voltage level with the respective distribution losses (%) at that level to arrive at the Energy Input (MU) for that level. The Commission has considered the distribution losses at various voltage levels as projected by the Distribution Licensees in their Business Plan. Keeping the overall distribution losses same as approved by the Commission and considering the losses at 33/66 kV and at 11 kV as projected, the LT

voltage level losses are derived. The summary of the voltage wise distribution losses considered by the Commission are as follows.

Table 249: Distribution Loss for FY 2017-18 (%)

Particulars	BRPL	BYPL	TPDDL
Loss above 66 kV level	0.00%	0.00%	0.00%
Loss at 33/66 kV level	1.23%	0.84%	0.79%
Loss at 11 kV level	2.95%	1.94%	2.94%
Loss at LT level	8.35%	12.20%	5.60%

5.17 The Commission would like to reiterate that the voltage wise distribution losses considered above are estimates and may not reflect the actual picture. The Commission, in this regard directed the three DISCOMs (BRPL, BYPL and TPDDL) earlier to carry out energy audit so that the actual data of distribution losses at different voltage levels could be used to calculate the cost of supply. A study made to assess the technical losses and commercial losses segregated voltage wise is yet to be submitted by the Petitioner. The summary of Energy Input (MU) for the respective voltage levels are shown as follows:

Table 250: Approved Energy Input for FY 2017-18 (MU)

Particulars	BRPL	BYPL	TPDDL
Input for 66 kV level	0	0	90.89
Input for 33/66 kV level	641.04	273.24	104.81
Input for 11 kV level	1088.84	656.67	919.81
Input for LT level	11125.63	6119.83	8115.29
Total	12856.17	7050.78	9231.00

5.18 The Wheeling ARR for the year has been apportioned in proportion of the energy input at different voltage levels. The wheeling cost allocated to different voltage levels is tabulated as follows:

Table 251: Wheeling cost allocated to different voltages for FY 2017-18 (Rs. Crore)

Particulars	BRPL	BYPL	TPDDL
Above 66 kV level	0	0	7.35
At 33/66 kV level	50.59	27.69	8.47
At 11 kV level	85.93	66.54	74.36
At LT level	878.05	620.09	656.03
Total	1014.62	714.42	746.23

5.19 Based on the energy sales at the respective voltage levels the Commission has determined Wheeling Charge per unit for different voltages for FY 2017-18 as follows:

Table 252: Wheeling Charges for FY 2017-18 (Rs./Unit)

Particulars	BRPL	BYPL	TPDDL
Above 66 kV level	0	0	0.81
At 33/66 kV level	0.80	1.02	0.81
At 11 kV level	0.82	1.04	0.84
At LT level	0.90	1.19	0.89
Average	0.89	1.16	0.88

ALLOCATION OF RETAIL SUPPLY ARR

5.20 The Commission has allocated the Retail Supply ARR in the ratio of energy input determined above for different voltage levels. The Commission has thereafter, determined the Retail Supply charge for a particular voltage level by considering energy sales at that voltage level. The summary of Retail supply ARR Allocation to different voltage levels for FY 2017-18 is given as follows:

Table 253: Retail Supply cost Allocated to different voltages for FY 2017-18 (Rs. Crore)

Particulars	BRPL	BYPL	TPDDL
Above 66 kV level	0.00	0.00	56.16
At 33/66 kV level	368.97	144.44	64.76
At 11 kV level	626.71	347.12	568.29
At LT level	6403.72	3234.98	5013.95
Total	7399.78	3727.09	5703.28

5.21 Based on the energy sales at the respective voltage levels, the Commission has determined retail supply charges per unit for different voltages for FY 2017-18 as follows:

Table 254: Retail Supply Charges at different voltages for FY 2017-18 (Rs/Unit)

Particulars	BRPL	BYPL	TPDDL
Above 66 kV level	0.00	0.00	6.18
At 33/66 kV level	5.83	5.33	6.23
At 11 kV level	6.00	5.44	6.42
At LT level	6.55	6.19	6.80
Average	6.46	6.08	6.74

5.22 The cost of supply determined by the Commission for the different voltage levels is shown as follows:

Table 255: Cost of Supply for BYPL (Rs. /Unit)

Particulars	Wheeling	Retail Supply	Total
Above 66 kV level	0.00	0.00	0.00
At 33/66 kV level	1.02	5.33	6.35
At 11 kV level	1.04	5.44	6.48
At LT level	1.19	6.19	7.38
Average	1.16	6.08	7.24

Table 256: Cost of Supply for BRPL (Rs./Unit)

Particulars	Wheeling	Retail Supply	Total
Above 66 kV level	0.00	0.00	0.00
At 33/66 kV level	0.80	5.83	6.63
At 11 kV level	0.82	6.00	6.83
At LT level	0.90	6.55	7.45
Average	0.89	6.46	7.35

Table 257: Cost of Supply for TPDDL (Rs. /Unit)

Particulars	Wheeling	Retail Supply	Total
Above 66 kV level	0.81	6.18	6.99
At 33/66 kV level	0.81	6.23	7.04
At 11 kV level	0.84	6.42	7.26
At LT level	0.89	6.80	7.69
Average	0.88	6.74	7.63

CROSS-SUBSIDISATION IN TARIFF STRUCTURE

5.23 The Electricity Act, 2003 provides for reduction of cross subsidies by moving the category wise tariffs towards cost of supply. The Commission also recognizes the need for reduction of cross subsidy. However, it is equally incumbent on the Commission to keep in mind the historical perspective for the need to continue with cross-subsidy for some more time.

5.24 Regarding Cross subsidy, Clause 8.3 of the National Tariff Policy 2016 states as follows:

“8.3 Tariff design: Linkage of tariffs to cost of service

It has been widely recognised that rational and economic pricing of electricity can be one of the major tools for energy conservation and sustainable use of ground water resources.

In terms of the Section 61(g) of the Act, the Appropriate Commission shall be guided by the objective that the tariff progressively reflects the efficient and prudent cost of supply of electricity. The State Governments can give subsidy to the extent they consider appropriate as per the provisions of section 65 of the Act. Direct subsidy is a better way to support the poorer categories of consumers than the mechanism of cross subsidizing the tariff across the board. Subsidies should be targeted effectively and in transparent manner. As a substitute of cross subsidies, the State Government has the option of raising resources through mechanism of electricity duty and giving direct subsidies to only needy consumers. This is a better way of targeting subsidies effectively.

Accordingly, the following principles would be adopted:

- 1. Consumers below poverty line who consume below a specified level, as prescribed in the National Electricity Policy may receive a special support through cross subsidy. Tariffs for such designated group of consumers will be at least 50% of the average cost of supply.*
- 2. For achieving the objective that the tariff progressively reflects the cost of supply of electricity, the Appropriate Commission would notify a roadmap such that tariffs are brought within $\pm 20\%$ of the average cost of supply. The road map would also have intermediate milestones, based on the approach of a gradual reduction in cross subsidy.*
- 3. While fixing tariff for agricultural use, the imperatives of the need of using ground water resources in a sustainable manner would also need to be kept in mind in addition to the average cost of supply. Tariff for agricultural use may be set at different levels for different parts of a state depending on the condition of the ground water table to prevent excessive depletion of ground water. Section 62 (3) of the Act provides that geographical position of any area could be one of the criteria for tariff differentiation. A higher level of subsidy could be considered to support poorer farmers of the region where adverse ground water table condition requires larger quantity of electricity for irrigation purposes subject to suitable restrictions to ensure maintenance of ground water levels and sustainable ground water usage.*
- 4. Extent of subsidy for different categories of consumers can be decided by the State Government keeping in view various relevant aspects. But provision of free electricity is not desirable as it encourages wasteful consumption of electricity. Besides in most cases, lowering of water table in turn creating avoidable problem of water shortage for irrigation and drinking water for later generations. It is also likely to lead to rapid rise in demand of electricity putting severe strain on the distribution network thus adversely affecting the quality of supply of power. Therefore, it is necessary that reasonable level of user charges is levied. The subsidized rates of electricity should be permitted only up to a pre-identified level of consumption beyond which tariffs reflecting efficient cost of service should be*

charged from consumers. If the State Government wants to reimburse even part of this cost of electricity to poor category of consumers the amount can be paid in cash or any other suitable way. Use of prepaid meters can also facilitate this transfer of subsidy to such consumers.

5. Metering of supply to agricultural/rural consumers can be achieved in a consumer friendly way and in effective manner by management of local distribution in rural areas through commercial arrangement with franchisees with involvement of panchayat institutions, user associations, cooperative societies etc. Use of smart meters may be encouraged as a cost effective option for metering in cases of "limited use consumers" who are eligible for subsidized electricity.

- 5.25 In line with the above provision of the National Tariff Policy states that any consumer desirous of getting subsidized tariff shall approach the State Government and if the request for subsidy is found justified, the State Government may give subsidy to that class of consumers so that these consumers get electricity at concessional tariff.
- 5.26 At present, there are number of consumer classes e.g. some slabs of domestic consumers, Agriculture and Mushroom Cultivation, Government Schools/Colleges, Hospitals, etc. which are being cross subsidized by other consumers.
- 5.27 The Commission is of the view that ideally the electricity tariff for all categories of consumers should be fixed on cost to serve basis. However, in view of the high level of prevailing regulatory assets and the liquidation plan submitted before the Hon'ble Supreme Court, the Commission has continued with a policy of subsidizing some of the consumers below the cost of supply.
- 5.28 The Commission has computed category wise revenue based on latest available data of Sales Mix, Consumers and Sanctioned Load provided by the Petitioner. The Ratio of ABR to Average Cost of Supply and category-wise tariff hike approved for FY 2017-18 is indicated in the table as follows:

Table 258: Major Category-wise ABR v/s ACoS approved for FY 2017-18

Sr. No.	Category	ABR At Existing Tariff	ABR at Revised Tariff	ACoS	ABR at Revised Tariff to ACoS (%)
1	Domestic	5.88	5.97	7.35	81%

TARIFF STRUCTURE**DOMESTIC TARIFF**

- 5.29 Domestic Tariff is applicable for power consumption of residential consumers, hostels of recognized/aided educational institutions and staircase lighting in residential flats, compound lighting, lifts and water pumps or drinking water supply and fire-fighting equipment, etc. bonafide domestic use in farm houses, etc. as per the revised tariff schedule.
- 5.30 All the Cattle/ Dairy Farms and Dhobi Ghat across Delhi with a total consumption of not more than 400 units in a month. However, in case the consumption in a month exceeds 400 units, the total consumption including the first 400 units shall be charged non- domestic rates as applicable to the consumers falling under the Non Domestic category.
- 5.31 The Commission in its Tariff Order dated June 26, 2003 introduced two part tariff for domestic consumers, i.e., fixed charges and energy charges and abolished minimum charges and meter rent. The fixed charge in two-part tariff represents the fixed component of charges, which is independent of consumption level and depends on the fixed cost incurred by the Utility in supplying electricity.
- 5.32 The Commission has considered the views expressed by the stakeholders and after considering various options, the Commission has changed the existing methodology of levying fixed charges as per slab upto 5kW from Rs./month basis to Rs/kW/month basis.

DOMESTIC SINGLE DELIVERY POINT FOR GROUP HOUSING SOCIETIES (GHS)

- 5.33 In this Tariff Order, the Tariff for Group Housing Societies (GHS) for supply at 11kV has been rationalized as follows:
- Energy charges for GHS has been retained at Rs.6.00/kWh as per last tariff schedule.
 - Individual Consumers availing the supply at single delivery point through Group Housing Society may claim the benefit of subsidy, applicable if any, as per the Order of GoNCTD. Group Housing Society shall submit the details of eligible consumers with consumption details and lodge claims for subsidy on behalf of individual members from DISCOMs

- c) The definition of GHS has been broadened to cover all the GHS including residential complex developed by a developer as follows:

“Group Housing Society(GHS) shall mean a residential complex owned/managed by a Group Housing Society registered with Registrar, Cooperative Societies, Delhi / registered under Societies Act, 1860 and for sake of brevity the definition shall include residential complex developed by a Developer and approved by appropriate authority “

- d) The Single Point Delivery Supplier (GHS) shall charge the Domestic tariff as per slab rate of Tariff Schedule 1.1 to its Individual Members. Any Deficit/Surplus due to sum total of the billing to the Individual Members as per slab rate of Tariff Schedule 1.1 and the billing as per the Tariff Schedule 1.2 including the operational expenses of the Single Point Delivery Supplier shall be passed on to the members of the Group Housing Societies on pro rata basis of consumption.

NON-DOMESTIC TARIFF

- 5.34 Non-domestic category of consumers comprises two sub-categories viz., Supply on low Tension and Supply on High Tension (11 kV and above).

NON-DOMESTIC LOW TENSION (NDLT)

- 5.35 This category covers LT Non-Domestic consumers having contract demand or sanctioned load (whichever is applicable) up to 140 kW/150 kVA.
- 5.36 For the consumers with sanctioned load up to 10 kW in this category, the Commission had specified the kWh based tariff only. The Commission has decided to continue with the existing practice.
- 5.37 For Non-domestic consumers having contract demand or sanctioned load more than 10 kW (11 kVA) and up to 140 kW (150 kVA), the Commission has specified kVAh based energy charges.
- 5.38 The Commission believes that with gradual movement towards voltage linked tariff, irrespective of load of the consumer, the tariff for consumption at higher voltages will be lower than that for lower voltages, which will encourage consumers to opt for HT connections particularly for loads higher than 140 kW.
- 5.39 For existing consumers having sanctioned load/contract demand, whichever is

applicable, in kW, the actual power factor of the consumer in the relevant billing cycle shall be considered for converting kW to kVA for computing the fixed charges. For new consumers, the sanctioned load/contract demand shall be in terms of kVA only.

NON-DOMESTIC HIGH TENSION (NDHT)

- 5.40 Non-domestic consumers with contract demand or sanctioned load more than 100 kW/108 kVA can also avail supply at 11 kV or above.
- 5.41 Non domestic consumers availing supply on 33 kV/66 kV or 220 kV will be entitled for rebate of 2.5% and 4% respectively on the applicable energy charges on 11 kV tariff.
- 5.42 For existing consumers having sanctioned load/contract demand, whichever is applicable, in kW, the actual power factor of the consumer in the relevant billing cycle shall be considered for converting kW to kVA for computing the fixed charges. For new consumers, the sanctioned load/contract demand shall be in terms of kVA only.

INDUSTRIAL TARIFF

- 5.43 Industrial category of consumers consists of two sub-categories, viz., Small Industrial Power (SIP) and Large Industrial Power (LIP).

SMALL INDUSTRIAL POWER (SIP)

- 5.44 This category covers industrial consumers having contract demand or sanctioned load, whichever is applicable, up to 200kW/215kVA.
- 5.45 For the consumers with sanctioned load up to 10 kW in this category, the Commission had specified the kWh based tariff only. The Commission has decided to continue with the existing practice.
- 5.46 For Small Industrial Power (SIP less than 200 kW/215 kVA) category, the slab between 10 kW (11 kVA) up to 140 kW (150 kVA), the Commission has specified the kVAh based tariff.
- 5.47 For existing consumers of 10 kW and above having sanctioned load/contract demand, whichever is applicable, in kW, the actual power factor of the consumer in the relevant billing cycle shall be considered for converting kW to kVA

for computing the fixed charges. For new consumers, the sanctioned load/contract demand shall be in terms of kVA only.

LARGE INDUSTRIAL POWER (LIP)

- 5.48 Industrial consumers with contract demand or sanctioned load more than 108 kVA shall avail supply on 11 kV.
- 5.49 The Commission believes that with gradual movement towards voltage linked tariff, irrespective of load of the consumer, the tariff for consumption at higher voltages will be lower than that for lower voltages, which will discourage consumers to opt for LT connections particularly for loads higher than 100 kW.
- 5.50 For supply at 33/66 kV, consumers will get a rebate of 2.5% on the energy charges applicable for supply at 11 kV and a rebate of 4% for supply at 220 kV.
- 5.51 For existing consumers having sanctioned load/contract demand, whichever is applicable, in kW, the actual power factor of the consumer in the relevant billing cycle shall be considered for converting kW to kVA for computing the fixed charges. For new consumers, the sanctioned load/contract demand shall be in terms of kVA only.

AGRICULTURE

- 5.52 Agriculture connections are available for tube wells for irrigation, threshers and kuttu cutting in conjunction with pumping load for irrigation purpose for loads up to 20 kW and lighting load for bonafide use in “kothra”.

MUSHROOM CULTIVATION

- 5.53 This category is applicable to the consumers who are engaged in mushroom cultivation/processing.

PUBLIC LIGHTING

- 5.54 Tariff for this category is applicable to all street light consumers including MCD, DDA, PWD/CPWD, CGHS, Slums, DSIIDC and certain civilian pockets of MES. The share of MCD, however is dominating as most of the street lights in the city are owned by the MCD.
- 5.55 The Commission has decided that tariff for public lighting which is metered will be

lower than tariff for public lighting which is unmetered. Therefore, the Commission has prescribed different tariff for metered and unmetered public lighting.

- 5.56 The maintenance charges and other conditions of maintenance of street lights, as approved in the Commission's Order dated September 22, 2009, will continue till such time it is amended. These maintenance charges are exclusive of applicable taxes and duties.

RAILWAY TRACTION

- 5.57 This category is applicable to Indian Railways for traction purposes for loads more than 100 kW/108 kVA.

DELHI METRO RAIL CORPORATION (DMRC)

- 5.58 This category is available to DMRC to run its operations (other than construction projects). The commercial load at DMRC stations shall be metered and billed separately as per the relevant tariff category.

DELHI JAL BOARD (DJB)

- 5.59 In the Tariff Order dated July 13, 2012, the Commission has added DJB supply under LT also in this category.
- 5.60 For the purpose of conversion of kW to kVA, the actual power factor of the relevant billing cycle shall be considered for the computation of fixed charges.

DELHI INTERNATIONAL AIRPORT LIMITED (DIAL)

- 5.61 The Commission has continued the prevailing practice to give DIAL a tariff which shall be higher than that of DJB as it is providing essential services to all consumers including the lowest strata of the society but lesser than that of Non Domestic HT consumers. The commercial load at DIAL premises shall be metered and billed separately as per the relevant tariff category.

ADVERTISEMENT AND HOARDINGS

- 5.62 The Commission, in its Tariff Order dated July 31, 2013 had created a separate category to cover the consumption for the advertisements and Hoardings. This category will be applicable for supply of electricity for lighting external advertisements, external hoardings and displays at departments stores, malls,

multiplexes, theatres, clubs, hotels, bus shelters, Railway/Metro Stations, Airport and shall be separately metered and charged at the tariff applicable for “Advertisements and Hoardings” category, except such displays which are for the purpose of indicating/displaying the name and other details of the shop, commercial premises itself. Such use of electricity shall be covered under the prevailing tariff for such shops or commercial premises.

TEMPORARY SUPPLY

5.63 The Commission does not propose any major change in the existing tariff methodology for temporary supply as mentioned in the Tariff Schedule. The 10 days restriction for availing temporary supply for religious functions under clause 12.3 of the other terms and conditions of the Tariff Schedule has been withdrawn.

CHARGING OF E-RICKSHAW/ E-VEHICLE

5.64 The Commission has introduced a new Tariff Category for charging of batteries of E-Rickshaw / E-Vehicle at Charging Stations. However, the tariff for charging of batteries of E-Rickshaw / E-Vehicle at premises other than at Charging Stations shall be the same as applicable for the relevant category of connection at such premises from which the E-Rickshaw / E-Vehicle is being charged.

TIME OF DAY (TOD) TARIFF

5.65 It is observed that the cost of power purchase during peak hours is quite high. Time of Day (ToD) tariff is an important Demand Side management (DSM) measure to flatten the load curve and avoid such high cost peaking power purchases. Accordingly, the Commission had introduced Time of Day (ToD) tariff wherein peak hour consumption is charged at higher rates which reflect the higher cost of power purchase during peak hours. At the same time, a rebate is being offered on consumption during off-peak hours. This is also meant to incentivize consumers to shift a portion of their loads from peak time to off-peak time, thereby improving the system load factor and flatten the load curve. The ToD tariff is aimed at optimizing the cost of power purchase, which constitutes over 80% of the tariff charged from the consumers. It also assumes importance in the context of propagating and

implementing DSM and achieving energy efficiency. This is important in Delhi situation where wide variations in load especially in summer causes problem of shortages during Peak hours and surplus during Off peak hours.

- 5.66 Introduction of higher peak hour tariff would initially generate additional revenue which would compensate for the reduction in revenue on account of lower tariff during off-peak hours.
- 5.67 In the long run, this would provide signals to the consumers to reduce load during peak hours and, wherever possible, shift this consumption to off-peak hours. Any loss of revenue to the utility on account of shifting of load from peak to off-peak hours in the long run would by and large get compensated by way of reduction of off-peak surplus to the extent of increase in off-peak demand.
- 5.68 The ToD Tariff would thus have immediate as well as long term benefits for both, consumers as well as the utility and contribute towards controlling the rise in power purchase costs.
- 5.69 The Commission in its MYT Order for second Control Period dated July 13, 2012 had decided to introduce ToD Tariff on a pilot basis for large industrial and non domestic consumers (300 kW and above). This was targeted to the consumer segment which has capacity to bear a higher burden for peak hour consumption and also at least partly (if not fully) offset the impact of this increase through higher off-peak consumption at lower rates. The Commission as a progressive step in this direction and to further encourage demand shift from peak hours to off-peak hours has decided to lower the applicability limit for ToD Tariff.
- 5.70 In the Tariff order dated July 31, 2013, the Time of Day (ToD) Tariff# - ToD Tariff was made applicable on all consumers (other than domestic) whose sanctioned load/MDI (whichever is higher) is 100kW / 108 kVA and above.
- 5.71 In the Tariff order dated July 23, 2014, the Time of Day (ToD) Tariff# - ToD Tariff was made applicable on all consumers (other than domestic) whose sanctioned load/MDI (whichever is higher) is 50kW / 54 kVA and above. Also Optional TOD tariff was made available for all consumers (other than domestic) whose sanctioned load/MDI (whichever is higher) was between 25kW/27kVA to 50kW/54kVA.
- 5.72 In this Tariff Order, the Commission has decided to retain existing Time of Day (ToD)

Tariff as follows:

- TOD tariff shall be applicable on all consumers (other than Domestic) whose sanctioned load/MDI (whichever is higher) is 25kW/27kVA and above.
- Option of TOD tariff shall also be available for all consumers (other than Domestic) whose sanctioned load/MDI (whichever is higher) is 11kW/12kVA to 25kW/27kVA. If the consumer who has opted for TOD of sanctioned load between 11kW/12kVA to 25kW/27kVA, the charges for up-gradation of meters , if any, shall be borne by respective consumers.
- The Commission has decided to retain the Rebate during the Off Peak hours and Peak hours Surcharge at 20%. Optional ToD Consumers will have the option to move back to non-ToD regime only once within one Financial Year.
- For other than Peak and Off-Peak hours normal Energy Charges shall be applicable.

Months	Peak Hours	Surcharge on Energy Charges	Off-Peak Hours	Rebate on Energy Charges
May-September	1300-1700 hrs and 2100-2400 hrs	20%	0300-0900 hrs	20%

The additional impact due to ToD tariff on the bill received by the management of commercial complexes may be recovered by the Single Point Delivery (SPD) manager by spreading this component of tariff on pro-rata basis on the users of the complex.

Sr. No.	CATEGORY	FIXED CHARGES	ENERGY CHARGES
	Street Lighting, Signals and Blinkers.	-	7.30 Rs./kWh
6.2	Unmetered		
	Street Lighting Signals and Blinkers.	-	7.80 Rs./kWh
7	DELHI JAL BOARD (DJB)		
7.1	Supply at LT		
A	Up to 10 kW	100 Rs./kW/month	8.00 Rs./kWh
B	>10 kW/11kVA & ≤ 140 kW/150 kVA	115 Rs./kVA/month	7.80 Rs./kVAh
C	>140 kW / 150 kVA (400 volts) (No Supply on LT for load > 200kW/215 kVA)	160 Rs./kVA/month	9.30 Rs./kVAh
7.2	Supply at 11 kV and above	130 Rs./kVA/month	7.20 Rs./kVAh
8	DELHI INTERNATIONAL AIRPORT LIMITED (DIAL)	160 Rs./kVA/month	7.90 Rs./kVAh
9	RAILWAY TRACTION	160 Rs./kVA/month	6.80 Rs./kVAh
10	DELHI METRO RAIL CORPORATION (DMRC)	130 Rs./kVA/month	6.10 Rs./kVAh
11	ADVERTISEMENTS AND HOARDINGS	600 Rs./month/hoarding	11.20 Rs./kVAh
12	TEMPORARY SUPPLY		
12.1	Domestic Connections including Group Housing Societies	Same rate as that of relevant category	Same as that of relevant category without any temporary surcharge
12.2	For threshers during the threshing season	Electricity Tax of MCD : Rs. 270 per connection per month	Flat rate of Rs. 5,400 per month
12.3	All other connections including construction projects	Same rate as that of the relevant category	1.30 times of the relevant category of tariff
13	Charging Stations for E-Rickshaw/ E-Vehicle on Single Delivery Point		
13.1	Supply at LT	-	5.50 Rs./kWh
13.2	Supply at HT	-	5.00 Rs./kVAh

Notes:

- For all categories other than Domestic, Fixed Charges are to be levied based on billing demand per kW/kVA or part thereof. Where the Maximum Demand (MD), as defined in *DERC (Supply Code and Performance Standards) Regulations, 2017*, reading exceeds sanctioned load/contract demand, a surcharge of 30% shall be levied on the fixed charges corresponding to excess load in kW/kVA for such billing cycle only. Wherever, sanctioned load/contract

demand is in kW/HP, the kVA shall be calculated on basis of actual power factor of the consumer, for the relevant billing cycle.

2. **Time of Day (TOD) Tariff**

- TOD tariff shall be applicable on all consumers (other than Domestic) whose sanctioned load/MDI (whichever is higher) is 25kW/27kVA and above as shown in the table below.
- Option of TOD tariff shall also be available for all consumers (other than Domestic) whose sanctioned load/MDI (whichever is higher) is 11kW/12kVA to 25kW/27kVA. If the consumer who has opted for TOD of sanctioned load between 11kW/12kVA to 25kW/27kVA, the charges for up-gradation of meters, if any, shall be borne by respective consumers.
- The Commission has decided to retain the Rebate during the Off Peak hours and Peak hours Surcharge at 20%. Optional ToD Consumers will have the option to move back to non-ToD regime only once within one Financial Year.
- For other than Peak and Off-Peak hours normal Energy Charges shall be applicable.

Months	Peak Hours	Surcharge on Energy Charges	Off-Peak Hours	Rebate on Energy Charges
May-September	1300-1700 hrs and 2100-2400 hrs	20%	0300-0900 hrs	20%

- Additional rebate of 2.5% on the Energy Charges for supply at 33/66 kV and 4% for supply at 220 kV shall be admissible.
- Maintenance Charges on street lights, wherever maintained by DISCOMs, shall be payable @ Rs. 84/light point/month and material cost at the rate of Rs. 19/light point/month as per the Commission's Order dated 22 September 2009 in addition to the specified tariff. These charges are exclusive of applicable taxes and duties.
- The valid Factory Licence shall be mandatory for applicability of Tariff under Industrial category:
Provided that in case where the Factory Licence has expired and its renewal application is pending with the concerned authority, the DISCOMs shall bill such consumers as per Tariff applicable under Non Domestic category;
Provided further that on renewal of the Factory Licence, the DISCOMs shall adjust the bills of such consumers as per applicable Tariff under Industrial category from the effective date of renewal of such Licence.
- The above tariff rates shall be subject to following additional surcharges to be applied only on the basic Fixed Charges and Energy Charges excluding all other charges e.g., LPSC, Arrears., Electricity Tax/Duty, PPAC, load violation surcharge, etc.:
 - 8% towards recovery of past accumulated deficit to the consumers, and,
 - 3.70% towards recovery of Pension Trust Charges of erstwhile DVB Employees /Pensioners as recommended by GoNCTD.

7. The Distribution Licensee shall levy PPAC after considering relevant ToD Rebate/Surcharge on energy charges available to the consumers.
8. For prepaid consumers, the additional rebate of 1% shall be applicable on the basic Energy Charges, Fixed Charges and all other charges on the tariff applicable.
9. The Single Point Delivery Supplier (Group Housing Societies) shall charge the Domestic tariff as per slab rate of 1.1 to its Individual Members availing supply for Domestic purpose and Non Domestic Tariff for other than domestic purpose. Any Deficit/Surplus due to sum total of the billing to the Individual Members as per slab rate of tariff schedule 1.1 and the billing as per the tariff schedule 1.2 including the operational expenses of the Single Point Delivery Supplier shall be passed on to the members of the Group Housing Societies on pro rata basis of consumption.
10. Individual Domestic Consumers availing the supply at single delivery point through Group Housing Society, shall claim the benefit of subsidy, applicable if any, as per the Order of GoNCTD. Group Housing Society shall submit the details of eligible consumers with consumption details and lodge claim of subsidy on behalf of individual members from DISCOMs.
11. The Single Point Delivery Supplier availing supply at NDHT shall charge the NDHT tariff to its LT consumers and in addition shall be entitled to charge an extra upto 5% of the bill amount at NDHT tariff to cover losses and all its expenses.
12. The Commercial Consumers of DMRC and DIAL who have sanctioned load above 215 kVA but served at LT (415 Volts) such consumers shall be charged the tariff applicable to Non-domestic LT (NDLT) category greater than 140kW/150kVA (415 Volts).
13. The rates stipulated in the Schedule are exclusive of electricity duty and other taxes and charges, as levied from time to time by the Government or any other competent authority, which are payable extra.
14. In the event of the electricity bill rendered by the Distribution licensee, not being paid in full within the due date specified on the bill, a surcharge @ 1.5% per month shall be levied. The LPSC shall be charged for the number of days of delay in receiving payment from the consumer by the Distribution Licensee, until the payment is made in full without prejudice to the right of the licensee to disconnect the supply after due date, in the event of non-payment in accordance with Section 56 of Electricity Act, 2003. This will also apply to temporary connections and enforcement cases, where payment of final bill amount after adjustment of amount as per directions of the Court and deposit, is not made by due date.
15. No payment shall be accepted by the Petitioner from its consumers at its own collection centres/mobile vans in cash towards electricity bill exceeding Rs. 4,000/- except from blind consumers, for court settlement cases & payment deposited by the consumers at

designated scheduled commercial bank branches upto Rs. 50,000/-. Violation of this provision shall attract penalty to the level of 10% of total Cash collection exceeding the limit.

16. Wherever the Fixed or Energy Charges are specified in Rs. per kVAh, for the purpose of billing, the kVAh as read from the meter in the relevant billing cycle shall be used.

Other Terms and Conditions

1. DOMESTIC CATEGORY

1.1 Domestic Lighting, Fan and Power (Single Delivery Point and Separate Delivery Points/Meters)

Available to following:

- a. Residential Consumers
- b. Hostels of recognized/ aided institutions which are being funded more than 90% by Municipal Corporation of Delhi or Government of the NCT of Delhi or any other Government/local bodies [local bodies include NDMC and MCDs (North, South & East)].
- c. Staircase lighting in residential flats separately metered.
- d. Compound lighting, lifts and water pumps etc., for drinking water supply and fire-fighting equipment in residential complexes, if separately metered.
- e. In group housing societies etc. for bonafide use of lighting/fan and power, subject to the provision that the supply is at single delivery point for combined lighting/fan & power.
- f. Dispensary/Hospitals/Public Libraries/School/College/ Working Women's Hostel/ Orphanage/ Charitable homes run and funded by more than 90% by Municipal Corporation of Delhi or Government of the NCT of Delhi or any other Government/local bodies.
- g. Small Health Centre's approved by the Department of Health, Government of NCT of Delhi for providing Charitable Services only.
- h. Recognized Centre's for welfare of blind, deaf and dumb, spastic children, physically handicapped persons, mentally retarded persons, as approved by the Government of NCT of Delhi and other Government.
- i. Public parks except temporary use for any other purpose.
- j. Bed and Breakfast Establishments (Residential Premises) registered u/s 3 of the National Capital Territory of Delhi (Incredible India) Bed and Breakfast Establishments (Registration & Regulations) Act, 2007.
- k. Paying Guests/Students' Hostel registered under any scheme approved by GoNCTD.
- l. Places of worship.
- m. Cheshire homes/orphanage.
- n. Shelter Homes (including Night Shelters) approved by Delhi Urban Shelter Improvement Board, GoNCTD.
- o. Electric crematoriums.
- p. Gaushala Registered under GoNCTD.
- q. Professionals i.e. individuals engaged in those activities involving services based on professional skills, viz Doctor, Lawyer, Architect, Chartered Accountant, Company Secretary, Cost & Works Accountant, Engineer, Town Planner, Media Professional and Documentary Film Maker may utilize the domestic connection at their residence for carrying out their professional work in the nature of consultancy without attracting non-domestic tariff for the electricity consumed, provided that the area used for professional activity does not exceed

the area permitted to be used for such activity in residential area under the Master Plan for Delhi, 2021 (MPD-2021), which as per MPD-2021 is permissible on any one floor only but restricted to less than 50% of the permissible or sanctioned FAR whichever is less on that plot or dwelling unit.

- r. Available, for loads up to 21 kW, to farm houses for bonafide domestic self use.
- s. The consumers running small commercial establishments from their households having sanctioned load upto 5kW shall be charged domestic tariff.
- t. Cattle Farms / Dairy Farms / Dhobi Ghat with a total consumption of not more than 400 units/month.

1.2 Domestic Connection on 11 kV single delivery point

Same as 1.1 - For GHS flats and for individuals having sanctioned load above 100 kW/108kVA

Group Housing Society (GHS) shall mean a residential complex owned/managed by a Group Housing Society registered with Registrar, Cooperative Societies, Delhi / registered under Societies Act, 1860 and for sake of brevity the definition shall include residential complex developed by a Developer and approved by appropriate authority.

2. NON-DOMESTIC

2.1 Non-Domestic (Low Tension) – NDLT

Available to all consumers having load (other than the industrial load) up to 200 kW/215 kVA for lighting, fan & heating/cooling power appliances in all non-domestic establishments as defined below:

- a. Hostels/Schools/Colleges/Paying Guests
- b. Auditoriums, Lawyer Chambers in Court Complexes, Hospitals, nursing homes/diagnostic Centres other than those run by Municipal Corporation of Delhi or the Government of NCT of Delhi (other than those covered under domestic category).
- c. Railway's (other than traction), Hotels and restaurants
- d. Cinemas
- e. Banks/Petrol pumps
- f. All other establishments, i.e., shops, chemists, tailors, washing, dyeing etc. which do not come under the Factories Act.
- g. Fisheries, piggeries, poultry farms, floriculture, horticulture, plant nursery
- h. Farm houses being used for commercial activity
- i. DMRC for its commercial activities other than traction.
- j. DIAL for commercial activities other than aviation activities.
- k. Ice-cream parlours
- l. Any other category of consumers not specified/covered in any other category in this Schedule

2.2 Non-Domestic High Tension (NDHT): Non-Domestic Power at 11 kV or above at Single Delivery Point for Commercial Complexes

- a. Available to consumers having load (other than industrial load) above 100 kW/108 kVA for Non- Domestic establishments including pumping loads of DDA/MCD and supply to Delhi Metro Rail Corporation (DMRC) Ltd. for their on-going construction projects etc and for commercial purposes other than traction.
- b. Available to commercial complexes having load more than 100kW/108kVA for group of consumers for non-domestic use.

3. INDUSTRIAL

3.1 Small Industrial Power (SIP): Available to Industrial consumers with load up to 200kW/210kVA including lighting, heating and cooling load.

3.2 Industrial Power (SIP) at 11 kV or above : On single delivery point for group of SIP consumers provided load of any individual consumer does not exceed 100 kW/108kVA.

3.3 Large Industrial Power (LIP) for Supply at 11 kV or above: Available as primary power to large industrial consumers having load above 100 kW/108kVA including lighting load.

4. AGRICULTURE: Available for load up to 20 kW for tube wells for irrigation, threshing, and kutti-cutting in conjunction with pumping load for irrigation purposes and lighting load for bonafide use in Kothra.

5. MUSHROOM CULTIVATION: Available for mushroom growing/cultivation up to 140 kW/150 kVA.

6. PUBLIC LIGHTING: Street lighting, Signals & Blinkers

- a. All street lighting consumers including MCD, DDA, PWD/CPWD, Slums depts./ DSIIDC /MES / GHS etc.
- b. Traffic signals and blinkers of Traffic Police

7. DELHI JAL BOARD: Available to DJB for pumping load & Water Treatment Plants.

8. DELHI INTERNATIONAL AIRPORT LIMITED: Available to DIAL for aviation activities.

9. RAILWAY TRACTION (other than DMRC): Available for railway traction for sanctioned load above 100 kW/108 kVA.

10. DELHI METRO RAIL CORPORATION : Available to Delhi Metro Rail Corporation (DMRC) for traction load

11. Advertisement/ Hoardings

Electricity for lighting external advertisements, external hoardings and displays at departmental stores, malls, multiplexes, theatres, clubs, hotels, bus shelters, Railway/Metro Stations, airport which shall be separately metered and charged at the tariff applicable for "Advertisements and Hoardings"

category, except such displays which are for the purpose of indicating/displaying the name and other details of the shop, commercial premises itself. Such use of electricity shall be covered under the prevailing tariff for such shops or commercial premises.

12. TEMPORARY SUPPLY

- a. Available as temporary connection under the respective category
- b. Domestic tariff without temporary surcharge shall be applicable for Religious functions of traditional and established characters like Ramlila, Dussehra, Diwali, Holi, Dandiya, Janmashtami, Nirankari Sant Samagam, Gurupurb, Durga Puja, Eid, Christmas celebrations, Easter, Pageants and cultural activities like NCC camps, scouts & guides camps etc.

13. CHARGING OF E-RICKSHAW/ E-VEHICLE

- a. **Charging Stations for E-Rickshaw/ E-Vehicle on Single Delivery Point:** Available to charging stations as per the provisions of DERC SOP Regulations, 2017.
- b. Tariff applicable for charging of batteries of E-Rickshaw / E-Vehicle at premises other than at Charging Stations meant for the purpose shall be the same as applicable for the relevant category of connection at such premises from which the E-Rickshaw / E-Vehicle is being charged.

INTERPRETATION/CLARIFICATION

In case of doubt or anomaly, if any, in the applicability of tariff or in any other respect, the matter will be referred to the Commission and Commissions decision thereon shall be final and binding.

A6: DIRECTIVES

- 6.1. The Commission directs the Petitioner to make timely payment of bills to all the generating companies and transmission utilities. No Late Payment Surcharge shall be allowed as a pass through in the ARR on account of delayed payments.
- 6.2. A total amount of Rs. 299 Cr. has to be paid to the Pension Trust in FY 2017-18 by the Petitioner. The Petitioner shall submit reconciliation of payment which has already been made to Pension Trust during FY 2017-18 and the balance amount to be paid within one month of the issuance of this Tariff Order. Based on the reconciliation statement the Petitioner is directed to pay the balance amount out of (Rs. 299 Cr. – already paid during FY 2017-18) in 7 (seven) equal monthly instalments to pension trust. Any under / over recovery on account of payment to the Pension Trust shall be trued up by the Commission at the time of True Up of ARR of FY 2017-18.
- 6.3. The Petitioner shall directly deposit the amount as per the aforesaid directive (6.2) in the following bank account, of Pension trust:

1	A/C No.	10021675545
2	MICR No.	110002103
3	Bank	State Bank of India
4	IFSC Code	SBIN0004281
5	Name	DVB-ETBF-2002
6	Branch	Rajghat Power House, New Delhi - 110002

- 6.4. If the Petitioner purchases any expensive power to meet the demand during any time zone for which cheaper power has been regulated due to non-payment of dues, in such an eventuality, the cost of such expensive power purchases shall be restricted to the variable cost of regulated cheaper power to that extent at the time of true up.
- 6.5. In case the power is regulated by DTL/Interstate Transmission Licensee due to non-payment of their dues, in such case the transmission charges borne by the Petitioner shall also not be allowed.
- 6.6. The Commission directs the Petitioner to ensure availability of power supply for meeting the demand. The Petitioner shall ensure that the electricity which could not be served due to any reason what-so-ever, shall not exceed 1% of the total

energy supplied in units (kWh) in any particular month except in the case of force-majeure events which are beyond the control of the Petitioner.

- 6.7. It is directed that the Petitioner shall not accept payment from its consumers at its own collection centres/mobile vans in cash towards electricity bill exceeding Rs 4,000/- except from blind consumers and for court settlement cases or any other cases specifically permitted by the Commission. The limit for accepting payment through cash by the consumers at designated scheduled commercial bank branches shall be Rs. 50,000/-. Violation of this directive shall attract penalty to the level of 10% of total Cash collection exceeding these limits.
- 6.8. The Commission directs the Petitioner to restrict the adjustment in units billed on account of delay in meter reading, raising of long duration provisional bills etc. to a maximum of 1% of total units billed.
- 6.9. The Commission directs the Petitioner to survey the electricity connections of hoardings and display at malls and multiplexes and ensure the billing in the category of advertisements/hoarding category and to submit a compliance report within three months of the date of issuance of this order.
- 6.10. The Commission further directs the Petitioner :
 - a. To provide the information to the consumer through SMS on various items such as scheduled power outages, unscheduled power outages, Bill Amount, Due date and Maximum Demand during the month, etc. as directed by the Commission from time to time.
 - b. To maintain toll free number for registration of electricity grievances and to submit the quarterly report.
 - c. To conduct a safety audit and submit a compliance report within three months;
 - d. To carry out preventive maintenance as per schedule;
 - e. To submit the information in respect of Form 2.1 (a) as per revised format issued by the Commission to the utilities on monthly basis latest by 21st day of the following month;
 - f. To submit the annual energy audit report in respect of their network at HT level and above.

- g. To submit the Auditor's certificate in respect of Form 2.1(a) on quarterly basis within the next quarter;
- h. To incorporate the following information in the annual audited financial statements:-
 - i. Category-wise Revenue billed and Collected,
 - ii. Category-wise breakup of 8% and 3.70% Surcharge billed and Collected,
 - iii. Category-wise PPAC billed and collected,
 - iv. Category- wise Electricity Duty billed and collected,
 - v. Category-wise subsidy passed on to the consumers during the financial year, if any,
 - vi. Category-wise details of the surcharge billed on account of ToD,
 - vii. Category-wise details of the rebate given on account of ToD,
 - viii. Street light incentive and material charges for street light maintenance,
 - ix. Direct expenses of other business,
 - x. Revenue billed on account of Own Consumption,
 - xi. Revenue collected on account of enforcement/theft cases,
- i. To submit annual auditor certificate in respect of power purchase details of the previous year by 30th July of the next financial year.
- j. To submit the reconciliation statement in respect of power purchase cost/Transmission cost on a quarterly basis with respective Generation/Transmission companies;
- k. To strictly adhere to the guidelines on short-term power purchase/sale of power issued by the Commission from time to time and to take necessary steps to restrict the cost of power procured through short term contracts at Rs.5 per kWh. In case the cost of power proposed to be procured exceeds the above ceiling limit, this may be brought to the notice of the Commission within 24 hours detailing the reasons or exceptional circumstances under which this has been done. In the absence of proper justification towards short term power purchase at a rate higher than the above ceiling rate (of

Rs.5 per kWh), the Commission reserves the right to restrict allowance of impact of such purchase on total short term power purchase not exceeding 10 Paisa /kWh during the financial year.

- l. To raise the bills for their own consumption of all their installations including offices at zero tariff to the extent of the normative self consumption approved by the Commission and exceeding the normative limit of self consumption at Non-Domestic tariff for actual consumption recorded every month.
 - m. To submit the quarterly progress reports for the capital expenditure schemes being implemented within 15 days of the end of each quarter.
 - n. To submit the actual details of capitalization for each quarter for the year within one month of the end of the quarter for consideration of the Commission. All information regarding capitalization of assets shall be furnished in the formats prescribed by the Commission, along with the requisite statutory clearances/certificates of the appropriate authority/ Electrical Inspector, etc. as applicable.
- 6.11. Save and except the penalty as specifically provided in these directives, in all other cases, the punishment for non-compliance of directions of the Commission shall be dealt as per the Section 142 of the Electricity Act, 2003.
